WHY YOU SHOULD BUY YOUR SHIRTWAISTS FROM US

CORRECT STYLES

Every woman, when she buys her shirt waists, likes to buy them where the assortments are selected—she likes to choose from among what she knows to be the choicest styles of the season, so that she may have the delightful pleasure of knowing that what she wears is correct.

The Walker style display of waists is in reality the survival of the fittest of the waist styles of the fashion centers of America. Walker waists are famous among the women of the country. Our customers buy with a confidence born of years of satisfactory dealings with us.

WAISTS OF QUALITY

Let us reiterate here a well-known Walker axiom: That in order for an article to be listed in the Walker Bargain Book, it must have quality. Our waists are doubly inspected to insure quality. Our waist business is enormous and, although we back every waist with the Walker guarantee of money back if not satisfied, it is a very rare occurrence to have a waist returned to us. Delighted customers always keep the waists when they see their superb quality, style and low price.

LOWEST PRICES

Volume business enables us to maintain lower prices. We buy in immense quantities—and call your attention to the fact that the material in many of these waists was bought months ago, when prices were far below the present market. Also, we utilize many short lengths and selected remnants, and thus, in many cases, can offer you a complete waist for less than the present market price of the material alone.

DRESSES AT LOWEST PRICES

The Dresses featured on this page will be sold at the low prices quoted until the present material and manufacturing contract expires. In our opinion prices will advance later on, and consequently we suggest you buy all you need now while you have the opportunity. These are real bargains in every sense of the word.

5KX428 An excellent house dress of **chambray-finished linene**, designed especially for stout women, although it is becomingly suited to figures as small as size 37. The large pointed collar is trimmed with checked gingham and pearl buttons, and is finished with neat gingham bow. Cuffs are of check gingham. Loose belt buttoning in front. Topolo shape pockets, button trimmed. Colors are **Blue, Gray, Lavender**. Sizes, 37 to 53. **Postpaid, \$1.49**

5KX505 This washable **percale** dress, with its piping of **White** throughout, is one of our most popular numbers. Made in loose-fitting style with semi-loose belt that slightly designates the waist line. Belt, large collar and cuffs are of **striped gingham**. Sleeves are raglan style. Large pockets are also of **striped gingham**. This is a most serviceable dress and will give long and satisfactory wear. PERCALE

5KX115 Striped percale is one of the most popular of materials for house dresses. Especially if your figure is inclined to the stout, you will find the unobtrusive stripes in this dress will give you that trim effect which is so desired. The style, as the picture shows, is somewhat conventional, but good. Cuffs, collar and belt are of gingham, which with large buttons in front give just enough trimming effect. Choice of either **Blue or Black** stripes in sizes 37 to 53. **Sent postpaid, for \$1.26**

5KX113 This neat Mother Hubbard wrapper makes an exceedingly serviceable garment for house wear. We recommend it to those of slender figure, although it must be admitted that the clever designing of this garment permits of its being worn with splendid effect by medium figures. In fact, to such figures, it gives that stylish suggestion of slimmness. It is neatly made with an attractive collar to give an added touch. Deep full blouse. **Blue or Black**, in sizes 32 to 46. **Sent postpaid, for only \$1.29**

5KX242 Slip-on Middy Apron—another clever adaptation of the middy idea—an idea that is so full of practical possibilities. This splendid house garment is made of **percale**, in **light color** tones. The collar and belt are trimmed with neat piping. As the picture shows, this is a most serviceable style, and one of which we will sell thousands. The price should be about \$1.25, provided we fixed the price on the present value of the materials. But we are featuring this as a great special value. Sizes, 34 to 44. **89¢ Postpaid**

MEDIUM WEIGHT WHITE FEET

11013 Many men prefer socks with white feet. They say white feet give them supreme comfort, that there is complete absence of all itchy feeling, such as we all have sometimes experienced. Whatever basis there is for this, there is no denying that thousands of men will wear none other than socks with white feet. And so we suggest this great sale as an opportunity to stock up. Medium weight, full shaped, seamless, with reinforced heels and toes. Black with White feet. Sizes, 9 1/2 to 11 1/2. Postpaid, 3 pr.....**55c**

PURE FIBRE SILK

11014 Some call the material synthetic silk from which these lustrous appearing socks are made; however, we prefer to call it fibre silk. Double soles with high spliced heels, carefully woven throughout. We warrant extraordinary wear. Black or White. Sizes, 9 1/2 to 11 1/2. Pair, Postpaid.....**59c**

have given continuous good service to the public for over thirty years. Long years of manufacturing experience are behind them and they are backed by the policy of The Eastman Kodak Co. of allowing nothing to be placed on the market which will not do all that is claimed for it. Each model is efficient and dependable in the fullest sense of those terms.

They use Eastman Cartridge Film, and all, excepting the No. 00, offer the advantage of daylight development by the tank method.

Every Premo is accompanied by a simply worded, complete book of instructions, which, if followed, will enable anyone, even without previous experience, to make good pictures.

BODY—Made of heavy gauge, rust-resisting, copper-bearing metal sheets, interlined with heavy asbestos millboard. Right-hand wall is protected with an extra cast-iron plate, making a double wall and preventing burning out. Parts directly exposed to fire are heavily cast from pig iron.

FIRE-BOX—Linings are of heavy cast iron, back being in three interchangeable sections. One-piece front grate and removable end linings. All are perforated, thus preventing burning out. Fire-box is roomy, takes 18-inch wood, and is proportioned to give best results. Improved duplex grate for hard or soft coal, wood, or any other range fuel. Operated from front of range. Left side has sliding draft damper directly in front of fire-pot. Swinging ash-door with nickeled ash-tender below. Extra deep ash-pit and large pan. Extension clean-out flue with nickeled door under oven bottom.

MAIN TOP—Has three interchangeable key plates or sections and six ribbed 8-inch covers. Equipped at front with a heavy full length nickeled front bar. Left end is fitted with a lift-up broiler door. Direct draft damper controlled from back of main top. One lid is nested for various sized utensils.

HIGH CLOSET—Made of rust-resisting steel, of large size, with roll-back door. Has two nickeled drop tea shelves and substantial cast-iron revolving draft damper in pipe. Extreme top has an extension back with nickeled corners.

BASE is made entirely of heavy cast iron.

OVEN—Constructed of patented leveled copper-bearing steel in entirely one piece to insure against warping. The top is protected with heavy sheet asbestos. A cast-iron support extends across the top of oven plate to support the cooking top and prevent warping. The oven is fitted with two runners. The oven bottom is securely reinforced with cast-iron channel bars. Welded wire oven rack is clean and sanitary. Oven door is of spring balanced type and forms a shelf level with the oven bottom when opened. Positive locking oven-door handle of always cool type. Thermometer is of best style and guaranteed indefinitely.

SMOKE-BOX—Cast-iron flue box at the back of the range.

NICKEL PARTS are of new Colonial style, smooth and of mirror-like brilliance. DESIGN is plain, neat and strictly up to date.

RESERVOIR—This is of the encased quick heating type, built to the body of the stove, and fitted with a removable 15-quart porcelain-lined, cast-iron tank. Reservoir cover is in two pieces, finished in a Jet Black enamel to prevent rusting. A special damper sends the heat directly around the oven instead of around the tank. SHIPMENT—These ranges are shipped from the foundry to you. This assures new fresh goods, and bright nickel parts. Foundry is centrally located, assuring low freight rates to all points. Average weight with reservoir, 410 and 425 pounds.
