Dollars *versus* Dimes

A WELL-KNOWN foreigner once made this remark, "You Americans are so given to chasing the almighty dollar"; and the reply was, "What is the difference between chasing the dollar and chasing the dime, as you people do?" The difference is just NINETY cents. All sorts of short cuts to wealth have been devised from time to time, but apart from the old fashioned method of highway robbery and various new fangled schemes, which are usually very dangerous and frequently necessitate a flying trip outside the boundaries of the United States, there is no easy back door to wealth; but in this our Fall Catalogue for 1906 we give the shoe dealers of America a renewed opportunity to successfully pursue the dollar and allow their competitors to chase the dime.

Whatever you may be doing when this catalogue reaches you, won't you please give it a few moments careful attention and conscientious thought, for we think you will find it one of the most valuable assets you will have for the coming Fall season. We feel certain it will prove to you that we have the greatest line of shoes that ever trod mother earth or protected the feet of a descendant of Adam over the rough and rocky path of life.

We make shoes for all sorts of people in all walks of life, for all ages and both sexes, and this is the most valuable catalogue we have ever placed before shoe dealers of America; and that is the strongest possible assertion that we could make,

because for years our catalogue has been acknowledged to be one of the most concise and most complete of any issued by a wholesale shoe house in the country.

If you are not already selling our shoes we want you to give this catalogue still more careful attention. We want you to sell them in your town,—they will bring you the cream of the shoe trade of your section. They will give you a distinct advantage over your competitor. Our shoes have merits and these merits speak; not in whispers, but in the loud, clear tones of common sense.

We have been in business for over a quarter of a century, and all the experience and business acumen we have gained in those years goes into each pair of shoes. That we have been successful beyond all doubt is conclusively proved by the fact that we carry on our ledgers the names of many of the most successful shoe dealers in the country—dealers who have made their success through handling our various lines.

Our shoes are bought by men of great experience, men who have devoted their whole life to the shoe trade, men who know every phase of the business, men who take advantage of every opportunity to get the best the market affords at the lowest cash price, while the magnitude of our business enables us to make the best possible terms and guard against unwarranted waste or expense on the manufacturing end.

Commending this catalogue to your careful attention, and wishing you an increased measure of success for the Fall season, we remain,

Yours truly,

PARKER, HOLMES & CO.

OUR "WAUKWELL" FACTORY

OUR "BEAUTE" FACTORY

OUR "DAISY" FACTORY

Fourteen Sample Rooms in Central Cities.

In order to keep in the closest possible touch with our customers everywhere, we have established sample rooms in fourteen central cities, each in charge of a competent shoeman. In any of these sample rooms our full line can be seen and all shoe dealers are cordially invited to make them their headquarters when visiting any of the following cities :

Fall River, Mass.	22 Hudner Building.
Portland, Me. (Tuesdays)	510½ Congress Street.
New York City	127 Duane Street.
Philadelphia, Pa.	44 North 4th Street.
Washington, D. C.	1324 8th Street, N. W.
Pittsburg, Pa.	25 McCance Block.
Chicago, Ill.	Room 301-21 Quincy Street.
Minneapolis, Minn.	425 Boston Block
Birmingham, Ala.	1916½ Morris Ave.
Kansas City, Mo.	Washington Hotel.
Los Angeles, Cal.	Hotel Nadeau.
Portland, Ore.	380 Benton Street.
Houston, Texas	406 Kiam Building.
Montreal, Can.	112 St. Peter Street.

Mail Order Department.

We realize, owing to the magnitude of our business and the distance that separates us from some of our customers, that it is practically impossible to keep in as close touch with them as we should wish through the medium of our salesmen and outside sample rooms. For the benefit of those customers, and in fact for all our customers, we have a thoroughly equipped Mail Order Department in charge of an experienced man, and any orders sent us through the mail will receive the same prompt and careful attention as though taken by a salesman or given to us at the home office.

Rubber Department.

This department is a very important one with us and for many years has stood in the front rank of all the rubber departments of the country. We carry in stock ready for immediate shipment an enormous stock of rubbers, and customers entrusting us with rubber orders are warranted against delays and can rest easy that their orders will be promptly and carefully shipped by the date required. We call your attention to the pages devoted to our Rubber Department in this catalogue, and earnestly solicit your orders.

Findings Department.

This is another department that we want to call to the especial attention of shoe dealers everywhere. The Findings Department in every retail store that is abreast of the times is getting a more and more important one every season. Dealers will find our Findings Department up to date in every particular. Our stock is very large and complete, and we are able to supply immediately upon receipt of order anything that is desired in a retail Findings Department. We devote a number of pages to this department in another part of this catalogue, and request the favor of your orders.

French Sizes.

The system of marking shoes in French sizes is becoming more popular every year. It has been found to be the most satisfactory way of marking shoes; the only difficulty having been that many of the systems were intricate and not easy to understand. The following system shows that we have obviated this difficulty, and a glance at the following key will show its simplicity:—

131	is	3	A	or	3-1
242	"	4½	B	"	4½-2
153	"	5	C	"	5-3
264	"	6½	D	"	6½-4
175	"	7	E	"	7-5
1106	"	10	EE	"	10-6
1117	"	11	W	"	11-7

The first figure when "1" means whole size, when "2" ½ size. The middle figure or figures denote the size. The last figure denotes the width.

Prices and Terms.

ALL PRICES IN THIS CATALOGUE ARE SUBJECT TO CHANGE WITHOUT NOTICE. Our customers will always find that our prices are as low and terms fully as liberal as those made by any other house.

Our terms on leather goods and findings are sixty days net from date of bill; or we will allow two per cent. discount for payment in ten days from date of bill, or one per cent. discount thirty days from date of bill.

Customers who desire to do so will be allowed two per cent. discount on monthly statements if paid in full on or before the 10th of the first succeeding month.

In consideration of these very liberal terms we do not give any advanced dating.

We are sure that by reason of our immense stock, as well as our ability to fill your orders promptly, we can give you better values than you can get elsewhere, and we therefore trust you will favor us with your orders.

RUBBER DEPARTMENT.

Summer skies will not last forever, and the green grass and dusty roads will soon give way to snow and slush; therefore, in this our Fall Catalogue, our Rubber Department stands out in bold relief.

Down where the natives gather the raw rubber, they throw in a rock or two for good measure and because they are much in need of the money. In this country, where modern civilization holds sway, lots of people deal with weights and measures in another way — by shouting their list of virtues so loudly that they forget the little fellow called Conscience, who first of all is supposed to pass on merits and demerits, but who rarely gets a hearing. We do not want to sing the praises of our Rubber Department, as we would much rather have you prove by a personal trial that all we have claimed for it in the past and what we claim for it now is gospel truth. As yet there is no halo around our brow, but instead we have laid some deep furrows that come from thinking hard and working overtime to make our Rubber Department the most useful and therefore the most successful rubber department in the world.

If you have had a variegated experience in buying rubbers in the past, we want to call your attention to the following pages devoted to our Rubber Department.

We solicit your orders now, on the best terms and at the lowest prices it is possible to get the same grades anywhere, and in addition we want to indelibly impress upon you that when snowtime comes and you need your rubbers in a hurry, our stock is so large and our facilities so great that you can be assured of immediate shipment from stock by first express or freight after the order is received.

RUBBER TERMS.

Bills for deliveries from MAY 1, 1906, to NOVEMBER 1, 1906, date NOVEMBER 1, net 30 days; or one per cent. (1%) off for cash if paid NOVEMBER 10. If paid before NOVEMBER 10, interest at seven per cent. (7%) per annum to NOVEMBER 10 plus one per cent. (1%) discount will be allowed.

Bills for deliveries after NOVEMBER 1 to be payable net 30 days from date of shipment, or one per cent. (1%) off for cash in 10 days.

TENNIS TERMS.

Net 30 days, or one per cent. (1%) off 10 days.

Prices and terms subject to change without notice.
