WE sell Sewing Machines on the same basis we sell dry goods, groceries, and all other staple articles. Eliminating all expensive methods such as establishing extravagant agencies, sending machines out on trial, teachers to your houses, etc. Instruction is cheerfully given at our store, however. Our Sewing Machines are made for us by a company founded and operated by the greatest mechanical expert and inventor of the age; a man who has done more towards the development, improvement, practical extension and perfection of sewing machines than any and all other men combined.

The factory has the reputation world-wide for producing the best, most perfect and complete Sewing Machine ever made. Its equipment embraces the latest and most improved appliances of every kind requisite for the making of machines of the highest grade. Only the most skilled labor employed.

Could there be any stronger guarantee as to the excellence, practicability and reliability of the "O'Neill"?

The Distinguishing Features of the "O'Neill"

are mechanical excellence, simplicity, durability, ease of management, quietness and adaptation to every requirement of a Family Sewing Machine. Everything is made to a gauge, insuring smoothness of action and uniformity of wear. The working parts are all adjustable, which enables the taking up of lost motion and makes the life of the machine practically indestructible.

It Runs Easier and Makes Less Noise

than any other vibrating machine. It uses a large SELF-THREADING CYLINDER SHUTTLE, SELF-SETTING NEEDLES, HAS A FINE SET OF ATTACHMENTS in a plush-lined box, AUTOMATIC BOBBIN-WINDER and all other furnishings requisite to

FIVE YEARS' WARRANTY.

We Guarantee Each "O'Neill" Sewing Machine, agreeing to duplicate any part that proves defective in Five Years Free of Charge, shuttles, needles, bobbins and attachments excepted, thereby proving conclusively our confidence in the

"O'NEILL" SEWING MACHINES.

the equipment of a first-class Sewing Machine of the highest grade. It uses the celebrated bent woodwork and skeleton case of drawers, which are light and graceful in effect and most desirable.

As a Sewer the "O'Neill" Cannot be Excelled

The action of the take-up and shuttle are in perfect harmony, causing the upper and lower threads to meet exactly half way in the cloth when the stitch is half completed and remains there until the take-up has completed its work and the upward and downward pull on the thread are exactly the same. Not the least lift to the shuttle as it passes through the loop. No strain on the thread.

THE RESULT: A smooth, plump, even stitch, drawn together exactly in the center of the cloth.

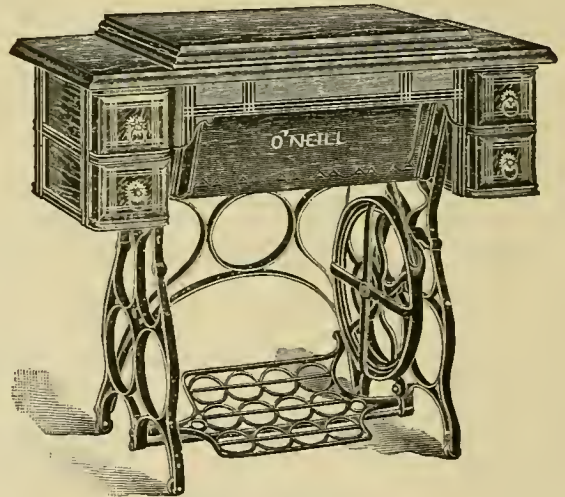

The "O'Neill" Is the Perfection of Mechanism

for HEMMING, FELLING, BINDING, CORDING, QUILTING, TUCKING, RUFFLING, GATHERING, HEMSTITCHING SEAMING, ETC.

It is adapted to every variety of sewing, from the finest muslin to the heaviest cloth and will do a greater range of work than any other machine.

Best set of attachments sold with any low priced machine. So simple you can attach them with your eyes closed.

You can always procure the needles, bobbins, shuttles and all parts of our machine from us or from almost any sewing machine supply house.

BICYCLES.**\$30.00—1898—THE "O'NEILL"—1898—\$30.00****Thorough Modern in Construction, Beautiful in Design, Unequaled for Durability and Strength, and the Price Speaks for Itself.**

THESE Bicycles are made especially for us by one of the leading manufacturers in the east. The material has been carefully selected by us and every piece has been thoroughly tested. The frames are made of $1\frac{1}{4}$ -inch Shelby weldless cold drawn steel tubing, $1\frac{3}{8}$ -inch head, D-shaped rear fork. JOINTS are FLUSH, with long tapered inside re-enforcements. The flush joints give the wheel a very neat and trim appearance. HUBS, cups and cones (probably the most important part of a wheel) have had our especial attention. They are turned from solid bar stock, carefully hardened and finely finished.

The crank hanger and crank is an improvement on the famous Fauber patent. The balls are retained on the cones and enables the rider to take the crank and bearings out in a half minute without disturbing the crank cups. Spokes, best quality, made by the Excelsior Needle Co. 36 spokes in rear wheel, 32 in front wheel. Rims, one-piece wood, selected.

Tires are made for us by the Peoria Rubber Manufacturing Company. They are identically the same as the well-known "Peoria Single Tube." A deep corrugation in the tread makes it non-slipping and hard to puncture.

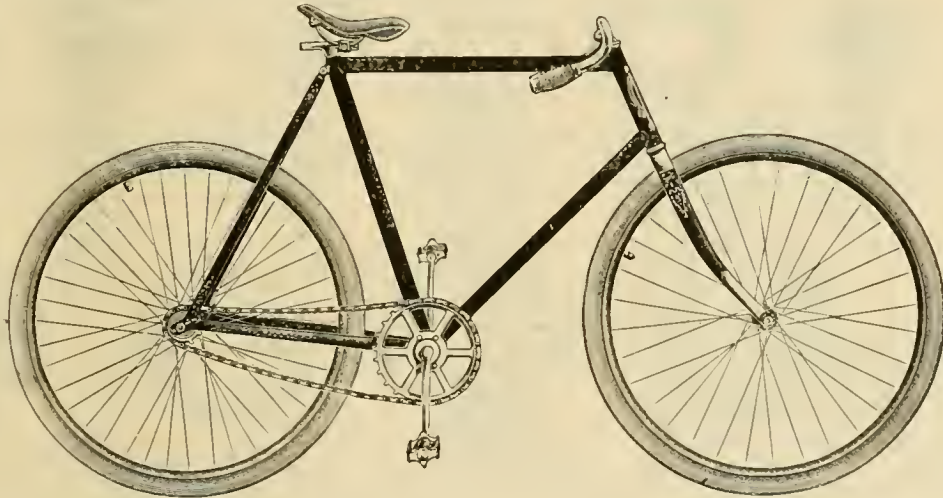

"O'Neill" Bicycles \$30.00—Guaranteed for Calendar Year, 1898.

Any defective part of these bicycles sent to us, transportation prepaid, will be exchanged for a new part free of charge, providing defect was not caused by accident, misuse or neglect. All parts must be sent to us before any claim is allowed. We do not guarantee tires (except those branded "O'Neill"), saddles, lamps, cyclometers, bells or sundries sold with our wheels. All claims on these must be made direct to makers. A reasonable charge will be made for all repairs and lost parts.

Cheques not certified cannot be accepted.

Cash or postage stamps should invariably be sent per registered mail.

Express and Mail Charges.—We will pay one-half the charges on orders amounting to \$50.00, and upon orders amounting to \$100.00 we will prepay all charges of forwarding to the nearest express office (within the limits of the United States) *except* on Housefurnishing Goods, Cornices, Curtains, Trunks, Table Linen, Toweling, Upholstery, Carpeting, Furniture, Groceries, Bicycles and Machines. **But within a radius of 100 miles of New York City we will deliver all goods free of charge to the nearest Express Office or Freight Depot.**

Packages weighing over 4 pounds cannot be sent by mail.

Shipping Directions.—As full address as possible facilitates shipment and delivery; and for small towns, when it is not convenient to receive by mail, or the goods are too heavy or bulky to send by mail—it is well to show both post office and express office or freight depot.

Conditions.—In cases where the remittances may not be sufficient to cover value and postage on packages transmissible by mail we shall either omit goods equal to deficiency or forward all per express, as may appear mutually desirable

C. O. D. Orders must be accompanied by at least quarter amount of value.

Positively no goods sent on approval or subject to inspection, as every article is guaranteed to be exactly as represented or money refunded.

We will not be responsible for loss or damage by uninsured mail, or by express or freight.

Requests for samples should specify fully the sort of goods, widths and prices. When ordering from samples it is advisable, always, to make a first and second choice, and to mention the purpose for which wanted.
