OUR LIBERAL GUARANTEE

**GOODS SATISFACTORY OR MONEY REFUNDED AND
TRANSPORTATION CHARGES PAID BOTH WAYS**

ON receiving a shipment, **if goods are not satisfactory** for any reason, return them within ten days in good condition, **stating why goods are returned** and **we will pay transportation charges both ways and exchange or refund the money in full.** We make exception only on certain goods that we do not exchange, a list of which is in "Returning and Exchanging Goods Paragraph," page A3.

Remember You Run No Risk

Simply because **we** take all the risk. We throw our goods open to your inspection in your own home, and if not satisfactory you may return them to us at **our** expense, **without cost to you.** We can do this because of our absolute confidence in our qualities and values.

Your increasing orders have enabled us to buy in larger quantities and get better terms, and we can thereby offer you wider privileges and new concessions.

We now step out on the reputation of our high class merchandise and make the **freest and fullest offer that can be made for the benefit of our Shoppers by Mail.**

If the goods you order are not satisfactory, return them, stating why they are not satisfactory, and we will refund your money, we paying all transportation charges, the purchaser then takes no risk.

Why The Saving Is Great

Our numerous expert buyers make frequent visits to every known market in the world where required goods may be found, getting as near as possible to the place of production and buying in the best way the best goods that can be had—the whole output of cotton and tweed and linen mills and carpet and glove factories in Canada or Europe; the pickings of tea and coffee and spice crops in Ceylon, China, Japan and the Indies; the production of a raisin plantation in Spain, and so on wherever the most and best is produced, always selecting the finest quality. After the quality is selected price arrangements are made. As our orders are so large we are enabled to keep the price away down, and sell to you at prices that make your dollar buy much more than if we bought in small quantities and through importers and other dealers—and the goods are backed by our broad guarantee.

A great many of the articles of wear we make up in our own factories, where every invention for quick and perfect manufacture is in use, and where every garment is carefully examined before being put on sale. The slightest defect means rejection. And the goods we offer our Mail Order customers are exactly the same and at the same prices as sold to persons who visit the store.

Every department is stocked with the newest and freest goods, bought with the purpose of sustaining our reputation of giving a **high quality of goods at a comparatively small price.** Every dollar's worth you buy here means you have saved some money, and to prove this, examine our prices herein. With our New Liberal Offer which you will read above what more can be desired?

CLUB ORDERS

All orders must be mailed at one time and in one letter. This is very important as we do not hold the order, and cannot enclose any orders coming in later, they will be sent on separately if received.

If you cannot make up a shipment to weigh 100 pounds to get the advantage of the freight rate or our free delivery, we advise two or three persons clubbing together and making up a large order having goods shipped in one shipment to one address. We parcel and tag each order separately, enclosing the bills in each parcel, shipping the whole order to the sender of the order. We also mail a statement to the sender showing the amount of money received and the amount of goods sent to each customer. It would be of great assistance to us if each customer would state on their order the amount of money given to the sender, and the sender to send us a list of the amount received from each customer. It is also necessary that the sender should carefully total these different orders, as quite frequently we find that when totalling same there has been insufficient money sent.

Each order must be written on a separate sheet, just the same as any other order, giving name and P.O. address in full. State on each as follows: "Enclosed with Mr.—'s order," giving the name of the person to whom the goods are to be shipped. The person to whom the goods are to be shipped must write shipping instructions fully in his letter, and state what orders are to be enclosed.

Enquiry About Your Order

Should you not receive your goods or hear from us within a reasonable time write us at once, giving full particulars, viz.: Name in full, Post office address, Province, Date order was sent, When and where mailed, How addressed, Amount enclosed, whether Express or Post Office Money Order, Cheque, Cash or Stamps. If by Registered Letter, Money Order or Postal Note, give number.

State how name and address was signed.

Send copy of order as nearly as possible. Write from same post office and say how and where goods were to be shipped.

On receipt of goods, if anything is wrong, write us at once, and return the bill.

Sometimes errors occur, but if you write us fully, telling us what is wrong and give us a full list of shortage, etc., the matter will be adjusted promptly and satisfactorily to you. Be sure and sign your name and address. All claims ought to be made within five days after goods are delivered.

Do not return goods received in a damaged condition without first notifying us. Do not accept or give receipt for damaged goods unless agent makes a notation of such damages on freight receipt.

If you do not receive all of your order always state in your letter (how many pieces or parcels) you have received from freight or express company. This is important, as it will save an unnecessary delay, for it will necessitate again writing you for the above information before we can trace the lost pieces or parcels.

Do not destroy waste paper or packing until all goods are checked off and accounted for, as very often small articles are thrown away or destroyed with the packing material.

As a rule breakable goods are cleated off in the end of the case. So be very careful in removing the cleats so as not to damage anything that is cleated in.

Please remember that in paying charges to express or railroad company that you are not charged at so much for each piece or parcel; for in all cases you only pay for the actual weight carried regardless of number of parcels.

Our Free Delivery Offer

We prepay Freight or Express (we reserve the right to ship the cheapest way) on all orders of \$25.00 and over going forward in one shipment, to your nearest railway station in Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island on all goods except Furniture, Springs, Mattresses, Refrigerators, Organs, Stoves, Baby Carriages, Salt, Sugar, Flour and House Mantels.

To obtain advantage of this offer your shipment must amount to \$25.00 over and above the exceptions named. **If you instruct us definitely to ship your order by express and we find it would go cheaper by freight, we will ship it by express, but will only prepay the amount it would have cost us had the order been sent by freight, you paying the difference.**

Samples

In sending for samples answer the following questions, and order within two weeks (providing samples are satisfactory) to avoid the possibility of goods being sold out.

Samples of goods.....
Catalogue No..... Width.....
Plain or Fancy..... Colors preferred.....
Light, Medium or Heavy..... Price about.....

Do not ask for samples before you need them, as the goods may be sold out before your order is received.

WOMEN'S CLOAK and SUIT DEPARTMENT

IN presenting our Catalogue of Women's and Children's Ready-to-wear Garments for Fall and Winter 1907-8, we wish to call your attention to the excellent value offered and as represented in the fine illustrations throughout the following pages.

STYLES. Great care has been taken in selecting the latest and most suitable styles from among the thousands shown by the leading designers of London, Paris and New York. Our London and Paris offices and the frequent trips of our buyers to New York and abroad keep us in constant touch with the latest fashions.

THE MATERIALS we use have always stood the test of the most exacting demand and speak volumes for the care and discrimination used in their selection. The great quantity of cloth used in these ready-to-wear garments enables us to place orders sufficiently large to secure the very lowest mill prices. Of one cloth alone for one year we used a quantity equal to 60 miles.

10.29 OUR SPECIAL FANCY COLORED WORSTED SUIT

SIZES 34 TO 44 CHEST

E3-260. Men's Worsted Suits. The material these suits are made from is part of a large purchase of cloths we were able to get hold of some time ago. They are this season's newest fabrics, not old cloths. The cloth is made in England, weighs 19 to 20 ozs. to the yard, is smooth finished worsted, and comes in dark colors, neat patterns, all striped effects, this season's style for fashionable suitings. The colors are greys, browns and olive tinted. We make them up in our own large manufacturing plant, so can rely on the general make up and finish. The linings are what we believe to be the best for wear and satisfaction. They are made up into three buttoned single breasted sack style, single breasted vests and fashionable cut trousers, as cut E3-260. When ordering send us height and weight, chest measurement, waist measurement and inside leg measure.

12.50 OUR CELEBRATED EATONIAN SERGE SUIT

Sizes 34 to 44 in. Chest Longest Inside Leg Measure 34 in.

E3-265. It hardly seems necessary to call your attention to this particular good value in men's suits. We have handled this particular cloth so long and so successfully that it is really not necessary to talk more about it.

Men's Suits of Eatonian Worsted Serge, a cloth that is made solely for the T. Eaton Co., made of pure wool Botany yarns, and is fast indigo dye. It is, of course, an imported English material. With the state of the wool market to-day, it is only in buying in such tremendously large quantities that enables us to produce this much talked of suit. The cloth weighs 21 to 22 ozs. to the yard, is all thoroughly shrunk. You can have it either navy blue or black, and the style is either single or double breasted sack shape, strong serviceable linings or trimmings, as cuts E3-265 or E3-260.

**BLANKET SECTION**

Our prices are right on blankets. In addition to placing large orders with the best Canadian mills, we handle the entire output of one of the best and most up-to-date equipped mills in America. Low, inferior or shoddy blankets is something we have no room for and will not handle. Strictly reliable and dependable qualities are the only kind you can purchase in this department. "Inferior grades never made satisfied customers." In selecting blankets we are careful to see that they are not over-napped, also that they are thoroughly scoured. These are the kind that, in the after day, give entire satisfaction in washing and wearing.

Dependable Qualities is what has built up our Flannel Department. We take no chance on doubtful flannels. Our Flannels are always bought with a view to their washing and wearing quality. It costs as much to make up a cheap Flannel as a good Flannel. Why not buy a better quality and save in the wear of the garment?

# Colored Dress Materials and Suitings

Broadcloths and Venetians are again the leading vogue for tailored gowns, other very popular weaves are anamas, chevots and Worsteds for fashionable suits.

Medium Weight Fabrics this season are greatly in demand for the Eton and shirt waist suits, etc., such as Wool Poplins, Prunella Cloths, Wool Annures, Kharantha and Poplina suitings, Melrose and Henriettas.

The High Class Fancy Evening, receptions, wedding or street costume is shown mostly in lovely Silk and Wool Crepes, all kinds of Crepe-de-Chine, Silk and Wool Eoliennes, San Toys, Sublimes and Voiles.

Crems again have a strong claim to leadership. Made in all the silk and wool effects, also in Serges, Brilliantines, Albatross, Panamas, Bedford Cords and Cashmeres.

We lay special stress on the quality and perfection of the dye attained in the deep rich tones of the new colorings.

# HOME STUDY AND SUCCESS

## The Drake Series of Home Study Books

Never before has such an opportunity been given to men and boys the world over to make themselves thorough masters of all the leading mechanical and scientific trades and professions, and the avidity and eagerness with which so many are availing themselves of this unique chance to obtain, by so direct and easy a method, this practical and invaluable knowledge is the most potent testimonial to the high merit of the works that public sentiment can accord. The prices for these valuable works have been marked at a phenomenally low figure with a view to place them within the reach of everybody—ambitious men and boys of the narrowest means as well as their more prosperous co-workers.

**They are Practical, Omitting Nothing Essential and Containing Nothing Irrelevant**

From the Home Study Series of books has been eliminated everything which can in the remotest degree divert the student's mind from the essentials of the subjects treated; thereby providing him with the necessary and useful knowledge by the most direct route and shortest cut and saving him many hours of mis-spent study.

# Real Natural Hair Goods

For the protection of our customers, hair goods positively not exchanged

**Note: Prices quoted below include all shades, excepting white or grey, for which we charge extra. We cannot quote prices on grey or white hair unless sample is sent.**

**HOW TO ORDER READY MADE HAIR GOODS**

Choose the style and number required. Send a sample of the hair, NOT FROM THE ENDS, but from the roots, close to the scalp, as the ends of the hair, as a rule, are lighter than the roots, hence a bang or switch would not match the roots if as light as the ends. It is preferable to have the artificial hair always a shade darker as it gets lighter with wear.

**Measurement Charts**

**NOTE**—When ordering Toupees or Wig, follow carefully the instructions for measurements below. State where parting is required. Also send a sample when possible.

**Required for both Ladies' and Men's Wigs. Fill in these spaces.**

- No. 1—Around the head.....in.
- No. 2—From the hair on forehead to the pole of neck.....in.
- No. 3—From ear to ear across the forehead.....in.
- No. 4—From ear to ear over top of head.....in.
- No. 5—From temple to temple around back of head.....in.

For Toupee—Cut a piece of paper exact size and shape of bald spot, also measure around the head, and mark on paper where parting is wanted. Always send sample and state whether straight or wavy hair is wanted.

**NOTE**—On Wigs, Toupees, Transformations Pompadours and Bangs, allow 2 to 3 weeks. Other Goods and Switches, 1 to 2 weeks.

# Carpets, Rugs and Floor Coverings

The Carpet Department offers even better inducements than ever before for Mail Order shoppers. Note the low prices for high grade goods. We have made the illustrations exact and you may depend upon the accuracy of the descriptions. The variety in style and quality is inviting. Our increasingly large sales create a buying power at the factories that brings the price to us away down. This, with cutting out of middlemen's profits, accounts for the low price to you. Where selection is left to us, careful and expert people attend to your every want. We wish you to feel that you may receive your carpets quickly and obtain the utmost satisfaction through our Mail Order Service.

We have presented a number of the principal lines carried, but, of course, there are many things of necessity omitted. We are always pleased to answer inquiries concerning goods not mentioned. Read Our New Liberal Guarantee on colored insert page in the front of this catalogue, which guarantees you every satisfaction.

## DIRECTIONS FOR MEASURING ROOMS

Make plain figures. Measure exact, making no allowances. Information and estimates given, and samples cheerfully sent on application.

**NOTE**—When ordering carpets not estimated by us, allow at least one yard extra to every 20 yards needed for each room for waste in matching patterns. When borders are used an allowance of 1½ yds. extra to every 20 yards required should be made. If carpet can be cut a less waste, the difference will be refunded. Delay in despatch will be avoided by carefully going out the above instructions.

## Carpet Sample Department

Samples showing qualities and colors of any line in this department with the exception of Rugs, Seares and Crumbcloths, will be cheerfully and promptly sent upon application. As these samples are valuable to us we would ask that they be returned after inspection. Mark the pattern you select with an X on the pin ticket attached to sample and give number of same on our sheet provided, to prevent any misunderstanding.

## Prices for Sewing Carpets

Sewing all carpets .03 yard, with an additional charge of .05 for each mitre on bordered carpets. In the case of heavy carpets, especially Axminsters and Wiltons we recommend that bordered carpets be cut and sewn on the flat. It is done in this way: All surplus carpet at mitres at ends of widths (ordinarily turned under, making two thicknesses) is cut off and the edges sewn or serged. When sewn together this makes the carpet or rug FLAT, it has no double thickness anywhere. When done this way the charge is .03 yard for sewing, with 1.50 extra for rugs size 10 ft. 6 in. x 12 ft. and under, larger size in proportion.

## Brussels Carpets

English Brussels Carpets, 27 inches wide, the prevailing designs exceedingly large, anticipating every want of style and coloring in oriental, conventional, floral, scroll, combination and self designs, 22½ in. borders to match, 27 in. stairs for hall designs, special value, per yard..... **.85 1.00 1.15 1.25 1.35**

**Y**OU cannot be too particular in taking measurements for carpets, especially so if they are to be bordered, as bordered carpets cannot be turned under; they should fit exact. Draw a diagram of rooms to be bordered, also for rooms or halls requiring more widths in some parts than others. It is not necessary to draw to a scale, but give all measurements along base exact to ¼ inch, making no allowances; also the total length and width of room in centre and through folding doors (if any), and make sure that short measurements along base, etc., agree with the through measurements. Draw a line across irregular bay windows or jogs and you will have an accurate base to measure from. Locate all doors and jogs and give depth of each, so we can sew on carpet or filling for same if desired, also designate front of rooms and state which way you wish widths to run.

When the room is of such a size as to require a fraction of a width (in addition to the full width used), we will be obliged to piece it in one or two places unless you are willing to pay for a full width. In such cases state same on your order and we will send balance of width with your carpet. If you wish to have covered several connecting rooms, make a plan of same on one sheet showing them in their true position. By being careful in taking measurements and seeing that they prove before sending in the order, you will perhaps save the delay of our sending back the plan for re-measurement, as we will not cut the carpets unless the sizes prove correct. In measuring circular or winding stairs, always measure on the longest side, where the outside edge of the carpet would be.

# No. 3 IMPROVED SEAMSTRESS

## No. 3 IMPROVED SEAMSTRESS

A large number of people prefer the old reliable covered machine to the later drophead patterns, and it is for this class that we carry the No. 3 IMPROVED SEAMSTRESS.

OUR No. 3 IMPROVED SEAMSTRESS IS WITHOUT QUESTION THE BEST MEDIUM PRICED SEWING MACHINE ON THE MARKET.

21<sup>00</sup>

**MATERIALS.** Only the most select grade of solid oak is used in the construction. It is carefully selected with reference to grain and color, and is thoroughly aired and kiln dried to insure against warping, splitting or cracking.

**DESIGN.** The No. 3 IMPROVED SEAMSTRESS is a model of beauty and artistic design. It is made on the lines of the high grade, up-to-date furniture, especially designed for us and not made for nor used on any other machines.

**TABLE.** The table is made of built up stock and faced with highly figured quartered oak. This construction has proven the most durable, being practically indestructible. The front edge of the table is handsomely shaped. All tables on the upright box cover No. 3 machines, as illustrated, have a drop leaf, which, when raised into place, is supported and produces a table of ample length for any and all requirements.

**FINISH.** In point of finish this machine is strictly first class and of the very latest golden color, the popular finish put on high grade oak furniture. Before the finish is put on, the woodwork is most carefully sand-papered so that the varnish, which is of the very best quality, produces a hard glossy surface. The table is hand rubbed and polished.

**COVER.** All upright machines are provided with box cover, made of built up stock, surfaced with quartered oak and strengthened with mouldings. The front is ornamented with carved, raised panel. The cover is fitted with socket hinges and lock, so that when placed on the machine it can be locked, thereby affording full protection to the head.

## OUR IMPROVED SEAMSTRESS

\$28<sup>50</sup>

**THE Improved Seamstress, High Grade, Ball Bearing Sewing Machine.** We have been selling this Sewing Machine for a number of years, thousands have been sold by us in that time, and we can honestly say that it has never been necessary to return even one to the factory for repair. This enviable record is the strongest possible proof of the goodness and stability of our machines. The arm is large and perfectly proportioned, permitting the convenient handling of large and bulky work. Every one is covered by our **ten years'** warranty, and should the machine not prove satisfactory after 30 days' trial, return it and money will be refunded with charges you have paid.

**The Head** is handsomely decorated in gold decalcomania on black, protected by three hand-brushed coats of finest varnish. This insures the smooth and brilliant finish for which the machine is famous.

**The Arm** is full size, the working space being  $8\frac{3}{4} \times 5\frac{1}{2}$  inches. This allows ample room for the bulkiest materials.

**The Steel Needle Bar** is capped, so that it is impossible for dirt to collect in the bearings.

**The Tension** is on the side of the front arm, and is fitted with an ingenious patented device which automatically releases all tensions when presser bar is lifted to allow removal of work.

**The Feed** is wide and double, so it is impossible for goods to feed unevenly.

**The Take-up** is absolutely positive and automatic in its action; it is operated directly by a cam on the main shaft of the machine, and will control any size or kind of thread in a perfect manner in any class of sewing.

**The Automatic Bobbin Winder** with which this machine is equipped is a very vital improvement, for with it the bobbins are wound in an accurate and uniform manner, which contributes much to the perfection of the sewing produced by the machine.

**All Bearings and Working Parts** which are subjected to heavy wear are thoroughly hardened and finished in a most accurate manner, and when kept properly oiled will endure for a lifetime.

**GUARANTEED 10 YEARS**

# COFFEE AND CEREALS BUY BY MAIL, AND SAVE ONE THIRD.

**WE ROAST OUR OWN COFFEE.**

**You save a handsome profit on every pound of coffee, or any other item of grocery you buy from us.**

**We are our own Importers.** That's why we can give you such a high grade of coffee at a price much lower than ever was thought possible. We purchase the green beans direct from the growers, make our own selection of what will prove by actual test to be good roasters and sweet drinking coffees.

**Our own experts** sort and grade it, and it is roasted as you order it from fresh beans. We do not ship you old stock that has been roasted for months and all of the aroma lost, but a real fresh coffee roasted and ground by ourselves.

**Remember We Choose the Goods first and then Make the Price**

We are able to sell you coffee at less than your local dealer pays for it, because buying direct from the growers we take the profits that usually go to the middleman and give to our customers. We can always supply green beans to our patrons and you may roast and grind yourselves.

### GOOD COFFEE

Allow one rounded tablespoonful of coffee to each half-pint of water, mix with a little white of egg and cold water, then pour over the boiling water, bring quickly to a boil, lift from the fire, again bring quickly to a boil and lift, repeating the act the third time, throwing in a little cold water the third time, let stand a moment to settle, then pour. Do not allow made coffee to stand on grounds. The above old fashioned method makes delicious coffee.

# DRIED FRUITS

We hold the first place in Canada for Dried Fruits, in quality and price. We buy direct from the grower. Our own buyer goes to Spain for the raisins, where the best are grown. He observes the supply, makes his own selection of the finest grades, and obtains them at bottom prices because of the large orders. No middle profits, you get them low priced for any quantity. The Valencia for cooking and the Clusters for table use. All other fruits are bought and sold on the same basis.

## Prunes

RECIPE FOR STEWING CALIFORNIA PRUNES SO THAT THEY WILL BE MOST APPETIZING AND DELICIOUS

Take a quantity of prunes and wash carefully in several waters, so that they are free from all dirt, throw away rinsing water. Place the prunes in a dish and cover with water to the depth of three inches above the top layer and let soak over night. Cook in the same water for about a half hour, letting the water simmer, never boiling vigorously. When nearly done add sufficient sugar to taste, then add to about every quart of prunes a thin slice of lemon cut in half, and a small piece (say  $\frac{1}{4}$  inch in length, broken in small pieces) of stick Ceylon cinnamon. Serve cold.

NOTE—Always add sugar to all dried fruits just before taking them from the stove, never before, as cooking in syrup hardens the fruit.

# CROWN HURON RANGE

43<sup>50</sup>

### For Coal and Wood

The "Crown Huron" is a cast range and a true kitchen friend, especially designed to fill the demand for an up to date, medium sized cooker, with all the desired modern appliances. From an artistic standpoint the decorative carving of the range is of unequalled beauty. The flue construction is perfect. Being of the two-flue construction, the heat is compelled to pass completely around the oven twice before entering the stove pipe. The broiler door is large, making it convenient for broiling. Guaranteed to be a good baker and an economical coal consumer.

# Drugs and Drug Sundries

**QUALITY OF DRUGS.** All goods entering into the composition of a prescription have to be up to the standard of the British Pharmacopoeia, or should the physician order a special preparation, or a definite manufacturer's goods, such has to be sent and no other, thereby safeguarding the taker of the medicine as well as giving the physician absolutely what he orders for his patient. The physician can then see the actual results of what his skill deems the most fitting medicine for the special case under his treatment.

**Be sure and send for special Drug Catalogue of 60 pages, which is well illustrated, and gives much information as well. It is yours for the asking.**

We do not make a sale of less than **five cents** unless where the ingredients are in a mixture. ut when wanted separate **five cents** is the **smallest** charge we make for any item of drugs.

**MAILING NOTE**—Send the following amount for postage:

**Elastic Stockings**

NOTE—Re size of stockings, an average proportioned leg measuring 14 inches at the calf, will require a No. 8 stocking, but should a part of the limb be swollen then a special stocking would have to be made. In sizes above No. 8 allow for calf measurement, 1 inch for each size larger; and the price per size over No. 8 is increased as follows: Thigh stocking, 25c; knee stocking, 20c; garter stocking, 15c; leggings, kneecaps or anklets, 10c a size. Then when there is a marked difference in sizes between the regular sizes and what is required either in length or any other part, a special stocking has to be made, the price of which is about 25 to 33 1/2 per cent more than the regular sizes.

**Directions for Measurement.**

|                                                       |  |

| Thigh Stocking, measure at A, B, C, D, E, F, G, H, I. |  |

Also give length required, as marked by dotted lines.  
In measuring give actual size in inches and we will allow for stretching, etc.

When there is any difference in the size of stocking and one has to be specially made, we will have to charge extra for it, as also from No. 8 up in the regular sizes.
