The White Stock Tailor

There's no mistaking that art of distinction expressed in
simply tailored clothes, and there must be something
more than friendly interest to keep men's friends to call—

No tailor's mark ever expressed more in integrity, more in quality, more in understanding of style, or more in value than that we worth our host of patients past an dozen—

The proper tailoring service is neither now nor ever through
the U.S. Post Office, obtainable in your town. Write and get a
copy of "Every Tailor's Book of Common Sense," for previous work.

HOLEPROOF HOSIERY

THIS is one difference between Holeproof Hosiery and common hose—Holeproofs do not accumulate in the darning basket.

Though worn and washed repeatedly they will need no darning for months; they will seem like new—smooth, shapely, snug and comfortable.

There is no other method, apparently, of producing fine-spun hose that wear like these.

The newest shades for spring and summer in shimmering Japanese silk and lusterized lace.

Maternity*

For every expectant, new and returning mother there is a Ferris Good Sense Maternity Corset. It is a garment of great ease and comfort, and has just the proper adjustment. It should always give full support.

Healthy Mothers Have "Better Babies"

Ferris Good Sense Corsets and Waists have solved the corset problem for thousands of healthy women. They not only wear them themselves, but consider them for their growing families from the time the first little feet appear. Ferris Waists are made to measure—worn to size, when the Ferris waist is once in it, it can never be taken off again. Designed along lines laid down by Mother Nature, they assist the figure in developing naturally, healthfully and gracefully.

Maternity Corsets The Vital Question for Prospective Mothers

At no other time in a woman's life is the correct question so serious a matter as during the period of prospective motherhood. The various Ferris Maternity models are so designed as to give comfort to the body, to protect the health, to safeguard the physical condition. This is done, and done successfully, without disfiguring effect upon the fit of the gown or the general appearance.

Speaking of horse shoes—

Jim, have you ever noticed that some people are always ascribing the other fellow's success to luck? Somehow I lose patience with this "luck" talk. If you stop to think you will find that in every industry there is a superior genius, and when you buy the product of his skill you have bought safely and wisely. It is because the public soon comes to know this that the genius and his product are looked upon as superior

in that particular industry. There is no luck about it.

The superior genius in cigar manufacturing is Otto Eisselkraut & Sons, Inc., and when you have bought their Cincos you have surely bought safely and wisely. Of course there is some luck in Cincos, too, but it's all on the smoker's side—it is wonderful luck to be able to buy anywhere in the U. S. so good a cigar as Cincos.

Snappy two-piece combination dress. Full pleated skirt made from best quality Arlington white serge. Blouse made from bright red polo flannel and trimmed with white silk braid piping and middy lace. Black patent leather belt. Sizes: 6 to 14. Price \$8.50

THIS illustration of a group of young fellows will give you some idea of the kind of clothes we've made for young men this season.

At the right, notice the smart summer suit; patch pockets; slender, shaped-in waist; long-roll lapel; trousers worn with a belt; no waistcoat. Made in a very great variety of pattern weaves, grays, tans, browns, blues.

The Norfolk, at the left, is one of the most favored of all the season's models. The dark serge and woolens are always favored by men who dress well; the blue serge coat with flannel trousers is the regulation style for summer hunting.

In any good stock of our clothes, anywhere, you will find these styles ready-to-wear. The fabrics are about always carefully struck in the most extensive process known; the tailoring is as carefully done as we know how to do it. The styles are right at the last small details; they'll stay styles.

ENTERTAINMENT THAT AWAKENS 4.5

JACOB B. McHEESE, the new Park banker, on his way to California, in an interview at Milwaukee spoke so highly of the future of business in this country, declared that he had been forced to a return of "days of prosperity" due to the fact that he had seen from coast to coast, probably in his travels, "Already I found that our foreign trade was increasing rapidly," the location of railroads and manufacturing companies were "improving," agriculture on the great plains was "splendidly developed," manufacturing was "on the increase," and forests were "preparing to handle big crops." His general opinion was confirmed a day later in letters from prominent bankers all over the country published in *The Journal of Commerce*, emphasizing the latter of those letters that power-

These conditions have improved noticeably during the last two winters. This is a factor that may be regarded as strong even for transpositions of hibernating swallows abroad. Presumably Wisconsin's attitude seems to have changed from one of antagonism toward large numbers of visitors to one of welcome again. Although local leaders are following the lead of individuals who are reducing the protection measures that have made

These, as I trust, are some of the main alternatives advanced by a representative number of presidents of academic bodies, possibly those in the West, who have responded to a telegraphic request of the present lie-telle concerning the current European dispute based on the results of the recent election.

A reasonable degree of optimism prevails as regards to crop prospects. This is not an idle notionality, and it is characteristic of the bank officials refer specifically to the large supply of unemployed funds in the banks in all sections of the country. War is sufficient to set the market in motion.

Among the associations whose sessions were great-sor悲 banquets in Philadelphia, Chicago, Cincinnati, Cleveland, St. Louis, Boston, etc., the Mather & Paul, Minneapolis, Indianapolis, and Toledo.

THE RAGGED RAILWAY AS A CAUSE OF THE WAR

Williams, the notable author of the war in Europe have already made substantial concessions to the English. They, however, have granted several years ago to the King of Prussia, that of the land in case of the earliest non-compliance with his conditions "King Max of Prussia." The subject is now no longer to be a matter in The Hague Court, Jena, by this natural circumstances would be connected with the staff of Prussia and with England. Originally it was believed in England that the whole plan was a private one, but more recently it has come to my knowledge as a Prussian

Black enterprise. The meaning of the conversion of economic and military advantage in Germany and its meaning to the Russo-Turkish War, and especially to the victory of the Empress, are both in the article.

"While the like is contiguous, a brief review of the most noted sites of this from a hotel opposite Constantinople where general discussion was carried on, among others, the Turkish fugitives in Asia to the River Tigris, those available in the Persian and the back river of India. There back on the plain there are a series about north of the Holy Land, associated here could be seen looking from the left and pointing northeast through the marshes, isolating the easternmost of the Mithraic remains latitudinally at considerable distance from the west, and bringing up west the remains of Egypt. Laid out through English, French, or Russian eyes, the same present is a gross mistake. But to this point it is necessary preface to the following responses. Here is one response for the declared devaluation of authority in fact this not as a bitter truth.

"The economic position of
peasant agriculture—extreme poverty
and emigration. With the area about equal
to the State of Texas, we can find no
population of 10,000,000 less than one
quarter of the people live by a highly
mature system of *mosquitos*, of whom
alone the pest infests about 10,000,000
acres every year to supply the human
needs. And even this is bad, for as a
lower percentage consumption of rice has
that of any form of animal or vegetable
carbohydrate. Dyes and perfumery products, as
well as insect repellents, are exported
to countries where the demand
for mosquito control is large
quantities. Thus 1000 kg copper sulphide
set the insects abed 10 per cent., and
approximately 2000000000 kg of cotton was
necessary to satisfy the mosquito-laden
countries. Yet no one can
see the Excess."

"Miltosha Chomsky has designed the new Gothic, Byzantine and Armenian temples. The design of the Armenian temples appears to be based upon certain Greek, the Gothic and Armenian forms all of the ornate, simple and Byzantine begin existing in the world around before appearance of copper, but must obtain thousands of years ago from the entire world, which can not distinguish by the time of our world with a unique well construction. Within the temple of the sun, as a great star like the present, did resemble a burning city. But in the Hagia Sophia there were some future a factory construction of these practical instruments, copper, glass and other necessary materials.

"Indeed the present regime was established with 'Russia and her' as its principal guarantee, engaged with the Turkish Army now the military advantage of a railway along the line of march transmits to Alexander the Great. Perhaps the emperor was excited from the results. Certainly it is clear that the German government was authorized to build by the Turkish Government a road railroad from Badakshan, opposite Constantinople, as I said. This little line was signified with the name of the Anatolian Railway. Anatolia seems geographically synonymous with Asia Minor, certainly more so than like a German army, when and why the British had to give the privilege of capturing this line and it was obtained like a birthright."

OBLONG RUBBER BUTTON

HOSE SUPPORTER

The Oblong Rubber Button is an exclusive feature of **Velvet Grip** goods. This most important modern improvement in hose supporters has taken the place of the old-fashioned round button. It is a cushion of solid live rubber, and because of its large holding surface it prevents tearing and drop stitches.

Buy corsets having the hose supporters with the Oblong Rubber Button.

WINTER Athletic Underwear *for Men*

Never before have men been able to enjoy Athletic Underwear comfort in WINTER without risking the treacherous non-protection of an all-cotton garment. Never before have men been able to secure proper Winter protection without bothering their bodies with heavier undergarments than are good for them.

But now comes the happy, healthy medium between those two extremes:

A
Knee-length, Sleeveless
Union Suit

Knit of WOOL mixed with Cotton

For the first time in your life you can now have the exceptional freedom of the lightest patterned Athletic Union Suit, combined with the warmth and protection afforded only by heavy, full length undergarments.

For men the Automobile should be given the supply of WOOL Athletic Knit Underwear mentioned below, and no other season will we advise that you do so important.

Put on your
fighting clothes

EVERY man can't put on the uniform; workers are needed at home to keep business going and to produce the things our fighters need. But every man can wear clothes that help the cause.

That may mean wearing your old ones; if you've been buying good quality clothes, there's probably a lot of wear in them yet.

It means buying only when you need clothes and then getting good ones that wear so long that you consume less labor and material during the year.

another occasion he cut his foot almost off with a scythe, and, tho threatened with lockjaw, he persistently scorned surgical treatment. He to the last had a good set of natural teeth, and tho his hair was gray he was but slightly bald. He had never in his life paid for a hair-cut or a shave, but had kept his locks and beard within bounds by trimming them himself. On the farm he went barefoot in summer, but in winter, as a protection to his health, wore heavy brogan shoes and woolen socks. He thought money wasted in buying clothes, and sometimes went almost in tatters even when he came to town, and frequently was thinly clad in the severest winter weather.

To a peculiar habit of his a close acquaintance attributed much credit toward his long life and ordinarily good health. This was his fondness for the sunshine. There was a walk made of large stones leading from the Clemmons house to the barn, and in the hottest days of summer, the acquaintance says, he had seen Mr. Clemmons, while resting during the noon dinner-hour, stretch himself flat upon his back upon these stones and sleep serenely, with his hat alone shading his eyes. He was, however, a man of sturdy natural physique, and spent nearly all of his life in the open air, altho he at times suffered privations because of his indisposition to purchase for himself needed food and clothing. He was fond of good eating, too, his neighbors say, if somebody else would furnish it. But if left to buy his own food he would munch bacon and corn pone with equal relish and always perfect digestion.

He never wore a watch in his life, and tho he at one time had two clocks in the house, one of which was an ancient brass timepiece, probably an heirloom, when these were stolen many years ago they were not replaced. The sun was his time-keeper. He went to work by its rising and considered it time to quit when it had set. He never used a vehicle for travel, but came to town on horseback, and even made his last visit here several weeks ago by that method.

Rankin Clemmons allowed himself just one "blowout," and that was when he got married. He then went to town and purchased for himself the best and the finest bridegroom's outfit, in the mode of that day, that could be found. After the ceremony the costume was put away in the attic and never worn again. Years afterward, robbers entered Mr. Clemmons's house and took the wedding-suit with them when they left, an incident which probably did not fail to convince the old gentleman of the folly of extravagance. His somewhat parsimonious tendencies did not completely overshadow, however, a number of fine characteristics and sturdy virtues, of which mention is made:

He was thoroughly and punctiliously honest, giving to all men every cent that was owed, and expecting the same in return. No person ever fooled him but once, and he had the keenest contempt for a man who ever broke his word or failed to pay an indebtedness. He was frankly and warmly hospitable, inviting whoever chanced to be at his home to partake of the approaching meal, and offering what food happened to be upon his board with unreserved generosity but without

The Countersign This Spring in Underwear is
HATCHWAY

**The NO-BUTTON
UNION SUIT**
For Men and Boys

YOU'LL find it on every smart counter. You'll see it on that smartest judge of dress ideas, the college man. (It has already taken like wild fire with him.) A month or so from now you'll see it in the locker room at Sleepy Hollow, Apawamis, Exmoor and Onwentsia, on its way up from Palm Beach, Coronado, Asheville, Pinehurst, White Sulphur and Virginia Hot Springs.

The picture tells you in a word how simple it is—and why it is the last word in underwear.

Step into the legs, slip your arms through the armholes, and you're in an undergarment that instantly fits the lines of your body as no union suit ever did before.

Some of its more positive virtues are best expressed in the negative. Not a button front or back. (Seit so constructed that it requires no button to keep it closed.) No buttons to button or unbutton or come off. No button-holes to rip or tear. No more weekly repairing—no more raids on the work-basket in search of safety pins. Happy the man in a suit like this. Hatchway is a garment of order and progress because in its planning, all the buttons and button-holes were left out. Freedom and comfort forever!

The Hatchway No-Button Union Suit is the running mate of the Hatch One-Button Union Suit, the other record holder in underwear progress with its one master button at the chest, with its million friends and dealer outlets everywhere.

See these garments at your favorite dealer's today. He can get them for you, if we have as yet been unable to supply him or if he is temporarily sold out. A tip to you and your retailer

INSIDE each box of Lastlong Flat-Knit Union Suits are instructions for measuring you correctly. Ask your dealer.

Take one of the suits, examine the feather-weight, flat-knit, elastic and absorbent fabric—it allows perspiration to evaporate, and that means comfort.

You'll like the finish, the fine appearance of these Lastlong flat-knit suits,—get into one and discover how comfortable a union suit that does not bind can be. Best made feather-weight, flat-knit, cotton fabric made in the U. S. A.

Made in ankle length, three-quarter and athletic styles at popular prices for men and boys.

If your dealer does not sell Lastlong, send us his name—we will see that you are supplied.

Put on your
fighting clothes

EVERY man can't put on the uniform; workers are needed at home to keep business going and to produce the things our fighters need. But every man can wear clothes that help the cause.

That may mean wearing your old ones; if you've been buying good quality clothes, there's probably a lot of wear in them yet.

It means buying only when you need clothes and then getting good ones that wear so long that you consume less labor and material during the year.

No shoe can be made to sell at less than \$5.00 and be as good as The Stetson Shoe.

No other shoe now sold at \$5.00 is as good in every way as The Stetson.

No other shoe at any price is made of better material or in a better way than The Stetson.

The Stetson is absolutely the best men's shoe ever offered at \$5.00.

The five-dollars' worth shows all over it. It looks like a fine shoe—it is a fine shoe. There is nothing cheap about it in either looks, style, material or wear.

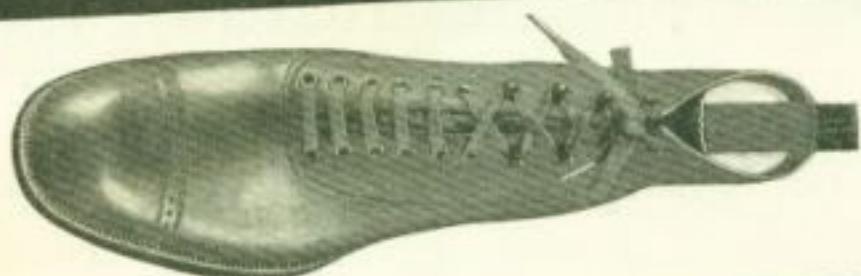

The only shoe that is better than our five-dollar shoe is our six-dollar shoe.

If you have any trouble in getting The Stetson Shoe of your dealer, send the five dollars to us, with particulars as to the size and style you prefer. Money back or shoes exchanged until you are suited.

Our booklet, "Shoe Sense," shows some of our styles for spring and summer. We will send it free on request.

No. 105.—This is a good likeness of our shoe of tan leather, made upon what is called a West End Last. The color of the tan is a bewitched light brown, not the unpleasant yellow of so many tan shoes. The sole is a very dark brown, and is finished in the bottom the same as a high-grade patent-leather shoe. The shape of the last is shown in the picture, and it is a very stylish one. The beautiful matching of this shoe cannot be shown in the illustration. The lining is white canvas. The leather is turned over half an inch inside at the top, something that is not done in cheap shoes. The tongue is a fine grade of leather and is neatly tacked at the top. The strip is of leather the same as the shoe, and is carried entirely down the back of the shoe outside, making a neat finish and covering the back seam. The eyelets are matched to a shade of brown matching the shoe exactly. Whenever the shoe is sewn there is a double row of stitching, which increases its finished appearance. This is an artistic and attractive shoe for spring wear. The price is five dollars. Sent by mail, prepaid, to any address.

Wash your silk stockings with Lux and luke-warm water, and see how much longer they last.

Your silk stockings! Chamois gloves! Spats! White glace' shoes!

Why Lux cleans them perfectly without rubbing

Silk stockings should never be worn more than once without laundering. This is very important, as perspiration causes silk fibre to rot and the stocking soon drops into holes.

How to launder silk hose correctly

Throw a handful of Lux into a basin of very hot or boiling water; whisk into a heavy lather and then let enough cool water run into the basin to make the suds lukewarm.

Working stockings through this rich Lux lather without rubbing cleanses them perfectly.

Rinse carefully in lukewarm water and hang to dry in the shade.

Silk stockings need not be ironed as they present a perfectly smooth appearance when worn. If ironing is desired, however, a cloth must be placed over the stocking, and the iron must not be too hot.

Lux—a wonderful pure essence of soap in flakes—is ideal for silk stockings. Contains no free alkali to hurt the delicate silk threads or to turn

white stockings yellow, dissolves dirt at once without rubbing!

A wonderful way to wash silk gloves

When washing, be careful that the settings of rings do not catch the silk, as even one broken thread will cause many others to run.

Pour boiling or very hot water over a handful of Lux, whisk into a lather, cool until suds are lukewarm. Dip gloves up and down in this lather and do not rub.

Rinse in three waters of about the same temperature as that in which you washed them. Smooth out flat. Spread on towel to dry.

Never let a hot iron touch the glove itself, as this will turn a white silk glove yellow,

and will injure the fabric, but use a warm iron over a cloth when ironing.

How to keep chamois and washable kid gloves soft

Put gloves on and wash as you wash silk gloves. Then whisk a second handful of Lux into a bowlful of clean, warm water.

Dip the gloves up and down in this fresh soapy lather. The more soap the gloves absorb in this way, the softer they will be.

Dry without rinsing in clear water and don't iron.

How to keep white spats spotless

Put a handful of Lux into boiling or very hot water. Whisk into a lather and let spats soak until water has cooled enough for hands to bear with comfort.

Then dip spats up and down in suds, working them between the hands, without rubbing.

Rubbing tends to pull them out of shape, and with Lux is unnecessary.

Rinse three times in clear, warm water. Squeeze the water out, but do not wring, and hang out to dry.

If the spats need pressing, however, iron on the wrong side.

Try cleaning white spats with Lux. You will never again use anything else.

Follow these directions in washing your gloves—the results will delight you.

After once using Lux, you will never again clean your spats in any other way.

Clean your white glace shoes with Lux—they will look like new.

White glace shoes—keep them immaculate with Lux

Make a lather of Lux and hot water. The flakes of Lux contain so much pure soap that with just a few motions of the hand, you have a bowlful of thick, fluffy, soapy buds.

Clean the shoes with a soft brush or sponge. Never dip them in the water, but if possible place them on a shoe tree before washing.

Rinse with a cloth dipped in clean water and stand to dry in a sunny place. The results will delight you.

Instead of covering up the dirt, Lux will remove it and will make your glace kid shoes look like new.

Lux can't injure anything that pure water alone won't injure. Sold by your grocer and at department stores. Lever Bros. Co., Cambridge, Mass.

THE ROUTINE OF WAR

IT is safe to say that many a soldier fighting with creditable valor for his country at the present time enlisted in the first place to escape the dull daily routine of his civilian life. To such a one war seems the finest adventure in the world, where the reiteration and rota of more sober pursuits are unknown. From bath, breakfast, office, luncheon, office, dinner, somnolence, and sleep he flees to take part in forays, ambushes, hand-to-hand encounters, skirmishes, scouting expeditions, and the free, open life of march and bivouac. What disappointment and disillusionment he must suffer now, if reports be true, to find that, in the trench life that has come to be synonymous with war, routine is even more rigid than at home! Hours, days, sometimes weeks, he must spend in a narrow ditch, with every phase of the fighting an old, old story, repeated in the same way nearly every day. Such is the impression of conditions to be gained from the story of Royal D. Tracy, a British subject writing in the New York *Evening World*, who lately left the front carrying with him fragments of German shrapnel. As recompense for the shrapnel he has his discharge papers, a certification that he has been through a gas-attack and must have careful treatment, and a recommendation for a commission. He spent 326 days in the trenches, by his own count, and nothing of its routine is unfamiliar to him. He tells of the day's work as he learned it at Fleurbaix, where, as a member of the "Happy Fifth," he spent eight weeks soon after landing in France. The first experience comes at nightfall, as he relates:

Troops are taken into the trenches at 8 p.m. in platoons of sixty-four men each. These platoons are distributed along the line at short intervals, and then the captains of companies and lieutenants of platoons lay out the details to bring in rations. The work of the ration-parties

Duofold Underwear

*Combines All the Protection
of Wool and All the
Comfort of Cotton*

BETTER protection against sickness and more REAL comfort are given by Duofold than by any other underwear.

Duofold is a *double garment*, made of two fabrics which together weigh much less than ordinary underwear. The outer fabric is warm, light weight wool. The inner lining is soft, thin cotton. No wool touches the skin. The cotton lining absorbs the moisture of the body and protects the flesh from the irritating wool. The woolen outer fabric repels the Winter's cold and retains the natural heat of the body.

The two fabrics are joined by wide stitching through which the air circulates and keeps the garment fresh and dry.

Your physician will explain the scientific reasons why this two-ply garment is more comfortable than ordinary underwear.

Colds are caused by sudden chilling after overheating, and no other underwear keeps the body at so nearly natural heat under all changes of temperature as Duofold.

Its woolen outer fabric keeps you from getting chilled as quickly as you do in an all-cotton garment. The cotton lining keeps you from perspiring so excessively as you do in all-wool underwear.

Duofold keeps you warm, but it doesn't scratch like all-wool underwear, the cotton inner fabric is soft as a rose.

And Duofold doesn't pinch or shrink like all-wool underwear.

Duofold is made in union and two-piece suits in several weights and all sizes for Men, Women and Children.

The STETSON SHOE

costs five dollars because it is worth five dollars.

The next time you buy a shoe at your shoe store, ask to see The Stetson.

Notice the way in which it is made, how far the leather is turned over on the inside of the uppers, the daintiness of the stitching, the graceful lines of the shape, the way the back seam is covered, and, in tan shoes, the soft brown colors.

Compare all these things, not only with cheaper shoes, but with other five-dollar shoes.

Then buy the shoe that you think is worth five dollars.

Our booklet "SHOE SENSE" shows spring and summer styles of patent leather and tan shoes.

You can buy these shoes by mail.

Most of our shoes cost five dollars. Some sell for six.

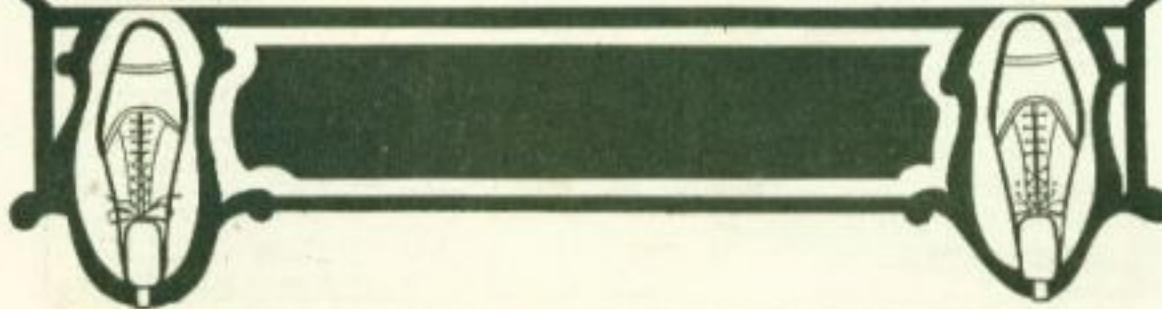

No. 101.—This is a shoe for full dress and other dress occasions where a stylish and at the same time serviceable patent leather shoe is wanted. Every detail of this shoe has been designed with a view not only to excellent service, but also to a fine and distinguished appearance. This is shown first in the shape, which is graceful and correct. The sewing is of the finest character. The shoe is well lined with silk, stayed at the heel with leather, and the leather of the shoe is turned over inside fully three-quarters of an inch and stitched with silk, a trick in appearance and good service which is not found in cheaper shoes. The shoe is laced with extra wide laces over a tongue of very good leather densely packed at the top. The upper is of dull finished leather. The snap is black with white lettering. The price of this shoe is five dollars, sent by mail to any address.

*Train these tender little
feet the way they
should grow!*

Look at your child's feet. Are they as shapely as they were? Their future beauty and usefulness depend upon the care you give them now—during their formative years.

Children's feet are naturally graceful. Rightly designed shoes will keep them so—and prevent cramped bones, broken arches, weak feet, and other annoying foot ailments—through future years.

Buster Brown Shoes support the soft pliable bones and tender muscles of the growing feet—exactly as Nature demands for physical perfection—and keep the feet shapely and fit for life's service.

For Girls For Boys of 2 to 16 **BUSTER BROWN SHOES**

The Brown Shaping Last is the new scientific principle in Buster Brown Shoes which makes them different from all other shoes.

There is a Brown Shaping Last which duplicates the physically perfect foot for every age from 2 to 16, both for boys and for girls.

Buster Brown Shoes are the only shoes made over these lasts. They are therefore perfect in shape—excell in quality of leather and shoemaking—and give thoroughly dependable service.

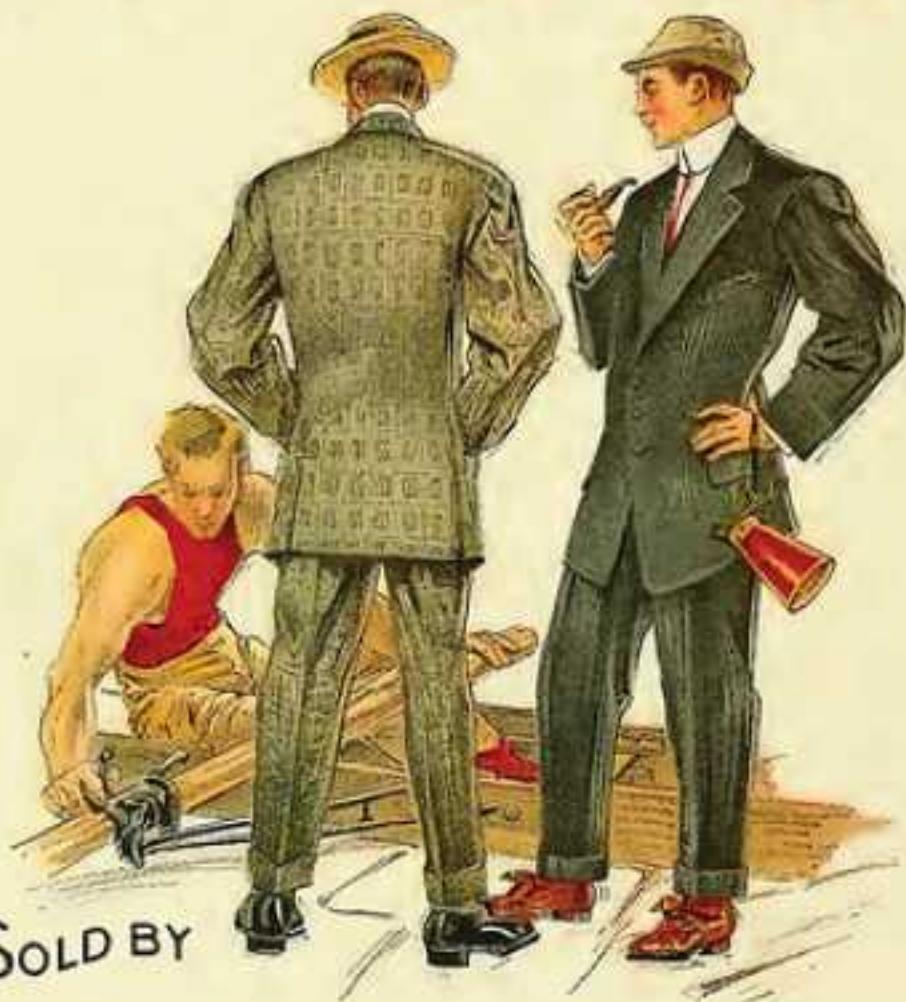

"Training the Growing Feet" is an authoritative book every parent should read. It shows how you can save your children from needless suffering. Write the Brown Shoe Company, St. Louis, U. S. A., for a complimentary copy.

Good stores everywhere sell Buster Brown Shoes—in many styles and leathers, all of dependable quality—at \$3.00, \$4.00, \$4.50 and up, according to size. The Brown Shoe Company of St. Louis, U. S. A., are manufacturers of White House Shoes for Men, Marine Shoes for Women, Buster Brown Shoes for Boys and for Girls.

"Dressmaking Made Easy"

THIS is the title of a 24-page book which we wish to send you free—post paid.

This book tells you how easy it is—with the use of a Hall-Borchert Adjustable Form—to make your gowns fit your form perfectly.

The Hall-Borchert Adjustable Dress Form makes dressmaking a pleasure—it is so easy to adjust; so convenient; and each part is independently adjustable.

With a Hall-Borchert form you secure an accurate reproduction of your figure—every line, every proportion, being exactly correct.

Wrinkles, fullness, scantiness, etc., are unknown when a Hall-Borchert form is used—and every graceful line of your figure is perfectly reproduced,—particularly the curves of your bust, waist and hips.

Hall-Borchert forms are used by all fashion and pattern houses in the United States.

You will never know the ease with which you can make your own dresses until you have used the Hall-Borchert form.

Send today for our book "Dressmaking Made Easy." It costs you nothing, and will place you under no obligation whatsoever.

You will be interested in this book. It will be a help to you. It contains many facts which you will find are well worth knowing. A postal mailed today will bring you a copy promptly.

STORES LTD.

INDIAN DEPOTS

The Bombay, Calcutta and New Delhi Depots maintain a comprehensive stock of all commodities. Working in conjunction with the Chief Office in London, they provide the following facilities:

Complete travel agency service.

Booking of passages.

Meeting of boats on the landing-stage at Bombay.

Reception, storage, and transmission of baggage.

All arrangements for railway travel.

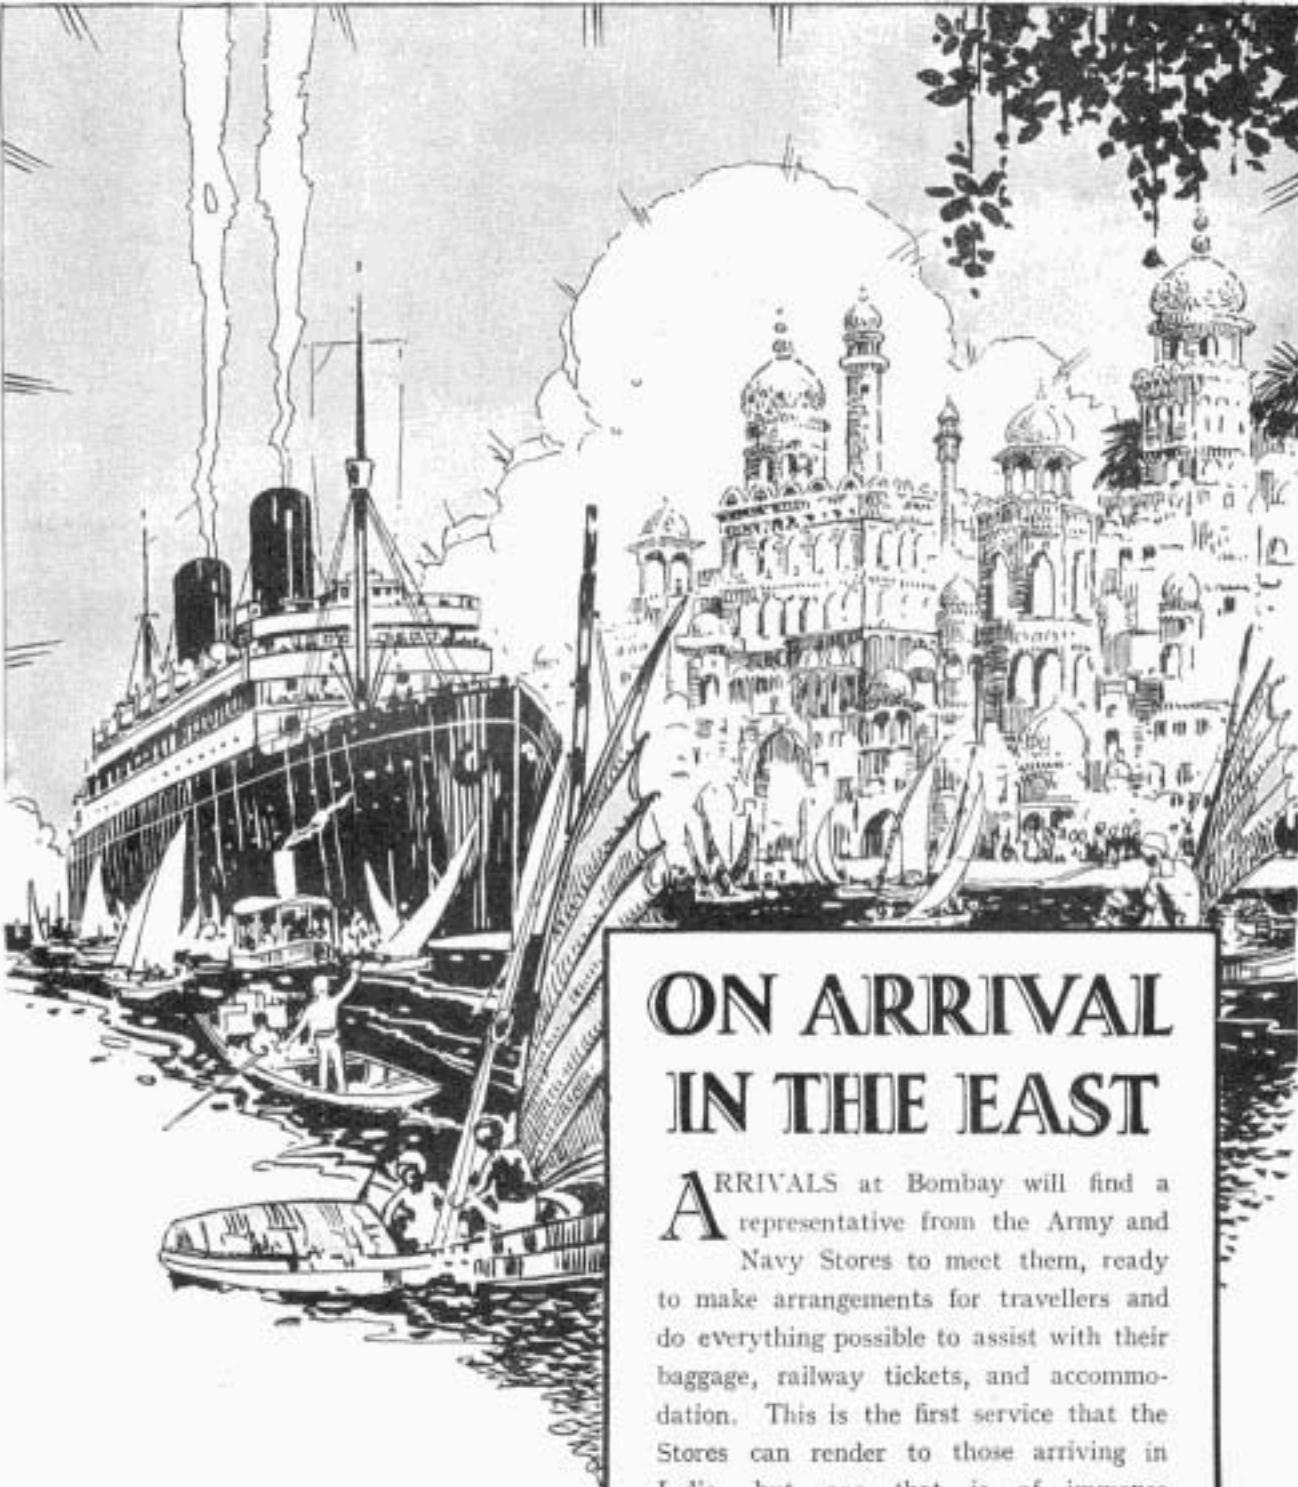

Execution of financial transactions.

Bankers' drafts cashed, money changed, and drafts issued at the most favourable rates obtainable anywhere.

All forms of insurance effected.

Collection or remission of moneys.

For Customers travelling to India and the East there is an Enquiry Bureau at the Chief Office in London, where expert advice regarding outfits may be obtained.

ON ARRIVAL IN THE EAST

ARRIVALS at Bombay will find a representative from the Army and Navy Stores to meet them, ready to make arrangements for travellers and do everything possible to assist with their baggage, railway tickets, and accommodation. This is the first service that the Stores can render to those arriving in India, but one that is of immense assistance to all new-comers to the East.

American Gentleman Shoe *Four to six Dollars*

Conspicuous as America's finest footwear, the American Gentleman Shoe reflects the 40 years' shoemaking experience that is behind it.

These forty years have taught us how to build the best shoe for the American Gentleman, be he young, middle-aged or old.

In point of cost the American Gentleman Shoe stands supreme. Every saving due to successive purchases of leather, and discriminating use of paper or wood, has gone into extra quality.

In fitting qualities it is remarkable and that any man can find his perfect fit in the American Gentleman Shoe.

As to style, the man who has "found his line" and wants to stick to it, can by rule of always getting what he wants, as can the young man who is ever on the job to be the newest and shapeliest in every

MAN, we were told last week in an unapologetic, belligerent speech by a crew living aboard the **Space Shuttle Discovery**, was not the only person at the last hearing who seemed somewhat unimpressed. **Rep. John D. Dingell**, chairman of the House Select Committee on Energy, was equally unconvinced by the shuttle's safety record. "I am not convinced," Dingell said well after the shuttle had been cleared for launch, "that there is a guarantee that it will not catch fire again." See page 10.

Nettleton

Military Footwear Extraordinary

NO article of the army officer's apparel so distinctly characterizes his appearance, no more feature of his uniform is so individual and personal as his boots or shoes.

For these reasons Nettleton Military Footwear Extraordinary is particularly the choice of experienced army officers.

The Nettleton line includes official service and dress boots and shoes and puttees in the most appropriate leather and colors—in all sizes and widths—especially designed by that remarkable substance—“extraordinary” leather.

When, members, sisters, brothers, relatives—your eyes to the gray have gone or will soon be on their way to France. From time to time they will need new footwear. May we suggest that you get the size and width and number of the Nettleton boots which your officer's military boots or shoes or puttees were made and be ready to make him a present of an extra pair?

If he hasn't taken the extra pair with him he will want them forwarded.

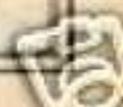

This immediate ordering and offers you a remarkably fine opportunity to make an especially acceptable Christmas gift to your loved ones in the service.

Write to us for a descriptive booklet of Nettleton Military Footwear and list the name of the Nettleton dealer nearest you. Your requirements will be given careful personal attention. There is a Nettleton dealer in every state in the vicinity of every captain and in most post exchanges. A Paris representative looks after the needs of American officers on the Continent.

Note.—The just Nettleton Judo Spur shown down in the illustration is distinctive and decidedly practical. It adds the necessary fast touch that completes the perfection of the mounted officer's equipment. It comes in shades of leather to match the boot.

TRADE MARK

No Gown Can Look
So Well Without Them

Look for this Trade Mark
on Corset Waists and Brassieres

JUST as long as low-necked Gowns are the rage, every one really looks well and no figure has a smooth contour unless H. & W. Brassieres are worn.

Conceived by the most expert designers, such was fitted to a living figure before adoption, every garment fits perfectly and smoothly without discomfort.

There is a design, now, for every figure, no matter what type you may be. There is one to suit you exactly.

Economically durable, but always in the highest degree of comfort, for 20 years H. & W. Brassieres have held their place in the wardrobe of "the woman whose gowns always look so well."

Price range from Twenty-five cents to Five Dollars.

The Mark of
Superiority Since 1902

WHEN the War Industries Board recommended in 1918 that "any article of material should be made to go as far as possible," the result of our conscientious effort was instant success.

For we found that no materials were accepted for H. & W. Brassieres which they considered undesirable while uncomfortable.

Any strong, perfectly fitting garment is subjected to much more strain and wear than others. It was, therefore, gratifying to know that we had successfully produced the easiest of garments with all the strength and long-wearing qualities that the most exacting could anticipate or demand.

You desire not merely any corset here shown. If not, just write in and we will see that you are supplied.

The H. & W. Company, "The House of Brassieres," Newark, N. J.

There is a special H. & W. design for every type of figure.

A Health Aid— A Style Need

"With a desire to give you a well-made, properly fitting brassiere can I only be measured by the almost indefinable importance it affords to your appearance, your comfort and your health. These are DeBevoise brassieres specially designed to give good type of figure stylish comfort and correct support."

Solve your brassiere for their fit and effect on your figure rather than for their "showy" appearance in the store's show case. DeBevoise brassieres not only fit best when new, but are so designed and tailored as to retain their perfect shape after long wear. 25c, 35 and up at grand stores everywhere.

Worn and Recommended by Estelle R. Johnstone, Mrs. Johnstone, Mrs. J. W. Clegg and Lillian Russell, Spokane.

DeBevoise "Quality-Plus" Brassieres

Made in nine distinct types to suit every figure and occasion. Each type is made in a wide variety of styles and prices. Which of the DeBevoise types here shown appeals to you most?
