# THE HOLIDAY STORE

## JOHN WANAMAKER, PHILADELPHIA

### THE HOLIDAY SEASON, 1908.

Wanamaker's has always been known as the great holiday store, because of the unusual preparations it makes for the season of good cheer & good will.

This year the very cream of the foreign markets in the way of holiday goods & novelties has been secured by the large number of Wanamaker buyers who cross the ocean. At one time there were twenty-five representatives in Paris.

An essential element in the value of every gift is that it be of good quality & absolutely right in every detail of design or style. Gifts that come from Wanamaker's cannot be otherwise. The bars are up perpetually against inferior or unworthy merchandize of all kinds.

Those who live near Philadelphia & can visit the Store in person will find many special exhibits & attractions to interest them. This is especially true of the sixth floor, where the toys are. If you have children with you, do not fail to take them there to see the wonders of Toyland.

Those who cannot come to Philadelphia in person can order by mail or telephone, with the assurance that their wants will be attended to quickly & well. Wanamaker's Christmas goods find their way to every State in the Union, & to many nearby countries.

In ordering, please give item number, name of article & price. It is important to order as early in the season as possible.

If you do not see on these pages what you need, do not hesitate to write. It will be a pleasure for us to furnish full information by mail about anything that we have.

# A Philadelphia Piano

—for 70 years the most Exclusive Piano in the United States, & the oldest but one in America.

NOW BETTER THAN IT HAS EVER BEEN—The Gold-String **SCHOMACKER**.

For 50 years the limited output of the factory has been absorbed largely by the most exclusive musical & social element of Philadelphia & by diplomatic & official circles in Washington.

It was used by preference in the homes of Abraham Lincoln, U. S. Grant & every President of the United States since their time.

It had—and has today—a wholly original tone of marvelous depth & sympathy, attributed to patented construction unlike all others, but which renders it the most costly piano in the world to build.

Wishing to extend the knowledge & advantages of these pianos to all parts of the country, this Store—which has the largest piano business in the world—has purchased the Schomacker factory & while maintaining original construction & further improving quality, has reduced cost by improved machinery & increased production, so that these beautiful instruments may be purchased direct at prices no greater than usually paid for pianos worth & costing much less.

Absolutely one price to everybody, & that the cash price. Time in payments will be extended, however, to anybody sending satisfactory references anywhere in the United States, & payments arranged to suit the convenience of the purchaser (within reason, of course), upon payment of simple interest for time actually taken.
