

"H. & W."

Corset Waists and Brassieres

IT has long since been settled that the Corset Waist has come to stay. That it has become a necessity for women, misses and children. And so with this necessity have come the perfected "H. & W." Waists.

We recognize that mothers attach as much importance to the selection of the child's waist as their own. We make the greatest number of styles of children's and ladies' waists of any manufacturer and *guarantee every one of them* to be perfect in every detail.

It is not possible, off the figure, to show the beautiful lines, the perfect workmanship and excellent quality of these waists, however close we come to it in the illustrations.

A few of our leading styles only are shown in this catalog. There are many others which are carried and will be shown you by leading dealers.

There are waists to keep the figure perfect—waists to make a perfect figure; maternity waists and children's waists.

Comfort and health, combined with style is embodied in their making—and the "H. & W." patented features mark them in a class by themselves above all other corset waists.

Insist on "H. & W." Waists at your dealer's. If he is one of the few who cannot supply you we will send any waist you select, free of carriage charges on receipt of price and the dealer's name.
