The Nazareth Waist Is a Muscle Builder. How?

By absorbing the excretions of the skin and keeping the flesh dry, it hardens the muscles of the youthful athlete. The ventilating and elastic properties of the porous knitted fabric comprise a safeguard against chills and colds, and the supporting tapes by suspending all weight from the shoulders obviate harmful pressure on the abdomen.

Carefully constructed with buttons that stay on, buttonholes that won't tear out and trimmings that impart a dainty appearance, the Nazareth is a waist of great durability. For boys and girls from 1 to 15 years. Price, 25c.

CORSETS

ARE DECIDEDLY PROPER AND BEST

Proper — because they are conceived upon lines dictated by the newest fashions in women's attire.

Best — because of the superior workmanship, the fine materials, the handsome trimmings and the perfect fitting qualities displayed and contained in them.

LONGFELO MODELS (illustrated above) are pre-eminently the season's proper designs. The long skirt extends down and securely encompasses the hips producing a smooth sloping surface which is all essential with the new close-clinging gowns. The hose supporters attached prevent the corset from riding up on the body.

A properly selected style will meet
the special requirements of every fig-
ure.

An attractive and durable glove is a valuable addition to any ladies' toilet, but owing to the fact that in many cases, the stock carried by the average retailer is not what it should be, there are a large number of ladies in the United States who wish they had never seen a glove; without attempting to criticise the methods of other retailers or the class of goods they carry, we wish to describe briefly to such ladies as have heretofore had unpleasant experience with their gloves, how and where they may secure goods which will give them perfect satisfaction.

In the first place, the gloves themselves should be the very best that can be produced at a price within the reach of the average purchaser. This is self evident, is it not? And most important of all, the gloves should be so well known to the purchaser by reputation, that she will enter the store with a feeling that whatever she buys of that particular brand will certainly prove satisfactory in every way.

The Pings gloves we can truthfully say fully fill all these requirements. These gloves are well known through their extensive use during the last twenty-five years, and because of the care taken in their manufacture, which is the result of the manufacturers' many years' experience in the business. All the tanning, dyeing, cutting and sewing being done under the supervision of experts at one factory.

CARPETS

Advance in the Price of Carpets and Rugs

On Nov. 20th last the large Carpet Manufacturers made a CASH PRICE for their spring Carpets and Rugs. Money was scarce and bringing a big premium in New York.

We took advantage of this opportunity and bought our stock of spring floor coverings. A short time after that the manufacturers advanced their prices a considerable amount, and on Jan. 5 a still further advance took place of 2½c on the cheapest quality and 5 to 10c per yd. on the better grades.

We own our Carpets at a cost that will enable us to sell at 10 to 25c per yd. less than any other dealer in Troy, and to save purchasers 20 per cent. on every domestic Rug bought of us.

Why not buy from the importers and the manufacturers agents and save the middleman's three profits?
