**Pattern, No. 28.—FOR CUFF.***(See Illustration in Title.)*

Needles, No. 20; any Cotton the size of Boar's-head, No. 26. Cast on 17 stitches for each Pattern, or 102 for each Cuff. Knit two plain Rows. and then commence

**1st Row.**—Knit 1, make 1, slip 1, knit 2 together, pass the slip-stitch over; make 1, slip 1, knit 2 together, pass the slip-stitch over; make 1, and knit 1 four times, make 1, slip 1, knit 2 together, pass the slip-stitch over; make 1, slip 1, knit 2 together, pass the slip-stitch over; repeat six times.

Repeat these two Rows 24 times; bind off, and at each end you will find a row of holes which requires to be run through with a needle and cotton, and tied quite tight; you will also find another row, exact in the half, which must be done the same. Then, doubling each quarter, you will find similar holes, and having run and tied five rows of holes there will be four puffs,—the knots are all tied on one side, which forms the wrongside of the cuff; whip the two sides, and knit another piece exactly the same; you will then require three pieces of the following Insertion.

**Pattern, No. 29.—INSERTION.**

Two Needles, No. 20; Cotton, No. 26. Cast on ten stitches. Knit twelve plain Rows then commence

*Pattern, No. 34.—FOR CUFF.*

Needles, No. 20; Cotton, No. 36, size of Boar's-head; Cast on 124 stitches for each Cuff,

Then commence with Pattern, No. 26, in the Fifth Series; this will make four patterns wide, you will then require five long, and it will look pretty in this size Cotton and Needles. As so many receipts is required for Cuffs, I am obliged to refer to the best in former Numbers, so as to give the worker choice and style; and when you have done two pieces of Knitting as directed, you will require two pieces of Insertion, Pattern, No. 29; and four pieces of Edging, Pattern, No. 33, as directed in this Book; first stitching one piece of Edging to the Insertion, then on the other side of the Insertion, stitch the other piece of Edging and the piece of Knitting together, and this will form the Cuff.

---

*Pattern, No. 35.—FOR CUFF.*

For this Cuff four lengths of Insertion is required, to be worked the same as Pattern, No. 32, page 91; and four lengths of Edging to be worked the same as Pattern, No. 33, page 93; then whip the Edging and sew it to the Insertion; sew the two Insertions together with one length of the Edging in the centre, and this forms the Cuff as in the Illustration.

*Pattern, No. 47.—FOR BABY'S BOOT.*

[As so many rows would be required to complete each boot, it will be best for the worker to learn each pattern separate, and then make the Boots from the directions, which will be much easier.] You will require two Needles, No. 14; six skeins of Coloured Berlin Wool, and six skeins of White, for each pair of Boots; this pattern forms a honey-comb, and only looks well in the coloured and white. Cast on 18 stitches to learn the pattern, with the coloured, and knit 1 plain row.

*1st Row.*—Join on the white, knit 2, slip 2, knit 2; repeat to the end.

*2nd Row.*—Purl 2, slip 2, purl 2; repeat to the end.

#### DIRECTIONS FOR THE FOOT-PART OF THE BABY'S BOOT.

Cast on 36 stitches, and knit 1 plain row; then commence the above pattern.

Raise 1 at the end of each row for 4 rows, and then raise 1 at the end of every other row for six times more, which will make in all 4 raised at one end, and 10 at the other: 4 for the heel, and 10 for the toe. You will now leave off raising, and continue the pattern till you can count 18 rows, which will be three patterns. Knit 30 stitches, turn back, and bind off, which will form one side of the boot; you will then have only 18 stitches for the toe. Work the pattern for 14 rows, cast on 10 stitches, turn back, and knit these 10 plain; continue the pattern across the toe, and in the next row work the 10 stitches plain, turn back, and bind off the 10. This piece is sewed to the two sides when the boot is finished, to form the square for the toe. Work the pattern 14 rows more, which will complete the toe. You will now cast on 30 stitches, and work to match the other side, by narrowing 10 for the toe-part, and 4 for the heel. Bind off, and pick up 20 loops across the instep and toe-

part, knit 3 plain rows, and bind off. This completes the foot-part of the boot. You now require to work

FOR THE INSTEP.

With the white wool pick up 20 loops on the wrong side, in the same row as you picked up the loops before; knit 1 plain row, and commence the following pattern. At the end of every row knit 1 loop from the side, in the same row as you picked up for the front, and pass the last stitch over it, so as to let the same number remain on the needle, and to form a ridge round the boot.

*1st Row.*—Purl 1, knit 2 together, make 1, purl 1, knit 4, purl 1, and knit 2 together; make 1, purl 1, knit 4, purl 1, knit 2 together, make 1, and purl 1.

*2nd Row.*—Purl 3, knit 1, purl 4, knit 1, purl 2, knit 1, purl 4, knit 1, and purl 3.

*3rd Row.*—Purl 1, make 1, and knit 2 together; purl 1, knit 4, purl 1, make 1, and knit 2 together; purl 1, knit 4, purl 1, make 1, knit 2 together, and purl 1.

*4th Row.*—Purl 3, and knit 1; you now require the third needle to slip 2 stitches on, and bring the needle towards your body; purl 2 off of the other needle, and purl the 2 that is on the third needle; knit 1, purl 2, and knit 1. Take the third needle again and slip 2, purl 2 off of the other needle, and the 2 off of the third needle; knit 1, and purl 3; repeat these 4 rows four times, which will complete the instep. Pick up 16 loops on each side, and knit 4 rows plain; and the 5th row, knit 2, make 1, and knit 2 together, so as to make a row of holes for the ribbon to be run in; knit 3 rows plain, and commence

PATTERN 48, FOR THE LEG OF BABY'S BOOT.

*3rd Row.*—Purl 1, make 1, knit 2 together, purl 1, and knit 4, repeat to the end.

*4th Row.*—Slip 2, then take the third needle; purl 2, bring the needle towards your body with the 2 slipped on, and purl the 2; knit 1, purl 2, and knit 1; repeat to the end, and repeat these 4 rows eight times, and knit

*2nd Row.*—Plain.

stitches, and work these 4 rows as many times as the directions may require.

#### DIRECTIONS FOR THE FEET OF BABY'S BOOTS.

Raise 1. by picking up a loop at the end of every row, for 4 rows, which will form a round for the heel; then raise 1 every other row for six times more, which will make 10 raised for the toe; continue the pattern, or plain, until you have worked 30 rows. Leave, or bind off, about 32 stitches for the leg, (why I say about that number, is, because some patterns require more for the toe, which is worked about 14 rows.) Cast on 10 stitches, which is worked plain for 3 rows; bind off the 10 so as to form the toe, always continue the pattern with the other stitches; work 14 rows more; this will complete the toe. Cast on about 32 stitches for the other leg; work the other side to match the first, and narrow as many as you raised for the toe and heel; bind off, and pick up about 75 loops round the leg and instep; knit 3 plain rows, and bind off, which forms like the top of a shoe.

#### PATTERN 51, FOR THE LEG OF BABY'S BOOT.

*1st Row.*—Make 1, knit 2 together, purl 3; repeat to the end.

*2nd Row.*—Knit 3, and purl 2; repeat to the end; and, after you have worked these 2 rows ten times, commence working the remaining stitches from the sides to form the leg, and continue the two pattern rows fourteen times, which will form the leg; work 2 plain rows with the coloured, then work pattern 49 (page 113); bind off, and sew up the bottom and back, and this will complete the boot.

*Pattern, No. 76.—FOR STOCKING.*

## GENTLEMAN'S SIZE.

Four Needles, No. 18; and use knitting worsted, or any materials the same size.

Cast on 50 stitches on each of the three needles, and commence knitting with the fourth to form the round; and when you have worked 1 plain round, commence rib knitting for the top as follows: knit 2 and purl 2 for about 50 rounds, bearing in mind always to knit the same stitches and purl the same stitches as before, which forms ridges of elastic knitting; when the above number of rounds are worked, continue knitting all plain but one stitch, which is purled down to the heel as a mark for the narrowings, to shape the calf; after working sufficient rounds for the knee, commence narrowing for the calf by knitting 2 together each side of the purl stitch, every six rounds, for about twenty-five times, and this forms the calf; then work sufficient rounds for the leg and ankle, which brings you to the heel; and after dividing the stitches, 25 on each of the two needles, and 50 on the third, which contains the seam-stitch, having 25 stitches on each side of the seam-stitch, you then work the heel with only two needles, always slipping the first stitch and knitting 1 row, and purling 1 row, (in the purled row the seam-stitch is knitted, and in the knitted row the seam-stitch is purled.) If the heel should be required to be made stronger, use finer needles and the worsted double, for about 40 rows, narrowing 1 stitches every row each side of the purl-stitch, by taking 2 together, and this will round the heel for ten rows; place the two sides of the heel together, and with the third needle slip the purl stitch, then pass the needle through one stitch each side of the purled one, knitting the two together, and passing the purled one

over the two knitted together; repeat until you have worked all the stitches off the two needles, pick up the loops at the sides, and commence working the instep:—Work 1 round plain, and 1 round knit 2 together in the commencement of the first needle, which contains the stitches for the heel, and also knit 2 together in the last stitch of the second needle for about six times, and this will decrease twelve stitches; now knit plain for the length required for the foot, narrowing gradually on each side of the foot, until there are but few stitches left, then place the front and sole-part together, and knit the stitches together the same as for the heel. This completes the stocking.

#### DIRECTIONS FOR GRAFTING.

This direction applies to wove as well as knitted stockings. After the feet are worn out they only require to be cut off, and pick up the stitches, then work the direction for the stocking. You can also place a new heel to an old stocking, by cutting off the heel, so as not to interfere with the stitches in the leg; then knit a new heel, working in the loops at the end of the row by knitting a loop with the last stitch, until the heel is completed; and finish the heel in the same way as the new one.

To join two plain pieces of Knitting or Weaving together, so that it looks exactly the same as the other part of the work, is by undoing the work until the loops are quite straight and clear in both places, placing them side by side, and with a darning needle, and the same material, join on in the end loop, pass the needle in the two end loops in the other piece, and through the same one as before; having one clear loop first on one side, and then on the other, until the work is complete.

*Pattern, No. 77.—FOR CHILD'S SOCK.*

Needles, No. 16; any cotton the size of Manlove's knitting cotton, No. 20, or either white or coloured wool.

Cast on 21 stitches on each of the two needles, and 29 stitches on the third; and for the top purl 1 and twist 1 for 30 rounds, always purling and twisting the same stitches as in the last round; then work for the leg in the following pattern, and the middle stitch, on the needle which contains the 29 stitches, is always purled as a guide to shape the leg, and the following pattern requires seven stitches for each pattern.

1st Round.—Knit 2 together, knit 1, make 1, knit 1, make 1, knit 1, knit 2 together, and repeat.

2nd Round.—Plain all but the seam-stitch, which is to be purled

3rd Round.—Knit 2 together, make 1, knit 3, make 1, knit 2 together, and repeat.

4th Round.—Plain all but the seam or purl-stitch.

5th Round.—Knit 1, make 1, knit 1, slip 1, knit 2 together, and pass the slip-stitch over; knit 1, make 1, knit 1, and repeat.

6th Round.—Plain as before.

7th Round.—Knit 2, make 1, slip 1, knit 2 together, and pass the slip-stitch over; make 1, knit 2, and repeat.

8th Round.—Plain as before; repeat these 8 rows for the length from knee to calf, and from calf to ankle, decreasing the stitches each side of the purl-stitch once every five rounds, by knitting 2 together before you come to the purl stitch; then purl the stitch, and knit 2 together again, for as many times as required to shape the calf, and then work the ankle; now divide the stitches, one half for the heel and the other half for the instep, allowing the purl-stitch to be the middle one for the heel; work the pattern for the instep and heel quite plain, always slipping the first stitch, and on two needles only one row must be knitted and the other row purled, excepting the purl-stitch, which is knitted in the purled row, and purled in the knitted row, for as many rows as the length required for the heel; in the last four rows knit 2 together on each side of the seam-stitch to form the round for the heel, then with the third needle slip the seam-stitch, and place the other two needles together, passing the third needle, with the one stitch on, first through the one stitch on the first needle, and then through the one stitch on the second needle, and knit the two together, then pass the seam-stitch over, so as to let only one stitch remain on the needle; repeat to the last stitch, pick up the loops round the heel, so as there are more stitches round the heel than across the instep, then work the pattern for the instep, and plain for the sole, shaping the instep by knitting 2 together before you begin the pattern, and after you have worked the pattern, every two rows, for about four times; work the other stitches straight, until you have worked sufficient to form the toe, which is to be worked quite plain, narrowing gradually each side of the instep, until there are but few stitches left to form a square toe; narrow off as in the heel, and fasten off, and this completes the sock.

*Pattern, No. 78.—FOR STOCKING.*

After you have worked the above number of rounds knit all plain except one stitch, which must be purled to form the seam for as many rounds as the length required to the calf, and on each side of the seam knit 2 together to form the calf, every five rounds, for six times, and you will have one stitch over the patterns, which must be narrowed off before commencing the following pattern for the leg, which you work from the calf to the heel for as many patterns as the length required for the leg:—

*Pattern, No. 124.—FOR POLKA.*

Walker's Needles, No. 10; and four-thread, super-fleecy, claret, and blue, or any two colours preferred that contrast well. I should advise the worker to first learn the pattern by casting on 12 stitches, and working about 12 rows of the pattern which is to form the centre, so as to make themselves quite perfect in the pattern; then, with the blue cast on 100 stitches for a child's size, and 300 for a lady's size. You can vary the size between the two numbers according to the size you may require for the centre.

1st Row.—Join on the claret, and slip 1 for the edge, then make 1, slip 1, knit 1, and repeat to the end, and knit the last one.

2nd Row.—Join on the blue, and slip 1 for the edge, then knit 1, knit 2 together, and repeat to the end.

3rd Row.—Join on the claret, slip 1 and knit 1 for the edge, then make 1, slip 1, knit 1, and repeat to the end.

4th Row.—Join on the blue, and slip 1 for the edge, then knit 2 together, knit 1, repeat to the end, and knit the last one. Repeat

from the 1st row until you are perfect in the pattern, then cast on the number required for the Polka, and work the four rows, then divide the stitches in four equal parts, and allow half the number for the back, and the two quarters for the two fronts. To shape the polka you narrow in the centre of each front quarter of every pattern, until you have worked sufficient to form the arm holes, and to form the arm holes you work the three parts separate, narrowing once every two patterns at the end, which forms the hole for the arm; and then work the length required for the arm hole; then narrow at the end which forms the shoulder, every row, so as to form the shoulder on each of the three parts, and bind off the remainder of the stitches to form the neck; join the two parts together, to form the shoulder, and then work—

#### THE SLEEVE.

Cast on 3 stitches, and work two rows; then cast on 2 at the end, so as to raise as many stitches as will form the length you require from the wrist to the shoulder; then work straight for the length you require to go round the arm; then narrow two stitches at the other side until you have only 3 stitches left, so as to correspond with the other side; bind off the three stitches, then work a sufficient of the following.

#### *Pattern, No. 125.—BORDER FOR POLKA.*

The same size needles was the Polka as worked with, and five shades of slate-four-thread, super-fleecy, with black to form a stripe in the centre between each shade; then, with the black, pick up all the loops of one half of the Polka from the centre of the back of the neck to the centre of the skirt, so as to work one half of the Polka at a time, being particular to have an even number of stitches on the needle; then work as follows:—

1st Row.—With the light or dark shade, (which is preferred) slip 1

for the edge, then make 1, slip 1, knit 1, and repeat to the end, and knit the last stitch.

2nd Row.—Join on the black, and knit 1 for the edge, then knit 1, and knit the two loops as one stitch, and repeat to the end, and knit the last stitch. These two rows form the pattern, and you work these two rows with the next shade and black until you have worked all the shades from light to dark, and from dark to light again, which your size polka requires for the width of the border, and bind off. Work the other side, and round the wrist, part of the sleeve the same; and round the bottom of the skirt work hook-chain trimming in shades. Join the sleeves and polka together, stitch buttons and loops down the front, which will complete the polka.

*Pattern, No. 126.—FOR MANTLE.*

Walker's Needles, No. 10; and four-thread, super fleecy, claret, green, or any colour preferred. Cast on 96 for a child's size, and 280 for a lady's size, or any even number of stitches between the two numbers, according to the size required, and the

1st Row.—Slip 1 for the edge, then make 1, slip 1, knit 1, and repeat to the end, and knit the last one.

2nd Row.—Knit 1 for the edge, then knit 1, knit the two loops together as one stitch, and repeat to the end, and knit the last one. These two rows form the pattern, and to shape the mantle you divide the stitches into four equal parts; allow two parts for the back, and the two quarters for the two fronts, narrowing as the size requires in the two quarters and the back, so as to form a seam up the hips, with the narrowing stitches, to the arm holes, and reducing the stitches quite even from the fronts and back. To form the arm holes you work the three parts separate, working the back quite straight and

the two fronts narrow; a few stitches on the side which forms the arm hole, and when you have worked the three parts the length required to form the arm hole, you then work the whole of the stitches to form the shoulders, narrowing 4 stitches at the top of the arm hole every pattern, until you have formed the shoulder part long enough. Bind off a few stitches on each side the front, and work the collar quite straight, and bind off, and work the border as Pattern No. 122, casting on as many more stitches as you require for the border as you did for the mantle; then work the width for the bottom. Bind off as many as you cast on for the mantle in the middle, and the stitches being quite equal for the two sides, work each front the length of the front of the mantle, and bind off, and join the border to the mantle, and then work the following trimming to go round the seam, which is run on the mantle after the sleeve is worked as follows:—

#### THE SLEEVE.

Cast on 4 stitches, and work the same pattern as before, casting on 2 stitches at one end of every pattern until you have the length for the sleeve; then work the width to go round the arm quite straight; either bind off two stitches every pattern, or narrow, which is preferred, on the other side, to correspond with the first, until you have only four stitches left, and finish the sleeve with Pattern No. 122, the same as the mantle; then work a sufficient of the following trimming to go round the seam of the sleeve, and round the seam where you join on the border to the mantle; stitch buttons and loops down the front, which will complete the mantle.

*Pattern, No. 127.—TRIMMING FOR MANTLE.*

THE  
ROYAL VICTORIA CROCHET BOOK.

HAVING furnished yourself with a large size Hook and coarse Cotton, you will require the first direction.

**I.—THE CHAIN, OR LOOP STITCH.**

First tie a loop in your cotton, then pass the hook through the loop, holding the loop between the left hand finger and thumb, allowing the cotton to go over the fore finger, and pass between the two middle fingers; you then hold the hook as you would a pen when writing, and bring the hook round the cotton, which is between the middle fingers, and pull it through the loop. You now have one loop on the needle, and one chain stitch; repeat for as many chain stitches as required; and to make the work useful, try Pattern No. I. This chain row is the foundation to all Crochet.

*Pattern, No. 1.—HOOK CHAIN TRIMMING.*

Make a chain as long as the article, to be trimmed with this trimming.

*1st Row.*—Turn back, chain 5, turn the chain up, which is at the bottom, and you will see a straight row of loops, pass the hook through one of these loops and work the hook round the cotton, bring the hook through the loop, and stitch together, chain 5, miss 2 loops; repeat to the end.

*2nd Row.*—Turn back, chain 5, pass the hook through one of the half-squares, work the hook round the cotton, and pull the hook through as before; chain 5; repeat to the end.

*3rd and 4th row* the same as 2nd row,—this is the number of rows in Illustration; but you can make this any width you require by repeating the last rows.

This trimming is useful in wool for trimming Polkas, and round the tops of Boots, also a variety of other articles in shades, as well as in plain colours.

## II.—TO MISS A STITCH.

Is by passing the hook in the second loop from the last one worked. To miss two, three, or more stitches, you count as many from the last one you worked, as required to be missed, and then place the hook in the loop, and work as directed.

## SINGLE OR PLAIN CROCHET

Is formed in three different stitches, viz., the front stitch, top stitch, and the back stitch.

III.—*The Front Stitch* is the bottom part of the stitch in the last round you worked; and to work it, you put your hook underneath the bottom part of the loop, and bring it out at the centre, this will show a clear loop on the hook, which is to be worked as directed.

IV.—*The Top Stitch*.—This stitch forms a straight row of loops at the top of the work, which you work as the directions may require.

V.—*The Back Stitch*.—After you have worked a row of crochet, and turn the work to go back, the front stitch will be at the back; and to work this stitch, you place the hook in the centre, and pass it through the loop, and work it.

## VI.—TO RAISE.

Work two stitches in one loop, or one stitch in the front, and one at the top.

## VII.—TO NARROW.

Take two stitches together, and work them as one.

*Pattern, No. 2.—FOR EDGING.*

Make a chain the length required.

*1st Row.*—Turn back and pass the hook in every loop to the end, and work it, which is called plain.

*2nd Row.*—Turn back and work: plain 1, chain 5, miss 2, plain 1; repeat to the end; fasten off by drawing the stitch quite tight, and cut it in the centre; pull the end, and you will find the other end quite secure from undoing.

*3rd Row.*—Commence at the other end and work: plain 1, chain 7, miss 5, plain 1; repeat to the end; fasten off as before.

*4th Row.*—Commence at the other end and work: plain 1, chain 9, miss 7, plain 1, chain 4, turn back and plain the four you chained, plain 1; repeat to the end.

### VIII.—DOUBLE CROCHET STITCH.

Having one stitch on the needle, you put the hook through the first loop and work the one loop first, then the second loop, which forms an open stitch.

#### *Pattern, No. 3.—FOR MUFFITEES.*

Six shades of Berlin Wool (any colour preferred), one skein of each shade, and six skeins of White

Make 30 chain stitches with the darkest shade, and attach them to form the round.

*1st Round.*—Work double crochet on the top stitch round.

*2nd Round.*—Join on the next darkest shade, and work the same as the last; repeat this round until you come to the lightest shade, then join on the white, and work the—

*7th Round.* The same as the 2nd.—*8th Round.* Pass the hook through the front and top stitch, and work these two stitches together in double crochet for ten rounds.

*19th Round.*—Join on the lightest shade, and work the same as last.—*20th Round.* The same as 2nd—You now work one round of each shade until you come to the darkest shade.

### IX.—TREBLE CROCHET STITCH.

Having one stitch on the needle, you pass the wool over the hook, and then pass the hook through the first loop; then pass the wool over the hook again and pull it through, which will make three stitches on the needle, as you see in the illustration. Pass the wool over the hook and draw it through one stitch, pass the wool over the needle and draw it through two stitches, pass the wool over again and draw it through two stitches, which leaves only one stitch on the needle as when you commenced.

In working these patterns you must be particular in which loop-stitch you work, as the bottom, top, and back stitches all give the work a different appearance.
