MESSAGE FROM THE MINISTER

CANADIANA

C2
MAY - 1 1987

It gives me great pleasure to present the first directory ever compiled to document Alberta's exciting and multifaceted fashion industry. The diversity and range of products represented by the companies listed within is indicative of the unlimited opportunities open to the investor in this sector.

Representing \$1.2 billion in annual revenues, Alberta's fashion industry is a major force in the province's economy and a major building block of our economic diversification. More than 40,000 people are directly employed in the industry, while the job of at least one in every 10 Albertans is directly or indirectly dependent on the production, distribution or sale of wearing apparel and accessories.

Many of Alberta's most creative fashion designers have achieved international status and have had their talents recognized in the world's major fashion centres.

The province's fashion retailers enjoy a population base that spends more per capita on clothing and footwear than residents of any other Canadian province. And, Alberta clothing and footwear manufacturers have the advantage of an infrastructure that features a large, skilled labor force and a government open to free enterprise.

I salute the initiative, drive and creativity of all the people and companies that have played a part in building Alberta's fashion industry. And, to companies looking for new opportunities in the industry, I say without hesitation the opportunities to be found in Alberta are unlimited.

Larry R. Shaben
Minister

A

Albertans, like other North Americans, spend more on clothing than they do on cars. In fact, over the past five years more has been spent per capita on clothing, footwear and other accessories in Alberta than in any other province.

Alberta's retail fashion scene is a vibrant one, enhanced by the development of the world famous West Edmonton Mall, with over 800 retail outlets. Recent years

have seen the development also of other major urban shopping centres, as well as the recent redevelopment of downtown malls into upscale retail fashion centres.

As is the case for most retail groups across Canada, some 70 per cent of Alberta's apparel and accessories trade is represented by national and

international chains. However, Alberta is home to many very successful independents which have carved an attractive niche for themselves in the "high end" of the market with high quality, specialized items. In fact, this area of Alberta's retail sector offers the greatest potential for growth and unlimited opportunity for the entrepreneur.

DESIGNERS

With their roots in the romantic old west and their vision firmly on the future, Alberta's fashion designers reflect the young, vibrant spirit of Alberta today. From uptown Western styles to elegant custom designed evening wear, Alberta designers are creating their own mystique.

While they incorporate the best of their western heritage and environment into their consciousness, Alberta's designers think globally. And many of the province's most successful designers are at the forefront of fashion trends in North America.

Although their industry is a young one, Alberta's designers are already passing their knowledge and skills on to a new generation of creative talent by teaching at colleges and technical schools within the province.

MANUFACTURING

From exquisite one-of-kind jewellery items to rugged denim workwear, clothing and accessories manufactured in Alberta are well known for their quality.

Superbly hand-crafted leather boots from Alberta are in demand around the globe.

Alberta has become particularly well-known for

high quality exercise and active wear. Fashion denim wear made in Alberta is marketed internationally, and high fashion outer wear manufactured in Alberta is sought after around the world.

Alberta manufacturers of unique, designer jewellery and accessories have been very

successful marketing their products throughout North America.

Given Alberta's growing reputation for superb quality active wear and accessories, opportunities abound for manufacturers interested in this sector.

MODELLING AGENCIES

In the highly competitive world of fashion, models trained in Alberta are in demand internationally. Alberta faces are seen on the covers of major North American and European fashion magazines, while Alberta models are familiar on the ramps in many of the world's great fashion centres.

Alberta's modelling agencies maintain the highest professional standards and incorporate these standards into the courses and programs they offer. Many operate in conjunction with public and private educational institutions.

International Representatives

The Alberta government maintains offices in strategic locations around the world. Our foreign office representatives can provide all the information required to initiate commercial or technological exchanges. They can also introduce potential investors to the unlimited opportunities available within the province of Alberta. Feel free to use their services.
