## BUILDING TOMORROW TOGETHER: EDUCATION

"The more you care  
the more it shows."

PAUL E. PARKER,  
Asst. Dean of Engineering  
University of Illinois  
at Urbana-Champaign

"As an educator, I believe we must convince today's students that we care and we must demonstrate that care by getting involved beyond the classroom."

Paul Parker is involved. One example is his Illinois Minority Pre-College Internship (IMPRINT) program where employers like General Motors agree to employ minority engineering pre-freshman each summer.

At General Motors our commitment to build world class cars and trucks means investing in the education of our youth by supporting programs such as Dean Parker's and providing scholarships.

For us, reaching out to the people who buy our products is more than just a corporate responsibility—it's good business.

**PEPSI  
SALUTES  
A LEADER  
FOR ALL  
PEOPLE**

Dr. Benjamin Hooks is a leader for us all. Over the years he has worked with the knowledge that what's good for African-Americans is good for all Americans. And he has set that tone for those who will follow him at the NAACP.

Through his leadership, he has given generations of Americans hope for a brighter future. Because he is committed to this country's promise of greatness, Pepsi takes great pleasure in congratulating Dr. Hooks on his accomplishments.

Cures Most Vaginal Yeast Infections

Full  
Prescription Strength

CLOTRIMAZOLE VAGINAL CREAM 1%  
**Mycelex<sup>®</sup>-7**

I TRUST THE CURE.

I LIKE THE PRICE.

When I get a vaginal yeast infection, my first concern is an effective cure. My second is getting a reasonable price. Now I have a choice that gives me both. Mycelex<sup>®</sup>-7. My doctor said it's made with Clotrimazole, the same prescription strength medicine used in Gyne-Lotrimin.<sup>®</sup>

In fact, Clotrimazole was invented by the makers of Mycelex<sup>®</sup>-7. And Mycelex<sup>®</sup>-7 costs less. A lot less. So for a cure I trust at a price I like, my choice is Mycelex<sup>®</sup>-7.

**MY CHOICE  
MY CURE**

**Mycelex<sup>®</sup>-7**

First time sufferers should contact their physician. If you've had a doctor diagnose a vaginal yeast infection before, read and follow directions.

## ORGANIZED FOR SUCCESS.

Success doesn't just happen. It is the reward that comes from a sincere commitment to achieve excellence. It's this kind of commitment that forged an agreement between the NAACP and the Chrysler Corporation. It's called Fair Share. And it was a perfect match for Chrysler's already aggressive focus on their Minority Dealer Development Program. Chrysler has a reputation for providing the best dealership locations and having the most financially secure minority-owned dealerships in the automotive industry. Successful dealers like Winston R. Pittman, Sr., E. Dale Early and Clarence Parker are part of this elite group.

When these dealers succeed, the minority community succeeds as well. As role models, they give hope to future minority dealers and, as contributors to the UNCF, the Chrysler Minority Dealer Association (CMDA) members play a fundamental role in educating minority youth. The organized effort that is the foundation of the CMDA teaches us all that nothing succeeds like success.

For more information about becoming a success in the Chrysler Dealer Development Program, contact Cecil M. Ward, Director, Minority Retail Dealer Development Programs, Chrysler Corporation, 1450 West Long Lake Road, Suite 250, Troy, MI 48098 (313) 952-1258.

## Andy Griggs

Singer/songwriter Andy Griggs has a tough time describing his music. "It's in your face. It's somewhere in between the old country and the rock 'n' roll. Sometimes I can't define me, so God knows I can't define my sound." Whatever his sound is, it took his first single, the title track from his RCA debut, *You Won't Ever Be Lonely*, to No. 1 on the country charts. • The Metairie, Louisiana, native also has a look that's difficult to pin down. "I'm somewhere between old

Vintage Ad Service

"IT'S GOT TO HAVE THE SERIOUS SOUND SYSTEM."

"GIRL, YOU'VE GOT TO LOOK GOOD IN IT."

"GET SOMETHING COMFORTABLE, WITH SOME ROOM TO IT."

"DON'T PAY A CENT FOR AIR CONDITIONING."

"MAKE 'EM THROW IN AUTOMATIC TOO."

"HONEY, GET WHAT YOU WANT."

## The 1993 Mercury Tracer. They'll All Think You Listened To Them.

When it comes to choosing the new ride, everyone's got something to say. But the 1993 Mercury Tracer speaks for itself. Elegant styling. More room than the Civic or Sentra. **And no extra charge for air conditioning or automatic transmission.\*** Now that's making a statement! So no matter what they're telling you, listen up. Because if they're talking value, it'll always add up to the 1993 Mercury Tracer. Call 1-800-446-8888 for more information.

THE REVIVAL—PLATINUM AND BEYOND

Former Texas prison guard Chalee Tennison closed her musical dreams to Nashville and made a breakthrough last summer with her debut single, "Someone Else's Turn to Cry." Currently on the charts with "Hand Full of Wives," the second single from her self-titled Asylum Records album, Tennison says she enjoys the dress-up part of her job. "Those clothes aren't much different from my own style," she says. "The only difference is the makeup is a little more fancy. But other than that, I'd wear this. It's fun."

# At IBM, outstanding people don't stand still.

**S**o you always thought IBMers were a bunch of blue striped suits with buttoned down minds. Nothing could be further from the truth.

They're movers and shakers. Energetic, ambitious and smart. People who know where they're going and get there fast. People with ideas who choose IBM because they know their ideas will be heard and put into action.

That's right. The winds of change are sweeping the vast corporate infrastructure of IBM. Today's IBM is a leaner, more streamlined operation that reacts more quickly... takes more risks... is closer to the customer... and encourages IBMers to speak up, challenge old ways of thinking and initiate new ideas.

This is not a company that rests on its past successes. We're sharing our blueprint for the future with both our staff and competitors. We're expanding with the marketplace... and

"I see unlimited opportunities for advancement at IBM—both in the technical and managerial ranks. We have our share of technical challenges and our share of the right people to meet them. And by the way, they know how to have fun, too."

Alisa B. Esker  
Manager, Software  
Design/Development  
Research Triangle Park,  
North Carolina

even developing products that easily hook up with systems outside the IBM environment.

After all, we're the worldwide leader in communications. And with us communication begins right here. Where individuality is prized. Diversity applauded. And management is open-minded, progressive and responsive.

"I can be a systems engineer, marketer, educator, programmer or generalist... all within IBM. Where the people are high achievers with big dreams and tons of enthusiasm. I would not change it for anything in the world."

Ana Cruz Gonzalez  
Marketing  
Representative  
Hartford, CT

Right from the start you'll get all the responsibility you can handle. Work in small project teams with the newest computer-aided equipment. Involved in technologies that range from image processing to laser-fiber optics... from robotics and computer controlled instrumentation to electron-beam technology and satellite transmission. Applying the latest technologies... and working with some of the industry's brightest people in all fields.

You'll earn early recognition and have the opportunity for exposure

"The thing that gets me going the most is the possibilities, the endless possibilities. This is a company where I can, within reason, call my own shots about my future. Career development at IBM is primarily the responsibility of the individual; the manager is there to facilitate and counsel. Having that degree of control over my own future career is terribly exciting."

John W. Webster  
Communications &  
Systems Management  
Designer  
Research Triangle  
Park, NC

to multiple projects. IBMers have the option to move from one area to another... to relocate to a variety of sites... and to follow a career track along purely technical lines or into management. All the while moving up just as fast and as far as your talent will take you because we're a company that promotes from within.

Your education doesn't end when you get a job at IBM. It just begins. You can take advantage of both general and job-specific training, ranging from Graduate Work-Study, Resident Study and Special Studies Programs to Technical Sabbaticals.

"The most exciting thing about IBM is that we're trying to be a different company than we were ten years ago, or even last year. There are opportunities for making change happen."

Steve Czarnicki  
Advisory Systems Engineer, Owego, NY

And there's more. IBM encourages its family of professionals to exceed their own expectations. At all levels, IBMers may receive recognition and financial awards for outstanding contributions, innovation and technical achievement.

Never has there been a more exciting time to join IBM in development, programming, research, manufacturing or marketing. If you want to experience that sense of accomplishment and self-fulfillment that sparks new ideas and keeps you growing, step into IBM. You and your career will never stand still.

Shana Petrone

"I love this, it's very cool!" raves Shana Petrone of her shiny, belted, black, organza gown by Roberto Lynn in the 1970s. "I usually wear jeans and little tops and cowboy boots. Cowboy boots are my favorite things to wear. And I make high heels—any time I can be tall, it helps." Long before the public really noticed her talent as a country singer, she stuck it up with Dolly Parton on her first album, *I Want You and I Need You*, in 1999. Today Petrone is rising high with her first single and video, "This Time," from her Epic Records debut, *Something New*.
