# YOU RUN NO RISK IN ORDERING FROM US BY MAIL

## OUR LIBERAL GUARANTEE

If you find that the goods we send you are not satisfactory for any reason, return them within 10 days after receipt of same in good condition, and we will pay transportation charges both ways and exchange or refund the money. We make exception only on certain goods that we do not exchange, a list of which is in "Returning and Exchanging Goods Paragraph," page A4.

## Here's How You Run No Risk

This Great Store has taken a long stride forward in the endeavor to bring its advantages as near as possible every Canadian home. We throw our goods open to the inspection of our Mail Order shoppers just as though visited the store, showing we have the utmost confidence in the quality of our goods and the good values we give, knowing they will stand the keenest scrutiny.

For a number of years we have been telling the people that if the goods were not satisfactory we would change them or cheerfully refund the money. Now we go a great deal farther and step out on the reputation of our high class merchandise and make the freest and fullest offer that can be conceived for the benefit of our shoppers by Mail. We take all the risk and bring all the advantages of this Great Establishment with its one low price to all for prime goods right to the door of the out-of-town home.

By making your order \$25.00 you still have the privilege of free delivery. Read our Free Delivery Paragraph on page A4.

## Here's Why Our Price is Small

There's every inducement offered Mail Order Buyers to do all their trading at the Greatest Store in Canada. Every department is stocked with the newest and freshest goods, bought with the purpose of maintaining our reputation of giving a **high quality of goods at a small price.** Every dollar's worth you buy here means you have saved some money. With our New Liberal Offer which you will find above what more can be desired? You run no risk.

Many times a year our buyers visit every known market in the world where required goods may be found, getting as near as possible to the place of production and buying all the best goods that can be had—the whole output of a cotton and tweed and linen mill and carpet and glove factory in Canada or Europe; the pickings of tea and coffee and spice crops in Ceylon, China, Japan and the Indies; the production of a raisin plantation in Spain, and so on wherever the most and best is produced, always selecting the finest quality. After the quality selected price arrangements are made. As our orders are so large we are enabled to keep the price away down, and sell to you at prices that make your dollar buy much more than if we bought in small quantities and through importers and other dealers—and the goods always give better satisfaction.

A great many of the articles of wear we make up in our own factories, where every invention for quick and perfect manufacture is in use, and where every garment is carefully examined before being put on sale. The slightest defect means rejection. And the goods we offer our Mail Order customers are exactly the same and at the same prices as sold to persons who visit the store.

**"The very best, at the smallest price, with the least delay in filling orders,"** daily motto, and increasing thousands are proving it true.

## FIVE IMPORTANT POINTS TO REMEMBER

**Be sure and sign your name and address on order and always sign the same way.** We receive several orders every day where customers neglect to send any name or address, this delays the order often until a complaint is received.

**Do not enclose Cash unless letter is registered.** (Read particulars "How to send money.")

1. Do not fail to give size or color on goods requiring same, and when ordering from samples be sure to enclose same, marking each sample 2nd or 3rd choice. (Read particulars "How to make out order.")

2. If order is to be sent by mail be sure to send sufficient money extra to pay postage. (Read particulars "Mail Shipments.")

Check your extensions and total your orders carefully. (Read particulars "How to make out order.")

**If your friends or neighbors have not received one of our Catalogues tell them to send us a post card; it is sent free for the asking.**

# Useful Instructions for Buying by Mail

This Catalogue cancels all former issues. Our terms are Cash and One price to all.

It is very simple to order by mail, if you will read carefully the following instructions we will guarantee that in sending your orders to us you will save money and receive good satisfaction.

## How to Make Out Order

Write distinctly. Use our order form; if you have none plain paper will do. We supply order forms free on request. If plain paper is used follow the arrangement of our order form as near as possible.

Be sure to give your name and address and always written in the same way, this will be a great benefit to us in keeping a correct list of our customers. Avoid sending orders under more than the one name from the same family as much as possible. If you change your address drop us a card giving both your old and new address.

Always state the amount of money you enclose.

Be sure your order is extended and totalled correctly. We frequently receive orders as for example:

"3 yds. of silk @ 50c yd. Total 50c, *should be \$1.50.*"

"2 Undershirts @ 35c each. Total 35c, *should be 70c.*"

On account of this error we are obliged to omit all or part of the articles ordered.

Be sure to give all sizes, colors and measurements, as without this information it is impossible for us to fill your order. For instance, we could not fill an order for a pair of gloves if customer neglects to give size or color.

If for any reason you would prefer to have your order shipped without our name appearing on the outside of the parcels or cases tell us on your order and we will cheerfully carry out your request.

Write all remarks or enquiries for samples on a separate sheet with the name and address on same, enclosing in the same envelope.

Before sealing your envelope check your order over carefully and see that—

- I. Name and address is correctly and plainly written.
- II. If order is to be sent by freight or express that name of your nearest railway station is given. That sufficient postage is enclosed if order is to be sent by mail.
- III. That color and sizes are correctly given and samples enclosed, if any.
- IV. That your order is extended and added correctly.

## How to Send Money

We strongly advise you to send by Express Money Order, Post Office Money Order or Postal Note, which can be procured at your express office or post office at a very small cost. This is absolutely safe, for if the letter is lost we can easily procure a duplicate. The charges are as follows on Express and Post Office Orders:

\$5.00 and under.....	3c
Over \$5.00 and up to \$10.00.....	6c
Over \$10.00 " " 30.00.....	10c
Over \$30.00 " " 50.00.....	15c

The charges on Postal Notes are:

From 20c to 40c cost.....	1c
" 50c to \$2.50 cost.....	2c
" \$3.00 to \$5.00 cost.....	3c
" \$5.00 to \$10.00 cost.....	5c

If it is not convenient to obtain any of the above the money in an envelope, see that it is carefully sealed and be sure and have your postmaster register it. The cost for registration is 5c.

Do not send cash without registering as it is not safe. If the letter is lost the post office cannot trace it and you will be at the loss.

For small amounts use the postal notes, and if necessary to use stamps send those of large denomination.

We accept Bank Drafts and Marked Cheques payable at par in Toronto, Ont.

## Mail Shipments

Light goods that are not of great value we advise sending by mail, excepting in cases where there is no express office within a reasonable distance, in which case larger orders can be sent. Articles weighing up to 3 ounces when packed will go cheaper by mail; from 13 ozs. to 25 ozs. they can be sent by express safer and as cheap if you send sufficient money extra to prepay the charges. The express charge is 1c per ounce, when over the 15 ozs. and up to 25 ounces, this will be an advantage on orders weighing less than 25 ozs., if you send sufficient money to prepay the charges. The limit of weight on mail parcels is 5 lbs. per parcel and the limit of size 30 ins. in length by 1 ft. in width or depth.

**Sending Sufficient Postage**—Frequently we receive orders where there is no postage allowed or there is less than half the amount required to mail an order; as the postage has to be prepaid it necessitates omitting an article or delaying the order awaiting the necessary remittances.

**Be sure and send sufficient money extra to pay postage and any balance will be returned to you in cash when order is shipped.**

The rate on merchandise by mail is 1c per ounce on books, and printed matter  $\frac{1}{2}$ c per ounce or 8c per lb. Estimate the weight of your goods, always allowing extra for packing.

In ordering liquids in bottles or any other breakable goods extra packing has to be used, which increases the amount of postage. If possible make up a larger order and have these goods sent by express or freight, as it is much cheaper.

**Delivery Guarantee**—For 2c extra we will guarantee the safe delivery of each order of 50c or over if sent by mail. We will deduct 2c from your remittance for this purpose unless otherwise instructed.

## Express Shipments

Now to figure the charges see page A5. As a general rule the most profitable and satisfactory way to send orders weighing from 2 lbs. to 25 lbs. is by express. Always forward enough money to prepay small parcels weighing from 13 ozs. to 25 ozs., as they can be sent at 1c per oz. if prepaid. The express company will not deliver and collect at destination for less than 25c.

The express companies give a prompt service and an absolute guarantee of safe delivery.

Wall paper can be shipped by express at a very low rate if sufficient money is allowed to prepay the charges. Example—If regular rate is \$1.75 per 100 lbs., 30 lbs. would cost 90c, but if prepaid charges would be only 45c, just half the rate.

Make up a freight order if you possibly can. As a general rule you can send 100 lbs. by freight for about the same price as you can 25 lbs. by express. Of course you will be longer in receiving your order, but the cost will be greatly reduced; besides if the order is \$25.00 or over, you will get the advantage of our Free Delivery Offer. (Read our Free Delivery paragraph.)

A shipment put up in 2 or more parcels or pieces does not cost any more than if put up in one parcel. The charge is not by the number of parcels but by the total weight.

## Freight Shipments

Shipping goods by freight although slower than express is the cheapest way, and gives you the opportunity to order supplies of all kinds and gives the greatest possible saving, as the charges on any one article when included in a general assortment of household goods is almost nothing. If for example the total freight charges on a general shipment of shoes, groceries, clothing, etc., is 90c, the charges on any one item, the shoes for instance, would only be a few cents, whereas if shoes were sent alone by mail or express the charges would be 20 to 25c.

In shipping by freight the railway companies charge the same amount for a 25 or 50 lb. shipment as they do for 100 lbs. It is poor economy to order only 50 lbs. of goods and pay the railway company as much as they charge for 100 lbs. when you can include groceries or any staple household supplies at our low prices to make up the 100 lbs. with no more expense to your charges. (Read Club Order paragraph). **Therefore it is to your advantage** to build up your orders to at least 100 lbs., allowing for packing. If your goods weigh more than this, say 160 lbs., you do not pay freight on 200 lbs. but only on the actual weight. For example, (see rate to St. John, N.B. in table below), 160 lbs. to St. John, N.B., made up as follows:

1 case of drygoods, 80 lbs. @ 70c per 100.....	\$0.56
1 " glassware, 40 " 62c " .....	.25
1 " dried fruits 30 " 62c " .....	.19
1 chair K.D. (knocked down) 12 lbs. @ 72c 100.....	.07
add cartage which R. R. Co. charges on every shipment.....	.12

Making total charges .....	\$1.19
100 lbs. to St. John, N.B., would be.....	82c.

### For a guide to you in helping to estimate your charges.

We give a list of some of the principal towns with the rates per 100 lbs., also the minimum charges, on page A5.

**Do not sign for goods from express or railway company if they are in any way damaged** until the agent makes a notation of the extent of the damage on your freight bill. The railway companies are responsible for damage in transit. Do not fail to notify us if shipment is unreasonably delayed after receiving bill of lading (freight bill duplicate) from us.

When goods are to be shipped to a flag station (where there is no agent) either by express or freight, sufficient money must be allowed to prepay the charges, otherwise they will be sent to the nearest regular station.

We make no charges for cases or packing.

## Returning or Exchanging Goods

When returning goods write plainly your name and address on outside of package. It is impossible for us to know your package if not marked. This is important. Please do not overlook it.

See package is well wrapped up and if breakable goods that proper care is used in packing. Write us fully telling us what is wrong, and what you want done. Also state railway station if returned by freight or express, and post office if returned by mail.

Written instructions may be enclosed with express or freight packages, but do not enclose letter in parcel being returned by mail; if this is done full letter rate will be charged on package.

Always return the bill of goods sent back. Do not enclose money with return merchandise.

## Club Orders

If you cannot make up a shipment to weigh 100 pounds to get the advantage of the freight rate or our free delivery, we advise two or more persons clubbing together and making up a large order having goods shipped in one shipment to one address. We parcel and tag each order separately, enclosing the bills in each parcel, shipping the whole order to the sender of the order. We also mail a statement to the sender showing the amount of money received and the amount of goods sent to each customer. It would be of great assistance to us if each customer would state on their order the amount of money given to the sender, and the sender to send us a list of the amount received from each customer. It is also necessary that the sender should carefully total the different orders, as quite frequently we find that when totalling same there has been insufficient money sent.

**All orders must be mailed at one time and in one letter.** This is very important as we do not hold the order, and cannot enclose any orders coming in later, they will be sent on separately if received.

Each order must be written on a separate sheet, just the same as any other order, giving name and P. O. address in full.

State on each as follows: "Enclosed with Mr.—'s order," giving the name of the person to whom the goods are to be shipped.

The person to whom the goods are to be shipped must write shipping instructions fully in his letter, and state what orders are to be enclosed.

## Substitutions and Omissions

By a substitute we mean an article sent in place of the one ordered.

Although we always endeavor to keep our stock of catalogue goods complete it occasionally happens that we receive orders for goods that are temporarily out of stock. When this occurs we always endeavor to procure the desired article, but if we cannot procure it within a reasonable time we will (except you tell us not to substitute) send a similar article of better quality and higher price for the price allowed. But if we know that we will have the goods again in a few days we will ship your order short this article with an explanation that the goods are out of stock and will be forwarded later. We will also pay any extra charges incurred by your order going forward in two shipments. We wish our customers to fully understand that we make all substitutions entirely on our own responsibility, and if the goods substituted are not in every way satisfactory you are at liberty to return them at our expense, and we will cheerfully refund your money together with all transportation charges paid by you.

We are always anxious to make every transaction with us a source of profit to our customers. We frequently find on checking our orders that a customer has ordered some article to be sent by mail on which the postage exceeds the value of the goods. For example—The postage on scribblers which we sell at 3 for 5c would be about 25c. In this case we think we would be looking after the best interest of our customer if we omitted the goods, as the postage added to the value of the article would make it a very unprofitable purchase to the customer. When ordering this class of goods we would advise including them in a general order and having them sent by freight or express, as in this way they can be shipped at very little cost.

## Enquiry About Your Order

Should you not receive your goods or hear from us within reasonable time write us at once, giving full particulars, viz.: name in full, Post office address, Province, Date order was sent, When and where mailed, How addressed, Amount enclosed, Whether Express or Post Office Money Order, Cheque, Cash or stamps. If by Registered Letter, Money Order or Postal Note, give number.

State if name and address was properly signed. Send copy of order as nearly as possible. Write from same post office and say how and where goods were to be shipped.

Sometimes errors occur; on receipt of goods if anything is wrong write us at once, stating exactly what is wrong, give order number, return bill of goods and state number of parcels received. Give full list of shortage. You will receive a prompt reply. We guarantee satisfaction or refund money. Be sure you sign your name and address. All claims ought to be made within 5 days after goods are delivered.

Do not return goods received in a damaged condition without first notifying us. Do not accept or give receipt for damaged goods unless agent makes a notation of such damages on freight receipt.

If you do not receive all of your order always state in your letter (how many pieces or parcels) you have received from either or express company. *This is important* as it will save an unnecessary delay for it will necessitate again writing you for the above information before we can trace the lost pieces or parcels.

Do not destroy waste paper or packing until all goods are packed off and accounted for. As very often small articles are thrown away or destroyed with the packing material.

As a rule breakable goods are cleated off in the end of the case. So be very careful in removing the cleats so as not to damage anything that is cleated in.

Please remember that in paying charges to express or railroad company that you are not charged at so much for each piece or parcel. For in all cases you only pay for the actual weight carried regardless of number of parcels.

## Goods Not Exchanged

We pay the charges both ways on goods ordered by mail if returned in good condition within 10 days after receipt of same and will exchange or refund the money as requested. We make exceptions on certain goods that we do not exchange for arbitrary and other reasons as follows:

- Goods made to order according to your measurements.
- Cut Goods sent according to samples.
- Worn Goods                      Veils
- Hair Goods, Toilet Goods      Brushes and Combs
- Rubber Goods, as Syringes, Etc.
- Mattresses and Pillows        Musical Goods
- Goods not catalogued which have been procured specially for your order.

When returning goods send them back the cheapest way, if the weight is less than 2 lbs. it will generally be cheaper by mail. If sending by mail pay the postage in full and we will refund the amount. As a general rule from 2 lbs. to 25 lbs. will be cheaper by express, this can be sent collect, we pay the charges here. Over 25 lbs. send by freight.

## Free Delivery

We prepay Freight or Express (we reserve the right to ship the cheapest way) on all orders of \$25.00 and over going forward by one shipment, to your nearest railway station in Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island all goods except Furniture, Springs, Mattresses, Refrigerators, Stoves, Baby Carriages, Salt, Sugar, Flour, and House Furnishings.

To obtain advantage of this offer your shipment must amount to \$25.00 over and above the exceptions named. If you prefer to ship your order by express and we find it would go cheaper by freight, we will ship it by express but will only prepay the amount it would have cost us had the order been sent by freight.

## Samples

When sending for samples state very clearly what kind of material is wanted, the colors and about what price you wish to pay.

If you are sending in for samples when ordering goods, write your request on a separate sheet putting name and address on same, this will facilitate matters in both filling your order and sending your samples.

Do not ask for samples before you need them, as the goods may be sold out before your order is received.

Make second and third choice if possible, and when you receive samples send your order in at once if they are satisfactory. After making your selections you will confer a favor on us if you will kindly hand the balance of samples to some of your friends.

## Our Prompt Service

If you are in a hurry for your goods do not be afraid to send us your order. We ship out a large per cent. of our orders within one day after we receive them. We fully understand how important it is to our customers that each order should be filled and shipped promptly. Our system prevents a clerk from holding or delaying an order for any reason without advising you, our whole endeavor being to send what the customer orders and ship it out as quickly as possible.

Every known device regardless of expense has been adopted by us that will in any way facilitate the prompt and accurate handling of the large number of orders we daily receive.

## Dress Fabrics and Silks

THE 1907 Spring Fashions in Dress Materials surpass other seasons in variety of choice of artistic style creations, **introducing many new fascinating** effects and color combinations. Much might be said of the particularly rich finish demonstrated in the various weaves, resulting in a stage of color perfection never before excelled. Shades holding a leading place as prime favorites are the new greys, navys, browns and greens. Cream too is a color that will continue to be one of the greatest in demand, while black is steadily on the increase with fashionable dressers. The lighter and sheer weights in most fabrics will be the prevailing styles.

In Novelty Suitings fancy light grey **Tweeds and worsteds** rank high as favorites. **Broadcloths, Venetians** and **Cheviots** in chiffon and medium weights hold their former great favor for tailoring purposes.

**Voiles, Silk and Wool Eoliennes, San Toys, Taffetas, Sublimes, Crepe de Chine** and **Marquissette Novelties** are some of the leading styles that will be seen in fancy street or evening costumes.

Plain **Silks**, principally in softer weaves, including the ever popular Taffetas, will be strongly in evidence. In **Fancy Novelty Silks** the new ray stripes, checks and plaids in designs and colorings are marvels of style and dress attraction.

**Wash Materials**, rivalling silks and silk and wool fabrics in coloring and effect, will be greatly the vogue for dresses and shirt waist suits.

Our noted Wash Fabric Section is complete with a splendid range of staple and novelty weaves from British and Continental fashion centres.

# Drugs and Drug Sundries

**QUALITY OF DRUGS.** All goods entering into the composition of a prescription have to be up to the standard of the British Pharmacopoeia, or should the physician order a special preparation, or a definite manufacturer's goods, such has to be used and no other, thereby safeguarding the taker of the medicine as well as giving the physician absolutely what he orders for his patient. The physician can then see the actual results of what his skill deems the most fitting medicine for the special case under his treatment.

**Be sure and send for Special Drug Catalogue of 60 pages which is well illustrated and gives much information as well. It is yours for the asking.**

# Real Natural Hair Goods

Allow 7 to 10 days to fill Real Hair Goods orders after order is received

Note: Prices quoted below include all shades excepting white or grey, for which we charge extra. We cannot quote prices on grey or white hair unless sample is sent

## HOW TO ORDER READY MADE HAIR GOODS

Choose the style and number required. Send a sample of the hair, NOT FROM THE ENDS, but from the roots, close to the scalp, as the ends of the hair as a rule are lighter than the roots, hence a bang or switch would not match the roots if as light as the ends. It is preferable to have the artificial hair always a shade darker as it gets lighter with wear.

### Entirely New This Season

KI-26871. This is without doubt the prettiest Curtain in Irish point (Swiss) net we have ever been able to offer to our customers. The sketch is by one of the best artists and the close even weave gives a decided lacy effect. The design in applique is novel, entirely new this season. It is quietly elaborate; just such a curtain as adds the finish to a tastily furnished room, and harmonizes with modest surroundings. It has overlapped edge with pretty floral figures dotting the plain centres; coming in two sizes it would make a very appropriate hanging for a bay window, or where there are different sized windows in the room, when it is desirable to have perfect matchings. Colors white and ivory. Be sure to state color.

# Carpets, Rugs and Floor Coverings

The Carpet Department offers even better inducements than ever before for Mail Order shoppers. Note the low prices for high grade goods. We have made the illustrations exact and you may depend upon the accuracy of the descriptions. The variety in style and quality is inviting. Our increasingly large sales create a buying power at the factories that brings the price to us away down. This, with cutting out of middlemen's profits, accounts for the low price to you. Where selection is left to us, careful and expert people attend to your every want. We wish you to feel that you may receive your carpets quickly and obtain the utmost satisfaction through our Mail Order Service.

We have presented a number of the principal lines carried, but, of course, there are many things of necessity omitted. We are always pleased to answer inquiries concerning goods not mentioned. Read Our New Liberal Guarantee on page A1 in the front of this catalogue, which guarantees you every satisfaction.

## DIRECTIONS FOR MEASURING ROOMS

Make plain figures. Measure exact, making no allowances. Information and estimates given, and samples cheerfully sent on application.

**NOTE**—When ordering carpets not estimated on by us, allow at least one yard extra to every 20 yards needed for each room for waste in matching patterns. When borders are used an allowance of 1/2 yds. extra to every 20 yards required should be made. If carpet can be cut with less waste, the difference will be refunded. Delay in dispatch will be avoided by carefully carrying out the above instructions.

**Carpet Sample Department**  
Samples showing qualities and colors of any line in this department with the exception of Rugs, Squares and Crumbcloths, will be cheerfully sent promptly sent upon application. As these samples are valuable to us we would ask that you be returned after inspection. Mark the pattern you select with an X on the pin ticket attached to sample and give number of same on order sheet provided, to prevent any misunderstanding.

**Prices for Sewing Carpets**  
Sewing all carpets .03 yard, with an additional charge of .05 for each mitre on bordered carpets. In the case of heavy carpets, especially Axminster and Wiltons we recommend that bordered carpets be cut and sewn on the Flat. It is done this way: All surplus carpet at mitres and ends widths (ordinarily turned under, making two thicknesses), is cut off and the edges oversewn or rged. When sewn together this makes the carpet or rug FLAT, it has no double thickness anywhere. When done this way the charge is .03 yard for sewing, with 1.50 extra for rugs size ft. 6 in. x 12 ft. and under, larger sizes in proportion.

**Brussels Carpets**  
English Brussels Carpets, 27 inches wide, the showing of designs exceedingly large, anticipating every wanted style and coloring in oriental, conventional, floral, scroll, combination and self effects, 22 1/2 in. borders to match, 27-in. stairs for the hall designs, special value, per yard

**Y**OU cannot be too particular in taking measurements for carpets, especially so if they are to be bordered, as bordered carpets cannot be turned under; they should fit exact. Draw a diagram of rooms to be bordered, also for rooms or halls requiring more widths in some parts than others. It is not necessary to draw to a scale, but give all measurements along base exact to 1/4-inch, making no allowances; also the total length and width of room in centre and through folding doors (if any), and make sure that short measurements along base, etc., agree with the through measurements. Draw a line across irregular bay windows or jogs and you will have an accurate base to measure from. Locate all doors and jogs and give depth of each, so we can sew on carpet or filling for same if desired, also designate front of rooms and state which way you wish widths to run.

When the room is of such a size as to require a fraction of a width (in addition to the full width used), we will be obliged to piece it in one or two places unless you are willing to pay for a full width. In such cases state same on your order and we will send balance of width with your carpet. If you wish to have covered several connecting rooms, make a plan of same on one sheet showing them in their true position. By being careful in taking measurements and seeing that they prove before sending in the order, you will perhaps save the delay of our sending back the plan for re-measurement, as we will not cut the carpets unless the sizes prove correct. In measuring circular or winding stairs, always measure on the longest side, where the outside edge of the carpet would be.

To find the number of rolls required, multiply the distance around room by height, take out twenty square feet for each opening and divide by thirty. To find quantity for ceiling multiply length by width and divide by thirty. For ingrain wall papers which are thirty inches wide, divide by fifty for the walls only; for the ceiling, divide by thirty. The result in each case will be the number of single rolls required.

Prices quoted on all wall papers are PER SINGLE ROLL. When ordering always state the number of SINGLE ROLLS required.

Whole rolls of paper will be exchanged if returned in good condition, provided we still have the same in stock, but we do not exchange trimmed papers or paper if the line is out of stock. **WHY OUR COFFEE TRADE HAS INCREASED SO RAPIDLY.**

**Our Consumption has Become so Great that We Import Direct and Do Our Own Roasting**

That we can give you a high grade of coffee at a sum much lower than you ever thought possible our prices prove. The taste proves the quality. We are our own importers. We purchase the green beans direct from the growers, make our own selection of what will prove by actual test to be good roasters and sweet drinking coffees. Our own experts sort and grade it, and it is roasted as you order it from fresh beans. You don't get something that has laid in the store for months, but a real fresh Coffee roasted and ground by ourselves. In buying as we do direct we take the profits from the middlemen and give them to you. We give you the coffee for less than the local store pays for it, because we obtain every concession in discount and price advantage that is offered from the producer offers. Remember we always choose the goods first and then ask the price. This assures quality. You receive a handsome profit on every pound of coffee, or any other grocery you buy from us, and get the pure article into the bargain. We are always able to supply any customer who desires the green beans to roast and grind as used.

**Prunes**

RECIPE FOR STEWING CALIFORNIA PRUNES SO THAT THEY WILL BE MOST APPETIZING AND DELICIOUS.

Take a quantity of prunes and wash carefully in several waters so that they are free from all dirt, throw away rinsing water. Place the prunes in a dish and cover with water to the depth of three inches above the top layer and let soak over night. Cook in the same water for about a half hour, letting the water simmer, never boiling vigorously. When nearly done add sufficient sugar to taste, then add to about every quart of prunes a thin slice of lemon cut in half, and a small piece (say  $\frac{1}{4}$  inch in length, broken in small pieces) of stick Ceylon cinnamon. Serve cold.

NOTE—Always add sugar to all dried fruits just before taking them from the stove, never before, as cooking in syrup hardens the fruit.

## Why The Saving Is Great

Our numerous expert buyers make frequent visits to every known market in the world where required goods may be found, getting as near as possible to the place of production and buying in the best way the best goods that can be had—the whole output of cotton and tweed and linen mills and carpet and glove factories in Canada or Europe; the pickings of tea and coffee and spice crops in Ceylon, China, Japan and the Indies; the production of a raisin plantation in Spain, and so on wherever the most and best is produced, always selecting the finest quality. After the quality is selected price arrangements are made. As our orders are so large we are enabled to keep the price away down, and sell to you at prices that make your dollar buy much more than if we bought in small quantities and through importers and other dealers—and *the goods are backed by our broad guarantee.*

A great many of the articles of wear we make up in our own factories, where every invention for quick and perfect manufacture is in use, and where every garment is carefully examined before being put on sale. The slightest defect means rejection. And the goods we offer our Mail Order customers are exactly the same and at the same prices as sold to persons who visit the store.

Every department is stocked with the newest and freshest goods, bought with the purpose of sustaining our reputation of giving a **high quality of goods at a comparatively small price.** Every dollar's worth you buy here means you have saved some money, and to prove this, examine our prices herein. In our New Liberal Offer which you will read above what more can be desired?

# Useful Instructions for Buying by Mail

I. Be sure and sign your name and address on order and always sign the same way. We receive several orders every day where customers neglect to send any name or address, this delays the order often until a complaint is received.

II. Do not enclose Cash unless letter is registered. (Read particulars "How to Send Money.")

III. Do not fail to give size or color on goods requiring same, and when ordering from samples be sure to enclose same, marking each sample 2nd or 3rd choice. (Read particulars "How to make out order.")

# 6

IMPORTANT  
POINTS  
TO  
REMEMBER

IV. If order is to be sent by mail sure to send sufficient money extra pay postage. (Read particulars "Mail Shipments.")

V. Check your extension and total of orders carefully. (Read particulars "How to make out order.")

VI. When returning goods always return the bill. Tell us the reason why goods are returned and what you want done.

## How to Make Out Order

if you have none plain paper will do. We supply order forms free on request. If plain paper is used follow the arrangement of our order form as near as possible.

Be sure to give your name and address and always written in the same way, this will be a great benefit to us in keeping a correct list of our customers. Avoid sending orders under more than one name from the same family as much as possible. If you change your address drop us a card giving both your old and new address.

Always state the amount of money you enclose.

Be sure your order is extended and totalled correctly.

We frequently receive orders as for example:

"3 yds. of silk @ 50c yd. Total 50c, should be \$1.50."

"2 Undershirts @ 35c each. Total 35c, should be 70c."

On account of this error we are obliged to omit all or part of the articles ordered.

**Be sure to give all sizes colors or measurements, as without this information it is impossible for us to fill your order. For instance, we could not fill an order for a pair of gloves if customer neglects to give size or color.**

If for any reason you would prefer to have your order shipped without our name appearing on the outside of the parcels, or cases tell us on your order and we will cheerfully carry out your request.

Before sealing your envelope check your order over carefully and see that—

- I. Name and address is correctly and plainly written.
- II. If your order is to be sent by freight or express that name of your nearest railway station is given. That sufficient postage is enclosed if order is to be sent by mail.
- III. That color and sizes are correctly given and samples enclosed, if any
- IV. That your order is extended and added correctly.

## How to Send Money

If it is not convenient to obtain any of the above put in an envelope, see that it is carefully sealed and be sure have your postmaster register it. The cost for registration

**Do not send cash without registering. If letter is lost post office cannot trace it and you will be at the loss.**

For small amounts use the postal notes, and if necessary stamps send those of large denomination.

We accept Bank Drafts and Marked Cheques payable in Toronto, Canada.

## Mail Shipments

Light goods that are of great value we advise sending by mail, except in cases where there is no express office within a reasonable distance, in case 1 orders may be sent by mail. Articles weighing up to 1 when packed will go cheaper by mail; from 13 ozs. to 2 they can be sent by express safer and as cheap if send sufficient money extra to prepay the charges. express charge is 1c per ounce, when over the 15 ozs. and to 25 ozs., this will be an advantage on order weighing 13 ozs. to 25 ozs. if you send sufficient money to prepay charges. The limit of weight on mail parcels is 5 lbs. per parcel and the limit of size 30 in. in length by 1 ft. in width.

**Sending Sufficient Postage**—Frequently we receive orders where there is no postage allowed or there is less than half the amount required to mail the order; as the postage to be prepaid it necessitates us omitting an article or delaying the order awaiting the necessary remittances.

**Be sure to send sufficient money extra pay postage and any balance will be returned to you in cash when order is shipped.**

The rate on merchandise by mail is 1c per ounce on 1 and printed matter ½c per ounce or 8c per lb. Estimate weight of your goods, always allowing extra for packing.

In ordering liquids in bottles or any other breakable extra packing has to be used, which increases the amount of postage. If possible make up a larger order and have goods sent by express or freight, as it is much cheaper.

**Delivery Guarantee**—For 2c extra we will guarantee the safe delivery of each order at 50c or over if sent by mail will deduct 2c from your remittance for this purpose otherwise instructed.

## Returning or Exchanging Goods

When returning goods write plainly your name and address on outside of package, tell us the reason why you are returning them, and what you want done. Return the bill in every case.

To receive the advantage of our "Liberal Guarantee" of paying transportation charges on goods returned, same must be back within 10 days after receipt of goods.

See package is well wrapped up, and if breakable goods that proper care is used in packing. Write us fully telling us what you want done. Also state railway station if returned by freight or express, and post office if returned by mail.

Written instructions may be enclosed with express or freight packages, but do not enclose letter in parcel being returned by ; if this is done full letter rate will be charged on package.

Always return the bill of goods sent back. Do not enclose money with return merchandise.

**Goods Not Exchanged**—We do not exchange or allow transportation charges on the following goods for sanitary and other reasons: **Goods made to order according to your measurements, Cut Goods sent according to samples, Worn Goods, Veils, Hair Goods, Toilet Goods, Brushes and Combs, Rubber Goods, as Syringes, etc., Mattresses and Pillows, Musical Goods, Goods not catalogued which have been procured specially to your order.**

When returning goods send them back the cheapest way, if the weight is less than 2 lbs. it will generally be cheaper by mail. If sending by mail pay the postage in full and we will refund the amount. As a general rule from 2 lbs. to 25 lbs. will be cheaper by express, this can be sent collect, we pay the charges here. Over 25 lbs. send by freight.

## Freight Shipments

Shipping goods by freight although slower than express is the cheapest way, and gives you the opportunity to order a general assortment of household goods is almost nothing. If for example the total freight charges on a general shipment of groceries, clothing, etc., is 90c, the charges on any one item, the shoes for instance, would only be a few cents, whereas if sent alone by mail or express the charges would be 20 to 25c.

**In shipping by freight the railway companies charge the same amount for a 25 or 50 lb. shipment as they do for 100 lbs. Therefore it is to your advantage to build up your orders to at least 100 lbs., allowing for packing.** It is poor economy to order only 50 lbs. of goods and pay the railway company as much as they charge for 100 lbs. when you can include groceries or any staple household supplies at our low prices to make up 100 lbs. with no more expense to your charges. (Read Club Order paragraph). If your goods weigh more than this, say 160 lbs., do not pay freight on 200 lbs., but only on the actual weight. For example, (see rate to St. John, N.B. in table below) 160 to St. John, N.B., made up as follows:

**For a guide to you in helping to estimate freight charges, we give a list of some of the principal towns with the rates per 100 lbs., also the minimum charges, on page A5.**

**Do not sign for goods from express or railway company if they are in any way damaged** until the agent makes a notation of the extent of the damage on your freight bill. The railway companies are responsible for damage in transit. Do not fail to notify us if shipment is unreasonably delayed after receiving bill of lading (freight bill duplicate) from us. When goods are to be shipped to a flag station (where there is no agent) either by express or freight, sufficient money must be allowed to prepay the charges, otherwise they will be sent to the nearest regular station.

1 case of drygoods, 80 lbs. @ 70c per 100.....	\$0.56
1 " glassware, 40 " 62c " .....	.25
1 chair K.D. (knocked down) 12 lbs. @ 72c 100.....	.07
1 " dried fruits 30 " 62c " .....	.19
add cartage which R. R. Co. charges on every shipment....	.12
Making total charges .....	\$1.19

100 lbs. to St. John, N.B., would be..... .82

## Express Shipments

To figure the charges see page A5. As a general rule the most profitable and satisfactory way to send orders weighing from 2 lbs. to 25 lbs. is by express. **Always forward enough money to prepay small parcels weighing from 13 ozs. to 25 lbs., as they can be sent at 1c per oz. if prepaid.** The express company will not deliver and collect at destination for less than 10c. The express companies give a prompt service and an absolute guarantee of safe delivery.

The express companies have a special low rate for wall paper if you send sufficient money to prepay the charges.

Make up a freight order if you possibly can. As a general rule you can send 100 lbs. by freight for about the same price you can send 25 lbs. by express. Of course you will be longer in receiving your order, but the cost will be greatly reduced; besides if the order is \$25.00 or over, you will get the advantage of our Free Delivery Offer. (Read our Free Delivery paragraph.)

A shipment put up in 2 or more parcels or pieces does not cost any more than if put up in one parcel. The charge is not the number of parcels but by the total weight.

**Do not sign for goods from express or railway company if they are in any way damaged until the agent makes a notation of the damage on your freight bill.**

## Substitutions and Omissions

By a substitute we mean article sent in place of one ordered.

Although we always endeavor to keep our stock of catalogue goods complete it occasionally happens that we receive orders for goods that are temporarily out of stock. When this occurs we endeavor to procure the desired article, but if we cannot procure it within a reasonable time we will (except you tell us not to substitute) send a similar article of better quality and higher price for the price allowed. But if we know that we will have the goods again in a few days we will ship your order short this article with an explanation that the goods are out of stock and will be forwarded later. We pay any extra charges incurred by your order going forward in two shipments. All substitutions are made entirely on our own responsibility, and if the goods substituted are not in every way satisfactory you are at liberty to return them at our expense, and we will cheerfully refund your money together with all transportation charges paid by you.

**We frequently find on checking our orders that customer has ordered some article to be sent by mail on which the postage exceeds the value of the goods. For example—The postage on scribblers which we sell at 3 for 5c would be about 25c.** In this case we think it would be the best interest of our customer if we omitted the goods, as the postage added to the value of the article would make it a very unprofitable purchase. When ordering this class of goods we would advise including them in a general order and having them sent by freight or express, as in this way they can be shipped at little cost.

# CLUB ORDERS

All orders must be mailed at one time and in one letter. This is very important as we do not hold the order, and cannot enclose any orders coming in later, they will be sent on separately if received.

If you cannot make up a shipment to weigh 100 pounds to get the advantage of the freight rate or our free delivery, we advise two or three persons clubbing together and making up a large order having goods shipped in one shipment to one address. We parcel and tag each order separately, enclosing the bills in each parcel, shipping the whole order to the sender of the order. We also mail a statement to the sender showing the amount of money received and the amount of goods sent to each customer. It would be of great assistance to us if each customer would state on their order the amount of money given to the sender, and the sender to send us a list of the amount received from each customer. It is also necessary that the sender should carefully total the different orders, as quite frequently we find that when totalling same there has been insufficient money sent.

Each order must be written on a separate sheet, just the same as any other order, giving name and P.O. address in full.

State on each as follows: "Enclosed with Mr.—'s order," giving the name of the person to whom the goods are to be shipped. The person to whom the goods are to be shipped must write shipping instructions fully in his letter, and state what order are to be enclosed.

## Enquiry About Your Order

Should you not receive your goods or hear from us within a reasonable time write us at once, giving full particulars, viz.: Name in full, Post office address, Province, Date order was sent, When and where mailed, How addressed, Amount enclosed, whether Express or Post Office Money Order, Cheque, Cash or Stamps. If by Registered Letter, Money Order or Postal Note, give number.

State how name and address was signed.

Send copy of order as nearly as possible. Write from same post office and say how and where goods were to be shipped.

On receipt of goods, if anything is wrong, write us at once, and return the bill.

Sometimes errors occur, but if you write us fully, telling us what is wrong and give us a full list of shortage, etc., the matter will be adjusted promptly and satisfactorily to you. Be sure and sign your name and address. All claims ought to be made within five days after goods are delivered.

Do not return goods received in a damaged condition without first notifying us. Do not accept or give receipt for damaged goods unless agent makes a notation of such damages on freight receipt.

If you do not receive all of your order always state in your letter (how many pieces or parcels) you have received from freight or express company. This is important, as it will save an unnecessary delay, for it will necessitate again writing you for the above information before we can trace the lost pieces or parcels.

Do not destroy waste paper or packing until all goods are checked off and accounted for, as very often small articles are thrown away or destroyed with the packing material.

As a rule breakable goods are cleated off in the end of the case. So be very careful in removing the cleats so as not to damage anything that is cleated in.

Please remember that in paying charges to express or railroad company that you are not charged at so much for each piece or parcel; for in all cases you only pay for the actual weight carried regardless of number of parcels.

## Our Free Delivery Offer

We prepay Freight or Express (we reserve the right to ship the cheapest way) on all orders of \$25.00 and over going forward in one shipment, to your nearest railway station in Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island on all goods except Furniture, Springs, Mattresses, Refrigerators, Organs, Stoves, Baby Carriages, Salt, Sugar, Flour and House Mantels.

To obtain advantage of this offer your shipment must amount to \$25.00 over and above the exceptions named. If you instruct us definitely to ship your order by express and we find it would go cheaper by freight, we will ship it by express, but will only prepay the amount it would have cost us had the order been sent by freight, you paying the difference.

HOW TO FIGURE FREIGHT CHARGES BY USING THIS TABLE OF RATES

Estimate the weight of articles wanted. Refer to list in right hand corner top of this page for classification of goods. Find the rate to the town nearest you on the above table. Multiply the rate by the weight. This will give you the freight charges on your shipment, sufficiently correct for your information, providing the amount is not less than the minimum charge stated in column 5.

\* Where there are two rates given add the graduated result of both rates together to find the cost by express.

# WOMEN'S CLOAK and SUIT DEPARTMENT

In presenting our Catalogue of Women's and Children's Ready-to-wear Garments for Fall and Winter 1907-8, we wish to call your attention to the excellent value offered and as represented in the fine illustrations throughout the following pages.

**STYLES.** Great care has been taken in selecting the latest and most suitable styles from among the thousands shown by the leading designers of London, Paris and New York. Our London and Paris offices and frequent trips of our buyers to New York and abroad keep us in constant touch with the latest fashions.

**THE MATERIALS** we use have always stood the test of the most exacting demand and speak volumes for the care and discrimination used in their selection. The great quantity of cloth used in these ready-to-wear garments enables us to place orders sufficiently large to secure the very lowest mill prices. Of one cloth alone for a year we used a quantity equal to 60 miles.

E3-260. Men's Worsted Suits. The material these suits are made from is part of a large purchase of cloths we were able to get in of some time ago. They are this season's newest fabrics, not old cloths. The cloth is made in England, weighs 19 to 20 ozs. to the yard, is smooth finished worsted, and comes in dark colors, patterns, all striped effects, this season's style for fashion suitings. The colors are greys, browns and olive tinted. We make them up in our own large manufacturing plant, so can rely on the general make up and finish. The linings are what we believe to be the best for wear and satisfaction. They are made up in three buttoned single breasted sack style, single breasted vests, fashionable cut trousers, as cut E3-260. When ordering specify your height and weight, chest measurement, waist measurement and inside leg measure.

## 12.50 OUR CELEBRATED EATONIAN SERGE SUIT

Sizes 34 to 44 In. Chest Longest Inside Leg Measure 34 In.

E3-265. It hardly seems necessary to call your attention to this particular good value in men's suits. We have handled this particular cloth so long and so successfully that it is really not necessary to talk more about it.

Men's Suits of Eatonian Worsted Serge, a cloth that is made solely for the T. Eaton Co., made of pure wool Botany yarns, and is fast indigo dye. It is, of course, an imported English material. With the state of the wool market to-day, it is only in buying in such tremendously large quantities that enables us to produce this much talked of suit. The cloth weighs 21 to 22 ozs. to the yard, is all thoroughly shrunk. You can have it either navy blue or black, and the style is either single or double breasted sack shape, strong serviceable linings or trimmings, as cuts E3-265 or E3-260.

Special 12.50

NOTICE—We can only supply regular stock sizes at prices mentioned on this page. Customers ordering other than stock sizes will be charged \$2.00 per suit extra.

# HOME STUDY AND SUCCESS

## The Drake Series of Home Study Books

Never before has such an opportunity been given to men and boys the world over to make themselves thorough masters of all the leading mechanical and scientific trades and professions, and the avidity and eagerness with which so many are availing themselves of this unique chance to obtain, by so direct and easy a method, this practical and invaluable knowledge is the most potent testimonial to the high merit of the works that public sentiment can accord. The prices for these valuable works have been marked at a phenomenally low figure with a view to place them within the reach of everybody—ambitious men and boys of the narrowest means as well as their more prosperous co-workers.

**They are Practical, Omitting Nothing Essential and Containing Nothing Irrelevant**

From the Home Study Series of books has been eliminated everything which can in the remotest degree divert the student's mind from the essentials of the subjects treated; thereby providing him with the necessary and useful knowledge by the most direct route and shortest cut and saving him many hours of mis-spent study.

# Real Natural Hair Goods

For the protection of our customers, hair goods positively not exchanged

**Note:** Prices quoted below include all shades, excepting white or grey, for which we charge extra. We cannot quote prices on grey or white hair unless sample is sent.

## HOW TO ORDER READY MADE HAIR GOODS

Choose the style and number required. Send a sample of the hair, NOT FROM THE ENDS, but from the roots, close to the scalp, as the ends of the hair, as a rule, are lighter than the roots, hence a bang or switch would not match the roots if as light as the ends. It is preferable to have the artificial hair always a shade darker as it gets lighter with wear.

### Measurement Charts

**Note**—When ordering Toupee or Wig, follow carefully the instructions for measurements below. State where parting is required. Also send a sample when possible.

**Required for both Ladies' and Men's Wigs. Fill in these spaces.**

# Carpets, Rugs and Floor Coverings

The Carpet Department offers even better inducements than ever before for Mail Order shoppers. Note the low prices for high grade goods. We have made the illustrations exact and you may depend upon the accuracy of the descriptions. The variety in style and quality is inviting. Our increasingly large sales create a buying power at the factories that brings the price to us away down. This, with cutting out of middlemen's profits, accounts for the low price to you. Where selection is left to us, careful and expert people attend to your every want. We wish you to feel that you may receive your carpets quickly and obtain the utmost satisfaction through our Mail Order Service.

We have presented a number of the principal lines carried, but, of course, there are many things of necessity omitted. We are always pleased to answer inquiries concerning goods not mentioned. Read Our New Liberal Guarantee on colored insert page in the front of this catalogue, which guarantees you every satisfaction.

## DIRECTIONS FOR MEASURING ROOMS

Make plain figures. Measure exact, making no allowances. Information and estimates given, and samples cheerfully sent on application.

NOTE—When ordering carpets not estimated on by us, allow at least one yard extra to every 20 yards needed for each room for waste in matching patterns. When borders are used an allowance of 1½ yds. extra to every 20 yards required should be made. If carpet can be cut with less waste, the difference will be refunded. Delay in despatch will be avoided by carefully carrying out the above instructions.

## Carpet Sample Department

Samples showing qualities and colors of any line in this department with the exception of Rugs, Squares and Crumblcloths, will be cheerfully and promptly sent upon application. As these samples are valuable to us we would ask that they be returned after inspection. Mark the pattern you select with an X on the pin ticket attached to sample and give number of same on order sheet provided, to prevent any misunderstanding.

## Prices for Sewing Carpets

Sewing all carpets .03 yard with an additional charge of .05 for each mitre on bordered carpets. In the case of heavy carpets, especially Axminsters and Wiltons we recommend that bordered carpets be cut and sewn on the flat. It is done in this way: All surplus carpet at mitres and ends of widths (ordinarily turned under, making two thicknesses) is cut off and the edges oversewn or serged. When sewn together this makes the carpet or rug FLAT, it has no double thickness anywhere. When done this way the charge is .03 yard for sewing, with 1.50 extra for rugs size 10 ft. 6 in. x 12 ft. and under, larger sizes in proportion.

YOU cannot be too particular in taking measurements for carpets, especially so if they are to be bordered, as bordered carpets cannot be turned under; they should fit exact. Draw a diagram of rooms to be bordered, also for rooms or halls requiring more widths in some parts than others. It is not necessary to draw to a scale, but give all measurements along base exact to ¼-inch, making no allowances; also the total length and width of room in centre and through folding doors (if any), and make sure that short measurements along base, etc., agree with the through measurements. Draw a line across irregular bay windows or jo. s and you will have an accurate base to measure from. Locate all doors and jogs and give depth of each, so we can sew on carpet or filling for same if desired, also designate front of rooms and state which way you wish widths to run.

When the room is of such a size as to require a fraction of a width (in addition to the full width used), we will be obliged to piece it in one or two places unless you are willing to pay for a full width. In such cases state same on your order and we will send balance of width with your carpet. If you wish to have covered several connecting rooms, make a plan of same on one sheet showing them in their true position. By being careful in taking measurements and seeing that they prove before sending in the order, you will perhaps save the delay of our sending back the plan for re-measurement, as we will not cut the carpets unless the sizes prove correct. In measuring circular or winding stairs, always measure on the longest side, where the outside edge of the carpet would be.

**MATTRESSES** We have given **Special Attention** to the manufacture of Mattresses and have endeavored to give our customers the best procurable in a good, clean, sanitary, comfortable and durable article for the least money. None but the most thoroughly experienced and skilled workmen are employed in the manufacture of these Mattresses, and nothing but the best material used in the making of them. Our Combination Mattresses have nothing but the best seagrass or Fibre fillings, and good, clean wool or white cotton for the overlaying, combined with the excellence of the sewing, binding and close tufting gives them a finish that is superior to any other Mattress at the prices quoted below.

When ordering Springs and Mixed Mattresses kindly state exact length and width required, and state if to be made in one or two pieces, Mattresses made in two parts 50 cents extra.

For double bed size Mattresses we always send 4 feet 2 inches or 6 feet. For special size in Springs and Mattresses it requires from one to two days after order is received to complete order.

All Mattresses are made 6 feet long, and are apt to appear a little short or narrow when first unrolled on account of having been rolled up, but will spread and flatten out to full length with use.

# No. 3 IMPROVED SEAMSTRESS

## No. 3 IMPROVED SEAMSTRESS

A large number of people prefer the old reliable covered machine to the later drophead patterns, and it is for this class that we carry the **No. 3 IMPROVED SEAMSTRESS**.

OUR No. 3 IMPROVED SEAMSTRESS IS WITHOUT QUESTION THE BEST MEDIUM PRICED SEWING MACHINE ON THE MARKET.

**21<sup>00</sup>**

**MATERIALS.** Only the most select grade of solid oak is used in the construction. It is carefully selected with reference to grain and color, and is thoroughly aired and kiln dried to insure against warping, splitting or cracking.

**DESIGN.** The **No. 3 IMPROVED SEAMSTRESS** is a model of beauty and artistic design. It is made on the lines of the high grade, up-to-date furniture, especially designed for us and not made for nor used on any other machines.

**TABLE.** The table is made of built up stock and faced with highly figured quartered oak. This construction has proven the most durable being practically indestructible. The front edge of the table is handsomely shaped. All tables on the upright box cover No. 3 machines, as illustrated have a drop leaf, which, when raised into place, is supported and produces a table of ample length for any and all requirements.

**FINISH.** In point of finish this machine is strictly first class and of the very latest golden color, the popular finish put on high grade oak furniture. Before the finish is put on, the woodwork is most carefully sand papered so that the varnish, which is of the very best quality, produces a hard glossy surface. The table is hand rubbed and polished.

**COVER.** All upright machines are provided with box cover, made of built up stock, surfaced with quartered oak and strengthened with mouldings. The front is ornamented with carved, raised panel. The cover is fitted with socket hinges and lock, so that when placed on the machine it can be locked, thereby affording full protection to the head.

## OUR IMPROVED SEAMSTRESS

**\$28<sup>50</sup>**

**THE Improved Seamstress, High Grade, Ball Bearing Sewing Machine.** We have been selling this Sewing Machine for a number of years, thousands have been sold by us in that time, and we can honestly say that it has never been necessary to return even one to the factory for repair. This enviable record is the strongest possible proof of the goodness and stability of our machines. The arm is large and perfectly proportioned, permitting the convenient handling of large and bulky work. Every one is covered by our **ten years' warranty**, and should the machine not prove satisfactory after 30 days' trial, return it and money will be refunded with charges you have paid.

**The Head** is handsomely decorated in gold decalcomania on black, protected by three hand-rubbed coats of finest varnish. This insures the smooth and brilliant finish for which the machine is famous.

**The Arm** is full size, the working space being  $8\frac{1}{2} \times 5\frac{1}{2}$  inches. This allows ample room for the bulkiest materials.

**The Steel Needle Bar** is capped, so that it is impossible for dirt to collect in the bearings.

**The Tension** is on the side of the front arm, and is fitted with an ingenious patented device which automatically releases all tensions when presser bar is lifted to allow removal of work.

**The Feed** is wide and double, so it is impossible for goods to feed unevenly.

**The Take-up** is absolutely positive and automatic in its action; it is operated directly by a cam on the main shaft of the machine, and will control any size or kind of thread in a perfect manner in any class of sewing.

**The Automatic Bobbin Winder** with which this machine is equipped is a very vital improvement, for with it the bobbins are wound in an accurate and uniform manner, which contributes much to the perfection of the sewing produced by the machine.

**All Bearings and Working Parts** which are subjected to heavy wear are thoroughly hardened and finished in a most accurate manner, and when kept properly oiled will endure for a lifetime.

**GUARANTEED 10 YEARS**

# COFFEE AND CEREALS BUY BY MAIL AND SAVE ONE THIRD.

**WE ROAST OUR OWN COFFEE.**

**You save a handsome profit on every pound of coffee, or any other item of grocery you buy from us.**

**We are our own Importers.** That's why we can give you such a high grade of coffee at a price much lower than ever was thought possible. We purchase the green beans direct from the growers, make our own selection of what will prove by actual test to be good roasters and sweet drinking coffees.

**Our own experts** sort and grade it, and it is roasted as you order it from fresh beans. We do not ship you old stock that has been roasted for months and all of the aroma lost, but a real fresh coffee roasted and ground by ourselves.

**Remember We Choose the Goods first and then Make the Price**

We are able to sell you coffee at less than your local dealer pays for it, because buying direct from the growers we take the profits that usually go to the middleman and give to our customers. We can always supply green beans to our patrons and you may roast and grind yourselves.

## GOOD COFFEE

Allow one rounded tablespoonful of coffee to each half-pint of water, mix with a little white of egg and cold water, then pour over the boiling water, bring quickly to a boil, lift from the fire, again bring quickly to a boil and lift, repeating the act the third time, throwing in a little cold water the third time, let stand a moment to settle, then pour. Do not allow made coffee to stand on grounds. The above old fashioned method makes delicious coffee.

# DRIED FRUITS

We hold the first place in Canada for Dried Fruits, in quality and price. We buy direct from the grower. Our own buyer goes to Spain for the raisins, where the best are grown. He observes the supply, makes his own selection of the finest grades, and obtains them at bottom prices because of the large orders. No middle profits, you get them low priced for any quantity. The Valencia for cooking and the Clusters for table use. All other fruits are bought and sold on the same basis.

## Prunes

RECIPE FOR STEWING CALIFORNIA PRUNES SO THAT THEY WILL BE MOST APPETIZING AND DELICIOUS

Take a quantity of prunes and wash carefully in several waters, so that they are free from all dirt, throw away rinsing water. Place the prunes in a dish and cover with water to the depth of three inches above the top layer and let soak over night. Cook in the same water for about a half hour, letting the water simmer, never boiling vigorously. When nearly done add sufficient sugar to taste, then add to about every quart of prunes a thin slice of lemon cut in half, and a small piece (say  $\frac{1}{4}$  inch in length, broken in small pieces) of stick Ceylon cinnamon. Serve cold.

NOTE—Always add sugar to all dried fruits just before taking them from the stove, never before, as cooking in syrup hardens the fruit.

# CROWN HURON RANGE

43<sup>50</sup>

### For Coal and Wood

The "Crown Huron" is a cast range and a true kitchen friend, especially designed to fill the demand for an up to date, medium sized cooker, with all the desired modern appliances. From an artistic standpoint the decorative carving of the range is of unequalled beauty. The flue construction is perfect. Being of the two-flue construction, the heat is compelled to pass completely around the oven twice before entering the stove pipe. The broiler door is large, making it convenient for broiling. Guaranteed to be a good baker and an economical coal consumer.

**Elastic Stockings**

NOTE—Re size of stockings, an average proportioned leg measuring 14 inches at the calf, will require a No. 8 stocking, but should a part of the limb be swollen then a special stocking would have to be made. In sizes above No. 8 allow for calf measurement, 1 inch for each size larger; and the price per size over No. 8 is increased as follows: Thigh stocking, 25c; knee stocking, 20c; garter stocking, 15c; leggings, kneecaps or anklets, 10c a size. Then when there is a marked difference in sizes between the regular sizes and what is required either in length or any other part, a special stocking has to be made, the price of which is about 25 to 33 1/2 per cent more than the regular sizes.

**Directions for Measurement.**

Anklet, measure at A, B, C.  
Legging, measure at C, D, E.  
Garter Stocking, measure at A, B, C, D, E.  
Knee Cap, measure at E, F, G.  
Knee Stocking, measure at A, B, C, D, E, F, G.  
Thigh Stocking, measure at A, B, C, D, E, F, G, H, I.  
Also give length required, as marked by dotted lines.  
In measuring give actual size in inches and we will allow for stretching, etc.

When there is any difference in the size of stocking and one has to be specially made, we will have to charge extra for it, as also from No. 8 up in the regular sizes.
