NOTIONS

TO our friends in the trade, as well as to those who are not familiar with our lines of goods we desire to state that the **STANDARDS OF QUALITY** in the respective grades originally established by us have been strictly **MAINTAINED, AND THAT FOR DURABILITY, FINISH AND STYLE ARE UNSURPASSED.** It has been our aim to attain the **HIGHEST STANDARD OF EXCELLENCE,** and to furnish honest, sterling worth in materials and grades.

DO NOT CUT ANY PAGES IN THIS BOOK, as it is only necessary to give number and name of articles wanted and page number.

ALL PRICES are subject to change without notice.

Much time and expense has been given to the preparation of this Catalogue. If for any reason it is of no interest or value to you we would thank you very kindly to return it to us via Express, or Mail—if not an Express point—at our expense.

A COMPLETE BOOK OF LABELS for Notion Boxes furnished free to each purchaser of Notions upon request.

AMERICAN GUITARS.

A thoroughly satisfactory, low priced instrument. We guarantee it in every respect. This beautifully modeled guitar is made of quartered sycamore, the stock being selected from handsomely figured wood. The instrument is most attractive in appearance. It is finished in either natural color or imitation rosewood, and is neatly inlaid around sound hole. The neck is imitation mahogany, nicely finished, with patent machine head. We present the “Marquette” as the best guitar for anything like the price that has ever been offered. The tone is remarkably good for such a low priced instrument, and the general appearance is such as to command for it immediate recognition.

SOLID OAK.

These guitars are made in oak, which is a reliable wood, and the finish is extremely popular. The scale is perfect, the necks delicately proportioned, the patent heads of American make, and strings used of the very best quality. All who have examined these instruments have been strongly impressed with their many advantages over guitars usually sold at about the same price. We unhesitatingly offer them as thoroughly satisfactory instruments.

- 172- Solid oak back and sides, antique finish, imitation cedar neck, colored wood inlaying around sound-hole, patent machine head, American make.....each \$ 7 00

- 174- Same as No. 173-85, finished in fine imitation rosewood and orange top..... " 8 00

SOLID MAHOGANY.

These new instruments are one of our greatest successes, many thousands having already been sold. We desire to have them thoroughly examined by musicians not already familiar with them, believing that in presenting this grade of guitars we are meeting a want that has been for many years apparent—that of thoroughly reliable American made instruments, at a moderate price. They are of solid mahogany, beautifully finished. They will not crack, warp nor shrink, the utmost care being taken to use only the most select and well-seasoned woods. The scale is perfect, and upon its absolute correctness we are prepared to stake our reputation. Beware of imitations of these instruments; many poor copies are now being offered. They are inferior in every respect.

- 175-90. Solid mahogany back and sides, Brazilian cedar neck, oval rosewood finger-board and rosewood bridge, patent machine head, colored wood inlayings around sound-hole, handsomely hand polished.....each \$ 9 00

TRIPPLICATE MIRROR.
PATENT TRIPLE CHEVAL MIRROR.

No. 1891.

PATENTED SEPTEMBER 10, 1889.

This Mirror is manufactured expressly for Clothiers, Merchant Tailors, Dress Makers, Cloak and Suit Makers, Milliners, Stores, Houses, etc. One that will show you how the back of a garment sets without turning the head around and looking over the shoulder.

It is also a mirror for the center of a room—when closed, forming a double-faced cheval, and used both sides at the same time.

Side mirrors are hung with Richardson's self-adjusting hinge, finding its own position to cast the proper reflection and holding it there. When closed the side mirrors swing to the back and come together, forming mirrors on both sides of the cheval, the hinge holding them together. Pronounced by all who have examined it the best of its kind ever made.

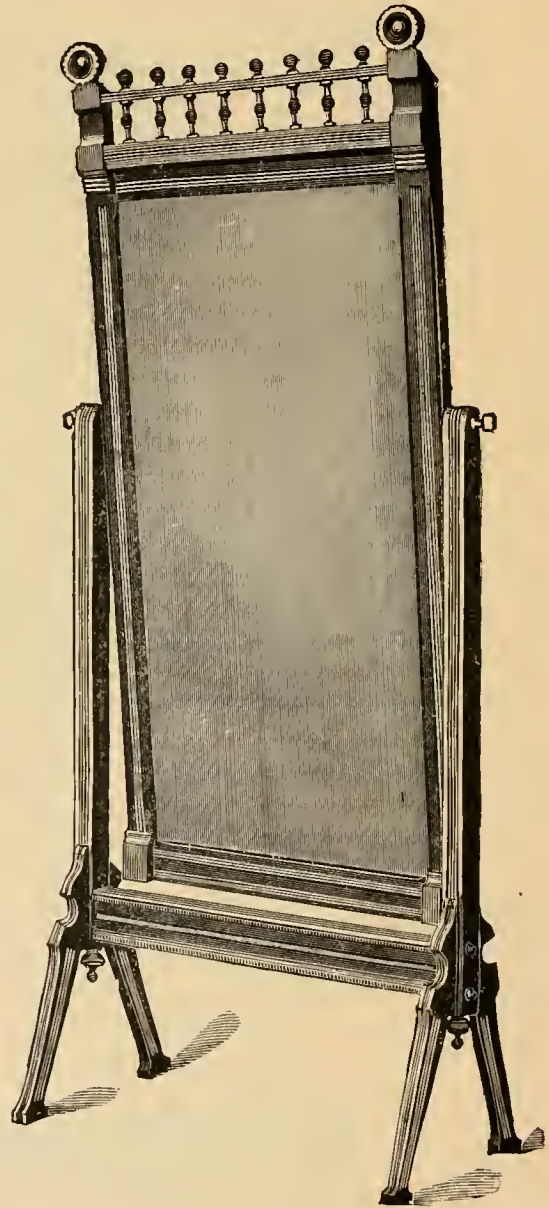

DIRECTIONS FOR USING THIS MIRROR.

After standing the mirror upon the floor, hang the side glasses on, having all the mirrors facing you, and if your floor is level they will swing into their own position and cast the desired reflection, the hinges being self-adjusting. Do not stand too close to it, as you thereby lose the desired effect. Stand out about three feet from the center mirror and turn your back to one of the side glasses, and look into the one on the other side, and you obtain a full back view without looking back of you or over your shoulder. A perfect gem in every respect.

PERFECTION DRESS STAY.

PRICES REGULAR.

Triple silesia cap. Warranted not to cut through. Warranted not to rust. Buy the Perfection. Why? Because the Perfection has rounded corners, capped by triple thickness of silesia, which is securely cemented over the ends of the blade, making a cap of soft character, which we warrant will prevent the ends from cutting through and will not make glossy spots on the dress waist, which is characteristic of all metal caps, because they are hard, prominent and unyielding. Because the Perfection is made of the best spring steel, and being placed between two pieces of fabric and securely cemented together by the use of gutta percha tissue, is impervious to moisture, and rust proof. The Perfection is put up in sets of nine assorted lengths, or in 1/2 gross boxes, 6, 7, 8, 9 and 10 inches, all colors in satin and satteenper gross, \$ 1 20

IMPROVED DRESS BONE.

A NEW METHOD OF BONING DRESSES.

The work quickly and neatly done by sewing machine by the use of the Featherbone sewing machine attachment. Advantages worth considering:

1st—The seams are firmly held in place. 2nd—No wrinkles are possible along the seam. 3rd—No ends punching through the dress or pockets, as in attaching the stay to the waist, the stitches are close together, and directly through the Featherbone, holding the stay in direct contact with the center of the seam along the entire length, doing away with all end pressure, and giving a smoothness and finish not attained by the old method of inserting in pockets, or attaching stays to the margin of seams. 4th—A waist can be boned better than by hand work, and in one-quarter of the time.

Featherbone stays, whether covered or uncovered, may be attached by this new method. The narrower grades, such as Standard, No. 2, silk and satin covered being the best adapted. For convenience and economy to the dressmaker, Featherbone is put up in 3 and 12 yard coils, so as to easily cut with shears into desired lengths. Featherbone is also put up into 36 inch lengths, which is being largely used by many of the leading dressmakers in the place of whalebone, which it very closely resembles in quality.

Beware of imitations. Other goods which resemble Featherbone in appearance are handed out by some dealers when Featherbone is called for. Look for our trade mark, "The Feather," (same as above) which is on every box of goods.

THE F. P. CUTAWAY HIP CORSET.

The F. P. Cutaway Hip Corset.

The patent elastic cutaway hip corset is elegant, easy fitting and comfortable the first time worn as other corsets after a month's wear. The hip sections being cut away relieve ladies of all the uncomfortable pressure caused by other corsets. The corded hip-bands turn easily and gracefully over the hips, giving to every lady wearing it a well-rounded and elegant figure. The patent elastic gores inserted in its gracefully curved hip sections make this corset absolutely comfortable and perfect fitting, for they expand easily, conforming to every position the wearer can assume, thereby affording such perfect ease and comfort as other corsets do not give. Colors—White and Drab. Sizes, 18 to 30.....per doz., \$ 9 00

TRICORA.

Doctor Strong's health supporter has perfectly formed self-sustaining Tricora Busts, which obviate the necessity of using breast pads that always prove inconvenient and unhealthy. Its perfection of form and elegance of shape will give to every lady wearing it the outlines of perfect development and graceful figure. These desirable features the defects of ordinary figures, making this a most desirable corset to wear "Jerseys" over. It is honed with the celebrated (water-proof) "Tricora" stays, which will not be affected by heat or perspiration, and while pliable and supporting, are absolutely unbreakable, however severely they may be tested in wear. It has patent back-supporting steels which hold the eyelets so securely that they will not pull out from the strains of the laces, leaving no ragged holes, such as are left in other corsets by the pulling out of eyelets, to the great annoyance of the ladies. The Double Ve Waist

CHILDRENS.

For Boys and Girls, age 3 to 10 years. Sizes 20 to 30 Buttons in back. This is a healthful and comfortable garment, made from a single thickness of soft finish cloth, and covers the entire body evenly. This uniform and complete covering is a great advantage, as there is less danger of taking cold than when the body is only partially covered by a heavy double waist. The weight of the under-clothing is evenly distributed over the body by means of buttons sewed to bands stitched up and down the waist. The strain of the stocking supporters is removed from the waist and is thrown directly upon the shoulders.....per doz., \$ 6 50

The Double Ve Waist

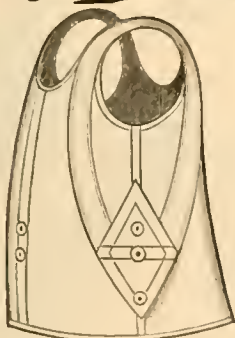

YOUNG LADIES'.

Style 92. Age 13 to 16 years.

Style 92 is made of soft sateen, buttons in the front and laces in the back. It is made for growing girls, for the most critical period of their lives. Great care has been exercised in the construction of this garment, it fits into the hollow of the back, and unlike other makes, it curves outward down the line of the front following the natural outline of the form without pressure upon any vital organ. It possesses all the advantages of the children's style, and is in every sense a thoroughly hygienic garment.....per doz., \$ 9 00

The Double Ve Waist

INFANTS.

Age 1 to 3 years. Size 20 to 26. Buttons in back. For babies just leaving off long clothes, there is no more satisfactory waist than the infants. It is made of very soft, pliable material, and is devoid of cords or other stiffening properties. The shoulder straps fit into the hollow of the neck, thereby avoiding the discomforts of slipping off the point of the shoulders. It can be washed and kept perfectly clean and sweet and is a healthful, comfortable, little garment.....per doz., \$ 4 50

The Double Ve Waist

LADIES'.

In making the ladies' style the aim has been to design a garment that will fit—in fact a compromise bodice, combining the fit of the corset with the comfort and flexibility of the waist, and ladies whose forms have been shaped by a fine fitting corset will find this waist to be a very attractive and satisfactory garment. It possesses all the advantages claimed for the Double Ve Attachment, laces in the back and buttons in front. Sizes 19 to 30.

THE ROYAL ARCH LETTER FILE.

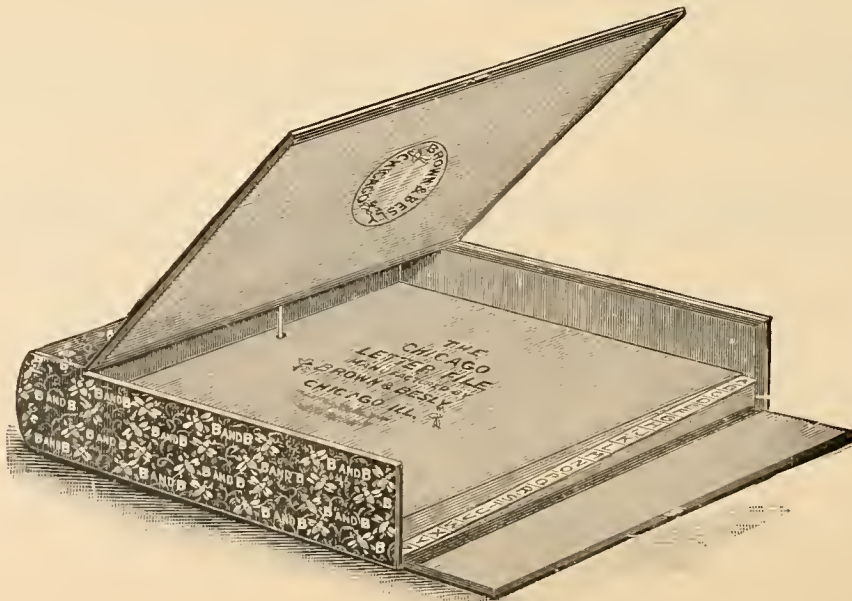

Patent Applied For.

THE ROYAL ARCH is a new construction of a File that has not an imperfect feature. Points of Advantage—It is INTERLOCKING: When the Arched and Puncturing wires are locked, they form a continuous arch, and all papers can be thrown backward or forward without enlarging the holes in the papers. No sharp points to tear papers. It has a positive action, having no springs to get out of order. Simple, durable and quick in its use.

Size 9x15 inches. Price per dozen, \$9.00

Royal Arch New Patent Letter File, complete with Index and Perforator, per doz., \$15.00

THE CHICAGO LETTER FILE.

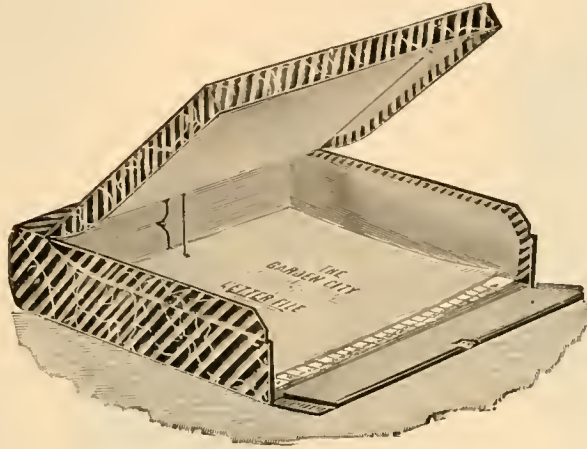

The best Letter File for the money to be had. Solid wood frames. Size, 10x12x3 inches. Will hold 1000 letters easily.

Each, 25 cents. Per dozen, \$2.40.

LETTER FILES.--Continued.

PRICES NET.

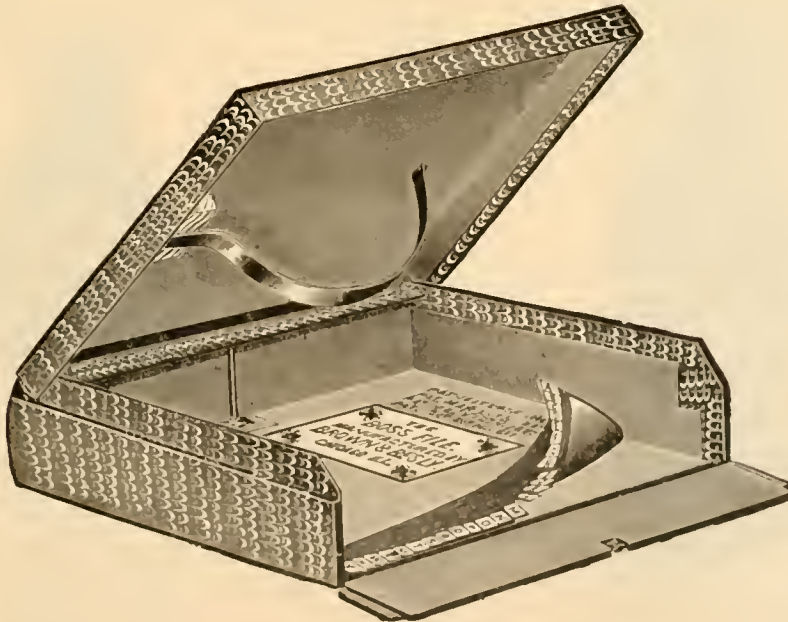

THE GARDEN CITY LETTER FILE.

The Frame is made of well-seasoned "Bass Wood," with heavy Straw Board Top and Bottom. Size, inside, $10\frac{1}{2} \times 12 \times 3$ inches. The Index is held in place by the latest Patent Holder, which will not allow it to come loose and drop out, if File is filled too full, or accidentally drops on floor. Extra strong and well-made.

Each, $37\frac{1}{2}$ cents. Per dozen, \$4.00.

THE BOSS FILE

Is the very best Letter File ever sold at the price—is very strongly made. Has wood ends, and all joints are stayed with extra quality of cloth,—also has what no other LOW-PRICED FILE possesses—a self-working SPRING in cover which PREVENTS letters from SHUCKING TOGETHER in one end of File, GAINING THEREBY, 25 PER CENT. GREATER CAPACITY. Has Index printed on both sides—(greatly facilitating filing) which is held in File with Patent Metal Tags.

Each, 60 cents. Per dozen, \$6.00.

SANFORD'S UNIVERSAL SPONGE MUCILAGE BOTTLE.

With Sponge Top.

(Patented Sept 8, 1885 and March 2, 1886.)

No. 340.

The cap holding the sponge is beveled on its inside making a patent funnel shape cup that will carry the mucilage that may fall into it back into the bottle, and prevent its overflowing the top to foul the outside of the bottle and render it inconvenient and unpleasant to handle. This cup catches all the surplus mucilage from the sponge.

This bottle is filled with SANFORD'S SUPERIOR MUCILAGE, a pure Gum Arabic Mucilage, and put up in a style never yet equaled.

SANFORD'S LEADER SPONGE MUCILAGE.

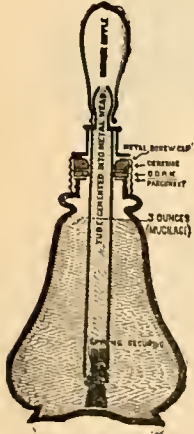

No. 350

Without any exception the best bottle for the money in the market. It has one direct feed. Will not clog up or run over. It is filled up with a first-class mucilage which never lets go its grip, and put up in a style equalled by none of a similar price.

No. 350. 1 dozen in box..... per doz. \$1 00

THE CLEAN AND READY MUCILAGE.

ADVANTAGES.

No. 2712.

No sticking fast of corks. No stiffening of the brush. No dripping from a self-cleaning tube. No sticky and dirty hands. No drying-up of material which remains evenly liquid and clean, being protected air-tight from evaporations and dust.

One bottle will outlast two ordinary ones of like size, all waste being automatically prevented. The bottle may readily be refilled. The brush tube, filled with liquid, may be laid out of hand like a pencil without soiling.

It offers, in handling, the Clean and Ready Comfort of a well-appointed fountain pen! Only first-class material used in every detail.

DIRECTIONS.

Perforate parchment layer within top cap by a sharp pencil or the like; insert entire length of brush tube through opening; press rubber bulb and let go to fill tube by suction. Lay hold of lowest part of bulb to pull out tube, and while in use. DO NOT WIPE OFF BRUSH AT MOUTH OF BOTTLE, this being done automatically by the washer. Varying pressure upon the bulb will regulate feeding moisture to the brush. One dozen in box.

Per dozen, \$2.00

SANFORD'S INDELIBLE INK.

WITH STRETCHER, ETC.

No. 448.

It writes darker than any other, it changes to a deeper black than any other; it is more permanent than any other; it is put up in the only practical bottle ever used for indelible ink; it will not tip over.

Container holding bottle of ink, stretcher, pens and holder, a handsomely decorated tin box with hinged cover, printed in three colors.

The Stretcher is large enough for any name; but is made narrow to hold the fabric firmer and to guide in writing straight when one is unaccustomed to writing without ruled lines. It is all metal and is so compact and will hold the fabric so close to the table that the hand can rest on the table in the usual manner, giving a natural easy movement to the fingers and avoiding the cramped appearance usually the result where the thick, clumsy stretchers furnished with other inks are used.

Packed one dozen in box of new design, making a handsome counter display, showing fully the size and style of the goods without exposing them, thus keeping stock fresh and clean.

No. 448. With stretcher, pen-holder and pen, per doz., \$2.25

LETTER CLIPS.

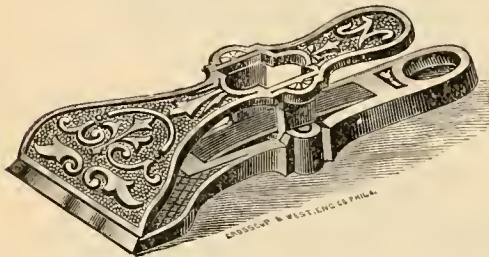

PRICES NET.

No. 10. Especially designed for an office clip. The lever is held in place by the downward pressure of the flat bar spring; and the pressure of the jaws grows stronger as the clamping arm descends. The cut will show the general style of the article, which is handsomely finished in Tucker Bronze..... per dozen \$ 40

No. 13. A much larger clip, having a width at the jaws of 5½ inches. The spring is so set as to cause the upper jaw to adjust itself to different thicknesses of paper at opposite sides, or to any inequality of material. An admirable tool for the office, as it is finished with polished surface and covered with a rich, brilliant coating of Tucker Bronze.....per dozen \$ 1 50

No. 11. Very similar to the No. "10" clip but is larger, heavier, and has greater capacity. It is finished in the same style, with a beautifully polished and rich bronzed surface, per doz. 75

No. 12. Similar to the No. "11" clip, but provided a pointed impaling pin for filing papers, as shown..... per dozen 90

THE ACCUMULATOR BILL FILE.

This is a spring snap file for hanging on the wall with a detachable loop. Holds an enormous amount of papers, which can be slipped down on the loop as the pin becomes full. Loops changeable. Japanned and bronzed. Size of body, 6½ x 2 inches. Size with loop, 15¾ inches.....per dozen \$ 1 50

THE SELF-ACTING LETTER CLIP.

No. 14. The papers are at all times held securely in place in this clip, and can be instantaneously inserted or removed as readily when hanging against the wall as when on a desk or table. The clip is provided, as shown, with a support for hanging, and an inspection of the illustration will clearly show its scope, appearance, and mode of operation.....per dozen \$ 4 00

THE STANDARD PEN RACK.

No. 18. The coils of wire which serve to securely hold the penholder, pencils, erasers, etc., are made of Phosphor Bronze, which, though more than twice as expensive as brass, has much more tenacity of hold, and is much better in every way. The base is made sufficiently heavy for use without fastening, and may be also used as a paper weight. The uprights are of malleable iron. The whole is beautifully finished in Tucker Bronze,..... per dozen \$ 2 00

SPRING FOLDING PEN RACK.

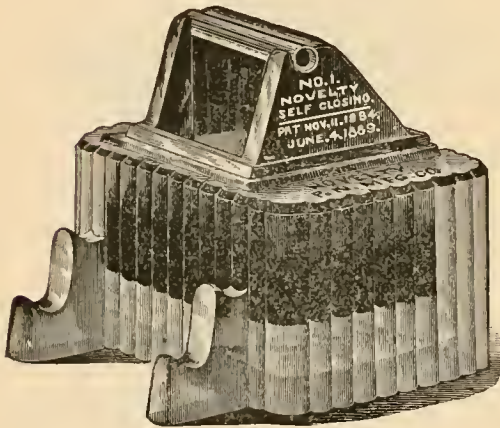

This illustration shows it open for use. The cut below shows the same when folded for transportation or the pocket.

No. 19. In this invention the whole affair, including tray for pens, erasers, etc., etc., with its hinged lid, pen wiper, etc., folds down flat, by means of knuckle joint springs like those in an ordinary pocket knife, and is thus securely held, either closed or open. It is exceedingly firm in use, and is a very attractive article, the surfaces polished and finished in rich Tucker Bronze. The pen-wiper is made of soft rubber tubing, as shown on the projecting pin. It is aside from its folding character, the best pen rack in the market. Owing to the spring joints, it is nearly impossible to break it in use.....per dozen \$ 2 00

THE NOVELTY SELF-CLOSING INKSTAND.

PRICES NET.

No. 20.

No. 21.

These cuts and the inkstands explain themselves. It is an old fashioned inkstand, with a hinged glass valve, provided with metal supporting pins, swinging backwards, in contact with the ink, and closing against a flanged seat after each dip of the pen. As seen, the valve closes instantly as soon as the pen is removed, so that dust and evaporation are positively prevented. The ink will remain perfectly good until used. There is no resistance to the insertion of the pen, as it enters like a wedge, and the valve is nearly vertical, so that no pen can be injured in use. In fact, it saves the pen point, as its advance ceases with the moving of the valve, instead of striking against the bottom of the inkstand, as in the old style. As there is no overflow to evaporate when the ink recedes, its superiority over the "gusher" wells is apparent at a glance. The bases are of heavy ornamental pressed glass, and the fittings of white metal, full nickel-plated and polished.

THE DANCYGER PATENT SAFETY PIN TICKET.

PRICES NET.

Here it is ready for use.

It looks like this when folded.

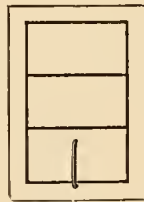

It is just the thing for ticketing every article in a dry goods, fancy, cloak, millinery, lace glove or notion store. It will safely ticket anything from a bit of gauzy lace to a heavy horse-blanket, or a brussels carpet, and the ticket will never come off. You simply shove the ticket (as it comes from the box) on to the end of the goods to be marked. Each ticket is folded ready for fastening, and is made of paper that will not tear at the fold. You will see by the cuts that the Safety Pin Ticket lies perfectly flat on the goods, and the absence of projecting edges makes the risk of tearing goods impossible. It can not be lost off when once properly fastened.

THE DEAN MANUFACTURING CO.'S PERFECTION DRY GOODS TAGS AND FASTENERS.

PRICES NET.

We take pleasure in offering to the trade this new and useful invention which is adapted to the dry goods and kindred branches. It has long been known that something was needed in dry goods stores to dispense with a vexatious trouble of never finding the price on account of the ticket being lost. The inventor has accomplished this by making a Tag Holder of metal and placing it upon the board, where it rightly belongs, doing away with the string tickets which injure the fabric by holes being punched in the goods. In doing this we think we have accomplished a most needed thing. Illustration shows the tag fastened on board, and also shows the way it is put on. It is stationary and cannot be torn off, always in sight, and never gets lost like string tags. Once used, always used. You will have no other after you have tried them

PLAYTIME SERIES—Continued.

NET.

Three Profusely Illustrated and Handsomely Bound Books.

Printed on Good White Paper, from Large, Clear Type. About 46 Pages.

PLAYTIME PRIMER is intended to combine amusement with instruction, by the aid of its pretty pictures and easy words. Every letter of the alphabet is illustrated with a pretty picture and a line of text which will serve to fit in a child's memory the name and the use of the letter.

PICTURE LESSONS FOR LITTLE ONES is designed for children who have already learned the alphabet and are just beginning to read. It is really a series of object lessons, the text serving simply to point out to the little ones the various objects appearing in the pictures.

EASY WORDS STORY BOOK is adapted to the wants of little readers who have advanced far enough to enjoy a pretty story all by themselves. It is profusely illustrated, and is, what its name implies, "A pretty story book, all full of easy words."

LITTLE FOOTPRINTS.

The initial number of the series is well adapted for the entertainment and instruction of youngest readers of both sexes. The illustrations are strikingly attractive, and are so well conceived and suited to the text, that they serve to fix in the minds of the young the instructive lessons intended to be taught by

the sparkling words and pretty pictures of "Little Footprints."

GIRLHOOD'S GOLDEN DAYS

Is a book especially for girls from one year old to twelve. It is superbly illustrated, and is a volume of unusual merit.

PRECIOUS PICTURES FROM THE BIBLE

Presents the pretty stories of the Book of Books in an attractive form for the little ones, and in so simple a manner that the youngest reader may comprehend them.

RIPPLES OF MIRTH AND MERRIMENT

Is a charming collection of amusing and instructive anecdotes of children and animals. It is illustrated with thirty-three full-page engravings and is a most charming book for little children.

MAMMA'S KISSES.

What in the life of a child is sweeter or longer remembered than "mamma's kisses?" Tears or smiles on the little one's face, whichever it is, are mingled with "mamma's kisses." It is this thought which suggested the name of this book of childish merriment and touching pathos. It will come indeed like

"mamma's kisses" to the little ones.

HAPPY HOLIDAYS

Is pre-eminently a book for the holidays—not only Christmas, but all the year round.

GRANDMAMA'S FAVORITES

Is a book that a loving grandma would naturally choose for a favorite grandchild—boy or girl. It is replete with instructive lessons as well as pretty pictures and pleasant stories.

ILLUSTRATED BOOK OF ANIMALS

Is a collection of entertaining and instructive stories about beasts, birds, reptiles and fishes. Profusely illustrated.

LITTLE PILGRIM FOOTPRINT SERIES.—Continued.

RAINBOW DREAMS

NET.

A book full of the dream life of childhood :—
 "Far away and yet so near us lies a land where all have been, Played beside its sparkling waters, danced along its meadows green, Where the busy world, we dwell in and its noises only seem Like the echo of a tempest or the shadow of a dream."

FAIRYLAND.

Here we have, all under one cover, the popular fairy tales, "Puss in Boots," "Cinderella," "Jack and the Beanstalk," "Little Red Riding Hood," "The Giant and the Boars," and "The Dwarf's Magic Mill," Profusely illustrated.

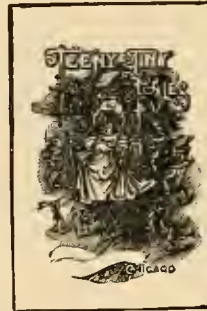

PICTURES FOR WEE ONES

Will charm the eyes of the little ones who are just beginning to read. The pictures help the text along in such a way as to make it "easy sailing" for little readers.

KRISS KRINGLE'S PICTURE BOOK.

Santa Claus, St. Nicholas and Kriss Kringle are "all the same in Dutch," and in this merry book of his he may be seen in each form of his trinity. A jolly book for the little ones during the Christmas holidays.

TEENY-TINY TALES.

Is a collection of simply told delightful fairy tales, and might be very appropriately named "The Children's Hour in Fairyland." The tales are told in such a quaint, childlike way as to make it a pleasure for "the old folks" to read them to the children.

 Bound in Double Varnished Lithograph Covers of Eight Colors, with a Cloth Back, \$1.00. Net Price, 45c.

Size, 10¼ x 8¼--384 Pages Quarto.

OVER 220 FULL-PAGE AND OTHER ILLUSTRATIONS IN EACH BOOK.

THIS SERIES COMPRISES TWO BOOKS:

“ALL ABOARD FOR SUNRISE LANDS” being a graphic description of a trip through California, across the Pacific to Japan, China and Australia. The many marvelous and interesting wonders of the above countries are disclosed in a way that will instruct and delight every Boy and Girl in the land.

“ALL ABOARD FOR LAKES AND MOUNTAINS” comprises a trip to all the picturesque localities in the United States. The glorious and beautiful wonders of nature found in this country surpass all others, and the perusal of this book will familiarize the Boys and girls of the land with the grandeur and beauty of our ever varying Lakes and Mountains.

Both of the above books are from the pen of EDWARD A. RAND, a Juvenile Writer of established reputation. They are printed on an extra quality of highly finished paper, from clear type, and the illustrations are from the studios of the foremost Artists of America and Europe.

THE NEED OF THE AGE!

Mosser's Button Exhibitor.

The most Practical and Common-Sense Method of
Keeping a Button Stock Ever
Invented.

Saves Time, Valuable Shelf Room, Displays Buttons in the Best Possible Manner and Keeps them Free from Dust.

IN these times of fierce competition every merchant must have all the modern conveniences. To display goods well is fully as necessary as good salesmen. This Exhibitor consists of an upright show case, 41 inches high and 25 inches square, inside of which is a revolving cylinder covered with wire netting. It is furnished with movable hooks, each hook holding one gross of buttons. The hook engages in the mesh of the wire and thereby enables one to completely cover the cylinder with button cards.

THE ADVANTAGES OF THIS SHOW CASE ARE AS FOLLOWS:

- It enables you to carry your stock of buttons in the Exhibitor, thus saving you valuable shelf room.
- It places before the customer your whole stock of buttons, without having to take down 40 or 50 boxes to show her.
- It saves the time of a clerk because he never has to straighten up a scattered button stock after showing a customer.
- If you are busy you can send a lady to the case and she can select her own buttons while you are engaged.
- It displays a whole card of buttons in place of one button of a kind as in other so-called exhibitors.

EACH CASE HOLDS FROM 75 TO 100 GROSS OF BUTTONS.

THE PRICE OF THE CASE is so low that no merchant, however small, can afford to be without one.

PRICE COMPLETE, WITH 75 HOOKS, \$12.00 NET CASH.

A WORD ABOUT "KNICKERBOCKER" SILK

used in our umbrellas. It is a silk mixed serge, is made by one of the most reliable manufacturers in Europe. We take the entire product of the factory. The same can not be found in any other house in America. The manufacturer says there is from one to two years' service in every umbrella in which the "Knickerbocker Silk" is used.

THE "BOULEVARD" UMBRELLAS.

None genuine unless stamped on the tie. Manufactured especially for us.

This umbrella is covered with a smooth surface silk and is known to the trade as Levantine Silk, or Turk Satin. It is positively the strongest combination of silks that ever was put into an umbrella, and the hardest to wear out. We have customers that buy it season after season and claim for this Umbrella that it is the easiest sold of any fine silk umbrella they ever had. Owing to the intense closeness of the weave, which when held to the light, presents a solid black, heavy surface, free from creases, pin holes and other imperfections common to other umbrellas.

Every merchant has some customers who want their personal judgment and guarantee when buying a good umbrella. The "Boulevard" is an umbrella that can be handled that way, and if once handled will be bought over and over again.

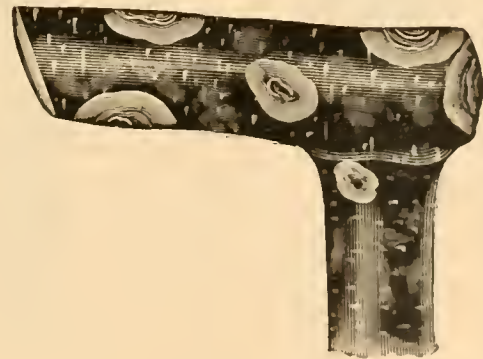

Points of Merits Claimed for the "Boulevard" Silk Umbrellas.

- The best wearing umbrella money can buy.
- The finest hardwood Sticks used.
- The strongest steel Paragon frames used only.
- An immense assortment of handles and sticks.
- Silk cases to match the cover on every umbrella.

- Splendid value.
- Easy selling.
- Lasting, durable, sightly, well-made.
- Every umbrella guaranteed.
- Unsurpassed finish.

Shield Brand Slicker.

The great success which has attended the introduction of the Fish Brand Slicker has induced others to make an inferior coat, which they represent as being equal to the Fish Brand, and offer it at a slight reduction from the price of the genuine goods. To meet this competition we offer the Shield Brand Slicker, which will be found equal in every respect to the best goods of other makes. It is made with a storm flap in front, re-enforced sleeve pieces, elastic inside sleeves, wire fastened zinc buttons, and waterproofed in a superior manner. We respectfully invite comparison of the Shield Brand Slickers, as to quality and price, with the best in the market. Made both black and yellow.

Packed in cases containing one dozen, assorted, 6-1, 4-2, 2-3, to the dozen.

SPECTACLES AND EYE GLASSES.

PRICES REGULAR.

HOW TO FIT SPECTACLES.

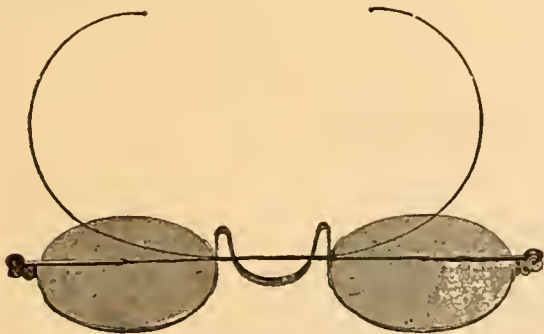

For the information of such of our customers as have no knowledge of the subject, we give a few simple rules for the sale of spectacles that will enable any dealer to sell them satisfactorily. The focal numbers of spectacles vary from No. 5 (which is a very strong lens, for very old people to No. 60 (which is a very weak lens). Each focus is plainly marked by a tag on the glass. The numbers mostly used run from 8 to 36. For convenience of customers we assort each dozen. The best selling assortments being 8 to 24 and to 36. We also have an assortment of stronger focus (5 to 16), and one weaker (12 to 48). A person not requiring spectacles can read ordinary newspaper print comfortably, holding the paper twelve to fourteen inches from the eyes. Whenever a paper has to be held more than fourteen inches from the eyes to read comfortably, it is a sign that the eyes are beginning to fail, and the person can improve his sight by wearing spectacles.

WOODBURY'S FACIAL SOAP.

FOR THE SKIN, SCALP AND COMPLEXION.

FACTS, NOT FICTION, CONVINCED.

The following are the facts upon which Woodbury's Facial Soap is recommended for beautifying, whitening and preserving the complexion:

1st. It is unexcelled as a toilet soap for all bathing purposes thorough in its action as a cleanser and beautifier of the skin, curing all pimples and eruptions.

2d. Facial Soap replaces cosmetics, powders and lotions, and counteracts their injurious effects. Money and skin saved by its use.

3d. It removes excessive oil from the skin, rendering it soft, smooth and velvety to the touch.

4th. It contains a disinfectant, and is of excellent use in hospital wards, and for the cure of contagious eruptions.

5th. It is especially recommended for physicians' use, and when once used will prove its claims. Receipt of ingredients furnished to physicians.

6th. It is invaluable for shaving, preventing disease, allaying irritation, cleansing and healing in its nature. A sweet, pure, and clean skin guaranteed after its use.

7th. It is used for washing the hair and scalp, and acts like a tonic, preventing dandruff, tetter and eczema; gives to the hair a fresh, glossy appearance, prevents its falling, removes excessive oil, and makes the hair soft, light and pliable, increasing its growth.

8th. Blackheads do not linger after their first introduction to this, their enemy. All old, discolored secretions depart, the skin presents a fine, smooth, glowing appearance that is soon apparent; beauty and health of tissue is the result.

9th. Where soft coal is burned it is the only soap that will successfully combat the dirt-laden air and keep your beauty and complexion intact. Use and prove.

10th. It reduces undue redness of the nose when not of long standing, thus preventing one from becoming unsightly and a target for jest and raillery.

11th. For removing the make-up of actresses it is excellent. It dissolves quickly and thoroughly all paints, powders and lotions of all kinds.

12th. For excessive perspiration of any part of the body this soap accomplishes wonders, removing all odors and perspiration.

13th. It is prepared by a dermatologist of twenty years experience in treating skin diseases.
