Cloth Caps

## **Real beauty in knit goods**

Knit goods are beautiful only so long as they hold their shape.

That is usually the first thing to go; the thing that makes a cap or sweater look old before its time, while everything else is still good.

So you don't want to overlook shape when buying caps and sweaters.

It doesn't matter how handsome and stylish they look when you buy them; what you want to know about them is: Will they hold their shape and good looks? Will they still be beautiful after a little wear?

## **How to be sure of lasting shape**

You can't tell by looking at the articles themselves; but there is a way that makes buying absolutely safe for you, that insures perfect fit, lasting shape and long wear. And that is to look for and be sure that the

**Mohawk "Indian"** is on every knit cap and sweater you buy.

The **Mohawk "Indian"** stands for quality in caps and sweaters and is a guarantee of lasting shape.

**Mohawk Caps and Sweaters** are not only beautiful and stylish and perfect-fitting when you buy them, but they retain those features. They look as handsome and fit as perfectly months afterward as when new.

That is due to the quality of the yarn and the way they are knit.

It is so important to have the best yarn, and so difficult to get it of uniform quality, that we have our own yarn mill. That not only gives us the softest and finest yarn and most even in quality, but means more brilliant colorings, for fine yarn takes and holds the dye better than ordinary yarn.

**No lasting shape  
unless knit to shape**

But even when good yarn is used, caps and sweaters won't retain their

shape unless they are knit to shape.

Take tam-o'-shanters, for instance. The majority of them are pulled and stretched into shape after knitting, and such goods must eventually go back to their shapelessness. It's only a question of time, and that time isn't long at the most.

So you see the importance of knitting to shape—and **Mohawk Tam-o'-shanters** are the only tam-o'-shanters that are knit to shape.

The machines we use were specially made and designed by us, and there are no others in existence.

From the spinning of the yarn to the finishing touches, every part of every knit cap and sweater is made right in our own clean, light, thoroughly-modern factories—no sweat-shop labor, no unsanitary conditions.

## The best cost no more than the ordinary

**Mohawk Caps and Sweaters** leave nothing to be desired in any way. They give you beauty, style, fit, lasting shape, long wear, brilliant colors—everything you want in caps and sweaters—and yet the prices are no more than you pay for the ordinary kinds that are old, out of shape and worn out in no time.

**Mohawk Caps and Sweaters** are made in all styles and colors, and every one is fully guaranteed. We know how and from what they are made, and willingly stand back of our goods.

It is worth your while to look for the **Mohawk "Indian"** on every cap and sweater, and to insist on getting it.

If your dealer hasn't **Mohawk Caps and Sweaters**, don't take inferior goods that he may offer you, but write to us and we'll see that you get what you want.

## **Mohawk Tam-o'-Shanters, Yales, Toques and Skating Caps**

It is impossible to show in this book the complete line of these goods, but those we do show will give you an idea of the variety of styles and exclusiveness of design.

There is a **Mohawk Cap** for every purpose, and every one is of the highest quality.

T 141

## **Look for the Mohawk “Indian”**

Make sure that it is on every knit garment, knit cap and cloth cap you buy.

You want goods of the best quality that have style and beauty and lasting shape, and you should insist upon getting them, especially when they don't cost you any more than ordinary kinds.

The way to tell them is by the Mohawk “Indian”.

**The guarantee of quality  
and lasting shape**
