Adolph Meyer & Co.  
MANUFACTURERS  
OF  
FOOTWEAR.  
290  
DEVONSHIRE ST.  
BOSTON, MASS.

August 15, 1894.

DEAR SIR:—In handing you this catalogue may we not refer with pride to a successful business career extending over a period of twenty-five years — a period marked by originality of ideas as well as by marked progress in the manufacture of shoes. As to originality of ideas — we were the first to sell goods on the mail order plan, giving the customer the privilege of returning, at our expense, any goods which were not satisfactory, thus depending entirely upon the merits of our goods to make for us a place in the history of the shoe business. For the results we have but to point to our business of to-day — a business built upon the principle of giving the best for the least money, keeping ourselves in constant touch with the trade, and always ready to meet their wants where the practicability of their desires asserts itself. Again, are we the pioneers of an idea thoroughly original, and one which, although probably conceived by other houses, no one has ever dared to attempt, viz., to pay the freight from Boston to the customer's shipping point, thus placing goods at his town at the actual catalogue price.

Quality first, then the lowest price, and freight, keeps us in the front rank of the shoe business of the day, and places us foremost of all houses doing a mail order business.

Selling entirely through the mails we save the heavy

expenses of travelling and high priced salesmen, hence do not have to figure this heavy expense in the manufacture of our goods. We are in a position to, and do, undersell any house which effects its sales through travelling salesmen.

## Our Platform.

The best value for the least money.

To stand by any guarantee covering our goods, to at all times right a wrong, and to strive to please.

To buy for spot cash all our material and drives in order to get the very lowest possible price, and so better serve the interests of our customers.

To judge keenly of the value of goods not only as to price, but also as to "goodness and salability."

We guarantee satisfaction in every respect, and accept a return of any lots of shoes which, upon arrival, are not satisfactory to the buyer.

To not only sell at the lowest possible price, but we *allow our customers to deduct freight charges to their nearest railroad station or steamboat landing, provided they pay their bill promptly within 30 days.*

To sell strictly on the following terms — 30 DAYS NET, OR 1 PER CENT DISCOUNT IN 10 DAYS.

To sell to good merchants only on these terms and thus avoid bad debts, which necessarily result from long time purchases.

To give the benefit of our freedom from bad debts to our customers by quoting bottom prices on shoes.

## Our Big Four Departments.

OUR OWN MAKE. — A complete distinct department of goods exclusively "our own" manufacture. Here we can give you any numbers of pairs and any assortment of sizes, as likewise we can fill the most exacting wants.

DRIVE DEPARTMENT. — A department of bargains.

We buy for this department only when the price is below the market quotation.

In "Drive" department we sell in *lots of not less than twelve pairs of a kind*, sizes as quoted.

RUBBER DEPARTMENT. — In addition to Boston Rubbers, we quote some big "Drives." See page 75.

*5 per cent extra discount on early purchases.*

SAMPLE DEPARTMENT. — You know the meaning of this word "sample" — always perfect and well made.

This department is a specialty with us and offers special inducements to buyers of jobs. See pages 72-74.

---

We thank our friends and customers for favors extended us in the past, and we solicit a continuance of their patronage, as well as the patronage of all good merchants. We are, Very truly yours,

*Adolph Meyer & Co*

## Men's and Boys' Department.

There is an especially strong demand this season for cheap shoes, and in meeting this demand, we emphatically refuse to make "shoddy" goods, and any shoes quoted under "our own make" may be relied upon to give good, substantial wear. We ask your attention to our famous Victor Buff Line at \$1.00. We have added merit to its absolute solidity, and all Congress have Hub Gore. The Victor, as before, has a strictly solid sole leather counter, sole leather inner and outer and sole leather heel; has a first quality Buff Seamless vamp and first quality Seamless Glove Grain top; is fair stitched and carried in stock in all prevailing styles.

## Promenade.

We made a ten strike when last season we conceived this excellent shoe; duplicate after duplicate followed original orders, and the trade is still increasing. Glove Grain Tops, Seamless Gossamer Vamps, solid, flexible single soles, and solid leather inners, outers and heels, added to lots of style and good wear, make a shoe hard to beat.

No. 250.	Men's Promenade Bal. or Congress, Globe Last, Plain or Tip,	. . . . . \$1 00
No. 250A.	Men's Promenade Bal. or Congress, London Last, Plain or Tip	. . . . . 1 00

No. 250C.	Men's Promenade Bal. or Congress, Opera Tip	. . . . . 1 00

## Wing Tips.

The feature of these shoes is best explained by reference to accompanying cut. This tip is not only artistic, but is also practical, as it protects the toe and sides of the shoe. Wing tips are very stylish and are growing in popularity.

No. 1.	Men's Fine Tannery Calf Bal. or Congress, best custom work throughout; Wing Tip, Picca- dilly Toe	. . . . . \$1 85
No. 2.	Men's Fine Satin Calf Bal. or Congress, cylinder fitted and high class work; neat and pretty; Wing Tip, Razor Toe	. . . . . 1 50
No. 3.	Men's Glove Bal. or Congress, Embossed Wing Tip (imitation), Piccadilly Razor Toe	. . . . . 1 25

Not only staples, but all the "new ideas" in shoemaking,  
we quote at "lowest prices."

## Devonshire.

A satisfied trade is our delight. We do not rely on past reputation, but keep steadily to the front and anticipate the wants of the trade. If anything new, we have it. Our Devonshire Line is made of a finer, softer Robson Calf than heretofore, is absolutely solid throughout, inners, outer, counter and heel, and is Fair Stitched, has a Genuine Goat Dongola Top, and its wear and style are unimpeachable. They are Warranted. In the face of this vast improvement we have reduced the price.

Calf Bal. or Con-

Bal. or Button, absolutely solid, and very  
best selection of stock, London Toe, Tip, 5  
and 6 wide . . . 1 10

Boys' sizes are 1 to 5; youths' 11 to 2. We deliver all shoes plain or creased vamps.

## Cloth Tops.

This once very popular shoe is again gaining a strong hold on well dressed trade. The practicability of the Cloth Top asserts itself. It answers the purpose of an over-gaiter, and is a positive relief to many feet, as it does not burn the instep as any crimped leather top is apt to do. Our advance sales on these shoes have been very large. The Congress have Seamless crimped top. We make on stylish lasts and patterns, and they sell at sight.

- No. 4. Men's Black Worsted, Cloth Top Bal.  
 or Congress, Satin Calf Vamp, Piccadilly  
 or Globe Toe, Plain or Tip . . . . \$1 50
- No. 150. Men's Fine Worsted, Black or Polka  
 Dot Cloth Top Bal. or Congress, high grade  
 vamp and the "best" throughout, Piccadilly  
 or Globe Toe, Plain or Tip . . . . 2 00

The above shoes are not made with heavy, clumsy soles, neither with the lighter single soles, but with a medium weight single sole, and at the same time, flexible.

## Enamelled Leather.

This stock is superior to the regular smooth patent leather in point of wear, and for the Fall and Winter Season is much preferable, as it is tougher and will not crack so readily. It is a practical shoe of its kind. While we do not warrant this class of stock, we will state that no complaints have been entered against it, although it has had a large sale the past year.

- No. 6. Men's Enamelled Leather Bal. or Congress, strictly solid leather and made with lots of style; tops are of soft mat kid, and the shoe is very presentable. Piccadilly Opera, Cap Toe, or Globe Last, Plain Toe . \$1 75

- No. 7. Men's Patent  
 Leather Seamless  
 Lace Oxford; Machine  
 Sewed and all  
 solid (see cut).

- Opera Last, Cap Toe . . . . 1 00

When desired, we make to order, giving any practical, desired changes. We aim to please.

**Patent Leather.** — Continued.

- No. 8. Men's Genuine Patent Leather Vamp Oxford, Patent Back, Machine Sewed, much more substantial and preferable to the ordinary light Turned shoe. London Last, Cap Toe, or Globe Last, Plain Toe . . . \$ 80

**Marshall Patent.****Hub Gore.**

Under this patent we make a shoe which is practically a Lace and Congress combined. The shoe is fitted with Goring the same as a Congress boot, and in addition, is a regular Lace shoe, so that the Lace can be adjusted to fit the foot, after which the shoe can be pulled on the same as an ordinary Congress gaiter. This shoe readily appeals to all people who like the appearance of a Lace shoe, while also preferring the easily adjustable qualities of the Congress. See cut.

- No. 20. Men's Fine Calf Marshall Patent Congress Bal., ab-

olutely solid, custom made and fitted throughout. Globe, Opera or London Last, Plain or Tip . . . \$1 85

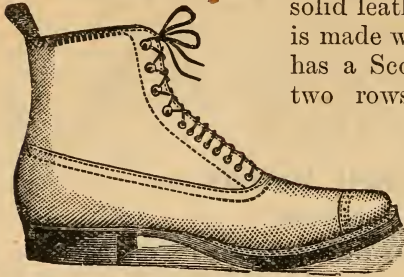

- No. 21. Men's Fine Satin Calf Marshall Patent Congress Bal., styles as above . . . 1 50

solid leather. This shoe is made with three soles, has a Scotch edge with two rows of stitching,

## Seal Skin.

This stock is usually called Sealskin, of which it is a most excellent imitation, and the wear is positively warranted. We sell ours for just what it is — a Genuine Tampico Goat, made in imitation of Seal, and quote:

No. 18. Men's Fine Seal-Goat Blucher, Bal. or Congress; our finest work throughout; is made with a heavy half double sole, fair stitched. Globe Last, Cap Toe . . . . \$2 25

No. 19. Same as above with Genuine Cork Sole. One of our very best sellers . . . . 2 40

## Seal Skin. — Continued.

- No. 19A. Men's Seal Grain Bal. or Congress, workmanship as above; Genuine Cork Sole, a handsome shoe, Globe Tip . . . . \$2 00

## Cork Soles.

We are aware of no shoe which has grown in such popular demand as the Cork sole. In addition to making "the nearest to possible water-proof" shoe, they are exceedingly popular with the class of trade who demand a heavy sole, and still do not want to carry the extra weight of leather ordinarily necessary to this weight sole. Cork soles do the work, keep the feet from the ground same as three heavy soles would; are as light as a feather, and except in the very roughest weather, render rubbers unnecessary. Our Quotations are on the Genuine Cork Sole only, Cork from Side to Side, and no imitation.

- No. 15. Men's Genuine Kangaroo Calf Cork Sole Bal. or Congress, absolutely solid, Hub Gore, and a shoe meeting all the requirements of higher priced goods. Plain French Toe, 5 and 6 wide . . . . \$1 50

- No. 15B. Men's Robson Calf Cork Sole Bal. or Congress, absolutely solid; the best throughout; Dongola Top; N. London Last, Cap Toe, 5 and 6 wide . . . . . 1 35

- No. 16. Men's Tannery Calf Cork Sole Bal. or Congress, strictly solid throughout, custom made and fitted; London or Globe Last, Plain or Tip . . . . . 2 00

Small profits and large sales, have been our success. We can save you money.

## Cork Soles. — Continued.

(the very finest grade of a Kangaroo Finish Calf, superior to Kangaroo for this class of goods)

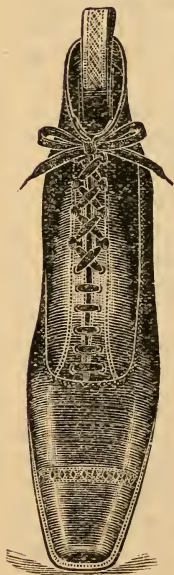

Bal. or Congress, Cork Sole, our best shoe, and this *means the best*. Hub, Globe or

French Last, Plain or Tip . . . \$2 50

## Supreme.

## "Satin Calf."

Artistic! This word best describes the appearance of the Supreme. To look artistic, a shoe must be well-made, neat and stylish; and to be artistic, this shoe must fit and wear. The Supreme looks artistic and is artistic. The best is no better. The Supreme is composed of the finest grade Satin Calf, best Tampico Dongola Top, is fitted with silk, has smooth inner, and is made of strictly Oak Tanned sole leather. We have with either plain tops or neatly corded; this cording gives a rich appearance to the shoe and adds much to its salability.

Give us and our method a trial—We guarantee satisfaction—  
You run no risk, we pay freight.

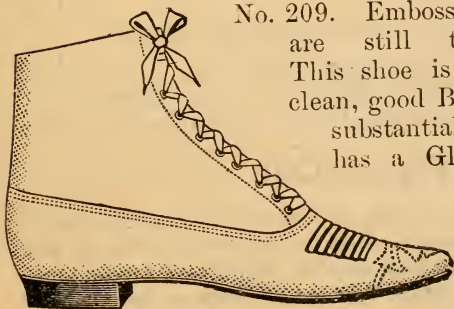

**Gossamer.**

No. 23. A very neat and pretty shoe is this Men's Gossamer Blucher Congress, Hub Gore, Imitation Lace (see cut). This is a most desirable dress shoe, and is very stylish; Narrow Opera Toe,

Long Straight Tip, 4 and 5 wide (note reduction in price) . . . . . \$1 60

**Teaser.**

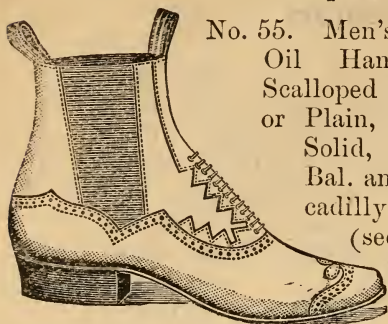

No. 209. Embossed Vamps are still the rage. This shoe is cut from clean, good Buff, and is substantially made; has a Glove Grain Top and will wear well. A decidedly pretty shoe

(see cut). Seamless, Bal. or Congress, Opera Toe . . . . . 1 00

No. 210. Same in a strictly fine grade, absolutely solid throughout, best of material and work; Bal. or Congress, Opera Toe . . . . . 1 20

## The Hustler.

The Hustler is cut from plump Genuine Tannery Calf, is absolutely solid throughout, and is a shoe for style, comfort and service. The tops are cut from soft Kangaroo Calf; half double sole, smooth inner.

- No. 73. Men's Calf Hustler Bal. or Congress, Opera Last, Cap Toe . . . \$1 50

 No. 73B. Men's Calf Hustler Bal. or Congress, French or Glace Last, Plain or Cap Toe . . . 1 50

## French Calf.

We struck a bargain in a lot of Genuine French Calfskin, the real imported article, quality equal to that which ordinarily goes in the \$3.50 shoes. We have decided to make a special leader of this, hence produce into a high grade Machine Sewed Shoe, and quote:

- No. 26. Men's Fine French Calf Bal. or Cong., Globe Toe, Tip or Plain . . . \$2 00  
 No. 271. Men's Fine French Calf Bal. or Cong., Piccadilly, Wing Tip . . . 2 15

The best at the lowest price. Small profits, quick sales — our motto. Give us a trial.

**\$1.60 Calf.**

A \$2.00 shoe in style, fit and quality of Upper, this shoe is a wonder and sells at sight. The vamps are cut from that soft Tannery Calf so much desired, and the tops from Genuine Dongola. The shoe is cylinder fitted with Calf trimmings, has piped edges and English eyelets, and all the attributes of \$2.00 goods.

Absolutely nothing but best Oak sole leather. Smooth inner, creased vamp. Black face stitched and hard to distinguish from a Goodyear Welt.

- No. 25. Men's Calf Bal. or Congress,  
Piccadilly or Razor, Cap Toe, \$1 60
- No. 25A. Men's Calf Bal. or Con-  
gress, N. Globe, Cap Toe . . . 1 60
- No. 25B. Men's Calf Bal. or Con-

gress, Opera or London, Cap Toe 1 60
- No. 25D. Men's Calf Bal. or Con-  
gress, New French, Plain Toe . 1 60

**Eureka.**

The Eureka is an "emphatic argument" as to how cheap a good shoe can be made. Uppers plump and as tough as steel, yet as soft as Kangaroo; style the essence of good taste, this shoe appeals to the "purse of the times." Absolutely solid. How can it be made for the price? is the perplexing question of competitors.

- No. 31. Men's Kangaroo Calf Bal. or Congress,  
absolutely solid. Kangaroo Calf Top as  
well as vamp, Globe Last, Cap Toe . . . \$1 25
- No. 31A. Same. Globe Last, Plain Toe . . . 1 25
- No. 31B. Boys' of same, Bal., Button or Con-

Tip, all sizes 12 to 2 . . . . . 1 00

If you are in need of cheap shoes, or goods for a "special sale," see Drive Department.

## Tigerskin.

The old name and the same good shoe, but greatly improved and much reduced in price. We never advance but continually lower our selling prices. Our extraordinary advantages in buying enable us to do this. As to the merits of Tigerskin, we need but

repeat, "The best known leather for strength and elasticity; the best shoe in the world for service and style combined." Every pair warranted.

The Tigerskin line is absolutely solid, inner, outer, counter and heel. Soft, durable and waterproof. Fair

stitch, smooth inner.

No. 67. Men's Tigerskin Bal. or Congress, Globe Last, Plain or Cap Toe . . . . .	\$1 40
No. 67A. Men's Tigerskin Bal. or Congress, London or Opera Last, Cap Toe . . . . .	1 40
No. 67B. Men's Tigerskin Congress or Bal., Glace or French Last, Plain or Cap Toe . . . . .	1 40

## Kangaroo.

No. 30. Men's Kangaroo Bal. or Congress (Kangaroo top as well as vamp), Globe Toe, Plain or Tip . . . . .	2 00

## Russian Colt Skin.

This is not a fanciful name, but is a real, Genuine article, looks exactly like a Kangaroo, runs more uniformly and wears as well. We are exclusive handlers of this stock, importing it direct. For a strictly high grade, light shoe, it has no equal, and the price brings it within the reach of all. Heavy, single, flexible soles. Note reduction in price.

**Mail orders are our specialty; we fill them efficiently and promptly. Give us a trial.**

**Russian Colt Skin.**—Continued.

- No. 226. Men's Russian Colt Skin Bal. or Congress, N. Globe, Cap Toe . . . \$1 75  
 No. 226A. Men's Russian Colt Skin Bal. or Congress, Globe or New York Plain Toe . . . 1 75

**Goodyear Welt.****\$2.00 Calf.**

We wish we could do justice to the merits of this shoe. The vamps are cut from the finest of Tannery Calf, selected for softness and fineness; the tops from the softest of soft Dongola Goat; the lasts and patterns are modelled by the best talent, and in pursuance of our policy of giving the "best" at all times, we offer a shoe at \$2.00 which last season would have been considered excellent value at \$2.50. No. 171A.	Ladies' Pebble Grain Polish of same	75

**Strong Back.**

The strong back in these shoes consists of an extra back stay tapering from an inch and a half at the heel to a half inch at the top of the shoe; in this manner, the stay is made an ornament to the shoe rather than an encumbrance; the strength of this stay consists in the fact that it is so arranged, being stitched on either side, that the dress in rubbing does not strike a seam, as likewise, when the foot is bent in walking, the resistance is offered by a solid piece of leather without any strain on a seam. We guarantee this shoe a "non-ripper." See cut page 38.

This word “ Job ” is one we seldom use, as our “ Drives ” are distinct from jobs. The following quotation of Boots are not “ Jobs ” in the sense of the word, but we call them so on account of size of lots. They are clean, freshly made goods, but at “ Job ” prices.

## Sample Department.

Sample—You know what the word means, the very best of the kind, always perfect, and extra well and carefully made. In addition to such of our "Own Make" as have been in use in our various local agencies in the large cities, we quote some prominent makes. We have divided into a number of groups, and the price of any group is less than the lowest-priced shoe in that group can be bought for regularly. In order to give a good assortment we will sell lots of not less than 25 pairs in a group. Except "Stoga" all are packed in single cartons. We offer an exceptional opportunity to replenish your bargain counter.
