**Did it ever occur
to you—**

*The many wonderful facilities
this **EATON** Shopping Book
affords?*

You—who may live far from any big city, or far from the opportunity of having displayed for your selection an extensive assortment of merchandise to suit your whims or purse—did it ever occur to you how close this book really brings such an opportunity?

Did you ever think of the comfort of being able to sit in your arm chair—far from the hustle, bustle and jam of a crowd—and do your shopping leisurely and without confusion?

Do you fully appreciate the possibility of being able to take a jaunt through the largest centres of Fashion and buy, with that comprehensive survey this book permits, garments that are correct in style for the coming season?

Do you realize at all times the benefit of being able to afford beautiful and stylish apparel at a moderate cost, which is possible only because you are dealing where a small margin of profit suffices for a large volume of business, and because also in many instances you are buying goods made right in our own bright, clean and sanitary factories?

Did you ever figure the broad and generous treatment available with the **EATON** guarantee as a protection? From a pin to a plow, a button to a boiler—every purchase, no matter how large or how small, is made with the security of being free to return it and be fully repaid should it not meet with your approval.

Did it ever occur to you that all these advantages are yours through the medium of this book? Sending in your order means more than sending to **EATON'S**; you are calling within reach the pick of the world's markets, with a surety of commanding every facility that will lead to your utmost satisfaction.

THREE CATALOGUE SERVICE FEATURES

These conveniences are important factors in making the EATON Mail Order Catalogue a most efficient shopping medium for out-of-town customers

Read the information below, and make full use of the advantages thus extended to you.

Shopping Service

WHERE the Catalogue ends, the Shopping Service begins. It places at your disposal a staff of experienced Shoppers, women of good taste and good judgment, ready to assist you in many ways:—

They will personally select for you any of the merchandise described from day to day in the EATON advertisements in Toronto newspapers.

When you wish to procure something more exclusive in the way of a gown, coat, suit, blouse, cretonne, rug, piece of furniture, etc., than the wearing apparel or housefurnishings listed in the Catalogue—or some article of merchandise which may not appear in the Catalogue—they will purchase it for you in the Store, or will write first, if you prefer, to describe for you what can be supplied.

If you wish information on fashions, house-furnishings, art needlework, home-sewing, books to read, records to play, or along yet other lines, a Shopper will be glad to write and advise you in the matter.

The same privileges extended to Mail Order Customers obtain when ordering through the medium of the Shopping Service—the \$5.00 Free Delivery (see Inside Front Cover) and the EATON guarantee of Goods Satisfactory or Money Refunded, Including Shipping Charges.

Every week thousands of customers throughout Ontario and Quebec write to the Shopping Service. If you have not already taken advantage of the big help one of these personal Shoppers can render you, do so the next time you want some buying done for you in the Store, or feel the need of some advice before making a final selection.

The "D.A." Service

ONE of the most convenient methods of purchasing is at your disposal when you take out a deposit account. It saves you time, energy and money, doing away with the expense of purchasing Money Orders and Postal Notes for each separate order.

By having a "D.A." you may shop by phone, mail or in the store, knowing that all purchases will come as Paid. When ordering, all you need write or say is: "Charge to my D.A., No."

Every month a statement is issued, which clearly shows each expenditure and deposit. This is a most useful feature, as it gives you at all times a grasp of your household expenses.

There is no limit as to the amount you deposit or the amount to be spent through the D.A. Money may be withdrawn on request.

Your money is by no means lying idle in a "D.A." Interest at the rate of 5 per cent. per annum is allowed on the daily credit balance up to \$1,000.00; and at 3 per cent. per annum on any amount over \$1,000.00; computed twice yearly.

You may purchase as much and as often as you please, so long as your account is not overdrawn.

In order to take out an account, you mail your money to the Deposit Account office.

When you make your deposit, your signature is recorded and a "D.A." number is given you.

Research Bureau

THE introduction of this branch of service marks one of the biggest strides of progress we've made for many years. It is, perhaps, the only Bureau of its kind in Canada.

Its chief aim and purpose is to keep a vigilant eye on merchandise of every sort, seeing to it that it measures up to the rigid EATON Standard and that the description and illustration by which it is represented in the Catalogue are correct.

The Staff of the Research Bureau is made up of a corps of Chemists and Merchandise Inspectors, who are conscious of the responsibility of not only representing the Company, but also the Customer.

Their work is to make more severe demands of quality and value than most folks would even think of. Such a constant, unflinching check is positive assurance of, and the basic reason for, the rare combination of quality and value for which the EATON name stands.

The equipment of the Research Bureau consists of a chemical laboratory, with some of the newest analytical devices known to science. The textile composition of a fabric or garment, the ingredients of foods, the strength and substance of thread or yarn and many other things in which you are interested, are tested and proved ACCURATELY.

So bear in mind as you buy from this book, that not only have the articles been subjected to a scientific analysis or examination, but also that their descriptions and illustrations have passed a most exacting test.

By gaining your implicit confidence in EATON merchandise, the Research Bureau has achieved its worthy object and justified its existence.

The New Coats

WHEN one plans to buy a new coat for the Winter there are several points to be considered—it must be stylish, comfortably warm, reliable and good value. These requirements one and all have been borne in mind when selecting the models for this catalogue.

In accord with the trend of Fashion, coats showing the modish straight lines, the graceful wrap-like effects and the jaunty shorter lengths are included in the offerings. Colors that are high in favor, such as Brown, Burgundy, Taupe, Green, Navy and Black are well represented.

Warm and durable are the materials used, and All-Wool Velours, Silver-tones, Seal Plushes, Fur Fabrics and Mackinaw Plaids are especially popular.

As to trimmings, buttons, braid, buckles and stitching are favorites, and fur frequently completes the charm of an appealing model. Linings receive special attention, and often figured fancy sateen provides an attractive inside finish.

Finally the values will greatly appeal to the discriminating shopper, for each and every coat gives full worth for the money expended.

All-Wool Velour with Coney Collar **35⁰⁰**

Colors Wine (as shown), or Brown. Bust sizes 34, 36, 38, 40, 42, 44, 46. Length 45 inches.

82-421 New in style and delightfully warm is this All-wool Brush Velour model whose convertible collar of Black Coney (dyed hare) contributes considerably to its air of richness and cosiness. Handsome buttons close front and modish cross-over belt, and in smaller size trim pockets, cuffs and little panels on the back, that as inset shows, is made further interesting by inverted pleat. Fancy figured sateen attractively lines this service-giving "EATON-MADE" coat throughout. State size and color. Price, delivered..... **35.00**

Seasonable Model of All-Wool Velour **27⁵⁰**

Color Brown (as shown), or Navy. Bust sizes 34, 36, 38, 40, 42, 44, 46. Length 48 inches.

82-419 This distinctive "EATON-MADE" Coat is composed of a decidedly good quality of soft All-wool Velour, and on it the fashionable trimmings of saddle stitching and buttons show to excellent advantage. The stitching in curved design appears on convertible collar, cuffs showing large button, and on side panels outlined by button-trimmed pleats. Inset pockets have openings beneath front pleat and novelty buckle closes belt. Lining in sleeves and to waist depth is of fancy figured sateen that wears splendidly. State size and color. Delivered. **27.50**

Remarkably Good Value

22⁵⁰
Delivered

Colors Navy (as shown), Brown, Black
Bust sizes 34, 36, 38, 40, 42, 44, 46. Length 48 ins.

82-600 Isn't it a pleasure to learn that this smart "EATON-MADE" Coat of All-wool Velour with soft brushed finish may be yours for \$22.50? You will receive splendid return for your money in its style, warmth and durability. Round two-button collar fastens snugly about neck, or may be worn as on other coats on this page. Modishly narrow is the three-piece belt trimmed at back with buttons like the smaller ones on stitched cuffs and pocket welts. In sleeves and to waist there is a lining of twill sateen of good quality. State size and color. Price, delivered. . 22.50

Smartly Fashioned of All-Wool Velour **27⁵⁰**
Delivered

Colors Brown (as shown), Navy, Black.
Bust sizes 34, 36, 38, 40, 42, 44, 46.
Length 48 inches.

82-603 With the coming of cold weather the question of a suitable coat assumes great importance, and this modish "EATON-MADE" model of Brush-finish All-wool Velour, that is lined throughout with twill sateen, is recommended as very serviceable and cosy. Convertible collar showing saddle stitching closes with handsome buttons matching those on front, belt, cuffs and welts at side of inset pockets. Smaller, but similar buttons trim sides from pockets to hem. State size and color. Delivered..... 27.50

All-Wool Velour Invitingly Priced **25⁰⁰**
Delivered

Colors Burgundy (as shown), Navy, Brown.
Bust sizes 34, 36, 38, 40, 42, 44, 46.
Length 48 inches.

82-602 Besides its moderate price this Fall and Winter Coat has other claims to favor. For instance, it is fashioned of All-wool Brush Velour, so warm and long-wearing, and it gains distinction by its circular, convertible collar, and unique finish of flaps and button-trimmed straps on pockets. All-round belt is trimmed with buttons and smaller ones appear on stitched cuffs. Twill sateen lines this "EATON-MADE" coat throughout. State size and color. Delivered..... 25.00

Fashionable Plush and Beaverette Coat **45⁰⁰**
Delivered

Color: Black only.
 Bust sizes: 34, 36, 38, 40, 42, 44, 46.
 Length, 48 inches.

82-482 Here is a stylish "EATON-MADE" model that represents remarkably good value. It is smartly fashioned of Lister's Silk Pile Plush, famous for its warmth and splendid wearing qualities. A pleasing color scheme is effected by having convertible muffler collar and turn-back cuffs made of beaverette, which resembles beaver fur. Inset pockets have flaps trimmed with plush-covered buttons and larger ones, with elastic loops, close front and belt. Lined with fancy figured sateen. Price, delivered..... **45.00**

Fascinating Lustrous Plush **47⁵⁰**
Delivered

Color: Black only.
 Bust sizes: 34, 36, 38, 40, 42, 44, 46.
 Length at back, 36 ins.

82-680 Immensely smart is this new style "wrappy" Coat of soft silk pile imported Plush, and its close resemblance to a fur coat is emphasized by using beaverette—a fabric which looks much like beaver—for convertible shawl collar, cuffs and band on front. To especially please Fashion the loose back that falls in ripples from yoke is cut longer than front. This "EATON-MADE" model that closes with loops and self-covered buttons, is lined throughout with fancy figured sateen. The belt, finished with cord and plush ornaments, passes beneath back and is looped over in front. State size. Price, delivered..... **47.50**

Lister's Plush With Fur Trimming **50⁰⁰**
Delivered

Color: Black only.
 Bust sizes: 34, 36, 38, 40, 42, 44, 46.
 Length, 48 inches.

82-484 This handsome coat is made specially cosy and attractive by using Black Coney (dyed Hare) for convertible collar and turn-back cuffs on Raglan sleeves. The material is lustrous, service-giving Lister's Plush, the deep silk pile of which reminds one of fur. The lining throughout is fancy figured sateen of durable quality. Cut on the fashionable loose lines is the back, beneath which the belt passes before it is drawn through side slits and crosses in front. On this "EATON-MADE" model plush-covered buttons effect front closing and also fasten the pointed tops of inset pockets. State size. Price, delivered..... **50.00**

Your Correct Size

When ordering coat give same size as you would for a dress. Measurements allow for coat being worn over indoor garments.

Moderately Priced Coat of Lister's Plush **37⁵⁰**
Delivered

Color Black Only.
Bust sizes 34, 36, 38, 40, 42, 44, 46. Length 48 inches.
82-481 You will certainly agree, when you see this stylish warm Coat of Lister's Plush, that it is exceptionally good value for \$37.50. The soft silk pile fabric that looks so much like fur is of English manufacture, and it readily falls into graceful folds, held in place at waistline by three-piece belt. Modishly distended hipline is produced by the turn-back, button-trimmed tops of pockets, and another smart feature is the convertible muffler collar. This coat is lined throughout with fancy figured sateen, and, as it is "EATON-MADE," satisfactory workmanship is assured. State size.

Lister's Plush Coat With Opossum Collar **84⁵⁰**
Delivered

Color Black Only.
Bust sizes 34, 36, 38, 40, 42, 44, 46. Length 45 inches.
82-483 Fur-trimmed Plush Coats are in high favor, and you will enjoy wearing this modish model of Lister's famous Silk Pile Plush. Australian Opossum, a deep dense fur in soft grey color with darker stripes, composes turn-back cuffs and convertible collar, while an air of grace and youth is contributed by the loose back. The all-round belt passes beneath the rippling back and crosses in front. Scalloped button-trimmed tops finish the inset pockets on this "EATON-MADE" model that is lined throughout with fancy sateen. State size.

82-485 What pleasure and comfort you will have from this distinctive model of Lister's Silk Pile Plush that wears so well and looks very much like seal! A becoming light touch is contributed by the Australian Opossum used for convertible collar and deep turn-back cuffs. Small inset shows the grace of the modish loose rippling back that falls over the all-round belt, which is visible only in front. Flaps protect contents of inset pockets. Fancy figured sateen of durable quality lines this delightful "EATON-MADE" coat throughout. State size. Price, delivered..... **67.25**

**Lister's Plush Coat
with Coney Trimming**

50⁰⁰
Delivered

Color: Black only.
Bust sizes: 34, 36, 38, 40, 42, 44, 46. Length, 36 ins.

82-488 From the illustrations you gain a splendid idea of the attractive, youthful style of this Plush Coat, cut with the loose back which Fashion regards with such favor. However, to fully realize its charms you must see the glossy, long-haired Black Coney (dyed Hare) that composes the convertible shawl collar and deep cuffs. You must see, too, the fur-like effect of the Lister's Silk Plush and the prettily-patterned sateen that lines this "EATON-MADE" model throughout. Tie belt passes beneath back and appears only in front, while plush-covered buttons trim turn-back top of pockets. State size. Price, delivered **50.00**

Lister's Plush Coat**

39⁵⁰
Delivered

Color: Black only.
Bust sizes: 34, 36, 38, 40, 42, 44, 46. Length, 36 ins.

82-489 Its moderate price is a striking feature of this modish coat of Lister's Silk Pile Plush, an English fabric noted for its good-wearing qualities. This "EATON-MADE" model is cut in the fashionable 36-inch length, and Beaverette, a soft material that resembles Beaver, forms shawl collar, that may be fastened closely about neck, and turn-back cuffs on Raglan sleeves. Back shows soft pleats held in place by belt that crosses in front. Inset pockets are finished with welts and when coat is opened it reveals a full length lining of sateen with effective pattern. State size. Price, delivered..... **39.50**

Extra Size Coats

With Long Straight Lines that Give an Effect of Height and Slenderness

Moderately Priced Velour

Color Black Only.

Bust sizes 41, 43, 45, 47, 49, 51, 53. Length 48 Ins.

82-470 All-wool Blanket Velour, with its soft finish, develops this Extra Size Coat, expertly cut on long, straight lines to give a more slender appearance to the figure. Comfortable fullness is held in at waistline by belt that pleases Fashion by crossing in front. Roomy sleeves show stitched button-trimmed cuffs. Collar of this "EATON-MADE" Coat is convertible; buttoned flaps protect contents of pockets, and lining in sleeves and to waist depth is sateen of good quality. State size.

82-470

All-Wool Blanket in Extra

Color Black

Bust sizes 41, 43, 45, 47, 49, 51, 53.

The style element is just as important to the large woman as to slighter folk, and realizing this the designers give great thought and care to the planning of extra size coats, so that they very closely follow the mode and yet prove comfortable and becoming to their wearers. The success of their efforts is shown by the three coats on this page. The belted model illustrated above is a striking example of how well the service-giving All-wool Blanket Velour adapts itself to the desirable long lines. Cleverly cut collar is convertible and numerous buttons to match those on stitched cuffs trim sides of panel effects. Lined throughout with durable sateen, is this "EATON-MADE" model that represents excellent value. State size.

82-780 What a remarkably low price is \$29.50 for a stylish Plush Coat! You will be more convinced than ever of its good value when you read that this "EATON-MADE" model is fashioned of Lister's English Silk Pile Plush, famous for its rich appearance and good wearing qualities. In order to have back and sides fall in graceful folds, they are gently shirred at waistline, while front hangs in the approved straight lines. Collar shown closed in cross-over style may be worn in cape effect if desired. Set-in pockets are finished with flaps, while self-covered buttons trim the sleeves, two-piece belt and, together with cluster loops, effect closing. This coat that is lined throughout with sateen, will prove a very satisfactory purchase. **State size.**
 Price, delivered..... 29.50

82-200 Ever on the alert for new fabrics, Fashion has heartily welcomed "Suede-like," a closely woven, soft, material that resembles Suede, and though light in weight, is very warm and cosy. This model of Suede-like, that can be relied upon to give several seasons' wear, is made of this practically wind-proof fabric, topped by becoming collar of fleecy lamb's skin. It will instantly appeal to the well-dressed woman in search of a distinctive coat for sports and general wear. A military effect is produced by trench pleat at back, leather-covered buckle on belt, and by buttons and patch pockets with flaps such as are seen on officer's coats. Sleeves are lined with satin finished venetian, while rest of coat is lined with fleece cloth for extra comfort. **State size and color.**

Colors Grey or Brown.
 Bust sizes 34, 36, 38, 40, 42, 44, 46.
 Length 48 inches.

82-326 Stylish and so delightfully warm is this "All-Purpose" Coat that may be worn for several seasons and still be decidedly modish. The material is a Winter Coating that adapts itself splendidly to the loose graceful lines of this model, which you will find most comfortable when out for a walk, drive or motor ride. Rounded ends finish convertible collar, while the adjustable storm straps that complete Raglan sleeves will be greatly appreciated in severe weather. Belt fastens with two large buttons like those that close front and fasten turn-back tabs on patch pockets. This "EATON-MADE" model is lined in sleeves and to waist depth with satene of good quality. **State size and color. Price, delivered... 27.50**

82-327 In this Fur Fabric Coat you secure extraordinary value, for its low price of \$19.75 is only made possible because the material was purchased some time ago at a figure much below its present market value. This coat is especially desirable, for fur fabrics are very much in vogue and the wool-faced cotton-back fur fabric used has a glossy tight curl that reminds one of Persian Lamb. Then too, for extra warmth and service it is lined with satene throughout. Plush-covered buttons are noted on convertible collar and stitched cuffs, and in a larger size trim pocket flaps, and back section of belt. Together with elastic loops these larger buttons also close front. **State size. Price, delivered.... 19.75**

82-301

82-300 When you slip into this cosy all-enveloping Coat you will realize what "solid comfort" means in cold weather. This swagger model is made of a soft Winter-weight All-wool fabric in grey or brown tones with a subdued harmonizing overcheck and the lining in sleeves and to waist depth is durable satene. Very unique is the convertible collar that has rounded ends passing through slits to button on to revers. Other noteworthy features are raglan sleeves with turn-back cuffs, curved inset pockets with stitched openings and two-piece belt with a leather-covered buckle at back for ornament, and in front for fastening. This "EATON-MADE" model is cut on roomy lines that will be particularly appreciated by the woman who loves driving or outdoor life. **State size and color. Price, delivered..... 25.00**

84-262 Modish cloth coats this season have a very pronounced liking for collars of fur. On this Misses' smart model one of the warm, fashionable Ring-tailed Opossum blends beautifully with the soft All-wool Velour fabric. The straight hanging fullness at back is crossed by belt, on which appear novelty buttons like those on detachable front section. Pockets with curved flaps are trimmed with tucks and buttons, and smartly set into tucked side panels. Roomy Raglan sleeves are marked by buttons where tucks form points at wrist. The lining throughout of fancy sateen is yet another comfortable and attractive feature of this splendid "EATON-MADE" Coat. State size and color. Price, delivered..... **47.50**

84-263 If a cosy, becoming coat at a moderate price is the requirement, here is one well worthy of consideration. The material is a warm, reliable Wool Blanket Velour with a small percentage of cotton, while the popular Beaver Coney (sheared and dyed hare) is used for collar. It is fashioned in convertible style that buttons snugly beneath the chin, or when worn open lies gracefully about the shoulders. Stitched cuffs, irregular in outline, are trimmed with shiny buttons, while larger ones are arranged on flaps of inset pockets. Fashionably narrow belt crosses and buttons at front of this "EATON-MADE" Coat lined throughout with sateen. Price, delivered..... **27.50**

84-260 Lustrous Silk Pile Plush, made by the renowned "Lister," is used for the Misses' attractive Coat shown in the above illustration. A convertible collar of soft furred Beaver Coney (sheared and dyed hare) adds to its rich appearance. Self-covered buttons and durable elastic loops close front, and the belt which like deep stitched cuffs is trimmed at back with two buttons. Pouch pockets also with buttons are modishly placed over the hips. An interlining in sleeves and to waist depth, and a lining throughout of fancy sateen add to the warmth of this smart coat, which is "EATON-MADE," assuring the purchaser of service and good value. State size. Price, delivered..... **45.00**

84-261 The clear bracing Winter weather may be enjoyed to the full if one wears a handsome coat like this model of Salt's Baby Lamb, cotton and wool fabric, which bears a strong resemblance to the real fur. An interlining in sleeves and to waist depth and a lining throughout of good wearing sateen ensure still greater comfort in this Misses' becoming Coat. Large plush covered buttons and strong elastic loops close front and two-piece belt, while smaller ones with loop fasten convertible collar. A row of buttons like those on deep stitched cuffs extends from one side of the capacious inset pockets, forming an effective finish to this smart coat. State size. Price, delivered **32.50**

Of Warm All-Wool Blanket Velour 20⁰⁰

Colors Brown (as shown), Navy, Taupe, Burgundy or Black. See table above for sizes.

84-270 Its softness and warmth make All-wool Blanket Velour a general favorite for the fashioning of attractive Winter coats. It adapts itself splendidly to the straight well-cut lines of this Misses' "EATON-MADE" model shown in above illustration, which to ensure greater comfort is lined in sleeves and to hip depth with sateen. A rounded convertible collar, that may also be worn open to form revers, will be the source of much comfort. Note the shaped pieces on stitched cuffs, marked by a button. All-around belt closes with large buttons. Two-tier pockets displaying buttons on each section are a smart and convenient feature of this moderately priced coat. State size and color. Fashionable All-Wool Blanket Velour Coat 24⁵⁰

Colors Navy (as shown), Brown, Taupe, Burgundy or Black. See table above for sizes.

84-271 The smart distended hip line is exploited very cleverly on this Misses' modish Coat of a splendid quality All-wool Blanket Velour. A pin-tucked, button-trimmed panel is inset at sides and forms the pockets, which are buttoned to give fullness at hips. Pin tucks provide an effective trimming on the convertible collar which closes like front with novelty buttons. They also appear on sleeves and are uniquely arranged with three smaller buttons. The belt, which is cut in four pieces, has buttons at back and buttoned-on section at front. This attractive model warmly lined throughout with sateen bears the "EATON-MADE" label, which assures you of careful making and dependability. State size and color. Price, delivered.... **24.50**

Misses' Warm Coat, Smart and Practical 23⁵⁰

Colors Burgundy (as shown), Navy or Grey. See table above for sizes.

84-272 Stylish and very comfortable is this Misses' serviceable Coat of good-wearing Whitney Chinchilla, (a wool material woven with a very small percentage of cotton.) Convertible collar which is shown worn open is just as becoming when buttoned snugly beneath the chin. A button shows where sections of stitched cuffs cross one another on the roomy Raglan sleeves. Capacious pockets are tucked and show the result of clever designing in their unusual outline. Rows of tucks extend across back below the button-trimmed belt and are met at sides by attractive buttons. This desirable "EATON-MADE" coat, to complete its good features, is lined in sleeves and to hip depth with sateen. State size and color. Price, delivered.... **23.50**

Inexpensive Coat In a Modish Style 18⁵⁰

Colors Green (as shown), Navy, Burgundy, Brown or Black. See table above for sizes.

84-273 Splendid value is represented in this "EATON-MADE" Coat of Wool and Cotton Cheviot with a soft blanket finish. It is a model that should be deservedly popular. Buttons form an important part of the trimming and along with narrow tucks prove most decorative. Together they appear on the panel-like pocket flaps, convertible collar and front and back straps of the all-around four-piece belt. Buttons also close the front and are used on the stitched cuffs. Firm sateen lines the sleeves and to waist depth, and adds to the service and comfort of this coat, here offered at a most attractive price. State size and color when sending in your order. 84-284 There's a trim smartness about the back of this Winter Coat of the fashionable All-wool Velour. It shows novelty buttons at either side of the tiny tucks on panel, while below waistline it falls in soft pleats. Very original are the large tucked, button-ornamented pockets which add to the stylish effect of the front. Tucks follow the outlines of the jaunty convertible collar, while turn-back cuffs have points showing buttons, with larger ones on the modishly narrow belt. A lining throughout of sateen is another very satisfying feature of this fashionable coat. Price, delivered.. 27.50

84-292 Pleats have even penetrated into the coat world! It is not surprising though, when one sees the smart effect they have on this Junior Misses' All-wool Velour model. They take the form of box pleats and fall from yoke at back, while beneath belt a design in stitching is noted. Stitching also outlines the deep pointed cuffs on which buttons are arranged. Patch pockets are quite unusual in shape as shown in the illustration, and they too are stitched and button-trimmed. The convertible collar on this "EATON-MADE" Coat, lined throughout with sateen, shows a single tuck, while belt with buckle at the front has four buttons at the back. State size and color. 84-311 This smart, service-giving model comes in three warm, rich shades as well as black and is fashioned of Wool and Cotton Cheviot Cloth with a soft Blanket finish. Convertible style collar buttons comfortably about neck, while pockets being inset contribute an air of trimness. They have shaped openings showing four small buttons like those on belt where it tops the gathered waistline at back. The wide stitched cuffs on sleeves also show buttons while a larger size is used to close front. Sateen is the very satisfactory fabric that lines this Misses' "EATON-MADE" Coat throughout. **Delivered.. 16.75**

84-312 In order to derive health and pleasure from the brisk Winter weather one must have a comfortable coat. Therefore this Misses' appealing model is developed of a heavy soft quality Wool Cheviot Blanket Cloth. Its tucked and button-trimmed collar is convertible and the sleeves also show tucks and points with smaller buttons. This same treatment gives individuality to the large patch pockets with loosely hanging section at centre. Belt which controls the graceful straight hanging lines has a buttoned-on piece at front. This splendid "EATON-MADE" Coat is lined with sateen in sleeves and down to waist depth. **State size and color. Price, delivered.. 19.75**

84-310 Proof against the cold is this Misses' Coat of Curl Cloth, a wool material with cotton back that is warm and cosy. This "EATON-MADE" Coat has an added attraction in its low price which will suit the requirements of the modest purse. The style chosen is simple and yet effective; buttons descend down the side pleat below the pockets, and close snug convertible collar and all-round belt. The pockets are attractively cut with a curve at the opening and inset at the sides. The lining throughout is of good quality sateen. **State size and color. Price, delivered 13.75**

84-313 Admirably protected from the elements by this jaunty Raincoat is the miss pictured above. It is fashioned in double-breasted style of Wool and Cotton Tweed in Donegal pattern with a rubberized inner surface. The roomy Raglan sleeves have storm straps adjusted by buckles, while a larger one fastens through loops at side. The two inset pockets are marked by shaped openings on this "EATON-MADE" Coat cut on ample lines, which permit of it being worn over outdoor apparel. Ventilators beneath arms and stitched and cemented seams complete this well-made model. **Price, delivered.. 15.00**

An Attractive Suit Is This Made of All-Wool Serge

(Illustrated Above.)

Colors Black or Navy.

92-251 All-wool Serge retains its position as a stylish, reliable material for a Fall and Winter Suit. It fashions this "EATON-MADE" model, the collar of which when closed crosses and buttons in front. Military and soutache braid, with good looking buttons, is effectively arranged on the collar and sleeves and skirt, and surrounds the inset pockets. Rows of soutache braid that end in embroidered bows extend from under the narrow belt. Brocaded saten lines the 34-inch coat, and to insure greater warmth it is interlined to waist and in sleeves. Buttons close front of the coat which, when thrown open, reveals the curved inset pockets on the two-gore skirt which has gathered back and all-round belt. State size and color. Colors Navy or Black

92-252 Designed with an eye to the needs of the youthful figure is this All-Wool Serge Suit, the value of which will doubtless impress you as extremely good. Military braid lends its trim smartness by appearing in rows on the sides, and extending down centre back to the belt. Not to be outdone, the buttons mark where the braid ends at the sides and also trim the sleeves, with larger ones fastening the front, narrow belt and convertible collar. The 32-in. coat of this "EATON-MADE" Suit will prove warm, as it is lined with brocaded sateen and interlined to waist and in sleeves. The two-gore skirt is very neat-fitting, and has inset pockets, gathered back and all-round belt. The good style, effective trimming and splendid wearing material all combine to make this suit very desirable, and an additional attraction is its moderate price. Sizes to right. Colors Grey, Brown or Blue

92-253 Among the modish materials that claim special mention in the suit world this season is Wool and Cotton Silvertone, which fashions this youthful model. This delightfully warm material has a fibre silk fleck which gives it a pleasing finish. Rows of tiny tucks at the side mark the pockets which give a hint of the fashionable distended hip line. The back is tucked with embroidered arrowheads at the top and guarded at the bottom by good-looking buttons. Similar buttons close the front, convertible collar and narrow belt, while smaller ones are enclosed by tucks on the sleeves. Lining of the 32-inch coat of this "EATON-MADE" Suit is brocaded sateen. Well tailored is the two-gore skirt that is slightly gathered in the back, and has neat all-round belt. This model, that is obtainable in three popular colors, is decidedly good value and will at once appeal to the discriminating shopper. An Appealing Suit 42.50
of All-Wool Serge **Delivered**

(Illustrated below.)

Colors Navy or Black.

92-950 A novel feature of this All-wool Serge Suit is the introduction of the narrow straps of the material as trimming. They prove most attractive on the back of the collar and at the sides, beginning where the pockets end. These inset pockets are placed in front, below the belt and between the stitched folds that give the effect of inverted pleats. No suit is complete without buttons, and in a small size they appear on the sleeves while larger ones are used on the back and close the convertible collar, front and belt at the side of this "EATON-MADE" model. A fancy sateen lines the 36-inch coat that is so warmly interlined to waist and in sleeves. Three-gored is the skirt with its gathered back, narrow belt and convenient inset pockets. **State size and color.** Sizes below. Price, delivered..... **42.50**

92-259 A tailored suit is most convenient, and such a comfort to possess as one is assured of correct style, smartness and suitability for so many occasions. The lines of this "EATON-MADE" model of All-wool Serge are exceptionally good and military braid and buttons prove effective trimmings. Together they appear on the back, the flaps at the sides and on the sleeves, with the buttons closing the front. Brocaded sateen lines the 32-inch coat, and besides it is interlined to waist and in sleeves. The rever collar is notched as becomes this type of suit, and the two-gore skirt is cut on simple lines. It has the inset pockets, becoming gathered back and narrow all-round belt. State size and color. Price, delivered..... **40.00**

92-257 Fashioned on a simple, effective style most becoming to the extra size figure is this "EATON-MADE" Suit of beautiful quality All-wool Serge. Shiny buttons in trim rows appear on the sleeves and back of the 34-inch coat, and close the collar front and narrow belt. Stitched-down straps of the material, button-trimmed and ended by embroidery, appear on the convertible collar and front where the pockets are inset below the belt. The lining is of brocaded sateen with interlining to waist and in sleeves, which have darts on underside that may be let out if necessary. The skirt is two-gored, and has inset pockets and gathered back. The all-round belt is fastened by a button. State size and color. Price, delivered..... **45.00**

92-258 The woman above the average size needs suits specially cut with the long straight line. This was carefully thought out by the designer of this model of All-wool Serge. Braid is smartly applied on the collar and cuffs with small buttons and at the sides with large buttons, while braid alone binds close the convertible collar front and belt, and together with an inverted pleat descend down from the belt in the back. The 34-inch coat is lined with twill sateen interlined to waist and in the sleeves that have darts on underside which may be let out if necessary. The three-gore skirt has inset pockets and narrow belt. A full length pleat appears on the centre of the gathered back. State size and color. Price, delivered..... **42.50**

84-391 Firmly established in the feminine favor is the Navy Blue suit, and when All-wool gabardine is selected it is decidedly modish. The 32-inch coat of this Misses' comfortable model is lined in sleeves and to waist depth and lined throughout with good quality Jap silk. It fastens in original way with buttons and loops of the material just below where collar crosses. Above and below waist line tucks ending in embroidered arrow heads like the back interesting. Buttons and tucks are equally effective at sides while, closer to front, pockets are set in. Sleeves like narrow belt also receive their quota of buttons on this well-tailored "EATON-MADE" model which shows careful workmanship. The two-gore skirt has pockets, gathered back, and neat round belt. State size. Price, delivered.....**55.00**

84-390 Slender lines possessing much grace are exploited in this stylish warm suit. The fine All-Wool Tricotine of which it is fashioned is enjoying a well-merited popularity this season. Tiny tucks, braid and buttons are smartly applied to the 32-inch coat interlined in sleeves and to waist depth, and lined throughout with heavy Jap Silk. The tucks extend down each side of two narrow box pleats at back and along with buttons trim partial cuffs edged with the braid. It is also used together with buttons at sides and binds openings of duplex pockets. The convertible collar merges into lapels when worn open and fastens close to the neck by means of buttons and loops of the material. Narrow belt crosses at front. The two-gore belted skirt of this smart "EATON-MADE" model has two inset pockets. State size. Price, delivered.....**60.00**

84-392 All-Wool Velour conforms with marked success to the new modes and in a soft, heavy quality it fashions this Misses' "EATON-MADE" suit. It will prove as comfortable as it is smart, for the 32-inch coat is tastefully lined throughout with broadcated sateen. The back has a well-tailored air with its inverted pleats stayed by embroidered arrow heads. Inset pockets, according to the prevailing idea, are tucked and edged each side with small buttons. Very trim-looking is the front with similar buttons set closely together to where convertible collar fits snugly about neck. Sleeves are unique as they button on point at wrist. Two inset pockets appear on the skirt, which is smartly developed in a two-gore style, with back gathered beneath all-round belt. State size and color. Price, delivered.....**40.00**

Smart Coat of Electric Seal and Alaska Sable 330⁰⁰—

Bust sizes 34, 36, 38, 40, 42, 44, 46. Delivered
Sweep about 68 inches. Length 36 inches.

54-642 Style and comfort are cleverly combined in this beautiful Coat of Electric Seal (sheared and dyed Rabbit) and it adds to its richness and becomingness by using Alaska Sable (Skunk) for convertible shawl collar and deep turn-back cuffs. The soft rippling fullness is controlled by an all-round belt that closes, like front, with elastic loops and unusually attractive novelty buttons. Two slash pockets are conveniently placed on the outside of this model, and on the inside features a unique pouch pocket of fancy silk-faced poplin. Silk-faced poplin also lines this carefully-finished coat throughout. State size.

Price, delivered..... 330.00

Charming Coat of Electric Seal and Opossum 275⁰⁰—

Bust sizes 32, 34, 36, 38, 40, 42, 44, 46. Delivered
Sweep about 65 inches. Length 30 inches.

54-641 There's a jaunty, youthful air about this Coat of Electric Seal (sheared and dyed Rabbit) that at once arouses admiration, and to complete the good impression, Ring-tail Opossum, with its soft blending of grey tints, composes bell cuffs and collar which may be worn as illustrated or lying flat in capo style. Note the unique buckle that fastens belt and the decorative effect of the buttons that, together with elastic loops close front. Two slash pockets are convenient features of this model, cut in a very smart length and lined throughout with fancy silk-faced poplin, which also forms inside pouch pocket. State size. Price, delivered..... 275.00

Handsome Coat of Hudson Seal Trimmed with Alaska Sable 550⁰⁰—

Bust sizes 34, 36, 38, 40, 42, 44, 46. Delivered
Sweep about 70 inches. Length 40 inches.

54-500 For this unusually handsome Coat only first quality, carefully-selected skins of Hudson Seal (sheared and dyed muskrat) were used, and the result is a model of which any woman may indeed be proud. Long-haired, full-furred Alaska Sable (Skunk) develops the deep cuffs and luxuriously large cape-like collar, made in convertible style, while all-round belt closes like front with elastic loops and buttons showing fur centres. This distinctive model is attractively lined throughout with Pussy Willow Silk, with novel pouch pocket. An inset side pocket inside the coat will be found an extra convenience.

Price, delivered..... 550.00

54-558 Melon-shaped Muff of handsome Hudson Seal (sheared and dyed Muskrat) to match Coat 54-500 is not illustrated. It has wrist ring, velveted lining and rolled puffings of silk at ends. Width about 11 ins. Delivered.. 44.00

Bust sizes 32, 34, 36, 38, 40, 42, 44, 46.
Sweep about 10 inches. Length 32 inches.

54-639 Here is a splendid example of how jaunty and becoming are the fur coats that are cut in the fashionable 32-inch length, and swing in graceful unbroken lines from the shoulder. Soft Taupe Coney (dyed European Rabbit) develops this handsome model, and you will note that it features a deep self-border that provides for the modish distended pockets. Collar is equally becoming worn high or lying flat in cape style; sleeves have deep turn-back cuffs, and novelty buttons together with elastic loops form closing. Inside of coat has two pockets and is lined with very pretty fancy silk, which is particularly attractive. **State size.**

**Stylish Fur Coat
of French Beaver**

200⁰⁰
Delivered

Bust sizes 34, 36, 38, 40, 42, 44, 46.
Sweep about 9 inches. Length 40 inches.

54-638 Smartly cut and exceptionally warm is this Coat of French Beaver (Bolivian Lamb), a soft dense fur that will give excellent service. Deep turn-back cuffs and the convertible shawl collar are of popular Opossum, dyed a becoming taupe shade. In accord with the new style, the belt, that fastens with three buttons, may be worn in all-round effect, or just across front and drawn through side slashes to disappear beneath back, which will then fall in loose rippling folds. Two pockets are noted on front of this coat which fastens with elastic loops and buttons. Has two inside pockets and is lined throughout with Venetian of good quality. **State size.**

**Fashion Approves
of Electric Seal**

247⁵⁰
Delivered

Bust sizes 32, 34, 36, 38, 40, 42, 44, 46.
Sweep about 68 inches. Length 34 inches.

54-640 Fashion approves very highly of Electric Seal (sheared and dyed Rabbit), for it presents such a rich, soft appearance, and when, as in this case, it is combined with Australian Opossum, it is all the more admired. On this moderately priced and very smart model the Opossum forms cuffs that finish sleeves and large convertible collar. Self border is a modish finish on lower edge, while the all-round belt fastens with a particularly handsome button, which matches those that effect closing with elastic loops. Two pockets on outside and one on inside are handy features of this very desirable coat that is lined throughout with durable silk-faced poplin showing fancy pattern. **State size.**

MILADY'S FROCK

MANY of the smart frocks shown in this Catalogue are characterized by long, straight lines, while other modish models feature bouffant draperies, tunics and the approved distended hip line. So whether you are slight, of average size or generously proportioned, you will find styles to suit your type of figure. The selection includes dresses for festive occasions, general purposes and housewear; while among the fabrics are noted Taffeta and Messaline Silks, Crepe-de-Chine, Jersey Cloth, Serge, Poplin and various wash materials. Colors most in vogue are Navy Blue, Brown, Green and Black and the trimmings most highly favored are pleatings, buttons, braid and embroidered designs. As to prices they are as low as is consistent with good style, materials and workmanship.

58-580

58-580 Simplicity is the keynote of the correct modes for Fall and Winter, so this dress is particularly stylish. It is developed of service-giving All-wool Serge and hangs in straight lines from shoulder to hem. Rounded neck is outlined by darning stitch embroidery in contrasting colors on the navy blue and in self-color on black model. Invisible closing is arranged on shoulder and beneath full-length box pleat trimmed with numerous buttons. A jaunty finish on this "EATON-MADE" model is the sash belt that loops over at back. State size and color. Price, delivered 14.00

58-590 Here is indeed a great bargain in a Dress of All-wool Serge. Its very special marking is the result of a fortunate purchase of the material some time ago, at a price much less than its present market value. Now this service-giving fabric has been fashioned in our own factory, into the smart dress illustrated. The new chenille trimming, in variegated colors, is stitched around neck and sleeves and emphasizes the inset pockets. Small buttons indicate where chenille ends. A narrow belt encircles waist of this "EATON-MADE" Dress that fastens down side. We would again call your attention to the remarkably low price. **State size and color.** Price, delivered..... **10.75**

58-592 The vogue for the straight, slim silhouette is here shown in a decidedly smart "EATON-MADE" Frock of good quality All-wool Serge. To carry out another of Fashion's ideas the waistline is placed low and is marked by black braid. Very modish too is the wool band embroidery which in black on black model, and in black, rose and green on blue dress decorates bodice front, neck, and patch pockets. Braid binds turn-back cuffs, rounded neckline and button-trimmed panel effect that closes invisibly on shoulder and side. A rich-looking girde of fibre silk cord is finished with particularly handsome tassels and adds its quota to the charm of this out-of-the-ordinary model. **State size and color. Correct Measurements are Necessary

To obtain a well-fitting dress, accurate measurements are of course necessary, and the following instructions are given as a guide to securing the best results. Have some careful person take your measurements. It is almost impossible to take them satisfactorily yourself.

Bust Measure should be taken over shirt waist or dress. Pass tape measure entirely around the body over fullest part of the bust, well up under the arms. Do not draw tape measure too tightly or let it slip down in back. Make no allowance whatever.

Waist Measure. Take this measurement around smallest part of waist over your skirt.

Skirt Length. Measure from bottom edge of inner waistband straight down the front to length desired. Make no allowance for high waist-line.

Concerning Fashion's Ideas in Misses' and Juniors' Frocks

MISSES' AND JUNIORS' FROCKS this season have a beguiling air about them, whether they be of Serge, Jersey Cloth, Silk or Satin. The smart array on this and the following eight pages also includes Tricolette, a beautiful silky material that is one of Fashion's elect.

For wool fabrics the styles are becomingly simple, embracing the chemise dress, the long overblouse and the pleated skirt.

That pleating is no respecter of material is charmingly illustrated by Taffeta Silk and various other modish silks and satins. Ruffles, flounces and draperies imparting the widened hipline also play an important part in the development of the new dresses, which in many cases feature short sleeves.

Rich, warm looking browns and burgundies, taupe, green and various shades of blue, including the popular navy and the colorful Pekin Blue, are the favorite hues.

The collection of models displayed on these pages will be of additional interest because they are all representative of splendid value.

An extensive range of Misses' and Juniors' stylish warm coats will be found on pages 23 to 33 inclusive. Pages 39, 40, 41 show comfortable, cleverly tailored suits, while stylish skirts for practical and dress occasions are displayed on pages 99, 100, and 101.

Misses' Trim Frock of All-Wool Serge **11.50**

Colors Navy with Grey, Brown with Sand, Burgundy with Black, All Black.

84-740 There is almost no end to the usefulness of an attractive All-Wool Serge Dress such as this one, so smart in its simplicity, and priced so moderately. With the exception of the buttons on sleeves, narrow fibre silk braid is the only trimming. It is arranged on round neck and in a more pretentious design adorns front of bodice. The inset pockets, too, on the slightly gathered skirt receive a similar treatment. Narrow belt shows sash ends at centre of back on this one-piece "EATON-MADE" dress that fastens at side. Finished with deep basted hems. State size and color. Sizes to right. Price, delivered..... **11.50**

Attractive Model of All-Wool Jersey **15.75**

Colors Rookie Brown, Taupe or Pekin Blue.

84-741 The style feature is an important item to the modern Miss, and when it is coupled, as in this dress, with heavy quality All-Wool Jersey Cloth no further recommendation is necessary. A touch of contrasting color is introduced in pipings around the neck and sleeves, and also tops the self-covered buttons which are arranged down the front and on sleeves. Pin tucks form themselves into a criss-cross pattern, and trim the long waist and bottom of the skirt. This modish "EATON-MADE" Dress fastens down the front under side pleat. Finished with deep basted hems. State size and color. Sizes to right. Price, delivered..... **15.75**

Taffeta Silk Frocks Spell Smartness **27.50**

Colors Navy, Copen, Green, Brown or Black.

84-742 Take soft Taffeta Silk, trim with pleated frills, top it by white lace collar, and the result is a very successful frock. The Misses' charming one-piece mode displays tucks as well as pleating on back and front of bodice. Pleating, too, is responsible for the adornment of the tunic at bottom and side opening. Four self-covered buttons mark deep bell cuffs on sleeves attached to net underbodice. Waist is encircled by girle ending in dangle buttons. Skirt beneath tunic is of mercerized cotton on the youthful dress that fastens in visibly at side. Finished with deep basted hem. State size and color. Sizes below. Price, delivered..... **27.50**

Delivered

Colors Brown (as shown), Navy, Taupe or Black.

Basted Hems.

Sizes as in table below.

84-752 Tricolette that fashions this distinctive Dress is a fibre silk material which has a rich appearance and conforms with ease to the modes of the day. Metallic thread sends a gleam of gold in and out amongst the artificial silk fibres braiding on the rounded neck. A similar treatment is used for the border of the overblouse which is cut longer in the back. Its side openings are outlined by self-covered buttons to match those that dangle from the narrow girdle. The three-quarter sleeves like lower part of skirt are attached to a silk foundation, which also lines the bodice. Price, delivered..... **49.50**

84-762 Just the style of a charming frock that youth loves to don, is this adorable one-piece model of shimmering Taffeta silk. Ruffle after ruffle softly gathered on a China silk foundation is responsible for the quaint and very modish skirt. Sleeves too attached to a lace-trimmed silk underbodice are frilled at the wrist. An artistic beaded design affords a pleasing color contrast on the panel at side of which bodice closes. Crush girdle on this Misses' fashionable dress shows a single bow and sash ends at centre of back. Finished with deep basted hems. **State size and color.**
Price, delivered..... **36.85**

84-761 The All-wool Serge used in this smart Frock is of a splendid quality, while its straight well-cut lines are dignified yet youthful. The front shows fibre silk braid in an elaborate effective design which continues across tops of inset pockets. Buttons trim sleeves of this Misses' One-piece "EATON-MADE" Dress provided with a white cotton underbodice. A hint of the Russian blouse influence is imparted by panel at back of bodice from either side of which emerges a narrow girdle with fibre silk tassels. Invisible closing is effected at side. Finished with deep basted hems. **State size and color.**
Price, delivered..... **22.50**

84-763 Much befrilled as to the skirt is this Misses' attractive One-piece Frock of soft rich Satin. The bodice prettily embroidered in contrasting silk floss is charming in its simplicity. Sleeves of filmy Georgette Crepe with their demure ruffles of satin at wrist form a dainty contrast. The wide girdle ties in a graceful bow with sash ends at back. Underbodice to which sleeves are attached is composed of white silk edged with lace. Frills on skirt are gathered on to a China Silk foundation on this modish dress. Finished with deep basted hems, to allow for altering if necessary. **State size and color.**
Price, delivered..... **33.00**

84-760 Accordion pleating and box pleats which has taken a very prominent position in the world of Fashion is introduced on the skirt of this stylish Frock. All-wool Serge beautifully fine and soft texture is its material. A clever motif in fibre silk is worked on front panel which is bound with braid and continues slightly below button-trimmed belt. This Misses' One-piece "EATON-MADE" Dress here offered such a moderate figure has white cotton underbodice and invisible side closing. We call special attention to the moderate price of this attractive model. **State size and color.**

84-813 One does need a warm, cosy dress when Fall and Winter set in, and you will find this one particularly comfortable, as it is made of fine quality double warp All-wool Jersey Cloth. The front has a smart vest finely tucked, and with rows of self-covered buttons extending down each side of it. These buttons are similar to those which appear on the sleeves and at the side of tunic. The tunic hangs from the shoulder and has a wide band at the bottom, and a tie girde encircling the waistline and looping at the back. Self-colored sateen forms the lining at the top of the skirt, and white cotton the lining of the waist of this stylish "EATON-MADE" Dress. State size and color. Price, delivered.. 19.50

Five Attractive Values in "EATON-MADE" Skirts

This department, that extends from page eighty-three to ninety-eight, will prove of especial interest to those who are planning to buy a skirt, petticoat or sweater. The separate skirts closely follow Fashion's dictates in regard to design, material and trimmings. The petticoats, including the new Hip Fit models, are notable for their smoothly fitting lines, good-wearing qualities and pleasing appearance. Comfort and style are cleverly combined in the women's, misses' and girls' sweaters, while the cap and scarf sets will often add just the right dash of color to an outdoor costume. Prices in every instance will be found decidedly moderate.

Smart Skirt of Durable Tweed

Colors Grey Mixture or Brown Mixture.
Waistbands 22, 23, 24, 25, 26, 27, 28, 29 inches.
Choice of front lengths 35, 37, 39 inches.

56-300 You will have splendid satisfaction from this "EATON-MADE" Skirt, for it is fashioned of a material noted for its good-wearing qualities, namely, wool and cotton Tweed in Donegal pattern. It is cut in three gores, closes at side, and is gathered at the back beneath all-round stitched belt. Curved button-trimmed flaps, that mark openings of inset pockets, are a decorative feature of this carefully finished skirt. **State size and color.** Price, delivered..... **6.75**

Pretty Petticoat of Rosebloom

Colors Purple and Green, Copen and Brown, Green and Purple.
Lengths 35, 37, 39 inches.

56-545 Attractive, as its name of "Rosebloom" is the material used for this Petticoat, for it is soft, colored cotton, mercerized to produce a lustrous sheen, and it shows a delightful floral pattern. This service-giving "EATON-MADE" model features flounce trimmed with pin tucks and finished by pleated ruffle. The waistband that may be extended to 29 ins. has tape draw. **State color and length.** Price..... **3.95**

Measure length of skirt from bottom edge of inner waistband straight down the front to length desired. Make no allowance for high waistline.

**Concerning the New Waists
and Blouses**

A most interesting variety of modes and materials is here assembled for your selection—fascinating new monkey blouses, smart over-blouses and casaques, dainty creations for the special occasion, pretty lingerie waists, trim tailored models, attractive smocks and comfortable middies, each possessing their own individual charm.

Good looks and long service are common characteristics of the simpler and less expensive models; while the more elaborate ones, whether of filmy Georgette, soft Crepe-de-chine, shimmering Taffeta, lustrous Tricolette, or the ever-popular Habutai, are made still more fascinating by trimmings which follow the vogue in the use of beads, pleatings and hand embroidery, often worked into color effects that are novel and decidedly attractive.

Silk Crepe-de-Chine

Colors Navy, Taupe or Sand with contrasting and all Black.
Bust sizes 34, 36, 38, 40, 42, 44.

78-302 Artistic is the embroidery in conventional design which shows up admirably against the heavy quality Silk Crepe-de-Chine which develops this modish Casaque. It trims shoulders and continues to edge of kimona sleeves and forms the side border at lace edge of this "EATON-MADE" model. Two covered buttons and loops close the tiny opening at front, while tasseled fibre silk girdle is drawn through loops at side. **State size and color.**

When Sending in Your Order be Sure to State Size and Color

IN THESE DAYS, when thrift is of vital importance, one is particularly anxious to get the best value obtainable, and in this department are found underwear, nightgowns, corsets, aprons and boudoir caps, all marked as low as existing trade conditions make possible.

The reliable materials include all the most suitable fabrics, as silk, all-wool, all-cotton, and a mixture of wool and cotton are

represented in the various articles, while cleverly applied trimmings, such as lace, ribbon and fancy stitching, add decoration when it is appropriate. These garments for women, misses and girls are for the most part "EATON-MADE," and all show evidence of careful workmanship. Every purchase should give complete satisfaction in regard to finish, material and value.

Nemo

Self-Reducing Corsets

Add Grace and Charm to the Figure

The Little Nemo

Sizes 20 to 28.
A popular model for slender figures. Of light weight white coutil. The comfortable low top has elastic inserts, wide unboned hip sections, which adds ease without impairing the hip-confining qualities. Long hip and skirt. Four hose supporters. Price..... **4.00**

This illustration shows the technical construction of the side steels used in Nemo Corsets. The boning wire and steels are made of clock-spring, rustproof steel of a very high grade. Because of its pliability this boning is used double in stout figure models.
AA indicates the two steels. This method of double boning prevents breaking or digging in.
BB shows waterproof paper covering which is a protection against rusting.
CC shows the outer covering of cloth.

Self-Reducing Corset

Sizes 22 to 36.
Nemo Self-reducing Corset for average full figures, short and medium height with flesh evenly distributed. Made of white coutil, boned with double tempered steels, low bust, long hip and skirt. Four hose supporters. Price, delivered..... **6.33**

Nemo Kop Service

Sizes 23 to 36.

98-511 This Nemo Corset is adapted for the large class of women who do not particularly require abdominal reduction, but are too heavy in the hip and thigh. This model is made of white coutil and has the triple reducing construction—bands of semi-elastic webbing and gores of Lastikops cloth—by which the back, hip and upper limbs are reduced and the long skirt made flexible and comfortable. Made in the low bust style and has six hose supporters. A well-made and serviceable corset which is sure to please its wearer. Price, delivered..... **9.08**

Nemo Hygiene Service

Sizes 23 to 36.

98-403 This Nemo Self-reducing Corset is one of the best models for medium and tall heavy figures. The relief bands of semi-elastic webbing under the self-reducing straps take up, reduce and firmly support a heavy abdomen. Self-reducing straps give additional support. Made of white coutil, medium high bust, long hip and skirt with semi-elastic incurve back. Six hose supporters. Price, delivered..... **9.08**
98-402. Same model as 98-403, for short stocky figures. Price, delivered..... **9.08**

Self-Reducing Model with Lasticurve Back

Sizes 22 to 36.

98-322 Nemo Self-reducing Corset for medium and tall stout figures with excess flesh evenly distributed. Made of white coutil, well boned with double-tempered steels. The relief straps reduce and support the abdomen, while the Lasticurve back produces graceful lines and assures flexibility and ease in any position. Medium bust, long hip and skirt. Four hose supporters. Price, delivered..... **7.15**
98-320. Same model as 98-322, for average stout figures. Price, delivered..... **7.15**

Nemo Wonderlift Corset

Sizes 24 to 36.

98-554 Nemo Corset with Wonderlift band which lifts up and holds in healthy position the weakened or fallen abdominal organs. It likewise prevents the development of such conditions. The bandlet is attached to the corset at the front and is completely adjustable to the exact individual line of the wearer. Made of white coutil, medium bust. Six hose supporters. Suitable for figures. This model must worn well down on the figure so that the bandlet and incurve front steels come well under the abdomen and give full support. Price, delivered..... **9.00**

Quality and Style For Average Figures

Sizes 20 to 30.

98-1330 A scientifically designed FlexOsteel Corset of heavy pink coutil. Low bust trimmed with a fold of satin edged with lace. Long hip and skirt with a deep gore of elastic in the back to take care of surplus flesh across the hips. An elastic lacing below front steel controls flesh on the upper limb and allows for natural spread of body when seated. This model is boned with the unbreakable non-rustable FlexOsteel, which adds greatly to the life of the corset and the comfort of the wearer. Four hose supporters. Price.. **4.75**

Comfort for Medium and Stout Figures

Sizes 22 to 36.

98-1328 This FlexOsteel Corset is made of white coutil and is substantially boned with non-breakable FlexOsteel, which is very soft and pliable, but possesses splendid figure-moulding qualities and retains its shape. Medium low bust, long hip and skirt. The reinforcement across the abdomen assures good support and adds strength to the graduated front clasp. Deep gore of elastic in the side provides flesh control as well as comfort. Four hose supporters. Price..... **4.00**

For Slight and Medium Figures

Sizes 20 to 30.

98-1329 FlexOsteel Corset, in which comfort and figure moulding qualities are combined. Made of white coutil, boned with FlexOsteel, the modern boning of pliable wire which bends so easily yet is sufficient in stiffness to properly support the figure. Gives freedom without restraint and flexibility without breaking. Low bust, long hip and skirt with an insert of elastic in the back which holds the corset snugly to the figure and allows for comfortable expansion. Six hose supporters of good quality elastic. Price..... **3.85**

Durable and Comfortable Corset

Sizes 22 to 36.

98-1327 For medium and stout figures, this De Milo Model presents exceptional wear, value, flesh control, comfortable support and stylish lines. Made of white coutil with medium low bust and long hip and skirt. Reinforced across the front, below which is a band of elastic to confine and reduce the flesh on the hip and support the abdomen. An insert of elastic in the back distributes the flesh and turns the lower edge of the corset inward. Six hose supporters. Price..... **4.00**

Be sure to state size desired when sending in your order. Your correct size is two inches smaller than outside skirt band.

Sizes 20 to 28
98-1333 A most satisfactory Front-Laced Model for the average figure. The material is strong pink coutil, trimmed with a serviceable scalloped fold of self. Careful attention has been given to the proper placing of the boning, which leaves the hip free from pressure, yet gives a firm support to the figure. Shield under front lacing. Low bust, long hip and skirt. Note the graceful incurve effect in the back. Four hose supporters. Price..... **3.25**

Practical Front Corset
Sizes 22 to 36

98-1336 A practical front Corset with many special points of excellence. Well made of long-wearing white coutil. The "Queen Collapso" Dress Form
Home Dressmaking Made Easy

27-971. The "Queen Collapso" Dress Form. The "Queen" represents a very high point in the manufacture of adjustable dress forms. One of the special features possessed by it is the hinged waist, which allows the independent adjustment of the waist and hips. Not only are these parts adjustable independently of each other, but any section may be changed without affecting other parts. It has 28 sections which can be adjusted to suit almost any figure. The collapsible skirt and stand allows it to be packed away in small space, or can be set on table as waist form. Covered in grey jersey cloth. Size 1 adjusts from 32 to 43 ins. Size 2 adjusts from 32 to 46 ins. Price, delivered... **30.00**

How to Measure for Men's Clothing

Always State Height and Weight

Suits.—When measuring for a suit, place the tape all around the chest over the vest—the coat off (as shown in diagram 1). Stand naturally, and do not expand. Have the arms down close to sides, draw tape snug, but not tight. The number of inches measured on the tape is your size.

Overcoats and Raincoats.—Take chest measure over vest, same as for suits. We make the correct allowances to fit over suits.

Trousers.—Take the measure in inches around the waist, just above the hip-bones (as shown in diagram 2). Always feel the sides for location of the hip-bones). Also measure the length of the leg from inside close up in crotch to the heel of boot. Cuff-bottom pants should be ordered 1 1/2 ins. shorter than trousers without the cuff.

FEDERATION OVERALLS

They're "EATON-MADE"

Stand Every Test of Service

Priced Surprisingly Low

All Seams
Double-Stitched
Made Roomy
and
Comfortable

You'll Feel at Home
in "Federations"

We do not hesitate to tell Railroad Men, Laborers, Farmers and Mechanics that "Federation" Overalls and Smocks are the most serviceable and comfortable garments our factory has ever produced. They'll wear like iron, even under the most strenuous conditions, because they're made of strong, firmly woven drill and denim. They're double stitched throughout, and to prevent ripping they're made with continuous side vents. You should find "Federation" overalls the roomiest, most comfortable working clothes you ever got into because every garment is cut in generous proportions with extra wide seat and thigh and a fullness at places where there's most action.

Strength and Durability in Every Seam
Comfortable to Work In

Sizes 34 to 44 inch waist.

Leg length 30 to 34 inches.

Colors: Plain Blue, Plain Black, and Blue with White Stripe.

Overalls illustrated to the left are cut in the same full easy-fitting style as our regular Federation Overalls described to the right. The addition of an extra front of same material runs from the top of front pockets, to well below the knees—also double seat and fork, thus ensuring double service.

Overalls illustrated to the right are our regular Federation, made of strong cotton denim and drill. They are cut large and roomy with strong adjustable elastic-end suspenders; have two top, two hips and rule pockets; also combination watch and pencil pocket in bib. The brass finished buttons are securely rivetted on.

Smocks to Match the Above Overalls

Smocks to match our double knee Overalls are cut on the same generous lines; they have adjustable cuffs with 3 buttons, and adjustable neckband with 2 buttons and 2 buttonholes.

Smocks to match our regular Federation Overalls are cut on comfortable, easy-fitting lines; have four pockets, buttoned cuffs and all the seams are double stitched. Made to give satisfaction.

"Better-Made"

Clothing for Sturdy Boys

These "Better-Made" Suits Offer a Most Unusual Combination of Sound Economy and Distinctive Style

THE very unique feature about them is their distinct superiority in every detail of make-up, at a price actually less than what mothers have been expecting to pay for even an ordinary suit. The value is so pronounced and apparent, in fact, that these "Better-Made" "EATON-MADE" suits will surely prove to be the supreme favorites of the season.

They will render an exceptionally long term of service, even under the most strenuous conditions, because the fabrics have been selected for their sturdy wear-resisting quality, and because the EATON tailors have expended every effort to make the "Better-Made" line an achievement in the making of boys' clothes. Full attention has been paid to those little features that mean so much in the life of a suit, such as the bar-tacked pockets, the inside seams that are double-stitched and taped, the specially shaped and padded lapels, the buttons that are hand-sewn with linen thread, the rubber interlined armbands, and the EATON patent hook and buckle fastener on the knee bands.

Note the swagger style and youthful lines of these suits! The bloomers are cut full and roomy. The coats are tailored in a combination model that may be worn with belt or without—showing the waist line seam which so many boys are talking about just now. The slash pockets, the yoke, the knife pleats at each side, back and front, and the cuffs on sleeves are little dashes of style that will appeal to young fellows.

Although you cannot see them, there are such added points of interest as a watch pocket under pleat on left side of coat, inside pocket on right side, self belt and buckle with seven belt loops, and extra watch pocket with button fastener.

THE "BETTER-MADE" SUITS COME IN THREE DURABLE MATERIALS.

On pages 298 and 299 are displayed a very representative collection of men's neckwear, mufflers, etc., most suitable for gift giving. A number of new ideas are shown which should meet the requirements of particular as well as conservative dressers. Prices, too, are most reasonable.

To avoid delay in delivery and sometimes disappointment, it is most essential that correct size of collar be clearly stated when ordering. It ensures prompt attention, better service, and satisfaction to both parties.

ALWAYS STATE CORRECT SIZE

To clean rubber collars and make them look equal to new, take a piece of clean cotton moistened in water with a little soap, rub gently until all spots and stains are removed, allow to dry then collar is ready for use.

How to Get Your Glove Size

Notice the illustration herewith. Pass an ordinary tape measure around the knuckles, but not over the thumb, and draw it moderately close, neither loose nor tight. The number of inches around your hand as thus measured is the size of glove you should wear. When sending in your order be sure to state this size and also the color you desire.

How to Put On Gloves Correctly

Figure 1 Insert the four fingers carefully into the glove, leaving out the thumb. (See illustration No. 1.) Gently and gradually work glove down until the fingers are completely in. THEN insert the thumb and work same down smoothly and carefully.

Figure 2 Then draw the glove on the rest of the way, by seizing it by the back. (See illustration No. 2.)

Figure 3 NEVER pull your gloves by the corner of the cuff. (See illustration No. 3), that will tear a glove.

Figure 4 DO NOT try to force the gloves on by pushing down between the fingers. (See illustration No. 4.)

Patent Leather Footwear

It is always advisable to warm a patent leather boot of any kind in the hand before putting on the first time, especially in cold weather. The natural warmth of the hand renders the leather more pliable and less liable to crack.

ORGANS

The New Duchess Organ Piano Case Model

The Tone is Rich and Clear and the Appearance Handsome

Price **160.00** Freight Paid From Factory

A new model Organ specially designed for the home. It is very similar in design to a piano and nearly as large. Every part of case and action has been built from tested materials by experienced organ makers, who have worked with care and exactness that this organ may give years of satisfactory service. It has a rich tone, pure and mellow, that will give a good volume of sound without becoming harsh. The case, so handsomely designed, is finished with several coats of varnish that are hand-rubbed and polished. Either Walnut or Mahogany finish may be had. Another piano-like feature is the music desk, which forms the full front of the instrument. This swings out into place when the fall board over the keys is pushed back. We recommend the "New Duchess" to all who desire a sweet-toned organ of distinctly attractive appearance.

These are only general specifications; if you desire further particulars write for our Organ Booklet, which contains a full description, and which we will most gladly forward you on request.

Keyboard—8 octaves in F scale, eleven stops and four sets of reeds.

Knee Swells—"Forte" on the left and "Grand Organ" on the right.

Size—It stands 4 feet 10 inches high, is 4 feet 8 inches long, and 2 feet from back to front.

37-132. Walnut Veneered.

37-133. Mahogany Veneered.

Price, freight paid from factory to your nearest railroad station. No extra charge for boxing. **160.00**

The New Princess is Designed for Home or Public Use

Walnut Finish **115.00** Freight Paid From Factory

Here is an Organ that is well suited for the smaller public gatherings in church or school, or for the home. Its fine design and beautiful finish give it decided value as a piece of furniture, while the excellent tone from the four reed action proclaims its success as a musical instrument.

The action of this organ comprises all the new improvements, and all materials used in its construction can be relied upon for faithful and long service. Thus, the "New Princess" offers an exceptionally good opportunity for those who desire a thoroughly dependable organ that is not high priced. Bellows are well balanced and provide plenty of even wind pressure, giving a fine volume of sound for an organ of this size.

The eleven stops also place at the disposal of the player many variations in tone and volume.

A few of the specifications are given below, but all details are fully described in our Organ Booklet which we will gladly send free upon request.

- Keyboard—5 octaves in F scale, eleven stops, 4 sets of reeds.
- Pedals—Metal trimmed, carpet-faced and mouse-proof.
- Finish—Dark walnut, highly polished.
- Knee Swells—One "Forte" and one "Grand Organ."
- Size of Case—4 feet 5 1/4 inches high, 3 feet 10 inches long, 1 foot 11 inches from back to front.
- 37-134 Price, freight paid **115.00**
- Freight paid from factory to your nearest railroad station. No extra charge for boxing.

Planos, organs, organ stools and benches are shipped direct from different factory points in Ontario by freight, and it will therefore be necessary to allow a longer time for transportation. A bill of lading will be mailed stating what is included in each shipment.

Mellow-Toned Accordion in Two Styles

Made in Switzerland

- 37-135 Medium-sized Accordion, has 10 button keys, 2 sets of reeds and 4 bass keys. THE Amphion PHONOGRAPH

Beautiful, Sweet-toned, Moderately Priced

AMPHION A hero in Greek mythology, master of music, who by his skill in playing the Lyre, accomplished with ease the building of the wall of Thebes by causing the stones to follow and obey him. (Encyclopaedia).

Thus the ancients immortalized music. "Amphion" thus is a fitting name for this Phonograph, because with it the music of to-day can be immortalized.

We very strongly recommend these instruments. For tonal qualities and appearance they are among the best sound reproducing instruments being offered, and the price is exceptionally low. We purchased practically the entire output of a well-known company, and handling them on a cash basis permits a very big reduction in price.

The Model No. 2 (shown here with cabinet, described below, and sold separately) is a beautifully-finished, low-priced instrument, and possesses a good quality of tone with ample volume for the home. It is 13 1/2 inches high, 18 1/2 inches wide, 21 1/2 inches from back to front; improved nickel-plated reproducer with universal tone arm permitting all makes of records to be played; 12-inch turntable, tone control and graduated speed regulator; three-ply all-wood tone chamber, made of specially selected wood. The tone controlling device permits the volume to be altered as desired. The Stevenson Precision double spring spiral-drive spiral-winding motor, gives ample power that is even and constant. It can be wound while playing. 100 steel needles and 2 sapphire points for playing Edison and Pathe records are included with each phonograph.

- 37-100 Mahogany Veneered Phonograph. Price, freight paid 50.00
- 37-101 Fumed Quarter-cut Oak Veneered Phonograph. Price, freight paid 50.00

RECORD CABINETS

The careful choice of materials and beautiful construction make these Cabinets (which are sold separately) objects of grace and beauty. All metal parts are nickel-plated, and gliders on the feet permit the cabinet being moved without scratching the floor. Cabinet illustrated on the right, priced at \$22.50, is fitted with a vertical rack for 84 10-inch and 84 12-inch records. It is 32 1/2 inches high, 18 inches wide, and 22 1/2 inches back to front. Cabinet illustrated on left, priced at \$19.50, is fitted with 7 shelves for record albums. It is 33 1/2 inches high, 18 1/2 inches wide, and 21 1/2 inches back to front.

The Amphion No. 4 Enlivens Your Home

37-106 Amphion Phonograph, Model No. 4, Fumed Quarter-cut Oak veneered. Price, freight paid 100.00

The evenings are never dull in the home where the "Amphion" reigns. It responds to your whim of the moment. If a light catchy song is desired the Amphion will play it with the sparkle and life of the living artist. If a dance you prefer, the Amphion will play for your company as fast or as slow, as loud or as soft, as desired. Or perhaps you would like an evening with great opera gems. Then the Amphion will render your favorite selections with all the expression of the living artists.

Remember that the EATON guarantee of satisfaction covers every instrument we sell - you run no risk in ordering an Amphion.

The Amphion Model No. 4 is a moderately-priced instrument with all the tone qualities and appearance of instruments costing considerably more. It is very richly designed. Veneers are well matched, finely grained and highly polished. The back is finished in the same superior manner as the front, top and sides. Gliders on the feet permit the instrument being moved without injury to the floor or floor coverings.

The strikingly clear tone is the result of the specially constructed sound chamber (similar in all Amphion models). This is made of three-ply wood, selected because of its responsiveness to sound. The fact that it is all wood assists materially in producing its mellow and pleasing tone.

Cabinet is 43 inches high, 20 1/2 inches wide, 21 1/2 inches deep. Improved nickel-plated reproducer with universal tone arm, will play all makes of records, 12-inch turntable; graduated speed regulator and three-ply all-wood tone chamber. The tone controlling device with which all Amphions are fitted permits the volume of sound to be altered as desired. Six shelves for record albums. Fitted with the Melissbach double-spring spiral drive motor, which has ample power and is even and constant. It may be wound while playing. 100 steel needles and two sapphire points for playing Edison and Pathe records are included with each phonograph. Choice of Mahogany, Fumed Oak or Walnut Veneered Phonographs. Price, freight paid to your nearest railway station 100.00

THE Amphion PHONOGRAPH

It's the Life of the Home it Adorns

Amphion Model No. 3 **75⁰⁰** Freight paid

In the long winter evenings—the time of lamp-light and fire-light—a welcome addition to the family circle is the "Amphion." When the wind is whistling about the eaves and the snow is shrouding the earth, it's nice to sit snug in your favorite chair and summon the artists of the world to entertain you.

The Amphion will perform this service for you as perhaps no other instrument can. Playing all makes of disc records equally well, and possessing the most advanced reproducing mechanism, the music comes to you mellow and true, as sweetly natural as if the living artists were standing before you. The universal tone arm, reproducer and sound chamber are so well designed that the slightest shade of expression is faithfully reproduced. Then the Amphion motor is an exceptionally silent one. Thus you listen to only the music of the record—no noises from the motor to spoil it.

The Amphion is handsome, dignified and artistic in appearance. The veneers are selected for the beauty of their grain, and the cabinet is finished with painstaking care and attention to detail.

The following are the details of construction of the Model No. 3: Cabinet size 40½ inches high by 19½ inches wide by 20½ inches back to front. Improved nickel-plated reproducer with universal tone arm; green felt 12-inch turntable. The tone controlling device permits the volume of sound to be altered as desired. Graduated speed control, three-ply all-wood tone chamber record compartments for five albums (albums not included), each with a capacity of twelve records. It is fitted with the well-known double spring spiral drive and spiral winding Stevenson motor. The Mahogany veneered phonograph is shown on the left, and the Fumed Oak veneered phonograph on the right. 100 steel needles and Sapphire points for playing Edison and Pathe records are included with each phonograph.

Whether it's the catchy steps of the waltz, the lilt of your favorite tunes, the sweet refrain of an old favorite melody, or the deep-throated volume of the mighty chorus, the Amphion will play it with unerring faithfulness. The purity of its tone, the wonderful fidelity with which it plays all music, and its exceptionally rich appearance, makes the Amphion Model No. 5 an unusually attractive instrument. This is an outstanding phonograph among the better-class instruments. In its beautiful finish and its clear, sweet reproductions, we feel confident it is perhaps the best offered at this price.

The universal tone arm, improved reproducer, extra strong motor and specially designed sound chamber are the outstanding features of the Amphion. On these important parts depend the tonal qualities of any instrument, and in the Amphion these parts were adapted only after long study and exacting experiments. With the universal tone arm and reproducer all disc records can be played in a manner that brings out every modulation of tone, every variation of expression. Sapphire points for playing Edison and Pathe records are included with all Amphion Phonographs.

The motor in this model is unusually strong and dependable. It is the three-spring spiral-drive Melselbach motor which runs smoothly and silently, and may be wound while playing. It gives the Amphion years of service over the ordinary instrument. The three-ply all-wood tone chamber is made of specially selected wood. The graduated speed regulator and tone control regulate the time and the volume of the selection being played. The 12-inch turntable has beveled nicked edge, and is covered with green plush.

Beautiful cabinet-making and careful choice of materials make the Amphion an object of grace and beauty, and an ornament to any home. The cabinet is 44½ inches high by 20½ inches wide by 21½ inches back to front; constructed of five-ply veneer with the back finished the same as sides. The grill work in front of the tone chamber is backed with silk. The interior is fitted with seven shelves for record albums.

This instrument may be obtained in Mahogany veneer, as illustrated in center, in Fumed Oak veneer, illustrated to left, or in Walnut veneer, illustrated to right. 100 steel needles are included with each phonograph.

We have been able to procure a further quantity of 303 British Cartridges. This ammunition was made for the British Government and ready for shipment to France when the armistice was signed. We have had these cartridges converted from hard point, as used in the army, to soft point as used for sporting purposes, and they are therefore splendid sporting ammunition. This ammunition is suitable for Military Rifles, such as Ross, Lee-Enfield and 95 Winchester. As the supply is nearly exhausted, we would therefore advise you to order now for present and future need.

How to Order Skates

Be sure to state length of boot in inches. Do not order skate by number. We often receive orders for skates as follows: Send me a pair of skates No. 9. Unless the word inches is mentioned we are at a loss to know whether it is for a man's number nine boot, or it is a 9-inch skate that is required. To avoid mistakes it is necessary to give the length of boot in inches. The length in which we list the various skates shown on this page does not mean length of the runners but length of the top plates on which the shoe rests. By following these instructions carefully, you are sure to get the correct fit.

Argo and Cyko Printing Papers

It is important to order a grade of printing paper suitable to your particular negatives. These papers are made in three grades. Contrast, for soft, weak negatives. Normal for normal or average negatives, and Soft for strong, vigorous negatives. There are three surfaces in each grade. Semi-Matt, which is a semi-rough surface, Glossy, and Studio or Velours which is a smooth surface without gloss. Be sure to state grade and surface desired.

IMPORTANT NOTICE

READ CAREFULLY

Instructions to Follow When Sending Films to be Finished

1. Write your name and address plainly on each roll, as well as the outside of the parcel. This is the only means we have of telling to whom the parcel belongs.

2. It is important that you send your instructions and money orders or postal notes, including return postage, in the same parcel with films. Send at letter rate of 2c per oz. and register parcel. Be sure to address your parcel plainly to T. EATON DRUG CO., 776 Department, Toronto, Canada. This will avoid serious delay and trouble in completing your order.

3. Wrap up films, instructions and money, tie very securely to prevent any damage, and register parcel to insure safe delivery.

4. Please do not include developing, printing and enlarging orders with orders for other goods. Mail developing, printing and enlarging orders separately and direct to 776 Department.

**Good Pictures are Easily Obtained With
This Well Built Folding Anso at 27.85 Delivered**

Those who desire a really good instrument that will give first-class service for many years will find in the Folding Anso a camera to suit their taste and requirements. The mechanical construction and handsome design of these cameras are expressed in one word "perfection." They are made in three sizes, suitable for landscapes, street scenes and portraits. They are fitted with variable speed shutters, double Rapid Rectilinear lenses; patent masked reversible view finders, "push cord" releases, adjustable focusing scale and rising and falling front. Bodies are covered with seal grain leather and metal parts are nickel-plated. An instruction book is included with each camera.

All our cameras are carefully tested before being shipped and are in perfect condition when they leave the store.

Read directions carefully before operating your camera as repairs are costly.

FOR AMATEUR PHOTOGRAPHERS

**From Some of Your Negatives
We Can Make Good Enlargements**

Those negatives which produce a good clear print will also make a good enlargement, providing the size ordered is not too large. Generally speaking, a 2 1/4 x 3 3/4 negative will make a satisfactory 5 x 7 enlargement, while a 2 1/2 x 4 1/4 negative produces a good 5 x 8 1/2 enlargement, and larger negatives make proportionately larger enlargements. We make enlargements in two different finishes, black and white and sepia brown. When ordering be sure to order by catalogue number.

Enlargements from Snapshot Prints when you have no Negative are 50c extra.

**\$10.00 and \$5.00 Monthly
Cash Prizes for Snapshots**

We are offering cash prizes for the best pictures sent to us for finishing each month up to November 30th. The rules and regulations governing these competitions are as follows:

Pictures will not be judged by quality alone. Any interesting picture has a good chance to win a prize.

- Rolls of film must be sent to us to be developed and printed.
- We will decide which pictures are eligible for the competition and at the end of each month these will be handed over to a board of judges composed of three members of the Toronto Camera Club, who will make the final decisions.
- Prize winners will be announced in our advertisement appearing in the Toronto Globe on the 15th of the month following each competition.
- 1st prize will be \$10.00 cash for the best picture each month, 2nd prize will be \$5.00 cash for the second best picture each month.
- The best of the prize-winning pictures may be used as illustrations in our next catalogue.
- Only those rolls of film received by us up to the end of the month can be entered for that month's competition. Last competition closes November 30th.
- Rolls of film intended for the competition should be plainly marked so; must be mailed direct to: EATON DRUG CO., 776 Department, Toronto, and should be mailed separate from orders for any other goods.
- Send full charges for developing and printing, including return postage with all rolls sent in.

FINAL—Note carefully to address films direct to EATON DRUG CO., 776 Department, Toronto.

**9 x 15 Enlargement
Specially Priced**

Weather Stripping

MORE COMFORT-LESS FUEL NEEDED

The use of Weather Stripping will help greatly towards a warmer home. And it naturally follows that the more cold air you keep out of the house the less heat you require inside, and therefore the less fuel will be consumed. Weather strip your house and do it thoroughly—windows, doors, cellarways and all. The little labor and cost are well repaid in the increased comfort.

Weatherstrip Your Home, and Do It Early

60-088. A Weather Stripping of good quality felt sewn around a core of solid rubber. This makes a firm weather resisting stripping. It is tacked to the window as shown or as the frame or door construction requires. Not only helps to keep out the cold drafts but prevents annoying rattling of windows. Each box contains 24 feet of strip and tacks for attaching it. Strip is 1/2 ins. wide. Price, per box of 24 feet..... **60c**

For Stables, Barns, Etc.

60-089. This Stripping is a thick grade of heavy felt very suitable for the purpose. It is splendid for stuffing large cracks in stables and barns or other outhouses. Keep frost out wherever it is necessary to keep it out by using plenty of stripping. There are 42 feet of in each carton, with tacks. Price, per carton..... **57c**

Cleaners And Sweepers

The old way—dust everywhere.

Price delivered
11-00

The Vacuum way—dust all drawn into the dust receptacle.

Do You Use a Vacuum Sweeper?

If not, start now. Saves your time and saves your patience. Does away with half your dusting or more.

61-623 Vacuum Cleaner and Sweeper combined. This machine which is easy to operate is a great labor saver. It not only sweeps the carpet with the brush but draws the dust into a dust bag by suction which is created by a bellows in the body of the machine, larger particles being caught in the litter pan which is easily emptied by pressing lever at the back. Dust bag can be taken out without trouble by simply moving the hook in front. The machine is strongly constructed, the body is built of steel and enamelled to resemble mahogany. Wheels are rubber tired. Size 17 x 12 and 6 ins. high. Packed securely in crate with 3-piece handle. Price, delivered..... **11.00**

OAKGRAIN

**Gives the Effect
of Polished Oak
Suitable For Use on
Walls or Floors**

91-971 Oakgrain gives the same rich oak finish effect to your walls or floors as real oak flooring or oak panelling, and at a very small fraction of the cost. It is a heavy fibre paper over which is printed in oil colors the exact markings, shadings, seams, etc., of quarter-cut oak. It is a very faithful reproduction and only close inspection would note the difference. Oakgrain may be used in place of wallpaper, in panelling or wainscoting dining-rooms, halls, stairways and dens, and produces a dignified and beautiful effect. It is especially recommended as a border around rugs, but should be protected in front of doorways, as it will be affected in time by the constant scraping and scratching of foot friction. Comes in rolls of 5-yard lengths by 30 inches wide, in choice of either light or dark finish. Order by color and number. Price, per roll..... **55c**

WITH DIAMOND WALLBOARD

You Can Easily Make
Ugly, Disused Rooms
Cheerful and Attractive

Do You Intend Building or Making Alterations?

In the accompanying illustration, we show how Diamond  Wallboard can easily and quickly alter an ugly, disused and wall-cracked room into one that is pleasant and habitable. And such an attractive change can be made in a very short time compared to the old methods of lath and plaster.

Partitions or rooms can be finished in a few hours as against the days of labor and the muss of plaster construction. Diamond  Wallboard can be cut with a sharp knife or saw, and is very easy to handle. A few bundles kept in reserve in buildings, residences, factories and offices will be found very handy, because it is most useful in making repairs, alterations, constructing partitions, etc., and very helpful for store window displays, etc.

FIBRE VENEER

Quarter-Cut Oak or Walnut Appearance

Fibre Veneer is an exact reproduction of the real wood. It is made of a tough fibre paper, the surface reproduced with exact markings, colorings and grains of quarter-cut oak. Fibre Veneer is used extensively around the edges of rugs or carpets, or as a wainscoting around rooms up rail high on staircase, or between panels in a paneled room. It is applied just like wallpaper, with ordinary wallpaper paste, then given one, or for a real good job, two coats of varnish; you have then the appearance of highly-polished oak. Used in dining-rooms, living-rooms, bedrooms, stores, schools, etc., for floors, walls, ceilings.

- 91-550** Light Oak finish. **91-551** Dark Oak finish.
 - 91-552** Walnut finish. **85c**

All Crescent Brand Colors Are Same Price

If a man desires to sell, he can quickly obtain the highest value for his buildings when they display a bright and well-painted aspect. From such a good appearance, the buyer assumes the owner to be a prosperous and efficient man, and hesitates to make a low-value bid. Therefore, use paint plentifully; the value thereby added will more than repay the painting cost.

Here's a Paint to Resist Frequent Washings and all the Changes of Weather

This is a specially prepared, high-gloss Enamel Paint that will withstand the severe action of the mud and frequent washing. In most cases, one coat is sufficient, but if paint is badly worn, we would recommend two coats. You can afford to refinish your car at least once a year at this remarkably low price. Before applying paint, be sure that the surface is perfectly dry, and free from all grease, oil and dirt; also rub surface down with fine sandpaper before applying paint. It flows freely and dries hard with a good, rich gloss. Made in the following colors:

- 91-369. Yellow.
- 91-371. Black.
- 91-373. Rich Dk. Green.
- 91-370. Auto Grey.

SHINGLE STAIN

Adds Long-life to Your Shingles

Your roof, being subject to the wearing effects of all seasons and all weather, is the part of your building most often requiring repairs. Treating your shingles with Diamond \diamond Shingle Stain, however, will reduce your repairs to a minimum. Diamond \diamond Shingle Stain, in addition to adding to the appearance of your roof penetrates deeply and thoroughly into the wood, filling all the pores, and prevents the shingles from warping and decaying. Two or three coats should be applied for best results. One gallon treats 300 to 400 shingles dipped, or if brushed on will cover from 150 to 175 square feet.

BARN PAINT

A Time and Labor-Saving Way to Paint Your Barn is by Spraying

Probably the one big objection you have had in the past to painting your barn was that doing it with a brush meant a lot of time and hard work. There is no need now, however, of this reason preventing you. After making practical tests, we have found that you can paint your barn efficiently with very little effort, and in short time by spraying. Our Diamond \diamond Barn Paint is a special mixture for all surfaces—wood or metal—exposed to the weather. It is composed of reliable preservative ingredients mixed according to a formula obtained after long investigation. Apart from the protection against weather, consider the improved appearance of your out-buildings and barns if given a coat or two of our Barn Paint. It dries hard, leaving a good smooth finish. One gallon will cover about 200 square feet, two coats. Colors:—

- 91-240. Slate.
- 91-241. Red.
- 91-242. Moss Green.
- 91-243. Brown.
- 91-244. Maroon.

ATTRACTIVE OFFERINGS IN VARIOUS FLOOR COVERINGS

A Little Talk on Floor Covering

We have represented here some of the leading values in demand by our Mail Order customers.

We have many other lines, and if none of those illustrated please you, write us, giving full particulars, and we will be glad to offer you estimates and suggestions.

Linoleums and Oilcloths are inspected and in perfect condition when shipped. Examine crates or bales and make sure they are in good condition before signing railway receipt. In cold weather these goods become frozen in transit and must be handled very carefully. After taking off baling, leave in a warm room before unrolling until thoroughly warmed through and goods become pliable. Otherwise goods will crack.

SUCH A SATISFACTION IN A NEAT FLOOR COVERING

Some Information and Suggestions

Do not tack Linoleums or Oilcloths when originally fitted to the room (except at doorways), as it is necessary that they lie at least 10 days to stretch and become fitted to floor. Then they may be finally trimmed and tacked. In the meantime customers must use care not to break edges where exposed. Do not allow water to get in the seams or underneath Linoleums, as it will cause the goods to rot from the backing, for which we cannot be responsible.

Points to Remember

Be sure to state on your order the choice of finish of wood you desire.

Be sure to examine goods carefully before giving the railroad agent a clear receipt.

All furniture and bedding is delivered to the railway company in good condition, so don't accept anything that is damaged without having the Agent mark on your bill of lading any articles which are damaged.

Mattresses are rolled for shipment, and may appear smaller when unpacked. Lay out on floor and press out to full size.

We strongly advise you to send in your orders early, as the market conditions are such that there is a possibility that on some of the lines the demand may exceed the supply.

Sanitary Mattress

The mattress is sanitary, well-made and comfortable, having an outer layer of soft jute felt top and bottom, with interior filling of wood fibre. It is covered with good quality striped ticking, and is neatly tufted; plain sides, ends and edges neatly stitched with border about 4½ inches. You will be more than pleased with its comfort and durability. One size only, 54 ins. wide by 72 ins. long.

Chill-less Steel Bedstead

Bedstead is of steel, no cast iron being used in its construction. The upright and cross fillers are not welded to the end pillars, as is usually the case, but each is drilled and accurately fitted in the tubing, making the ends practically one piece of steel. Large continuous pillars measure 1¼ ins., five strong upright fillers measure ¾ ins.; head end 50 ins. high, foot 37 ins. high. Fitted with casters. One size only, 54 ins. wide by 72 ins. long.

All Steel Bed Spring

The Spring is extra strong, the high elevation of the link fabric adding to its comfort. It is fastened to the angle irons at each end by strong helical springs, holding the fabric tight and preventing sagging. The tubular side rails form the side rails of the bed, the tempered steel ends locking firmly on to the legs as shown in small illustration. One size only, 54 inches wide by 72 ins. long.

63-332 This Bedstead and Spring have been priced very low, making the outfit one of our leading values. The iron bedstead is made in a handsome design and well finished in snow-white enamel. Continuous pillars measure 1 1/16 inches in diameter. Five strong upright fillers joined at each end by fancy chills. The head end is about 54 inches in height and the foot end is 39 inches. All-Steel Sanitary Coil Spring, strong and reliable, consisting of oil-tempered steel spiral springs, securely bound together with heavy japanned wire, fastened to steel frame with heavy side angles, thus making springs almost impossible to break loose or sag. Absolutely sanitary, and is practically noiseless. Made in two sizes, 48 or 54 inches wide by 72 inches long, fitted with casters.

Order These Goods Early

As our customers are doubtless aware, recent unsettled conditions in the industry of producing iron and steel have made the available supply of these raw materials scarce. This fact, coupled with the rising costs of manufacturing, is bound to be reflected in the prices of goods into which these materials enter.

On this account we would strongly urge our customers to make an early selection of the goods shown on these pages. At the time of issue of this catalogue, our stocks are complete. Once these are exhausted, however, we may be obliged to cancel certain lines, through inability to secure a further supply.

COMFORT MATTRESSES

You spend about one-third of your lifetime in bed. Why not spend it restfully and comfortably? EATON mattresses invite healthful, refreshing sleep.

A Splendid, Restful White Cotton Felt Mattress

63-215 EATON Felt Mattress, made of White Cotton Felt, thin layers, one laid on another, until built to a height several times the thickness of the finished mattress. These layers are then encased in a beautiful floral design art ticking, with firmly-stitched sides, ends and edges. The interior filling and tufting is very evenly distributed, each tuft securely tied and held in place. The sides and ends of this mattress are firmly stitched with border about 4½ ins. deep, and a heavy continuous roll edge around top and bottom, which helps to hold mattress in shape. This method of manufacture ensures a comfortable, clean, sanitary, non-absorbent and elastic mattress. Freight paid to your nearest railroad station.

STRONG SANITARY BED SPRINGS

Bed Springs made only in standard sizes as follows:
39-in.,
48-in.,
50-in.,
54-in.,
by 6 ft. long.

Unusually Good Value in a Bed Spring

63-333 This is a very strong Iron Bed Spring that will give every satisfaction. Frame is made with heavy angle ends, strong tubular sides and corner castings, which elevate the fabric and make spring rigid and firm. The fabric is the celebrated link weave, made of heavy wire, black japanned, making it rustless and noiseless, and fastened to end angles by oil-tempered steel helical springs, which prevent sagging. Frame is finished in black japan. Sizes: 39, 48, 50 and 54 inches wide by 6 feet long. Suitable for iron or wood beds. If spring is required for wood bed state inside width and length. For iron or brass beds, state outside measurements, width and length. Freight paid. Price..... **8.50**

All-Iron Bed Spring with Corner Braces

63-712 This Spring is strongly constructed, with heavy steel angle iron frame finished in black japan. Has extra corner braces, which make it more solid than springs usually sold at this price. Fabric is the patent link style. Made of heavy wire, securely fastened to end angles by oil-tempered helical springs, which prevent sagging, and finished in black japan, which makes spring practically rust-proof and noiseless. Sizes: 39, 48, 50 and 54 inches wide by 6 feet long. Suitable for iron or wood beds. For wood beds state inside width and length. For iron or brass beds state outside measurements, width and length. Freight paid. Price..... **7.35**

Strong, Durable Sanitary Coil Spring

Resilient, Comfortable

Made to Fit any Standard Iron, Brass or Wooden Bedstead

63-188 Here is a good Sanitary Spring Mattress and one that will give many years of service and that possesses the maximum of comfort. It is a coil spring of exceptionally strong and rigid construction, guaranteed not to sag. Each coil spring is firmly held in position by connecting wires, which are fastened in so secure a way that they cannot work loose, and are put together in a very close and tight manner. The numerous spiral springs are of oil-tempered steel, and are finished in black japan, making them rustless, sanitary and practically noiseless. The spring, being entirely constructed of metal, is positively vermin-proof. Made to fit any standard iron, brass or wooden bedstead. In sizes 48 and 54 ins. wide by 6 feet long. If spring is required for wood bed state inside width and length. If required for iron or brass bed state outside width and length. When ordering springs be sure to state if for wood or iron bed. Freight paid. Price... **11.75**

If Spring is required for Wooden Bedstead state inside width and length. If Spring is required for Iron or Brass Beds state outside width and length. Always mention on the order if Spring is for wood or iron bedstead.

Duplex Bed Spring—Guaranteed Not to Sag

63-201 Known as the "Spring with the Backbone," and the strongest all-iron spring we offer. Built to last many years, and guaranteed not to sag. Angle ends of spring are made of 1 1/2-inch stock. The tubular sides are made of 1 1/2-inch stock. Spring has an extra strong link weave with wide steel band in centre and sides and is linked to fabric by numerous oil-tempered helical springs, finished in black japan, which prevents rust. Two persons of unequal weight can rest comfortably on this spring, as wide bands prevent rolling to centre. Frame is finished in black japan. Heavy steel band edges keep fabric rigid and firm. Sizes 48 to 54 inches wide by 6 feet long. For wood beds state inside width and length. For brass and iron beds state outside measurements, width and length. Freight paid. Price..... **10.75**

Woven Wire Spring with Strong Supports

63-909 This Bed Spring is sanitary and comfortable and made to last. It has heavy angle iron ends, with strong tubular sides and extra strong corner castings; double woven wire fabric, with rope edge and cable wire supports underneath, securely fastened to steel frame. Frame is finished in black japan. This woven wire spring will be found most comfortable in use, and it is built to give long service. We guarantee full satisfaction to the purchaser who decides to make this selection. An added point in its favor is that it is very moderately priced. Made in sizes 39, 48 and 54 inches wide by 6 feet long. For wood beds state inside width and length. For brass or iron beds state outside measurements, width and length. Freight paid. Price..... **8.75**

Globe-Wernicke Sectional Bookcases

Sectional Bookcases need no argument to convince you of their superior advantage over the ordinary old-style bookcase or shelf. With these sections you can use as many units as you wish in a tier, arranging them as desired, each section or group with a base and top, making a handsome, separate, absolutely dust-proof bookcase. As your library grows you can gradually add unit after unit, your bookcase always presenting a finished appearance at every stage of growth. They are made of oak, kiln dried, in a golden or fumed finish, with easy-sliding glass doors.

Guaranteed for 20 Years

99-500 We can strongly recommend this machine to the woman who has a lot of sewing to do, as it is built to do the work speedily, quietly and with a minimum amount of exertion on the part of the operator. The mechanical construction is very simple and easily understood. The bobbin, which holds much more thread than the ordinary style, is easily taken out and replaced. Whether you are working on the finest of silk or the heaviest of woolsens there is no chance of the goods clogging as the tension adjusts itself automatically to the thickness of the goods. The rotating motion of the shuttle allows the machine to be operated about one-third faster than one equipped with a vibrating shuttle.

The handsome case is made of quarter-cut oak, golden color, and highly polished. The machine when closed can be used as a table, and the lifting of the lid automatically brings the machine into position ready for

use. There are six roomy drawers, and an 18-inch measure, which is embedded in front of the sewing head, will prove very convenient. A full set of attachments go with each machine, accompanied by a book of instructions which explains simply and clearly how to attach and operate them.

In purchasing this machine you are protected by the EATON guarantee, and also by the fact that it carries a 20-year guarantee against all defects. **Freight paid to your nearest railroad station. 68.50**

Sew-Easy Motor Makes Sewing a Pleasure. Can be Attached to Any Machine

21⁰⁰

Freight Paid

99-102 This little Motor does for sewing exactly what the name implies—it makes it easy. Every woman who has a sewing machine knows that the only part that fatigues her is the pedalling. This little machine does away with that pedalling. There are no screws or clamps of any kind, and no adjustments to make. You simply place the motor on the machine so that it comes in contact with the wheel, as per illustration, and screw plug of the extension cord into an electric light socket. Then by a slight pressure of the foot on the pedal you can regulate the speed — as slow or as fast as you wish.

The Sew-Easy will fit any make of machine, and by doing away with unsteady running of hand or foot power and replacing it with the smooth and steady power of the electric motor, you obtain results which are very satisfactory, and make sewing a pleasure. It is a very compact little motor, encased in nickelled steel perfectly insulated. Equipped with a 9-foot electric cord with plug for attaching to socket.

As the whole outfit—motor, cord and foot pedal—weighs but eight pounds, you can readily understand how easily it can be handled. The cost of operating is very small, as it requires less power than an 8 candle-power light. Every home which has electric power in it should have one of these little Sew-Easy Motors. **Freight paid to your nearest railroad station. 21.00**

Note the Low Price

Guaranteed for 10 Years

99-134 This popular, moderately-priced Sewing Machine is a smooth, easy-running one, and will give sewing satisfaction for many years. It is strongly constructed, has a vibrating shuttle, and makes the lock stitch; also fitted with the new self-regulating tension, which automatically adjusts itself to fine or coarse thread. The equipment is the same as our higher-priced machines, but the cabinet work, while substantial, is not so elaborate.

The Stand is ball-bearing. It runs easily and quietly, and is equipped with belt-retaining guard and polished steel pitman. The Case is a plain and substantial four-drawer drop cabinet. It is built of good quality seasoned oak, golden color, and is equipped with four side drawers, square corners, and automatic lifting device. An 18-inch measure is embedded in front of the sewing head. Complete with attachments, instruction book and a ten-year guarantee. **Price, freight paid to your nearest railroad station..... 55.00**

Specially Priced

Guaranteed for Ten Years

63-343 Why do you sew by hand, or worry along with an old, obsolete sewing machine when it is possible to purchase for the moderate sum of \$58.00 a thoroughly modern and reliable machine that has all the up-to-date features which are so much appreciated? The Raymond Machine has satisfaction built right into it, and although it is guaranteed for ten years, it will, with reasonable care, last for a much longer time. The Raymond is a high-arm, vibrating shuttle model that produces a firm, even lock-stitch. Its working parts are specially hardened. Ball-bearings are placed at all speed points, making it light-running and easy to operate, and the accurate, up-to-date construction

eliminates almost all vibration. The drop-head is fitted with an automatic lift, which permits of its being brought into position, ready to sew, with one motion. The machine has a positive, self-adjusting feed, making a perfect stitch, and has a self-threading shuttle. It is fitted with four drawers to hold the necessary sewing requisites while an 18-inch measure is embedded under the varnish on the table in front of the sewing head which will be found a very convenient feature. The cabinet work is of well-seasoned quarter-cut oak in a golden color. A full set of attachments and instruction book go with this handsome and reliable machine.

Search Packing Carefully

Look well through all packing when opening up shipments of chinaware and crockery. Articles have often been thrown away to the packing and claimed as short only to turn up when the packing was re-examined. This is especially true of covers. It quite easily happens because we use so much packing to ensure safe delivery. Trained packers sound and examine each piece of china to make sure it is perfect before shipping.

Edgerite Circular Saws

Made from the finest grade of saw-steel, Edgerite Circular Saws are as true and free from flaws as it is possible to make them. Being tempered and straightened by heat and pressure in airtight ovens, between heavy revolving plates, a perfectly even temper is produced throughout, with much less liability to buckle. The Edgerite Saws will stand up to their work at all seasons. The gullets are correctly ground by expert saw grinders, which tends to prevent cracking between the teeth. Circular saws are shipped direct from the factory, freight paid. When ordering be sure to state size and whether cross-cut or ripping saw is required.

Easy Hand Churn

The Reliable Hand Power Churn is a model of efficiency and cleanliness. It is economical, sanitary, and very easy running. The jar of glazed earthenware, and the frame of steel, is mounted on a base board, making the churn rigid. The handle to crank wheel, and the fly wheel are adjustable to lengthen or shorten the stroke. The Dasher may be adjusted by a simple turn of the thumb screw. Even if you do not make your own butter, you should have one of these churns in your home, for it will combine 1 pound of commercial butter with an equal weight of milk, and make 2 pounds of fresh, healthful milk-charged table butter. This churn will churn up to 2 1/2 gallons.

13-950 This handy set consists of one folding tub stand, made of selected hardwood, nicely varnished and fitted with attachment for wringer, and two strong galvanized tubs. One tub is size 20 x 11 ins., the other 23 x 11 ins. Folding tub stand is fitted with reversible drain board, which prevents water from dripping to floor while using wringer. It also makes washing less arduous by saving time, and a lot of heavy lifting. Tub stand and two tubs. Price, per set, freight paid..... **7.95**

13-940 The Water-Power Washing Machine is made from selected cypress. Has wooden dolly or agitator inside, and the sides of tub are corrugated. This rubs the clothes as thoroughly as on any washboard, and without labor. Motor is of poppet valve system, which will not corrode or stick up with sand or dirt that may be in the water. Cylinder and cylinder heads are brass and the piston aluminum. Gearing is of malleable iron, covered by shield. The washer is fitted with tub stand. To find out if you have sufficient water pressure to run this washer, turn the tap on full, and if you have a flow of 3 1/2 gallons per minute, the pressure is sufficient to operate this machine. Height 29 inches, width of bottom of tub 25 ins., width of top, 23 inches. Price, freight paid..... **29.75**

13-951 The Acme A Combination Washer is designed principally for farmers and is becoming popular on account of being so easily adapted for use with the gasoline engine or windmill as well as by hand-power. It is fitted with flange to connect belt, and the large fly-wheel acts as an extra driving power even when operated by hand. The cover can be raised without removing belt. The tub, which is made of cypress, is corrugated inside, heavily hooped and durably finished. Clothes are washed thoroughly and quickly, and in a manner which in no way endangers even the finest fabrics. Very simple in construction and very easy of operation. This machine takes all the labor and fatigue out of washing-day. Measures 22 ins. across top, and 24 ins. across bottom. Takes 2-inch belt. Price, freight paid..... **25.00**

SAVE MONEY ON ROOFING

EATON-MADE

Acme

Ready Roofing

Water-tight and Weather-proof

Acme Asphalt Ready Roofing is water-tight, wind-proof and weather-resisting. It is low in price, but will be found to give long and satisfactory service. This roofing is manufactured in our own factory under careful inspection, from a selected grade of roofing felt thoroughly saturated with asphalt, the surface being sand-coated, no animal oil or other substance unable to stand up against varying weather conditions entering into its composition. This process ensures a strong, tough, durable roofing that will not crawl or crack, and that when laid has a good appearance.

Acme Asphalt Ready Roofing is easy to lay by following the simple instructions on each roll. A hammer and knife or pair of scissors are the only tools required, nails and cement for seams being packed in each roll. Every roll contains 108 square feet of roofing—enough to cover 100 square feet of surface and allow for laps. Shipped from factory to you.

Diamond

Rubber Roofing

Longest Service—Fire-resisting

For most satisfactory and longest lasting results we strongly recommend the use of our Diamond Rubber Roofing, an elastic, tough, pliable roofing that is proof against all varieties of weather, and fire-resisting to a very high degree. The tough surface also is a great preventative of any tendency to rot.

Diamond Rubber Roofing is made of good quality rag felt, thoroughly and evenly saturated with asphalt and heavy mineral oils, the best roofing ingredients known, and finished with a tough, rubber-like surface that wears like iron. (The term "Rubber Roofing" means that it is pliable. The roofing itself contains no rubber ingredient.) It is easily applied, a jack-knife and hammer being the only tools required. It will not creep, run or crack under heat or cold. The fact that it contains no coal tar or animal oil makes it much more resistant to fire than ordinary roofings, as well as longer lasting and waterproof. Every roll of Diamond Rubber Roofing contains 108 square feet—enough to cover 100 square feet of surface, allowing for laps. Shipped from factory to you.

THE roof of a building necessarily bears the full brunt of all sorts of climatic changes. In choosing roofing, therefore, its capacity of resistance to the ravages of time, wind and all kinds of weather should receive careful consideration.

Make your selection from either of the "EATON-MADE" brands here shown and ensure the same satisfaction for yourself as many thousands of EATON customers who have used them. Being made right, climatic conditions and sudden changes in temperature have little effect on them; and because of our great output, we are able to sell at prices that afford you a substantial saving. **MAKE YOUR ORDER UP TO TEN ROLLS AND WE PAY THE FREIGHT. RED HOT FURNACE

The Greatest Heat From a Minimum Amount of Fuel

This Furnace is economical on coal, being constructed so as to give all the heat possible from the fuel consumed. It requires very little attention—much less than the ordinary stove; does not make any dust or dirt about the house, and when once installed adds many times its cost to the value of your home. It is very moderately priced, and will give you long, satisfactory service. The Red Hot is built to burn coal only.

The Red Hot ensures steady, constant heat evenly distributed throughout the house. During the moderate weather it may be checked down to keep the fire barely alive, thus consuming little or no coal.

You can't afford to spend another winter without the Red Hot in your home. Considering the amount of coal you burn in ordinary stoves, and the uneven distribution of heat you get for it the Red Hot will prove a big economy because it burns less coal, and gives more heat; with it you can turn on heat in just the rooms you want heated, and just when you want them heated.

When you experience the real comfort it gives, and the work about the house it relieves you of, you will be grateful for having installed the Red Hot.

Here are the Details

GRATES—Triangle rotary type, may be removed and replaced without tearing down the furnace. **FIREPOT**—Made in two sections, avoiding cracking by expansion and contraction, and in case of repairs saving half the expense. **RADIATOR**—Made with one flue, which starts at feed door, and does not allow the smoke or gases to escape until they have travelled completely around to the other side of the feed door. A baffle plate or smokepipe collar distributes this heat the full depth of radiator. **COMBUSTION CHAMBER**—Has separate wall from the radiator, making three steel surfaces in all, throwing heat into the casing in addition to the east top and firepot. **DIRECT DRAFT**—Damper is placed in radiator on side of door nearest smoke collar. This gives a quick short route for the smoke when putting on coal. **DUST FLUE**—A dust damper and flue take the dust caused by dumping the fire, into the smoke outlet. **SMOKE COLLAR**—Interchangeable so as to be easily put on either side of the furnace. **DRILLING**—If you wish your furnace drilled in order to connect it to the boiler add \$1.00 to the price as shown in the catalogue and state drilled when ordering.

SIZE REQUIRED—To ascertain size of furnace required: If the house is two-storey, multiply the length of the house in feet by the width of the house in feet, and multiply this total by 18. If the house is three-storey multiply these dimensions by 27. The result is about the capacity of your house in cubic feet. In order to assure yourself plenty of heat for extreme weather allow 20 per cent. reserve for every ten degrees that your weather drops below zero.

INSTALLING—We do not install furnace outside Toronto, and would recommend that you procure hot-air pipes and smoke-pipes locally.

Make your hot-air pipes run as direct as possible, giving an advantage in size to long runs. Never put a hot-air pipe in an outside wall. Take the cold air from the coldest part of house to bottom of furnace casing as direct as possible. The cold air pipe should be large enough to carry an amount of air equal to the combined total capacity of hot-air pipes. All hot-air pipes must continue to rise from the furnace to the registers.

Write us and we will gladly give any further information required.

A TUBULAR RADIATOR

Gives You the Benefit of Heat that Otherwise Escapes

15-794 The Spiral Tubular Radiator utilizes the heat which ordinarily passes up the chimney. By conserving this heat the Tubular Radiator thus practically doubles the heat you get from your fire, and pays for itself in the fuel it saves. It is made of polished steel, and contains six large tubes running from bottom to top as shown in illustration. These are the big features of the tubular because they promote circulation of air in the room, thus evenly distributing the heat. This heating attachment fits 7-inch stove pipe from any heater, cook stove or range, as it takes the place of one joint of pipe. Can be used to heat any room through which the stove-pipe passes, or as an additional heater in the room in which the stove is set up. Size over all 14 x 28 ins. Diameter of pipe collar 7 ins. Three Separate
Ovens Permit
Every Cooking
Convenience

**Only The Best Will Give Best Results
A Hurona Gives Perfect Satisfaction**

The Hurona Multi-Oven Range has many advantages that will appeal to the woman who demands the best. Its modern scientific construction assures splendid cooking and baking qualities, while its practical, fuel-economizing oven arrangement wins instant favor. It is strikingly handsome, due to its fine proportions and finish, and its highly polished cooking top, smooth nickeled work and porcelain enamelled panels are easy to keep bright and spotless.

The Hurona burns hard and soft coal or wood, and all three ovens are heated from one fire-box, which is no larger than that of a single-oven range.

NOTE THESE GOOD POINTS OF HURONA CONSTRUCTION

POLISHED COOKING TOP measures 24 x 22 inches, and has four 9-inch cooking holes. Is 33 inches from floor. It is made of good quality grey iron, highly polished. Main top over all, including reservoir, is 67 x 30 inches.

Body is of heavy steel sheets, closely riveted. **OVEN DOOR LININGS AND SPLASHER PLATES** are of three-coat white enamel.

COPPER RESERVOIR holds 10 Imperial gallons, and is heated by contact.

FIREBOX—18 x 7 x 8 inches in size, is fitted with extra heavy cast-iron linings and Duplex roller grates.

RISING OVEN—In this 13 x 20 x 16-inch oven, pastry and bread can be placed to rise, free from cold drafts and dust.

BAKING OVEN, with glass panelled door, is thoroughly ventilated and is heated from the bottom; 18 x 20½ x 12½ inches in size.

ROASTING OVEN—18 inches wide, 20 inches deep, 13½ inches high.

PLATTER HEATER at the extreme right top corner, measuring 20 x 20 x 7 inches, is large and roomy and is fitted with rolling door.

PLATE HEATER at left side above cooking top is 25 x 12½ x 7 inches in size, and is conveniently located over the cooking surface, with a drop door which forms a shelf.

ACCURATE THERMOMETERS are fitted to meat and pastry ovens, and a standard timepiece to the high closet.

**The
"Old Honesty"
Heats Quickly,
Evenly, and Uses a Small Amount of Fuel**

The "Old Honesty" should specially appeal to the woman who is looking for cleanliness and neatness in her kitchen for the least amount of energy expended. The simple, pleasing design of this capable range permits cleanliness with very little trouble or bother. A light rub with a damp cloth will easily keep its polished surface bright and clean.

Long use will prove this range as a splendid baker. It has an extra large oven and firebox, yet it is a great economizer of fuel. Equally good

results are obtainable whether using wood, hard or soft coal for fuel.

To change from using hard coal to soft coal or wood, all that is necessary is to lift out a small section of end brick, and drop in the special wood grates over the duplex grates. Duplex grates (a special convenience) can be removed when needed, without disturbing firebox linings.

In all details, you will find the "Old Honesty" thoroughly up-to-date, scientifically designed, and built to give a lifetime of satisfactory service.

READ THESE "OLD HONESTY" CONSTRUCTION DETAILS

OVEN—Splendid oven measures 20½ x 20½ x 15 ins. in height; it is fitted with two sliding oven racks, and will hold twelve 10-inch pie plates at a time. The strongly braced oven door swings easily giving full access to the interior, and when down forming a handy basting shelf.

TOP—Polished cooking surface measures 42 x 27 ins., 33 ins. from floor, and has six strong 9-inch interchangeable covers, one of reducing-ring pattern. Top is in three sections, rigidly braced.

FIREBOX—Has heavy cast linings, back being 1¼ ins. thick in centre. Front lining, formed of three chilled castings, has thickness of 1½ ins. Combination pouch feed and wood door permits of replenishing fire without disturbing utensils.

BROILER—The broiling section is an exclusive feature of this range. It is operated by shaker, by which the entire front top may be raised for broiling.

BODY—Is of heavy gauge polished and oiled blue steel sheets, closely riveted with double air space between oven and main bottom, flues being thoroughly lined with asbestos millboard. Smoke flue is of cast iron. Body rests on four substantial

slip-on legs, permitting of cleaning beneath range. Two front legs are nickel-plated, as is front section of steel band around bottom. Range measures 60 ins. to top of warming closet. Main top over all measures 56 x 27 ins.

NICKELED TRIMMINGS—Rich, yet simple in design, and hence easily kept bright. Well plated to give long wear.

WARMING CLOSET—Is roomy and convenient, fitted with drop pattern doors, forming handy shelves when open. In centre section is a reliable clock.

RESERVOIR—Holds about 11 Imperial gallons, and is made of planished copper encased in steel. Being alongside firebox, water is kept at high temperature.

THESE SPECIFICATIONS EXPLAIN THE CLIMAX EFFICIENCY:

The OVEN will hold a large roast or big baking, as it measures 20 x 20 x 13 inches high. Door is drop pattern, forming a firm, rigid basting shelf when open, securely held by strong catch when closed.

MAIN TOP is large, measuring 43 x 27 ins. It is of high-grade cast-iron, made in three sections, and fitted with six 9-inch covers, one a reducing cover.

RESERVOIR holds six Imperial gallons, heats quickly, and keeps water at an even temperature.

WARMING CLOSET is conveniently placed, capacious, and has rolling door, easily operated with one hand. Height of stove from floor to top closet 60 inches. Fitted with nickel-plated towel bar.

BODY of range is of rolled steel, with cast-iron top. The interior construction

is scientifically right. Pipe damper and oven damper give full and quick control. Has handy pouch feed through which fuel may be added without disturbing cooking utensils on top.

FIREBOX in wood-burning Climax will take 22-inch stick. In coal stove firebox is lined at front and back with cast-iron. It is very economical on fuel. Roomy ashpit holds bale-handled ashpan of large size.

TRIMMINGS—Handsome nicked trimmings include oven door frame, front rim on cooking top, front base and legs, ash door, grate door, two folding teapot shelves on back and side supports of closet, oven and warming closet handles, top corners of back and pipe damper. Being plainly designed, they are easy to keep bright and shining.

Price includes Poker and Lifter, also Shaker with coal range. If Oven Thermometer is required add \$1.25 extra.

Perfect Baking With The CLIMAX

Is a Certainty

There's A Dependable Oven

With a Steady, Even Distribution of Oven Heat, Isn't it Reasonable to Expect Good Results in Your Cooking, Baking or Roasting?

The preparation of three meals a day is a serious problem to any housewife. The general health and temperament of the whole family depend upon food being prepared and cooked so as to be appetizing and health-giving.

A woman may be the best cook in the world. She may be a veritable "cook book" of knowledge, and possess ability to prepare the most tempting dishes; but if her range should fail to cook properly what she so painstakingly prepares, all her knowledge and ability count as nothing.

Thus it is important that in choosing a range you should choose with care, and consider every detail of what should be the helpful assistant of your lifetime.

In the "Climax" range shown here we vouch for its capability in every detail as the most helpful assistant you could have for cooking or baking. Made in a size and weight to suit the average-sized family, the specifications show it is fitted with conveniences and labor-saving devices found in higher-priced ranges.

The plain, heavy, nickel-plated trimmings give a pleasing appearance, while the general simplicity of design makes it easy to keep clean.

To Handsome Appearance,
Its Real Value
Can Be Appreciated
In Its Ability To Give
Perfect Satisfaction**

There is, indeed, a very attractive look to the *Acme C*. A bright and pleasing style is at once discernible in both designs. And its good features do not stop with just agreeable exterior design.

A woman doesn't select her husband for his looks alone—though appearance often plays an important part. A wise woman knows that good character and pleasant disposition will long outlive, and possess greater benefit, than mere good looks.

It's the same with a range. A fine appearance is a good asset—something to point out with pride to your neighbors, and of great help toward a bright and cheerful aspect in your kitchen.

But, after all, isn't appearance a secondary consideration, compared to efficiency and all-year-round reliability in preparing appetizing meals quickly and easily?

The *Acme C* shown on this page is a range we can fully recommend for satisfaction in all your culinary efforts. The specifications show that all important parts are constructed to produce results that will please the most exacting cook and give food-pleasure to the whole family.

Made in two designs—with plain back, or tiled back and mirrored warming closet—and both same size, the *Acme C* possesses the same good quality material throughout. Both are attractive and handsome designs, and the equal in good cooking qualities to many very much higher-priced ranges.

The *Acme C* presents a Handsome Appearance fitted with Tiled Back and Mirrored Warming Closet.

SPECIFICATIONS OF CONSTRUCTION

TOP—We stock the *Acme C* in one size only, which has proved the most generally serviceable. It has 6 holes with strong 9-inch covers, one being in three-ring sectional style, to accommodate small-sized utensils handily. Main top measures 47 x 27 inches, and is 31 inches from floor, just the right working height.

OVEN—The *Acme C* oven is square in shape, being 20 1/2 x 21 ins. by 15 ins. high, a most convenient size. The drop door is full size of oven.

FIRE-BOX—The *Acme C* can be fitted to burn wood, hard or soft coal. A special feature of the fire-box is the Duplex Draft which gives the fire a strong air feed from both ends of the grate, thus ensuring complete combustion of fuel.

The wood fire-box is specially designed. The grate accommodates large sticks of fire-wood up to 26 ins. long. For burning hard coal, the stove is equipped with a well-proportioned fire-box, lined with heavy fire-bricks and fitted with Duplex grate. When soft coal is burned, we can supply the *Acme C* with a heavy grate specially designed for this fuel.

RESERVOIR—A generous size, holding 7 1/2 gallons of water, and placed next the fire-box. Made of heavy copper, tinned inside, finely nickelled outside, and with a closely-fitted black japanned cover.

WARMING CLOSET—Is made of rolled sheet steel with handy roll-top door, and extends across full width of back.

BODY AND TRIMMING—The *Acme C* range is made of heavy rolled sheet steel, and is properly proportioned throughout. Is 61 inches in height over all, and stands on four cast-iron corner legs.

FITTINGS—Each range is sent out equipped with lifter, towel-rack, poker, scraper, and a shaker if required. Detachable parts are shipped secured and packed in oven.

EXTRA GRATES, LININGS AND FITTINGS—For extra set Grates and Linings for hard coal, add \$8.00; extra wood fire-box add \$5.00; extra Grate and Linings for soft coal add \$8.00. If Water-iron is wanted add \$5.00. If thermometer is desired in oven door instead of plain centrepiece, mention this in your order, and add \$1.25 to the price.

When Fitted with Tiled Back and Mirrored Warming Closet

TILING—Is a pleasing combination of Pink, Green and blue or Brown colors.

WARMING CLOSET—Placed at a handy height and beautifully finished in tile, with handsome mirror doors. Its size, 37x12 inches, is ample for ordinary requirements.

REGAL COMBINATION

Burns Coal or Gas

Ideal for a small kitchen, as it permits cool comfort in the hot weather, and heat when needed in the Winter months.

THE Regal Combination Gas and Coal Range affords you the convenience and comfort of gas, either natural or manufactured, for cooking and baking in the hot weather, and of coal fuel for the cold or chilly days of Fall, Winter and Spring. Burning either one or the other, or both at once if desired, it will give thoroughly satisfactory results. It makes an ideal choice for the small kitchen. Combining the two in one range gives you the same facilities for cooking and baking as two separate stoves, and takes up but very little more space than one, its measurement over all being 48 inches long by 27 1/2 inches wide.

The Regal is a handsome, well-proportioned range, durably constructed on scientific principles throughout. Its tiled back, smooth rolled steel body and plain polished nickeled work make it easy to keep in perfect condition. We guarantee its cooking qualities, whether with coal or gas, to give you complete satisfaction.

Note these important Details

BODY—The Regal body is of high quality rolled steel of good weight, smoothly finished and easy to keep clean.

COOKING TOP—Of cast-iron, with four No. 8 cooking holes for coal, and four powerful star-drilled burners and simmerer for gas, each controlled by separate adjustable needle-point valves and air mixers. Under the burners is removable ash tray.

FIREBOX—Coal firebox is 16 ins. long, 7 1/2 ins. wide and 7 1/2 ins. deep; fitted with heavy cast-iron linings, so that small firewood may be used, though we recommend coal for best results. Duplex grates save fuel and are easily operated. Pouch feed for coal permits of adding fuel without disturbing cooking utensils.

OVEN—Oven is a splendid baker, and of good size, being 17 1/2 ins. wide, 18 ins. deep and 12 1/2

ins. high. Bakes equally well with either coal or gas. By simply operating a lever, gas burner is brought into position and a special damper is opened in smoke pipe for needed ventilation. Reversing process raises gas burner up and out of the way and closes damper automatically.

WARMING CLOSET—Handy warming closet is fitted with attractive and sanitary tiled back. Will not discolor or rust from grease splatterings.

TRIMMINGS—The plainly-designed nickel-plated trimmings on the Regal are very durably plated to keep their bright, attractive appearance. Easy to polish and keep clean.

RANGE as supplied, is fitted for artificial gas, but it can be fitted for natural gas if so desired at \$2.00 extra. Be sure to state when ordering whether wanted for use with natural or artificial gas.

CROWN HURON

A Neat, Efficient and Durable Range Priced Low

Don't fuss with that old worn-out stove, but decide to-day to install a Crown Huron Cast Iron Range, designed on the improved two-flue system, which compels the heat to circulate around oven before entering smoke outlet, assuring satisfactory baking ability.

Here are Points Worth Noting

FIREBOX—The well-proportioned fire-box is fitted with Duplex Grates and has brick lining front and back. Dampers give perfect control of the fire (which, of course, will keep in over night if desired) and are simply and easily operated. Hearth is provided with ash-pan.

OVEN—The oven is the large square shape, and has full-sized door fitted with convenient foot door-trip. You should have juicy roasts, toothsome bread and biscuits and delicious pastry with a Crown Huron. The wide side shelf will be found very handy when baking.

THE TOP, which is fitted with four covers, one in the three-ring sectional pattern, is of a good grade of cast-iron. Comes in your choice of 8-inch or 9-inch covers.

NICKEL-PLATED TRIMMINGS have been tastefully arranged, and, combined with the simple carving used on the body, give the range an attractive appearance, that will make it a credit to the kitchen.

The handsome nickel-plated tea-pot stands form a useful finish to the stove.

THE Acme Burns Hard Coal

Plainly Built for Good Service

In Convenient Sizes

OUR ACME Coal-burning Cast-iron Range fully demonstrates its high quality both in day-by-day performance and good looks. With it you can count on wholesome and most appetizing bread, cake, roasts and pastry.

THE OVEN is square in shape, roomy, and is fitted with oven rack and foot-operated door opener.

TOP is of smooth-finished cast-iron, braced and fitted to prevent sagging or cracking. It has one reducing ring cover, the rest being of double pattern, which prevents warping. Size of main top over all measures 46 x 28 inches.

THE FIRE-BOX is lined with fire-brick and fitted with duplex grates, which may be removed when necessary without disturbing the brick linings. This grate permits of cutting out the clinkers with little disturbance to the live fire.

BODY of the range is of cast-iron, free from flaws and sand-holes, smooth and easy to keep clean, and with just enough nicked parts to make a good contrast. It is mounted on a sturdy base with legs which permit of easily reaching be-

neath range when sweeping. Height to top of warming closet is 60 inches.

TRIMMINGS are plain in design, all excessive carving having been avoided to save the housewife labor. The nicked parts are easily removed for cleaning purposes. Nicked teapot stands fold up to allow room for washbowl.

WARMING CLOSET, 32 inches wide by 13 inches deep, inside measure, is roomy, easy of access, and fitted with handy rolling door.

RESERVOIR holds three gallons of water, is conveniently placed, and has a tight-fitting cover.

FITTINGS—Waterfront can be supplied if desired for \$3.50 extra; thermometer in door for \$1.25. Lifter, poker and shaker included with range.

The "Utility" is a Neat Design and Easily Kept Clean

THE UTILITY

A Compact, Well-Built Range Handy For A Kitchen Where Space Is Limited

Where a large range is not required we can fully recommend our "Utility." Though compact in size, it is carefully constructed on correct scientific principles to ensure perfect results in operation. The design is pleasing, and the low price at which it is sold makes it a very general favorite. Briefly outlined below are some of its outstanding points which it will pay you to examine if you wish a well-built and reliable range of this style:

Points of Importance in its Construction

OVEN is large and roomy for a stove of its size, measuring 17 inches wide, 21 inches deep and 12 inches high. It is fitted with removable oven rack. Door allows of easy access to contents, and forms a handy shelf when dropped.

TOP is of high-grade heavy cast-iron, and is fitted with four 9-inch solid covers. Has pouch feed door. Size of top is 43 x 24 inches, and it stands 28 inches from the floor.

FIREBOX—When fitted for burning wood, takes in a 17-inch stick. It has cast-iron linings and duplex grates. Ash-pit holds a strong ball-handled ash-pan.

BODY is of rolled steel, securely riveted. Weight of stove is about 200 lbs. Body rests on a strong base, of which the front

section and front legs are nickel-plated, the remainder of base and back legs being black finish. The plain, handsome, nickel-plated trimmings are perfectly smooth and very easy to keep clean.

RESERVOIR—Holding 4½ gallons, is fitted with smooth cast-iron top with cover. We do not supply a waterfront for this stove.

A Medium-sized Range Whose Name Implies Just What It Will Prove To Be—

A "Home Economy" of Money, Fuel and Baking Results.

There is a tendency on the part of every intending range buyer to dwell wholly on the points bearing toward baking efficiency and a good appearance. Undoubtedly these points are essential features toward satisfactory results; yet there is one point, and a mighty important one, that many people overlook when buying a range.

This point is **SIZE**—Size has almost as much to do with getting satisfaction from your range as appearance and efficiency.

is unnecessary, yet one of small size is insufficient to meet the needs, and where a medium-sized range will prove best.

In families of a few persons a large-sized range is not required, and the purchase of one only means an unnecessarily large coal bill, extra work, and valuable space lost in the kitchen. It is also a big mistake to put a small range in a kitchen where there is a large number to be cooked for. Disappointing results inevitably follow its limited capacity.

The "Home Economy" will especially appeal to this size household. This range is one we can confidently recommend to you as a medium-sized coal burner of exceptional merit and good appearance.

The specifications show why we are so confident of the "Home Economy"—it is constructed in every detail so that the most exacting user cannot but appreciate its abilities as a good cooker, a good fuel saver, and admire also the handsome effect of its trimmings and design.

Then again, there are families containing say, 3 or 4 members, where a large range

Getting Meals Ready is
an Enjoyable Task When There is Full
Confidence in Your Range. An *Acme* B
Will Give You This Confidence.

The *Acme* B is a thoroughly dependable Cast-iron Range, specially constructed for burning wood. It may be had in various sizes and styles, at very moderate prices, when the high quality is considered. An added advantage is that it can be readily converted at any time into a coal range by changing the grates.

Some Features of Importance

THE OVEN is a splendid baker. The handsome drop oven door permits of ready access.

THE FIREBOX is economical, easily regulated, of good capacity, and maintains a steady fire with an ample supply of heat to the oven.

BODY is of high-grade cast-iron, with heavily nickel-plated front section, front legs also being nickel-finished. Flues are of proper size to give perfect draft, and carry heat where needed. They are easy to clean out—an important consideration. Height of range over all is 61 inches. Other dimensions will be found in tables.

COOKING TOP is of heavy cast-iron, fitted and braced to allow of expansion and contraction. Covers are

guaranteed not to split or warp under heat, and are interchangeable, one being of the three-ring sectional pattern. Long centres are non-warplag.

WARMING CLOSET measures 32 x 12 ins., and is fitted with rolling door.

TRIMMINGS—Placed tastefully, are of durable nickel plate, and not over-elaborate in design.

RESERVOIR holds three Imperial gallons, and is heated by contact.

EXTRA FITTINGS—Coal grate to fit Range can be supplied if required for \$5.50 extra. Waterproof for use when there is a piped water supply costs \$4.50 extra; if Thermometer is desired in oven door, add \$1.25 to price. Lifter and Poker are included with each range.

55⁰⁰ FREIGHT PAID **Steady, Reliable Heat**

Great economy in consumption of fuel for the volume of heat produced is the big outstanding feature of our Art Huron Heater. It will serve you as a heater, furnace and range combined, as from the ample supply of heat it produces, part may be used to heat rooms above; and we can also supply it fitted with a splendid oven attachment, with which you can do a lot of your cooking, and do it as well as on a first-class kitchen range.

On the Art Huron, bright nickel-work, rich carving, and the many large mica-filled doors showing the cheery glowing fire within, make it a most attractive addition to any room; and it is sold at a very moderate price for a heater affording so much genuine luxury, comfort and convenience.

Following are some of its outstanding good points:—

DOUBLE HEATING FLUE—The Art Huron's double heating flue is a feature of great advantage. A pipe may be attached to it and the heat utilized to warm a room on the floor above if desired. This flue draws in the cold air from near the floor, heats it during its circulation through the stove, and distributes it from the top.

AMPLE FIREPOT—The heavy firepot is 15 ins. in diameter, and is equipped with shaker and duplex grates, which cut the dead ashes and clinkers from the coal, with little disturbance to the fire. The ash-pan is large, and easily removed.

CONVENIENT OVEN—The splendid baking oven, 11x11x14 ins. in size, with its two cooking holes and two nickelled swing teapot stands, is a unique feature of the Art Huron that will be instantly appreciated. It adds greatly to the value of the stove without taking away from its handsome appearance. When the oven is not in use, by leaving the door open a still greater volume of heat is radiated into the room.

LARGE SELF-FEEDING MAGAZINE—The capacious magazine holds a full day's fuel supply without replenishing, and automatically feeds it to the fire with little need of attention.

PEARL OAK

20⁰⁰ FREIGHT PAID

Compact, Efficient and Low-Priced—Just the Heater for a Room Where Space Is Limited

If you are looking for a Heater that will be a handsome adornment to your home and at the same time completely fulfil its purpose as a Heater—and if you want such an article at a moderate price, we believe we can fully recommend this Pearl Oak Self Feeder to you. We feel confident that the satisfaction you will derive from this heater will more than repay for the investment. This is especially so in regard to fuel consumption. The maximum heat from a minimum amount of fuel is a thing that you may always expect from the "Pearl Oak."

The general handsome appearance which is achieved by the heavy nickelled ornamentation and roomy mica-filled door will undoubtedly give general and lasting satisfaction where such a medium-sized, efficient coal heater is required. A strong, massive appearance is obtained with the nickelled side ornaments, and heavy nickelled skirt, while the rich carving gives a beautiful finish.

The Pearl Oak is equipped with a Magazine Feeder which holds enough coal to ensure a good fire over night. The Screw Dampers are made very tight-fitting, and completely prevent any escape of coal gas.

Handsome nickelled urn on swing top fitted with roomy ash-pan with bail handle.

Unless you require a large base burner, then select a Pearl Oak in one of the two sizes listed below.

The HICKORY AIR-TIGHT

**Burns Rubbish, Roots,
Wood-knots—Anything Burnable
But Coal or Coke. Throws a
Tremendous Heat—Just
the Heater for Large-
sized Rooms**

15⁵⁰
Freight Paid

15-762 It burns wood knots, rubbish, roots, etc., but is not suitable for coal or coke. Produces heat almost the second it is lighted; being oval in shape, its heat-radiating powers are very large. It differs from most other direct-draft air-tight stoves of similar character in having a hot-blast down-draft device which makes it more economical in fuel consumption, more even in heat distribution, and enables you to hold the fire more easily under control. Owing to this the Hickory will heat a larger space with less fuel than most other air-tight heating stoves the same size. The large removable top permits of burning big chunks or long sticks of wood which could not be used for fuel in heaters of a different type.

BODY is made of Steel Sheets and is securely joined to the heavy cast-iron top and base. Top, base and large ash opening and door are enriched with ornamental carving.

HOT BLAST DRAFT DAMPER, near the top, is connected with a flue running down under the fire; by this means perfect combustion of fuel, gases and smoke takes place, giving a hot, clean fire that does away with soot and choked-up chimneys.

DAMPERS on the Hickory are of a screw pattern, and handsomely nickeled and ground to an air-tight fit. In this way it may be closed up at night and the fire kept in until next morning.

FIREPOT is steel-lined, securely attached to body of stove, and built to withstand the great heat developed by it.

THE NICKELED WORK on this heater is handsome and durable. It comprises the ornamental urn which swings to uncover the large removable top lid, the screw dampers and two foot rails, that add a further appreciated feature to this neat and thoroughly efficient heater.

We guarantee that the Hickory will be found the equal as a distributor of heat of any direct-draft, sheet-steel, air-tight stove using wood as a fuel. It is not designed merely to act as a foot-warmer. The cold air in the room is brought to the bottom of the stove; coming in contact with the hot outer jacket, it is heated as it rises, and is discharged from the top into the room.

Inside measurements: 23 1/2 inches long, 17 inches wide; height to top of urn 43 inches.

15-528 The Cuba is a very efficient, attractive and economical Hot Blast Parlor Heater, burning either hard coal, soft coal or wood. It has a roomy oblong body, and is fitted with duplex gratos. The double hot-blast feature makes it unusually effective, the hot blast firepot creating a draft of heated air over the fire from both sides, which is met by cold air from the cold air tube hanging from top of heater.

The oblong-shaped fire-box offers the double advantage of greater radiating surface and also allows for burning long sticks of wood. The rounded corners permit air-tight fitting of all parts.

The Cuba is cast-iron top and bottom, while the body is of polished steel, and is fitted to top and bottom by a flange, securely bolted. Mica door and nickel-plated side ornaments give the Cuba a very pleasing appearance. Ash-pit door is fitted with screw

dampers, which, with the swing top, skirting and leg base, is nickel-plated. The top is fitted with one cooking hole. If you require a well built, substantial, good-looking heater, don't overlook the Cuba.

Size of firepot 19 x 11 inches; height to top of oven 48 inches; feed door opening 9 1/4 x 11 inches.

"New Quebec" Heaters Made in Three Different Sizes

The "New Quebec" heaters throw out heat almost instantly after the fire is lighted, owing to their direct draft construction, their steel bodies heating up very rapidly; yet their perfect damper control makes them very economical and easy of operation. Coal, wood or chips may be used for fuel. The roomy doors and splendid draft permit the use of big, chunky pieces of wood, giving a more lasting fire than when small pieces are used.

These heaters are similar in design to the popular and well-known old-style "Quebec Idea," but have in addition duplex revolving grates and a strong base with sturdy legs to lift them from the floor. The addition of the duplex grate saves fuel, muss and labor, and provides a better draft. The roomy section beneath it makes the removal of ashes a simple and easy matter.

The body is built of rolled steel with a smooth surface that will not crack or peel, and the inside is lined high up with firebrick of a thickness that ensures years of service. Cast top is fitted with a cooking hole that will often prove very handy.

These heaters are not intended to be what are called "ornamental" stoves. Yet their good proportions, neat and pleasing design, and the plain, heavily nickel-plated top rim, draft dampers and swing teapot stand give them a decidedly good appearance.

"Quebec"
and Oven

A Combined Heater,
Cooker and Baker

The *Acme* "Quebec" fitted with cooking top and oven is sure to be very popular, ensuring as it does, heating, cooking and baking with the same fuel, so there is no waste.

The cooking top is 29 x 20, and fitted with 4 cooking holes. The oven is 18 inches deep, 10 1/2 inches wide and 11 inches high. Height from floor 33 inches.

Quebec Cooker, Heater and Baker. Price, freight paid. **24.00**

Following are the sizes and dimension in which we can supply the "New Quebec." When ordering be sure to select a large enough size. Remember that a small fire in a large stove, on account of the greater radiating surface of the stove, gives more heat and takes less fuel than a big fire in a small one.

All "New Quebec" Heaters Are Fitted With Duplex Revolving Grates

The duplex revolving grates enable you to cut out the dead ashes and clinkers from the live coal with little disturbance to the fire. This is done by a slight turn of the shaker. The roomy space beneath gives splendid draft and makes the removal of ashes easy and simple.

**A Splendid Heater
Made In Three Sizes
The Largest Fitted with
Magazine Feeder**

THE Western Oak Heater is made in three sizes, to meet varying needs, the largest size being fitted with a magazine feeder that saves you time and labor. The body is made of rolled steel sheets. It is mounted on strong legs which raise it to a convenient height, give the heater a good substantial look, and permit of heating the cold floor air.

The whole appearance of the Western Oak is most pleasing. The top and front are handsomely designed: the top, when swung open, exposes a cooking lid which will hold a kettle or other utensil. The ornamental nicked rim and skirt are removable, and the large mica-filled door gives the heater a very bright and cheerful appearance when fire is burning.

Firepot is heavy, and ribbed to prevent warping and cracking. Grate is roomy, and is easily operated. Drafts are screw check style, accurately fitted. Ashpit is large in size, the ashpit door being provided with damper for controlling the draft.

**Permits the Cosiness of
a Cheery Fireplace**

15-650 An *Acme* Grate will give you all the comfort and cosy warmth of an open fireplace, with its bright cheerful glow. While designed so as to have the effect of a fireplace, it is a thoroughly efficient heater, that will give satisfactory results wherever an ordinary stove of similar size would meet the heating requirements.

The *Acme* Grate is easy to set up, perfectly safe in operation, and requires little attention. Wood, soft coal or hard coal may be burned in it, though we recommend the use of hard coal. It is substantially and durably constructed. The frame, top, bottom and front are of cast iron. Back is steel, lined with fire-brick. Fire is held in basket with tip grate—same as used in a fireplace. Top is fitted with removable section, on which kettle may be placed.

The *Acme* Grate is finished in plain black—easily kept clean; 37 inches high, 29 inches wide.

**Gives Good Heat From
Anything Burnable--
Wood, Coal or Waste**

THE Monarch Hot Blast is a splendid general-purpose heater, burning wood, slabs, knots, any kind of burnable waste, soft coal or hard coal. When wood is burned it is operated as an ordinary stove. When burning coal the iron hot-blast pipe causes complete combustion of smoke and soot, and gives a hot, clean, even fire, preventing clogged-up stove-pipes and saving work and trouble.

Though the Monarch is low-priced, only strictly high-grade materials are used in its manufacture. The highly polished nickel-plated mountings, including ornamental urn and footrails, and its large, mica-filled door give it a bright and cheerful appearance not usually found in a stove priced so moderately.

RADIANT OIL HEATER

For Those Damp, Chilly, Between-Season Days, a "Radiant" Quickly Brings Comforting Warmth.

In this Canadian climate of ours there is quite a long period during which the weather-man gives us sudden, short and drastic changes of temperature. You probably can recall many days when the sun shone bright and warm; there was a pleasant even degree of body-warmth pervading the house. Furnace or coal heater were not needed.

What a change the next morning, though! You were astonished the moment you tumbled out of bed. It was chilly and damp—almost shivery—outdoors a cold wind raged, and gusts of hail and rain swept over the house.

You were perplexed what to do. The chill was anything but agreeable, yet it seemed scarcely worthwhile to start a coal fire for the short time such weather might last.

It is at such a time that a "Radiant" Oil Heater proves of inestimable worth to you. Turn the wick up, apply a match, and in five minutes the bright, warm glow from the "Radiant" has dispelled all dampness and chill. And how quickly, and easily, it is moved from one room to another. So

light a child can carry it, and you can always depend on clean, quick heat wherever the "Radiant" is working.

A "Radiant" Oil Heater will prove itself one of the handiest things you have around the house. The upkeep is just the same as its first cost—extremely low when you consider the actual comfort it brings. It is handsomely japanned and solidly built. Fitted with cool handles and roomy oil tank. Mica in front shows the cheerful glow of fire.

15-222 Height is 21 inches and top is perforated so that a small kettle may be heated or kept hot.

The Sleigh for Heavy Logging

These sleighs are strongly constructed from selected wood stock, and are reinforced to withstand strain at the points most needed. Every detail was given full attention. The runners were bent by steam at just the proper angle to make sledding smooth and easy over the roughest roads. These sleighs are built to a standard, not to a price, and equipped with 40-inch bolsters, but can supply 42-inch if required.

DESCRIPTION IN DETAIL—Pole—The pole is made of selected oak, strong and durable. Runners—Steam bent, all oak. Benches—Hard maple or birch. Draw Rods—Round iron. Bolsters—40 inches, hard maple or birch. Rollers and Short Reach—Hardwood. Shoes—Cast steel. Pole and Reach Rollers are bored lengthwise through the centre, and draw-rods pass through the roller, making a very strong job. Painting—Brush

painting throughout, two coats of good red paint and striping, then a coat of special sleigh varnish, making very satisfactory finish.

EATON Feed Cooker

Substantially made of heavy steel plate solidly rivetted and supported at bottom by a strong iron band. Heavy cast iron cauldron kettle fits into steel frame and can easily be removed. Can be set up on ground or built on cement floor. A base is necessary for wood floor.

Improved Fanning Mill

One of the most important machines on any farm is a fanning mill that will properly clean grain. Our Improved Mill is, perhaps, the most moderately priced on the market to-day. At the same time it is one of the most efficient, cleaning your grain thoroughly in the least time. The compound shake end motion is only one of the big features of our Improved Mill. Wheat, oats, peas, barley, timothy, red top clover, thistle-heads and weed seeds can all be put in the mill at once, and be perfectly separated. Supplied with oilcloth apron over the sieves, a patent device for separating oats from wheat and other grains. Grain travels over 8 feet of screen before the fan blast strikes it. Though of large capacity, it is easily operated. The elevator is built on an angle, thus securing the best delivery. Capacity from 40 to 60 bushels per hour.

Easily Loaded, Easy Running

For convenience in loading and unloading, for its easy draught and for its strength, this Wood Wheel Truck is almost a necessity on any farm. It is built low to the ground, doing away with the exertion of high lifting, while its sand and dust-proof skains make it easy hauling for your horses. This truck combines lightness and strength, the thoroughly seasoned wood used in its construction being specially selected for these qualities. You can depend upon many years of satisfactory service from this truck.

Read this detailed description.

WHEELS—Rims and spokes are oak; hubs black birch; front wheels 30 inches; rear wheels 36 inches; tires 3 inches. **AXLES**—No. 1 Canadian hard maple, fitted with sand-proof skains, with truss rod running along bottom of axles. **POLES AND REACH**—Selected white ash or oak. **HOUNDS**—Substantially made; front hound allows the wagon to be turned in small space. **BOLSTERS**—Sturdy white oak, long stakes. **PAINTING**—Neatly striped and given three coats of good red paint and one coat wagon varnish.

Metal Garage Well Built Throughout

71-632 An **EATON** Metal Clad building will pay for itself in the years it adds to the life of your farm implements, buggies, trucks, autos, etc. It is easily put together and may be moved with little effort. One of these metal buildings is inexpensive and very serviceable, while its life is indefinite, outlasting by many years any ordinary wooden building. Realizing their comparative economy, progressive farmers to-day are using **EATON** Metal Clad Buildings almost exclusively as boat houses, milk houses, store houses, oil houses, etc.

The **EATON** Metal-clad Building is wind and weather proof, strongly constructed of 2 by 4-inch wood frame work, completely covered sides, roof and doors with selected quality durable galvanized iron in natural finish. It is fitted with double doors in front and a window at rear.

It is very easily put up, two men being able to accomplish the task in a few hours. The framework comes in a few accurately cut pieces of lumber which need only to be nailed together. The gable ends, full length roofing, and siding sheets can be put on just as quickly as you can nail them.

Dimensions as follows: Length, 16 ft., width 10 ft., height of sides 8 ft. The doors are 8 ft. over all, hang on heavy hinges, and are fitted with spring bolts, top and bottom and hinged hasp. Sliding window is fitted with heavy glass. We furnish blue-print and complete instructions.

Heavy Steel Wheel Farm Truck

Our Giant Heavy Farm Truck will give long, satisfactory service; with its wide tire steel wheels and low-built construction it has become very popular. Being low-set it is easy to load; strongly built with a capacity of about 4,000 lbs., so that it can be used for all sorts of rough, heavy work; and its wide-tired wheels do not cut up the fields.

Strongly Constructed, as shown in detail below.

WHEELS—Metal wheels have 4 x 3/4-inch tire; oval staggered steel spokes with nuts on ends in hubs; front wheels 28 ins. high, rear wheels 34 ins. high.

AXLES—Canadian hard maple.

GEAR—Strong and durable throughout. Hounds on front gear have double away bar; cast skains 3 1/4 x 10 ins.

POLES AND REACH—Pole is long-leaf Southern pine; reach, Canadian hard maple.

BOLSTERS—Selected Canadian hard maple, bolster stakes are of heavy cast iron, securely bolted on; can be removed if desired. Distance between bolster stakes 40 ins.

PAINTING—Truck has two coats of good red paint and is then varnished.

Strong EATON Farm Wagon

The superior construction of the **EATON** Farm Wagon makes it one of the most serviceable you can procure. Its moderate cash price means a very big saving to you over what you would pay for a similar wagon on the time payment system. Its construction combines strength and lightness, permitting heavy loads with very little strain on your horses.

Nothing but thoroughly seasoned wood and only the best of materials go into this wagon. Skains are 3 1/2 x 11 ins., semi-steel castings; heavy bridged iron truss rod running from end to end of both front and hind axles. Wheels well built in every particular. Hub has four steel bands and, like the tires, put on under hydraulic pressure. Rims strongly riveted. Bolsters are either 40 or 42 ins. State choice when ordering. Size of arm 3 1/2 ins. Capacity 6,000 lbs. Wagon is well finished with three coats of green paint, with top coat of varnish. Wagon box is 13 ins. deep, with full shelving and seat, or 10-inch straight side top box can be supplied instead of shelving if desired. All wagons are shipped direct from factory. State width of bolsters wanted when ordering.

Heavy Farm Truck, Wood Wheels

Every Farmer and Teamster will appreciate the sterling qualities of this heavy truck; it is very strongly built by expert wagon-makers from thoroughly good materials. Nothing but fully seasoned wood stock is used in its construction. It is well ironed, braced and trussed so that it will stand up to the heavy work on the farm to your fullest satisfaction.

Note these Important Details

WHEELS—Rims are riveted. Hub bands and tires are set under hydraulic pressure—no wobble with loose spokes or tires. Light in draught because wheels are given proper diah and set so they do not press against nut or collar of skain.

GEAR—Full-clipped, extra strongly constructed. Front hound is heavy angle steel.

POLE AND REACH—Made of No. 1 quality oak.

BOLSTERS—Made of selected oak, strongly ironed and adequately braced. Both the stakes fitted with iron rings.

PAINTING—Neatly striped gears and wheels are given three coats of good red paint and one coat of high-class wagon varnish.

IN THESE DAYS when such high prices prevail for butter and cream, and when the demand so greatly exceeds the supply, it pays the owner of even one or two cows to possess an EATON Separator. Government and Agricultural College experiments have proved beyond doubt the great saving in skimming by separator over other methods. Tests have shown that by the deep setting, shallow pan, or water dilution method, you actually lose in one year from 21 to 34 pounds of butter for every cow in your herd. At the prevailing prices for butter can you afford this loss?

The EATON Cream Separator assures you full profits from your herd because it obtains for you every trace of butter fat from the milk. It will give you the cream in the condition from which is made the fine, grainy butter, so much sought for and for which the highest prices are paid. It is one of the most easily operated, and our prices make it one of the most economical.

The EATON Cream Separator possesses every known feature which makes for speed, efficiency and economy. It was built by experts to obtain all the cream from the milk in the least time and with the least effort. Its construction includes no unnecessary working parts. Ball bearings in a bath of oil reduce friction to a minimum, ensuring long service and little effort in operation. So light running is it that the weight of the handle alone is sufficient to spin the empty skimming bowl.

Your comfort and health was no small consideration in making the EATON Separator; the crank centre and skimming bowl, being only 33 inches from the base, relieves you of strain in turning the crank and of the fatigue of high-reaching and lifting in filling the bowl.

Study these Special Features

CONSTRUCTION: Working parts entirely enclosed; heavy steel shaft; heavy spur gear, bronze bearing single drive shaft; solid one-piece frame; frictionless ball bearing; noiseless Helical gear; cut steel worm shaft.

SANITARY SKIMMING BOWL: Improved bowl skims to last trace because all discs skim equally. No discs are over-fed and there is no loss. The thickness of the cream is controlled by the cream screw. The bowl is of pressed steel, rounded so that there are no crevices or corners in which dirt can lodge; heavily tinned, thus easily kept clean and sanitary. It fits securely on spindle socket, is balanced perfectly and runs smoothly.

NECK BEARING: Is very simply constructed, yet effective. It steadies the bowl and keeps it running true.

DISCS are one-piece, high-grade steel, thoroughly tinned. Are easily

washed and do not have to be taken apart. There are fewer discs than in ordinary separators, and they are made so you cannot put them on the wrong way.

SUPPLY TANK is durably made, heavily tinned, will keep milk sweet and clean and its special shape prevents the milk from splashing when being filled.

SPEED INDICATOR: An accurate speed indicator built into the machine in full view of the operator instantly shows any alteration in speed. This renders it very easy to maintain, without strain or fatigue, the easy, natural rate of 60 revolutions of the crank per minute, which gives perfect results.

FINISH: The EATON Cream Separator is finished in a beautiful rich red, giving it a very handsome appearance and making it very easy to keep spick and span.

**EATON Engines
Are Equipped
With the Famous
Webster Oscillating
Magneto**

HAVE You Ever Considered the need of a strong, full-powered engine for your farm or workshop, one that will give you service day in and day out at a reasonable operating cost? Our EATON Throttling Governor Kerosene Engines will do this. They are heavy, powerful, easily operated and economical in the use of fuel, will grind your grain, operate your separator or churn, fill your silo, run your saw, pump your water and operate many machines on a line shaft. The initial outlay for one, considering what it will do for you, is small indeed, and when it is not working, unlike other help, its upkeep costs you nothing.

Engines to operate on cheap kerosene must be built specially for that purpose. The builders of EATON engines have had years of experience and we are offering our patrons the practical result of their experience backed by the EATON guarantee.

The EATON Throttling Governor Kerosene Engines are constructed to get all the power from every gallon of fuel used. A specially designed carburetor provides the proper mixture before it goes into the cylinder to be exploded. The kerosene, gasoline and water valve needles are all placed conveniently together, thus simplifying adjustments and making starting easy in all weather. To burn kerosene successfully the engine must be kept at an even temperature. The method of governing in EATON engines secures the proper results, the controlling mechanism being simple, reliable and efficient. One explosion takes place every working stroke, the governor graduating the amount of fuel and air taken into the cylinder in proportion to the amount being pulled. This results in very steady, even running, giving you the maximum amount of power with a minimum of fuel. This is a big feature, and recommends itself to those requiring a uniform speed for operating lighting systems, etc.

The speed regulator allows of altering the speed about 25% while engine is operating. We equip each engine with the Webster oscillating magneto.

They have large bearings, set at an angle of 30 degrees from piston; this puts the strain on the base, which is made heavy for that purpose. The large oversize crankshafts and heavy flywheels, the high-grade Webster Oscillating Magneto, a fuel-saving carburetor; in fact, everything to make an easy, smooth-running engine that will do your work and do it easily and for a long time.

When you buy an EATON Engine it is set up complete and equipped with all the necessary tools, oil and oil can, so that when the engine reaches you all you have to do is to supply the fuel and follow simple instructions regarding starting.

Anyone can run an EATON Engine, even though he has never had any experience with an engine, as it is simple in construction, and the book that we send you is very complete, telling you just how to start the engine and also how to run it and take care of it.

The same high quality of materials, expert workmanship and careful finish goes into the making of each. From the hidden inner parts to the final coating of dark green paint, they are a product that we can unreservedly recommend. Bear in mind that you run positively no risk in buying an EATON—our guarantee protects you absolutely.

Webster Magneto

Guaranteed to Give Entire Satisfaction

Webster Magneto will produce, with one revolution of the flywheel, a full, hot spark all the year round. No batteries are needed. This magneto is a unit with the ignitor plug; all wire and gears are done away with.

No Batteries Required

Engine Parts

The working parts of an EATON Engine are designed to give long service and are simple in construction. Few repairs are ever needed for our EATON Engines, as they are built to last, but if you should at any time require parts to replace worn ones we can always supply them from our large stock, and will send them to you with as little delay as possible, at moderate prices.

Connecting Rod

This Connecting Rod is of the heavy I-beam construction. It is malleable, strong, tough and will give lasting service. The very best type of connecting rod we know of.

Kerosene Carburetor

Sectional view of our Kerosene Carburetor, very simple and satisfactory in operation.

EATON Gasoline Engines represent the highest standard of value in engines we know of. The manufacturers of the EATON Engines have been making engines for over fifty years, and we emphasize the fact that no detail is overlooked in their making to ensure the maximum in power, value and service.

Fuel economy and freedom of repairs are two of the most important items that a prospective buyer must have in mind. In these respects the EATON stands out among all competitors. Size for size we ask you to compare it in all details with other makes. Compare the size of the bore and stroke for power and we know your choice will be an EATON.

Simplicity is the keynote of every engine. All the working parts are placed conveniently so that anyone can make repairs, if by any chance such should be necessary. Throughout its entire construction all parts are made heavy and strong enough to more than stand the actual working strain to which they are subjected. Note the strength illustrated in every line of this model.

Gasoline engines are made on the same masterly principles as our Kerosene Engines, with the exception that they are not throttling governor type, and that they use gasoline for fuel instead of kerosene. Each engine is equipped with Webster Magneto and shipped all ready to run, with all necessary tools, oil and oil can.

We advise buying an engine large enough for your needs. As you use your engine you will find many new uses for it, therefore it will pay you to have power enough to anticipate these needs.

1 H.P. EATON Gasoline Engine

71-361 A real chore saver. Very popular is the EATON 1 h.p. Gasoline Engine. It is an ideal size for small power jobs on the farm, and around the house the women will appreciate this engine for washing, churning, etc. Simply constructed and very easy to start, ready for service whenever wanted. The same principle is used as on our larger-sized engines, being mechanically correct. The cylinder-head is air-cooled, and is separate from the cylinder, which is water-cooled, and is of the built-in hopper type; suction feed; a splendid working carburetor, galvanized iron fuel tank, sight feed oiler, equipped with a Webster magneto. Pulley, oil and oil can, wrenches and book of complete instructions sent with engine. Shipped all ready to operate. Note the details:—

Reliable Drag Sawing Machine

71-661 Has a capacity of over 60 cords of wood per day, and can be operated successfully with a 3 H.P. engine. One of the lightest-running machines we know of. The balance wheel weighs 150 lbs. The cross-bead or slides are very simple and ensure perfect alignment of the saw arms, allowing of no side motion; they are wholly made of steel.

The clutch is entirely in the hub of the driving pulley and is constructed of two cast-iron bevel frictions, the external friction being bolted to the arms of the pulley, while the internal friction slides on a key in the drive shaft. The pulley is also bolted to the flange, having a long hub, which runs loose on the shaft. This flange is bolted to the outside of the pulley; it is machined on the outside face and engages a flat-face wood friction, which in turn is held by set-screws to the end of the drive shaft. The sliding friction is grooved in the hub to receive a brass yoke, and to this is attached a forked lever, running at right angles to the pulley; this lever is fulcrumed near the sliding friction, and the opposite end is then attached by a short steel lever to the side of the operating lever.

The regular equipment includes the following:—Saw Frame with balance wheel, etc., Track 14 feet long, Log Truck and Lever, iron-spiked Roller with ratchet and lever, one 5-foot One-way Cut Saw and one 30-inch Drive Pulley and Clutch. Speed 225 revolutions per minute.

Strong Drag Sawing Outfit

71-662 This machine, as illustrated, is a very popular Drag Sawing Outfit. The wood frame, being made of red birch with the exception of the skids, is sufficiently strong to stand the strain it is subjected to, all parts are securely bolted together. Shafts are of good quality steel, and boxes are babblitted.

The feature of this outfit is its ease of starting, which is accomplished by two friction pulleys becoming engaged by means of a sliding box, the lever of which is attached to the operating lever. In starting or stopping the saw it is only necessary to move the operating lever slightly; lever also acts as a brake, and saw can be stopped almost instantly without diminishing the speed of the engine.

The log haul-up attachment is a distinctive feature, capable of taking care of log and enabling the operator to move the log either forward or backward as required; it consists of two internal bevel friction cones geared to the correct speed. With this outfit the saw can be stopped while the log is being hauled up without any lost motion or delay in operating the machine.

Outfit includes the following:—one Saw Frame complete with chair, Balance Wheel and Pulleys, one Track, one Spiked Iron Roller with Ratchet and Lever, one 5-foot One-way-cut Saw and one Log Truck and Lever. Speed 225 revolutions per minute. Freight paid. Price..... **123.50**

How to Take Correct Measurements

Do not attempt to take measurements yourself, but have them taken from your figure by some careful person in your home. Study the diagrams closely.

Important: in case of any part of a suit being unsatisfactory the entire suit must be returned. We do not exchange parts of suits.

How to Measure for Women's and Misses' Clothing

Bust Measure (take measurement over shirtwaist or over your dress).—Pass tape measure entirely around the body over the fullest part of the bust, well up under the arms. Do not take this measurement too tight, and do not allow tape measure to slip down in back. Make no allowance whatever.

Waist Measure.—Take this measurement around smallest part of waist over your skirt.

Women's Coats

Give bust measure only. Do not make any allowance over regular bust measure as our coats are made large enough to wear over a dress of the same size. For example: A 38 coat is made to fit perfectly over a 38 dress.

Women's Dresses

Women's Dresses shown in the Catalogue are correctly proportioned to the bust; therefore, if after having obtained your bust measure, you refer to our "Table of Sizes" below, and find the measurements given do not exactly correspond with the sizes you require, send us your measurements, and we will select the nearest stock size. The stock length of skirt is given in the description accompanying each illustration. Wherever it is possible skirts are finished with deep hems in order to permit of same being altered if necessary.

Shown above is a table of sizes used by us in making up this season's styles. As models are changed from season to season, a re-measurement of your figure is necessary to obtain the best results. Do not make any allowances. Send for size as indicated on table to get a satisfactory fit. Measurements should be taken over all garments intended to be worn under your suit.

Hip Measure.—Take measurement around hips over skirt, seven inches below waist line—not too tight. Do not allow tape measure to slip up or down.

Length of Skirt.—Measure from bottom edge of inner waistband straight down the front to length desired. Make no allowance for high waist-line.

How to Measure for Men's Clothing

Always State Height and Weight

Catalogue Clothing is cut to fit easily. We do not use the extreme form-fitting for men's garments, therefore do not make any allowance when measuring for easy-fitting coats. Just state your actual measurements.

Suits.—When measuring for a suit, place the tape all around the chest over the vest—the coat off (as shown in diagram 1). Stand naturally, and do not expand. Have the arms down close to sides, draw tape snug, but not tight. The number of inches measured on the tape is your size.

1.—Taking Chest Measure

Overcoats and Raincoats.—Take chest measure over the vest, same as for suits. We make the correct allowances to fit over suits.

Trousers.—Take the measure in inches around the waist, just above the hip-bones (as shown in diagram 2). (Always feel the sides for location of the hip-bones.) Also measure the length of the leg from inside close up in crotch to the heel of boot (as shown in diagram 3). Cuff-bottom pants should be ordered 1½ inches shorter than trousers without the cuff.

3.—Taking Inside Seam Trousers Measure

Men's Suits are Made in the Following Proportions for Men of Average Build

Weight in lbs.	Chest in ins.	Waist in ins.	Coat length in ins.	Sleeve in ins.	Leg in ins.
140	36	33	30¼	18	30 to 34
150	37	34	30¾	18	30 to 34
160	38	35	31	18¼	30 to 34
170	39	36	31¼	18¼	30 to 34
180	40	38	31½	18¼	30 to 34
190	42	40	31¾	18½	30 to 34
200	44	42	32	18½	30 to 34

Young Men's Suits are Made in the Following Proportions

Chest in ins.	Waist in ins.	Coat length in ins.	Sleeve in ins.	Leg in ins.
32	29	29	17¼	29 to 32
33	29½	29	17¼	29 to 32
34	30	29½	17½	29 to 33
35	31	30	17¾	29 to 33
36	32	30½	18	29 to 33
37	33	30¾	18	29 to 33
38	34	31	18¼	29 to 33
39	35	31¼	18½	29 to 33

Note.—In each case the waist is 2 to 4 inches smaller than the chest. Suits having Peg-top trousers have 4 inches difference between chest and waistband. Stout men's suits, chest and waist same measurement. It is important that you give your height and weight—it helps us to estimate proportions.

2.—Taking Trouser Waist Measure

How to Order Hats and Caps for Men and Boys

Head Measurement in Inches	Hat Sizes	Head Measurement in Inches	Hat Sizes
19½	6¾	21½	6¾
19¾	6¾	22¼	7
20¼	6¾	22½	7¾
20½	6¾	23	7¾
21	6¾	23¼	7¾
21½	6¾	23¾	7¾

Children's sizes run from 6¾ to 6¾. Boys' sizes run from 6¾ to 6¾. Men's sizes run from 6¾ to 7¾. The size hat or cap you wear can be easily found by comparing the number of inches your head measures with the scale printed above. Order the hat size which most nearly agrees with your measurement.

To Get Your Glove Size

Notice the illustration herewith. Pass an ordinary tape measure around the knuckles, but not over the thumb, and draw it moderately close, neither loose nor tight. The number of inches around your hand as thus measured is the size of glove you should wear.

How to Order Children's and Babies' Bonnets

Measure head exactly as illustrated by placing tape measure on point on the neck just below the ear, as shown, then measure around face to same point on opposite side. Send the exact measurement in inches.

How to Order Boys' Clothing

Age	2	2½	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18
Chest	20	20½	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36

The above scale of sizes gives the proportionate chest measurement in inches for ages. As all our clothing is made in full-fitting sizes, and the scale given is the standard, in nearly every case the age of your boy is all that is necessary for you to state. If in doubt of a regular size fitting, send the chest and waist measure, and when possible state weight. The chest measure should be taken over the shirt only, well up under the arms. Draw the tape fairly tight.

How to Make out your Order

Always Write Order in Ink, and Use one of our Order Forms when possible

How to Send Money

The best and most economical way is to use our Depositor's Account Department.

You send one amount to cover several purchases, get 5 per cent. on the daily balance up to \$1,000.00. This saves you the cost of Money Orders.

Read particulars on second page of Catalogue. If you prefer to remit with each purchase, use Postal Notes for small amounts, and Post Office Money Order, Express Money Order and Bank Money Order for large amounts.

If sending personal cheque, have it marked (and accepted) by your own bank.

If you live on a Rural Mail Route, and wish to send a Postal Note or Post Office Order, your mail carrier will buy it for you, and will enclose it to us in your letter. He will give you a receipt and look after sending your order to us.

Do Not Send Cash in an Ordinary Letter

The Post-office do not hold themselves responsible for money sent in this way; nor is it safe to enclose cash in a registered letter, as the Postal Authorities are responsible for delivery of letter only and Not for Contents. Protect yourself against Loss by using Express or Post Office Money Orders, or Postal Notes, if you have not a Deposit Account. If these become lost they can be traced.

We Cannot Connect Orders

When received under separate cover, and cannot make any alterations on your original order. All information must be enclosed in one envelope.

C.O.D. Shipments

Save yourself needless expense by sending Cash with Order.

A C.O.D. shipment will cost you:

If Shipped Express		If Shipped Freight	
Under \$5.00..... 15c	Under \$5.00..... 45c		
\$5.00 to \$10.00..... 20c	\$5.00 to \$10.00..... 50c

Telegram Orders

Provided we cannot ship C.O.D. be careful to make arrangements with the Telegraph Company to send money by wire, as in the event of your not having an Express Agent at your shipping point, we will be obliged to hold goods until we receive your remittance.

Foreign Orders

All foreign orders are subject to any embargo or other restrictions enacted by the Government of Canada, or by the government of the country to which goods are shipped. We do not pay any duty or transportation charges on orders shipped to Asiatic or foreign ports, except Newfoundland and St. Pierre Miquelon. We only pay charges on foreign orders as far as the Canadian port of ocean shipment. A special charge of five per cent. of the value of the order is made, which guarantees safe delivery to destination. Enclosures for foreign orders are to be sent to us packed for shipping, and invoiced. A charge of 40c per \$100, or fraction thereof, is made on the value of such enclosure for safe delivery.

Orders Delayed or Damaged in Transit

First—Allow sufficient time for shipment to arrive.

Second—Enquire at Express, Freight or Post-office.

Third—Be sure to see that the number of pieces listed on package are received, and in case of damages or shortages, to have the Railway Agent mark your Advice or Receipt "Bad Order" or "Short," and send the Advice or Receipt signed by Agent to us. Write us full particulars of damage or shortage, and kindly use a separate sheet of writing paper.

NOTE—Do not write on Bad Order Receipt.

When Goods are Sometimes Temporarily Out of Stock

When articles are temporarily out of stock we take the liberty of sending similar goods as substitutes. Such substitutes are carefully selected by experienced clerks who are given this special authority.

In cases where it is not possible to supply or procure a suitable line for immediate shipment we issue what we call a "To Follow" for the original goods, which means such articles will be shipped you within ten days, prepaid.

Shipping Charges and \$5.00 Free Delivery Offer

We pay the Shipping Charges to your nearest Post-Office or Railroad Station on any order totalling \$5.00 or over, of goods from any page or pages of this Catalogue. This \$5.00 Free Delivery Offer also includes orders sent in for goods advertised in our new Grocery Catalogue, our Wallpaper Sample Book, our Paint Book, our Musical Instrument Booklet, and the Sales Circulars issued from time to time.

Make every order you send in total at least \$5.00. The EATON Catalogue covers such a wide range of day-by-day needs that with just a little planning a \$5.00 order can be made up in nearly every instance.

When Writing Your Order Carefully Note the following:

1. Write plainly, using pen and ink if possible.
2. Give your Name and Address, giving R. R. Number or Box, or when living in a city your Street and Number.
3. State your nearest Railroad Station.
4. Give the Catalogue Number of each Article required.
5. State the Quantity you want.
6. State the Color you want.
7. Give your Correct Size.
8. State the Catalogue Page from which goods are selected.
9. State the Price.
10. Send your Remittance by Express or Post Office Order, or Marked Cheque. Do not use Postage Stamps.

Helpful Information

Adjustments

In the event of any order falling to prove satisfactory we ask you to write us within ten days of receipt of same. When writing return all purchase bills and coupons received with statement. Be sure to check over amounts shown on bills with statements before writing us. Also see that correct number of parcels are received, and if short have agent or postmaster sign statement to that effect.

This Order was filled and Checked by No. _____ If any adjustments or exchange, return this bill for prompt service.			TOTAL 56.00

Read explanation on bills carefully, and compare with your copy of order.

Allow sufficient time for orders to reach you before writing. By following out the above suggestions you will assist us in making a prompt adjustment and avoid unnecessary correspondence.

If bills are not enclosed with goods, allow sufficient time for same to reach you by mail before making complaint.

Exchange Goods

When returning goods, write your name and address on parcel as illustrated. If your order was shipped from Moncton send your returned goods to Moncton.

Write us a short letter, stating what you have returned, and why, and what is desired in exchange. Do not write two letters about the same exchange. Mail letter at same time parcel is mailed, enclosing bills in letter. Write your name and address plainly on outside of parcel.

Do not enclose letters, bills or money in parcel. It is against the postal regulations, and we cannot be responsible for money enclosed in parcels.

Suits must be returned complete, as an adjustment cannot be made when part only of the suit is returned.

Parcels, being 3rd-class mail, are not handled with same despatch as letters. Please allow sufficient time for parcel to reach us and exchange to be made before writing regarding delay.

Valuable goods should be registered, and registration number mentioned in letter.

Also state if goods have been returned by mail, express or freight.

Order Forms

Order Forms are bound into the catalogue before these pages. Tear them out as required. If possible have the family order mailed under one name as it facilitates quick delivery. Extra Order Forms forwarded promptly on request.

Regarding Samples

Samples Supplied Free on Request of any goods catalogued by the yard. We require article number, color, price, and would suggest that you state second choice.

We do not supply Samples for Wearing Apparel

You Run No Risk, however, in ordering direct from the catalogue, and, furthermore, you save time. In the event of any goods not proving up to your expectation the EATON Guarantee protects you by a "refund of money" or an "exchange," with charges paid by us both ways.

Parcel Post Shipments

Our customers will find that the Parcel Post System is a great benefit when ordering shipments weighing up to 11 pounds. Shipments of 11 pounds and under will in almost every case come cheaper by Parcel Post. It is not advisable to order Glass Articles or Liquids to go by mail, as they require much packing, making charges excessive. Scribbling Books, Writing Pads, Envelopes in Boxes, or Heavy Toys of small cost should be included in freight orders. Scribblers, for instance, are sold two for five cents, and shipping weight is two pounds. The Post Office will accept parcels up to 11 pounds in weight providing they are not over 42 inches long or 6 feet in combined measurement.

Send Sufficient for Postage

Please remember when ordering by Mail that sufficient must be included in your remittance to cover postage if your order is under \$5, or we shall be compelled to omit goods, as postage must be paid in advance. The Government has not provided for the collecting of postage on delivery. If in doubt how much postage is required, you are perfectly safe in enclosing even more than you think necessary, as we will ship the cheapest way and return to you any amount that is left over.

Au Sujet Des Prix De Ce Catalogue.—Ce catalogue est envoyé avec l'entente que les prix qui y sont cités, à moins d'avis contraire restent invariable jusqu'à la publication d'un nouveau catalogue.

Dans certaines circonstances incontrôlables les prix ne peuvent être garantis que pour une période limitée et sont marqués conformément. Nous devons aussi faire exception pour les articles auxquels les prix sont sujet à toute tax (impôt d'accise) du gouvernement ou même à l'embargo non en effet au temps de la publication du catalogue. Vu la rareté de certaines lignes de marchandises, nous nous réservons le droit de limiter la quantité d'un article vendu à tout client.

Retour de Marchandise.—En renvoyant les marchandises, non satisfaisantes veuillez avoir l'obligeance d'inscrire à l'extérieur du paquet votre nom et votre adresse, afin d'éviter tout retard et pour que votre paquet puisse être placé directement à votre réclamation. Ne mettez point ni factures ni aucune espèce de correspondance dans les paquets que vous retournerez par la poste. Envoyez-les sous pli séparé.

Nos Conditions de Vente.—Nos conditions de vente sont "Argent comptant sur commande," et nous ne pouvons fournir que les marchandises mentionnées dans le catalogue nous ne faisons aucune réduction, ni n'accordons aucune prime. Nous n'avons pas d'agents à notre service et nous n'avons qu'un prix seulement pour tous nos clients.

Reclamations.—En caso de retard dans le règlement de votre réclamation, veuillez toujours donner le numero et le prix de l'article "mentionné dans le catalogue." Nous faisant savoir en même temps la date de votre commande.

Nous vous prions avant de réclamer, de laisser écouler suffisamment de temps, pour que les marchandises commandées vous parviennent.

Adresse.—Prière d'écrire tout au long et très lisiblement votre nom et votre adresse postale et de nous donner en même temps le nom de la gare la plus rapprochée. Il est préférable d'envoyer les ordres sous le nom du chef de maison.

Nous garantissons la livraison des marchandises et nous remplacerons toutes marchandises égarées en route. Nous publions tous les trois mois un catalogue d'épicerie et de viandes salées. Pour information additionnelle, voyez la page 477 de ce catalogue.

Read What These Signs Stand For

Keep the Wheels of Canadian Industry Turning—Buy "Made-in-Canada" Goods

Whenever you spend money on goods Made-in-Canada, you help toward the prosperity of Canada and the welfare of your neighbors.

Whatever may be your occupation, the progress of that one branch of Canadian national life is dependent on the development of others. Thus it is plainly evident that helping your neighbor to be prosperously occupied is, in the end, a means of helping yourself toward the same prosperity.

In addition to being a matter of self-interest and practical economy, buying Canadian-made goods is also a matter of patriotism. By keeping the wheels of commerce moving and holding Canadian money in this country, we help greatly towards the growth and advancement of the Dominion, and lay a good foundation for the Greater Canada we all hope for and believe is coming.

For your guidance and direction we have, where possible, indicated Canadian-made goods, either with the Maple Leaf emblem you see above, or the words "Canadian-made" in the description.

With the full assurance that your money is at full purchasing power and doing the greatest good, you can buy freely of such items marked.

Study closely the items thus marked in this Book. They give additional examples of profitable buying through the EATON Catalogue.

This Mark Indicates High-Quality Goods at Direct-from-Factory Prices

On many pages throughout this EATON Catalogue, you will find items marked with the above sign. Wherever it or the words "EATON-MADE" appear, there is distinguished a product of our own factories, and therefore one of special merit for Quality, Good Value, Expert Workmanship, and Full Satisfaction.

The significance of this sign will be immediately grasped by EATON customers of long standing. To them it signifies that materials used in the manufacture are carefully tested and examined to ensure their being up to our high quality standard. They know also that the workmanship of EATON garments constitutes accurate cutting, skilful operating and thorough inspection from beginning to end of manufacture.

All merchandise in this Catalogue is guaranteed to give full value and satisfaction, but especially are you assured of this satisfaction under this sign of "EATON-MADE." It displays an article that is under direct EATON supervision right through from the purchase of materials to the finished article.

Buy "EATON-MADE" goods with the security of getting the best obtainable values and with the added guarantee of satisfaction in every purchase.

A "Special Bargain Tag" Displays an Especially Good Purchase Which We Pass on to You

Items "Tagged" are Always in Big Demand. Order Early to be Sure of Your Choice.

EATON buyers in the big marketing centres of the world are ever on the alert to obtain fine quality merchandise at the most reasonable prices, and it quite often occurs that the EATON method of buying goods on a strictly cash basis makes it possible to obtain quantities of merchandise at far less than market value—merchandise that is in every respect up to our high quality standard.

Whenever such an opportunity occurs, needless to say, it is quickly snapped up and passed on direct to EATON customers, so that they may further benefit in the unlimited money-saving chances the EATON buying organization affords.

Such opportunities that have been grasped by our far-seeing buyers are displayed frequently in this book with the "Special Bargain" Tag shown above. This Tag indicates goods of very unusual value—and that EATON customers are so aware is evidenced by the tremendous demand from such items in the past.

If you would make sure of your choice of any "Special Bargain" item, send your order early. There is bound to be a big demand. Remember that our guarantee of satisfaction covers these "Special Bargains" as well as all other goods in this book.
