To Our Patrons, Greeting!

In introducing this, the Second Catalogue, to our public, we desire first to thank them for the many expressions of confidence and good will that have been given us, and trust by continued devotion to the wants of the many thousands of our customers to show our appreciation of the confidence reposed in us.

❁ ❁ Not Two Years Old ❁ ❁

and yet we have achieved a success seldom equalled. While we are thankful that we have attained such great results, yet we nerve ourselves to greater efforts—we think that not only the people of this city and surrounding districts can trade with us, but that you who live at a distance can buy here just as well as if you shopped in person.

❁ ❁ Our Business ❁ ❁

has been, and always will be, conducted under the golden rule of treating our customers just as we should expect to be treated if we were the buyers and not the sellers. We can save you money—save it on anything you eat, or use, or wear. We will appreciate an Order from you, no matter how small, so we may become acquainted with you, and so you can learn our method of doing business.

❁ ❁ We Have Sold at Low Prices ❁ ❁

to our customers, and shall continue so to do; at all times guaranteeing that goods bought from us shall be as represented, or that money will be refunded. Such a marvellous growth as we have attained could only have been reached in one way—honest dealing with the people, and giving them the best of value for their money.

* * * You Can Depend * * *

upon our judgment and discretion. We invite all probable customers to send for samples, and we will attend to all such requests with the utmost promptness. It very frequently

happens, though, that a purchase must be made at once, thus leaving no time to wait for samples; in such cases you can rely upon our descriptions, and can place perfect confidence in our ability to aid you in making a selection that will prove satisfactory.

* * * It's Our Business * * *

to please our customers, and you can return goods and we will willingly exchange them or refund the money.

What One Gets

is measured to a great extent by what one goes after. Go after the right thing in the right way and you are fairly sure of right results.

There is such a thing as going after

the right thing the wrong way, or the wrong thing the right way. Be careful not to fall into these too common errors.

Temperance and Yonge Streets, Toronto.

* * * The Way to Make a Saving * * *

in purchasing your necessities of life is to write us for freight rates from Toronto to your town, figure up our prices as per quotations in our Catalogue, compare the *total* with the *total* cost of the same goods if purchased from your local dealers. This is the right way, and we feel sure of getting our share of your trade if you will do as we suggest.

Judicious

buying means money in the Savings Bank.

We would take it as a favor, if at any time you know of any friend who would like to obtain a copy of our Catalogue, if you would send the Name and Address to us, and

we will at once have one forwarded.

* Samples *

We make no charge for Samples, and for that reason we request you, when writing for them, to be very explicit in stating exactly what is wanted, giving Catalogue Number when possible; if not,

the width, price, quality, color, etc., so that we can send you just what you need, instead of a great lot of samples that are of no use to you and cost us considerable money.

Temperance and Yonge Streets, Toronto.

Great indeed have been the strides made by the Mail Order business of this house. Such phenomenal growth never marked any similar business anywhere. This Catalogue represents our great stocks as well and thoroughly as it is possible to do in one book, but we will at all times gladly send fuller particulars and prices of any line of goods not fully described in this book.

Recognition of the way in which we have given our customers such liberal bargain-giving has come from every part of this broad Dominion, and we feel assured that with our more perfect and complete organization we shall be able to so build up this business that will give it first place in the homes of the people of Canada.

LETTER FILING OFFICE, MAIL ORDER DEPARTMENT.

Our aim will always be to do such justice to our reputation for low prices, and to satisfy our many thousands of customers, that the business connection between us may prove a lasting one. The phenomenal strides we have made prove that our aim is just what you would expect it to be.

Any of our Mail Order customers who have any cause for complaint will do us a favor by communicating at once.

In this department we keep an immense assortment of Juvenile Clothing from the lowest to the highest grades, being made under our own supervision, and all materials being selected with the greatest possible care from the best foreign and home manufacturers. We claim pre-eminence over any other house in the Dominion for extent of stock and values given. The stock is so extensive that it is impossible to give any comprehensive idea of the different lines; indeed, it would require a special catalogue for this line alone to do so. But the lines we mention are fair representatives of the styles we carry and the values given.

CANDOUR ABOVE ALL THINGS

point of view there is a strong defensive argument in support of the plan of profit that he has to adopt to protect himself, and we all know that "Self-preservation is the first law of nature." We know what he has to endure; in ninety-nine cases out of a hundred he can't do a cash business, and in exercising discretion as to credit he is bound to get "nipped" once in so often by either wilful or unfortunate customers, and his losses that way amount to a good deal. Then he is imposed upon, unconsciously, by people who would be very indignant if accused of such a thing. Perhaps they pay promptly once in thirty days; well, don't he lose the interest for that length of that time? To get his discount he must pay HIS bills within ten days of their date, and even if he can get money from his bank he must pay the bank interest while his own money is "standing out." He is expected to subscribe for everything that comes along, and to do a lot of worthless advertising in programmes, hotel registers, desks, and one thing and another. All in all his burdens are heavy. And what's his recourse? To get "good prices." or what we term over-profit, that's all—there's no other. We don't blame him, but we DO, and must, blame his system—take it all over the country—as an expensive one, a bad one, and an unjust one to cash-paying customers, who are entitled to get the most their money will buy. Are we right, or are we wrong? You decide.

We wage no war against local dealers, as individuals or as a class. We'll go farther and admit, if you please, that from a local

Hemmed or Hemstitched Linen Towels

The average housekeeper of today takes quite as much pride in her stock of linens as in the days of the fireside spinning wheel; hence the increasing sales of hemstitched fine linens. There is a constantly growing demand for hemmed and hemstitched towels owing to their neat, practical appearance and great durability. The leading hotels and steamship companies use nothing else. Their large experience teaches them that fringed ends fray out and look worn with frequent washing, while

hemmed ends are neat and wholesome-looking. We keep a well selected stock always on hand and our prices you will find lower than you have hitherto been paying.

Field, Garden and Flower Seeds.

It would be impossible, in a catalogue such as this, to give a detailed list of all the Standard Seeds and Novelties in our collection, but customers favoring us with their orders can depend on satisfaction. While we include in this list only a few of the most popular and easily grown varieties, yet we have in stock everything in seeds. All kinds of flower and vegetable seeds that we put up in 5c. packets will be forwarded to any address at the following reduced rates: 1 packet, 5c.; 3 packets, 10c.; 5 packets, 15c., or 10 packets for 25c. In buying vegetable seeds by the lb., or onion sets by the pint, it will be necessary to send us, in addition to the price of the seeds, 4c. per lb. or pint ordered, for postage. Our prices here, as in other departments, are lower than the lowest, and our seeds just a little better than the best.

WE

MAKE

ERRORS

So does everyone. Our wish is to be given the opportunity to make good any mistakes which we may make. Be sure to tell us if anything goes wrong.

The Boot and Shoe Section.

Our output of Boots and Shoes is now on a scale of such magnitude that we can still further reduce our moderate percentage of profit without affecting our gross earnings, as the prices below will indicate. Having such an enormous outlet we have special arrangements made with manufacturers and will be able to sell Boots and Shoes at lower prices than other stores. Every price we make is right, and a price that just fits the value of the article quoted. We claim we can save you, at least,

from 15 to 20 per cent. on every pair of Shoes you purchase.

The Millinery Section.

John Eaton's leadership is acknowledged. John Eaton's Millinery Shows were of country-wide interest last season, and were acknowledged Style-dom. Fashion never before evolved so much beauty as it has done for this season. The hats are understandable studies in color, sensible as to shapes—pretty. Paris contributors to our Millinery are: Virot, Maurice, Ribaux, Heitz, Boyer and Josse. We take pleasure in announcing that for the coming season we have secured the services of the Head Milliner and assistants of J. Sutcliffe & Sons, of Toronto, and, with our own millinery experts, we have the largest organization of trimmers and designers in all Canada. March 1st we wrote complete! Everything of newness that the millinery world has produced is here, and nowhere in this Canadian land is there such another grouping of millinery elegance; nowhere in the whole world, taking the population into consideration, is there such an immense millinery show. In ordering Hats, please state age, large or small face, light or dark complexion, also color preferred. Please describe as fully as possible.

MAIL ORDER
DEPARTMENT.

THE **JOHN EATON** CO.,
LIMITED

TEMPERANCE AND YONGE STREETS,

TORONTO,

CANADA.

AMONG THE MANY DEPARTMENTS,

and which we have not space enough to catalogue, are: the Butcher Store in Basement, and which is under the management of Mr. Clayton, where the largest trade in the city is done in fresh and salt meats, poultry and vegetables.

Then the Restaurant, 3rd floor, where Toronto's noted caterer, Fred. Jewell, reigns supreme, and where a dainty lunch, as well as the more solid and substantial dinner, can be procured at reasonable rates.

The Photograph Gallery, which is under the control of Mr. Johnson, and who has made a name for himself by the artistic work he has turned out and the low prices at which any one can get a first-class photograph. This Department will be found on the 3rd floor also.

Alongside of the Photograph Gallery may be found the Dental Parlors, of which Dr. A. J. Wycoff is the head. Thoroughness as to dental perfection, as to finish, and as low in price as you'll find elsewhere, is the rule here as in all other departments. The clientele of the Doctor has largely increased, the Parlors have been entirely remodelled and re-furnished, and with the improved facilities no doubt the business will still further increase.

The Confectionery Store is doing a largely increased business, and prices are lower here than you'll find at other stores.

In Perfumes, Toilet Articles and Music you will always find the latest and most popular lines on sale. The stock comprises every known article of merit, and anything you may need, by writing us we will do our best to procure for you.

If at any time you should come to this city we shall be pleased to have you visit the Store, and the ladies will find on the 3rd floor a well-equipped Hair Dressing Establishment, and where the hair can be dressed in all the latest styles for the opera or ball.

Any information you would like regarding the Store or of any of the Departments in connection therewith, we shall be pleased to furnish you at any time on communicating with us.

light and palatable. The gearing is entirely enclosed, preventing any possibility of injuring the operator. The tubs are extra large, made of best quality of cedar; workmanship and material of the best quality.

McDougall's Sanitary Commode is a neat, compact and useful adjunct to the sick chamber, especially in those towns, villages, etc., that are without waterworks. Its need is daily, in health or illness, and the attention of the medical profession is especially drawn to it.

When not in use it makes a handy receptacle for the ordinary slop pail, etc. The inside shelf can be raised or lowered and set at any desired height. Within the thickness of the lid and attached thereto is a receptacle for dis-

infesting powder, and by pulling out knob at side lets down a sufficient charge to effectually deodorize at each use.

The disinfectants suitable for use in this commode are "carbolate of lime," "chloride-de-lime" and "copperas."

The Carpet Section.

Money Saved is Money Earned.

There is no class of goods that the purchaser can be more easily deceived in than Carpets. A few threads of cotton or jute in a so-called all wool carpet would never be detected until it begins to fade or is worn a little, when it is too late to return or make a claim on it. We are in a position to fully and intelligently cater to the requirements of all our customers. Our prices speak for themselves.

Parties living at a distance desiring to order by mail should draw a complete diagram of the rooms or halls, giving the exact measurements, length and width, also the exact location of doors and windows, light or dark room or hall. Our range of Tapestry and Brussels Carpets is so large and varied in design that it is impossible to describe patterns. You can be supplied with light or dark, small or large patterns. suitable for either parlor, bedroom, hall or stairs. Samples sent when requested, showing quality.
