“Flowers, plants, and fishes, beasts, birds, flies, and bees,
Hills, dales, plaines, pastures, skies, seas, rivers, trees ;
There's nothing neare at hand or farthest sought,
But with the needle may be shap'd and wrought.”

John Taylor.

“The great variety of Needleworks which the ingenious women of other countries as well as of our own have invented, will furnish us with constant and amusing employment ; and though our labours may not equal a Mineron's or an Aylesbury's, yet, if they unbend the mind, by fixing its attention on the progress of any elegant or imitative art, they answer the purpose of domestic amusement ; and when the higher duties of our station do not call forth our exertions, we may feel the satisfaction of knowing that we are, at least, innocently employed.”

TO THE
LADIES OF THE UNITED KINGDOM.

IN ISSUING THIS THIRD EDITION of the "MANUAL OF KNITTING AND CROCHET," the Authoress embraces the opportunity to tender her grateful thanks to the Ladies of the United Kingdom for the extensive patronage they have been pleased to bestow on her humble efforts to elucidate the mysteries of the beautiful art; and she respectfully presumes, from the immense number that has been sold, namely—SIX THOUSAND copies, that it has now become an acknowledged authority in all matters pertaining to the work-table.

NEEDLEWORK.

DIRECTIONS

FOR WORKING

TENT STITCH

ON MEDIUM-SIZED CANVASS.

THE first and principle thing to be observed before commencing this work is to strain the canvass firmly and quite square in the frame, it being almost impossible to execute it well, if it is allowed to be loose; the work in that case will be uneven and *lumpy*, parts where many shades are crowded together being quite raised, standing out in bas relief from the surface, and having the appearance of blotches on what may otherwise be faultless; it is moreover apt to draw on one side, and unless mounted on woodwork, where it can be tightly strained, would have a distorted appearance, more especially if the piece is composed of figures.

Having prepared the canvass as directed, begin at the top, so that by working downwards you may

cover up the work as it proceeds ; it will thereby be secured from the dust that some wools retain in a great degree, which would inevitably soil the light tints and shades of white. Let all the stitches lay from left to right, taking care that they lie precisely the same way at the back. In beginning with every fresh piece of wool, put the needle through on the right side six or ten threads from the stitch you first made, leaving the knot in front, which must be cut off when the work has secured the end. Observe the same in finishing with a thread. If you are working on white silk canvass do not pass the wool through any part that will not be covered, as when it is lued it will appear soiled ; and be particular in fastening off, that the wool may not intersect the work at the back, thereby rendering the ground very indistinct. If the work is grounded in tent-stitch, begin at the farthest stitch on the right ; bringing the wool below the thread, and passing it upwards to the right, and so on to the end of the row, always finishing one row before another is begun.

CROSS STITCH.

This very useful stitch, from the facility with which it is executed by the tiny fingers of the little child to the trembling hand of declining age, assisted as it has been by the invention of

Penelope canvass, and being moreover easily accomplished on the hand without a frame, is deservedly the favourite of all; it is also more durable than tent-stitch, and stands unrivalled for all kinds of coarse work, as large ottomans, friendship carpets, hearth rugs, pede cloths, &c. In working, tie a knot in the end of the wool, pass it through the canvass six or eight threads from where you commence, then bring the needle up at (A), pass it down at (B), bring it up again at (C), and pass it down at (D); fasten off by bringing the end of the wool six or eight threads from the last stitch, and secure it with the work as you proceed. In grounding, begin at the farthest stitch to the right, crossing the canvass from (A) to (B) the whole length of the work, and return by crossing from (C) to (D).

CROSS STITCH ON CLOTH,

With the Threads of the Canvass withdrawn.

This is often done to avoid the tediousness of grounding, and when executed with skill has a rich and pleasing effect. The pattern should be composed of flowers, birds, or arabesque, alone or combined. Landscapes, quadrupeds, or the human figure, rarely look so well as when worked

on canvass only, it being impossible to withdraw the threads from a mass of close work; and when they are left in, it has a very stiff and harsh appearance.

The directions for working the stitch in nowise differ from cross-stitch on canvass. Care must be taken in working the stems of flowers, or single lines in any part, to put the needle *straight* through and not in a slanting direction, or the stitches will be very irregular, and when the work is mounted the cloth will shew between, which is a great defect.

In framing, choose your canvass 1 inch large than the exact size of the work, stretch it tightly and evenly in the frame, then tack the cloth smoothly and firmly underneath, the face of the cloth being towards the canvass, and the nap running towards the front edge of the work.

In working on a light cloth do not pass the wool through any part that will not be covered with the pattern.

GOBELIN,

OR TAPESTRY STITCH.

This very beautiful style of work, in imitation of the inimitable Gobelins, is not produced so often as we would wish, its great merit demanding for it a mere prominent position in the scale of Fancy

Needlework than it now occupies. When executed by an artistic hand it meets with universal approbation, but we presume that the care and skill required in its production has been the great bar to its universality.

It is worked by crossing two threads in height and one in breadth, working two stitches for every one in the Berlin patterns, but in working on a drawn pattern the needlewoman would exercise her own judgment in the arrangement of the shades, without regard to the number of stitches in the breadth, though in depth they must be perfectly regular.

It must not be attempted out of a frame, nor should it be worked on canvass coarser than twenty-five threads to the inch, or the threads will be exposed between the rows.

Short lengths of wool should be taken in the needle, which should be divested of all irregularities. The knots must be kept on the right side, and in a line with the stitch you are working. When well executed the back will be as even as the face, and present an appearance almost similar.

RAISED WORK.

This work is more light and elegant when worked on white silk canvass. If executed on cotton canvass and grounded, let all the cross stitch be

done first, the canvass very evenly and firmly stretched in a frame ; a piece of fine holland being tacked over the parts intended to be raised.

If the figure to be raised be a bird, and it counts eighty stiches or the like from the crown to the tip of the tail, cut that number of slips of card a $\frac{1}{4}$ or $\frac{3}{8}$ of an inch wide, taking care that they are quite long enough for the width of the bird ; begin with single German wool, by putting the needle from the under side, on the left of the first thread and two threads from the top ; then take 1 of your eard meshes in the left hand, hold it edgeways on the upper side of your wool, and pass the needle through on the right of the thread, in the same way that you would work the Gobelin stich ; this will secure your mesh in its place ; now continue the whole row the same way, working two stiches over the mesh for every *one* on the Berlin pattern, precisely the same way that the Gobelin stich is done. Now take the second mesh and work as before, and so on till the whole is finished, leaving all the meshes in the work ; apply a weak solution of gum arabie at the back, and when it is dry take a sharp penknife and release them all, by inserting the point at the end of every row and passing it quickly along the whole length ; then, with a pair of sharp-pointed seissars, reduce the edges and depths of the shadows, and smooth the surface generally.

Glass eyes must be inserted in all raised figures, as they cannot be executed effectively in wool.

Raised work is often done over a steel mesh with a sharp blade, which is attached to the end, when it is covered with stitches, and drawn through the whole, thereby cutting the work even as it proceeds. Each stitch is secured in the same way that urn rugs were formerly fringed, but this method is very tedious and unnecessary (unless it is performed on the hand), as, when the work is shorn, the wool expands, and its fibres so intermingle that there is not the least fear of its ever coming out, in fact it is rendered firmer than otherwise by use.

Patterns worked with embroidery chenile in the Gobelin tapestry stitch, are quite equal in effect to the *flat-raised* work, and have the merit of being more speedily executed.

“ All these are good, and these we must allow,
 And these are everywhere in practice now :
 And in this booke, there are of these some store,
 With many others neuer seen before.
 Here practice and invention may be free,
 And as a *squirrel* skips from tree to tree,
 So maids may (from their mistresse, or their mother)
 Learne to leaue one worke, and to learne another,
 For here they may make choyce of which is which,
 And skip from worke to worke, from stitch to stitch,
 Vntil, in time, delightful practice shall
 (With profit) make them perfect in them all.”

John Taylor.

THE TRUSTY SERVANT.

We here present our readers with a pattern of that interesting relic of antiquity affixed to the wall adjoining the kitchen of Winchester College, accompanied by the following verses :

A Trusty Servant's portrait would you see,
This emblematic figure well surbey.
The Porker's Snout—not nice in diet shew;
The Padlock Shut—no secrets he'll disclose;
Patient the Ass—his master's wrath will bear;
Swiftness in errand the Stag's Feet declare;
Loaded his Left Hand—apt to labour saith;
The Vest—his neatness; Open Hand—his faith;
Girt with his Sword, his Shield upon his arm—
Himsell and master he'll protect from harm.

NOTE.—We feel assured that wherever this memento of the past may meet the eye of the Wickhamist, or that of those who at any time have been connected with this ancient seat of learning; the sojourner who hath delighted in exploring the many nooks and corners of the

“White city of old time,”*

in search of antiquarian lore;—or the tourist, who, amid

* Winchester was named by the Romans *Caeſer Gwent*, or the White City.

This figure should be worked in tent-stitch on fine claret, or white, silk canvass, or on fine pene-lope canvass in cross-stitch; selecting the colours as follows:—for the head and legs, three shades of drab; for the coat, four shades of blue; for the cuffs and lappets of coat, two shades of carmine; shield and prong, three shades of steel colour; shirt sleeves and neckcloth, two shades of white; hands, three shades of flesh colour; the belt, a dingy brown, two shades; the broom, two dark shades of brown; shovel, three shades of fawn; snout, sword-sheath, feet, and eye, black silk, with one stitch of white silk on each side of the eye; the tongue, red, crossed two or three times with white silk to represent teeth; the lock, buttons, button-holes, and sword-hilt, gold coloured silk, or fine gold twist; for the motto, three shades of white with a crimson edge, the letters being worked over

the host of monuments and relics of days long since passed away, has gazed with astonishment at this singularly quaint composition;—we feel assured, we say, that to all such, our pattern of the “Old Trusty,” as it is familiarly called, when executed by the skilful embroideress according to the directions we have laid down, will be hailed with much pleasure.

For those who may wish for a more elaborate pattern, we have one, published by ourselves, in Berlin, beautifully executed and splendidly coloured, accompanied by the arms of the College, counting 240 stitches in height by 172 in width, which will be sent free, by post, to any part of the United Kingdom, on receipt of a post-office order for 7s.; or, with the necessary wools, 10s.

the stitches with black silk ; and for the ground, three shades of green.

The darker markings of the pattern represent the position of the darkest shades, and the lighter etchings that of the lightest.

The wools and silks for this figure would be sent free by post on receipt of *2s. 6d.*, or with the silk canvass and gold twist *6s.*

## A VERY PRETTY

## POINT PATTERN,

## ADAPTED FOR SQUARE SHAWLS,

*In double Berlin Wool or Fleecy, and in Strutt's Knitting Cotton, for Tidys, &c.*

For a square shawl, cast 200 stitches on pins No. 6. 1st row plain; 2nd kt 1 stitch, (B) wool forward, kt 2 in 1, kt 3 plain, repeat from (B) to the end of row; 3rd row plain; 4th row kt 2 stitches, and repeat as from (B) to (B); 5th row, plain; 6th row kt 3 stitches, and repeat as before; 7th row plain; 8th row kt 4 stitches, and repeat as before: 9th row plain; 10th row kt 5 stitches, and repeat as before; 11th row plain; 12th row kt 6 stitches, and repeat as before; 13th and 14th rows plain; this has the effect of turning the pattern; now kt the next 11 rows precisely as the above; ktg the 26th and 27th plain; and repeat the pattern till the shawl is square.

## A GOOD STITCH

## FOR THE BORDERS OF SHAWLS, ETC.

The centre being executed in some fancy stitch, it is especially adapted for the foregoing pattern, the centre being all white, and the border in five shades of scarlet, blue, or any other colour that may be desired.

Having knit the centre, do not cast it off, but see that you have an odd number on your pin; join on the lightest blue, wool forward kt 1, (this increases one stitch) (A) wool forward, take off 1, kt two plain, pull the 1st that was taken off over the two last; repeat from (A) to the end of row; a stitch will be required at the end to complete the pattern; wool forward, take off 1, kt the next, kt another at the back of the last, and pull the 1 that was taken off over the 2 last; every alternate row is purled.—To increase on the purled rows, wind the wool twice round the pin and make 1 before you kt the 1st stitch.

Join on the wool at the beginning of the purled rows—kt 2 rows of each of the 4 light and 4 of the darkest—reversing them; take up the stitches on the other 3 sides and kt to correspond with the above, observing that 2 borders face one way and 2 the other, that they may be all on the right side when the shawl is folded.

---

#### A good fringe for the preceding Shawl.

Cast 8 stitches with white wool on No. 8 pins: 1st row, plain; 2nd row, 2 plain, wool forward, kt 2 in 1, take 2 pieces of coloured wool, about 8 inches long, double them evenly, and loop them over the pin you are ktg with; wool forward kt 1, pass the coloured lengths of wool back between the pins, kt 2, bring the coloured lengths forward,

and kt the last stitch. Next row, plain ktg; pull the coloured wool down in its place before you kt in the next.

For the Point Pattern Shawl, take the shades of which the border is composed, and kt about 8 rows of each, shading from dark to light, and reversing them.

This fringe is suited for crotchet table covers, bed-furniture, or anti-maccassars in cotton with finer pins, and in fact for any purpose to which such trimming may be applied, cutting the loops longer or shorter according to fancy.

### Handsome Purse,

*In fine scarlet Purse Silk, and finest Gold Twist.*

Cast 140 stitches on No. 19 pins.

First row, (A) silk forward, kt 2 in 1; 2nd row, plain; 3rd row, purled; 4th row, cut off the material and join it on the other end, repeat from (A); continue; cutting off the material at the end of every purled row, and join it on the other.

Kt 7 patterns of silk and 5 of gold alternately, till you have 4 stripes of each;—leaving about 3 inches for the opening, draw up the ends, and add slides and tassels to match.

Any 2 colours may be chosen in lieu of the gold; Albert blue and cerise, scarlet and green,

pink and fawn, drab and blue, with lavender and black for mourning, all look well.

### A Purse, resembling *Setting*.

*Coarse Purse Silk—Pins No. 15.*

For the width cast on 47 stitches, 1st row silk forward, slip 1, kt 1, pull the slipped 1 over the last; repeat. Every row is alike.

Knit about 10 inches, and cast off, fold it lengthwise, sew it up, leaving about 3 inches for the opening, draw up the ends and add tassels and slides.

To work gold or steel beads in this pattern, take No. 6 beads, and having threaded them on the silk, kt 4 rows without them: next row, silk forward, slip 1, kt 1, pull the slipped 1 over the last, pass down 3 beads, (A) silk forward, slip 1, kt 1, pull the slipped 1 over the last, silk forward, slip 1, kt 1, pull the slipped 1 over the last, pass down 3 beads; repeat from (A); next row, pass down the beads on the corresponding stitch to the last row; next row, pass them down on the intermediate stitch, and continue bringing each 2 pair of beads between the last; on the part for the opening pass down 1 bead only, which will allow of the slides running freely.

This purse is exceedingly rich in scarlet, with gold beads; Albert blue and maroon with steel,

and for a wedding present in cerise on pale blue and silver, with appropriate fittings, it is most recherché.

### A Baby's Shoe.

*Three-ply Fleecy—No. 13 Pins.*

This is a rather small cap ; it may be enlarged

by easting on an extra number of stitches, allowing 3 for every rib, and ktg 1 or 2 more conical stripes, increasing the band in proportion.

For those who prefer more sober colours, claret and blue, with the gold and white divisions, or claret, with scarlet and black divisions, looks remarkably well.

This is a pretty cap for children, in the bright colours; and lined with the oiled silk, is very durable.

The quantity of wool required is 4 skeins each of scarlet, green, and blue, 2 of claret, 8 of yellow, and 4 of white.

Knitted with chenille, with a gold cord and small tassels round the band, and gold tassel on the top, it is truly splendid.

EXPLANATION

OF THE

TERMS USED IN KNITTING.

To fasten on with wool in plain ktg—it is the best way to lay the 2 ends contrarywise, and kt a few stitches with both together; but with silk or any less elastic material (when ktg a fancy pattern) a weaver's knot is more secure.

To decrease—is to kt 2 stitches as one.

To increase—in plain ktg, is to make a stitch by ktg 1 in the usual way, then, without taking it off the pin, kt another from the back.

To cast off—kt 2 stitches, pass the first over the second.

A turn—means 2 rows.

To slip a stitch—is to pass it from one needle to another without ktg it.

Purl stitch, seam stitch, or rib stitch—are terms signifying the same, namely: to pass the material before the pin, and put the pin *under* instead of *over* the upper thread.

Thread forward—is to bring it between the pins, towards you.

To take under—is to pass the right-hand pin

through the stitch on the left-hand one, still keeping the same side of the stitch towards you.

A plain row—simple ktg.

To increase—in a fancy stitch, is bringing the wool forward.

Thread twice round the pin—same as thread forward twice.

Let 1 off—is to drop one of the stitches that you have made in a former row by putting the thread twice round the pin.

CROCHET.

THE elementary stitch of this fascinating accomplishment being now so generally known, and withal so universally practised, we have not thought it necessary to go into minute details of its formation; seeing, also, that the novice might, by five minutes' exercise with any one possessing a knowledge of its mysteries, obtain more real information than from the most elaborately written description.

A very pretty Bag,
Fawn and Pink Chenille.

Make a chain of 74 stitches in fawn ; work two rows of double crochet. Tie on pink. Make 1 long stitch and 1 chain stitch to the end of the row.* Next 2 rows of double crochet in fawn, and continue as above. Working 5 stripes of pink and 6 of fawn.

Fold it, and sew up the sides, lining it with silk. Add rings, tassels, and cord to match.

3 skeins pink and 3 of fawn are required.

NOTE.—A chain, or foundation, is formed by making 1 loop in another successively. Fasten off, by drawing the thread through the last loop, instead of making a stitch.

Long stitch is made by bringing the thread round the crochet. Draw it through a loop of the chain. You have now 3 loops on the crochet. Draw the thread through 2 of them. You have now 2 loops. Draw the thread through those 2. You have now (B) 1 on the crochet. To continue long stitches successively, pass the thread round the crochet, and take the next loop of the chain, and repeat as above.

But for open crochet, draw another loop through the one marked (B). Pass the wool round the crochet, and take the second loop of the chain.

Double, or treble open, is formed by making two or three long stitches together, and missing

* This is single open crochet.

two or three loops of the chain successively, always making the chain stitches between, before you take up the chain stitch of the foundation.

Very rich Assyrian Bag,

In Extra Coarse Purse Twist.

Make a chain of 6 stitches. Join the ends, and work 6 rows in black. (Increasing in every stitch of the 1st and 2nd rows, by working 2 stitches in 1 loop. 3rd and 4th rows, increase in every other stitch. 5th row, in every 3rd. And so on sufficiently to keep it quite flat.) 1 row in rich amber, 1 light emerald green, 1 Albert blue, 1 deep crimson. Now continue; working 1 stitch amber and 1 stitch crimson, alternately (always bringing the amber stitch over the crimson, and vice versa), till it is 4 inches in diameter. Work 1 row black, 1 row white; increasing in each row. This finishes the bottom.

Work, without increasing, as follows:—

1 row crimson, 3 black, 1 crimson, 1 green, 1 amber, 1 black, 1 white. Next row: 1 stitch crimson and 1 blue, alternately. 9 rows blue. Next row: 1 crimson and 1 blue stitch, alternately. 1 row crimson, 1 white, 1 black, 1 amber, 1 green, 1 crimson, 3 black, 1 crimson, 1 white, 1 black. 8 rows with 1 stitch of amber and 1 crimson, alternately. 1 row black, 1 white,

1 crimson. 2 open rows green (to pass the cord through), 1 crimson. 6 rows crimson and white. 1 stitch of each alternately. 1 row crimson, 1 black.

The tassel for the bottom of this bag should be composed of a button $1\frac{1}{4}$ inch in diameter, Albert blue netted with crimson, an amber netted ball affixed, with a full coat of sewing-silk $3\frac{1}{2}$ inches long, composed of all the colours of the bag.

Line it with silk, and draw with cord to match the tassel.

A very pretty Evening Bag,

For which 6 skeins shaded Crochet Silk, and 2 reels Gold Twist, are required.

Make a chain of 84 stitches. Join it, and work (B) 11 rows plain double crochet.* 1 row of the same stitch, and 2 rows single open with gold. Repeat from (B). Working 3 broad bands in shaded silk, with 2 divisions of open crochet in gold.

Crochet up the bottom. Add a small gold tassel to each corner. Line with silk. Trim with narrow gold fringe to the top. Handles and slides to match.

* Having made the chain, keep 1 loop on the crochet, pass the crochet through the next loop of the chain. You have now 2 loops on the crochet. Catch the silk again and draw it through these 2. This is the ordinary crochet stitch.

A very beautiful round Bag,
In shaded Silk, with Gold Twist.

Make a chain of 6 stitches in shaded blue silk. Join it, and work round. Increasing each row sufficiently to keep the work quite flat, till it is 4 inches in diameter (c). Work 2 rows in white, without increasing. Work 2 rows with 2 stitches of gold and 2 pink alternately; bringing the 2 pink stitches over the 2 gold. 2 rows white. 10 rows of blue. And repeat from (c). Working 2 broad bands of blue; and 3 dividing bands of the pink, gold, and white. On the 3rd dividing band, work two rows of double open crochet, for the cord to pass through; and 3 rows of shaded blue.

Add one large gold tassel at the bottom, and two smaller at the top. Draw it with gold cord.

Handsome Fan Border, or Edging for Counter-
panes, Tidy's, &c.

Make a chain the length required.

2nd row. Work a long stitch in every loop.

3rd row. Work 1 long stitch. Make 3 chain stitches, leaving 3 loops of the 2nd row. In the 4th loop, work 1 long stitch. Repeat thus to end of row.

4th row. Make 5 long stitches: 2 in the 1st, 2 in the 2nd, and 1 in the 3rd loop (B). Make

9 chain stitches ; now 1 long stitch ; uniting it to the 10th loop of the 3rd row. 9 chain stitches. Now 5 long stitches ; 2 in the 10th and 11th from the last, and 1 in the 12th loop. Repeat from (B) to the end.

5th row. Make (c) 5 long stitches over the 5 in the last row ; making 1 chain stitch between each. Now 8 chain stitches and 1 long stitch over the one in the last row. Repeat from (c) to end.

6th row. 5 long stitches over the 5 last ; 2 chain stitches between each ; now 8 chain stitches and 1 long stitch over the last 8 chain stitches ; and repeat to end of row.

7th row. 5 long stitches over the 5 last ; 2 chain stitches between each. Now 3 chain stitches and 1 long stitch, 1 chain stitch, 1 long stitch, 3 chain stitches. Repeat to end of row.

Lastly, work the laurel pattern in gold, as from 2nd to 7th row; and finish with 3 plain rows of black. Crochet up the bot-

tom; line it with satin, and trim it with gold and silk cord, with tassels and slides to match.

This is an exceedingly rich pattern for a sofa-pillow; or worked in stripes, and crocheted together, for a counterpane.

Polka Jacket.

In ribbed crochet—For a young lady from 12 to 15 years of age.*

This is a very superior article. The form is excellent, and far surpasses the knitted jacket. It can be executed either in 4-ply fleecy or double Berlin wool; using a rich dark colour for the body and sleeves; with white, for collar, cuffs, and border.

* Ribbed crochet is made by working backwards and forwards, always taking the *under* instead of the *upper* loop of the chain.

Make a chain of 114 stitches (say claret, double Berlin wool) very loose.* Work 1 rib.

3rd row. (*) Work 20 stitches, and return.

5th row. Work the whole length, and back; (*) taking the loop at the end of the short rib, the loop of the 2nd rib, working it with the stitch on the crochet, as one. (This is to prevent a hole at the termination of the short rib.) Repeat from (*) to (*) five more times. Work 20 stitches and return. Now work the whole length, and at the other end (which you will perceive is for the front) work 2 short ribs of 20 stitches each. Now work the whole length, taking (as you pass) the 2 loops at the ends of the 2 short ribs and the loop of the long row, working it with the stitch on your crochet as one. On arriving at the other end (which is for the back) work a short rib of 20 stitches. Now work a long rib, observing the same in passing the terminations of the short rib, as before. Work another short rib, and one more long rib.

Now work a rib 25 stitches short of each end; work another rib 28 stitches short of each end; and one more rib 31 stitches short of each end. This last rib must be 52 stitches long.† Fasten off.

* In all cases where crochet work has to be joined, it is better to make the chain with a hook a full size larger than that the piece is executed with, or the edge will not be so elastic as the rest of the work.

† The first and last stitches of the 3 last ribs should be worked in single chain stitch, so as to graduate the ends.

Fold it endwise, and crochet it up on the uneven edges, from the bottom; leaving 32 stitches for the arm-hole.

You will now be able to see the form it will assume.

Crochet another side to correspond, and unite them at the back by crocheting them together for 49 loops from the bottom. At the termination of the 49 loops, crochet in a small gusset for the back of the neck, by beginning on 1 stitch, and working backwards and forwards for 6 rows.

For the sleeve (claret), make a chain of 33 stitches, crochet 24 ribs, decreasing 1 stitch every 4th rib; fold it lengthwise, and crochet it up. Unite it to the body in such a manner that the ribs may be uniform.

For the cuff (white), make a chain of 27 stitches; work 6 rows in long stitch; fasten off. Unite the ends, and sew it to the end of the sleeve, turning it up over the claret.

For the border (white), make a chain of 220 stitches.

1st row. Work 39 long stitches; in the 40th loop work 5 long stitches. (This great increase, you will see, forms quite an angle, which is for the corner.) Work 140 long stitches; work 5 long stitches in the next loop; work long stitch to the end of the row, which should be 39 stitches; crochet 5 more rows, working a long stitch in every loop, except the angle one, in which work 5 long stitches as in first row.

For the collar (white), make a chain of 43 stitches. Work a long stitch in every loop.

2nd row. Increase by working 2 long stitches in every alternate loop.

Work 4 more rows without increasing, except on each end, where there should be an extra stitch on every alternate row.

Sew it to the neck part, the wrong side outwards, that it may lie right when it is folded back.

Sew on the border the right side outwards, and unite the ends to the ends of the collar.

Small black tufts may be looped into the collar, cuffs, and border, if required.

Add a cord and tassels to the neck and waist.

One great advantage attendant on the manner in which this dress is made is, that the border, collar, and cuffs, may be taken off and washed,* when necessary, without wetting the other part.

* On the subject of washing, it may be as well to observe, that all knitted and crochet articles, executed in wool, should be washed in a lather of *warm* (not boiling) water and soap, very lightly rubbed; and rinsed twice in *warm* water, to free it entirely from the soap. The moisture must be pressed out without wringing, and afterwards, as much as possible, between cloths. It should then be laid in the sun or before the fire to dry. Shawls and other flat articles should be pinned out into their proper form during the process of drying; for, if hung up, they fall out of shape, which will be found difficult to rectify afterwards.

A Bustle.

In ribbed crochet—6-ply super Fleecy, of which 6 ounces are required.

Make a chain of 50 stitches. Work 1 row in double crochet. Next row, a long stitch in every loop. Work 2 more rows of double crochet. Now work 1 row of Russian, or ribbed crochet; making 2 stitches in every loop. Work 1 more row of Russian crochet, without increasing. Now another row, increasing in every loop. Now work without increasing, till you have 12 ribs.

This completes the deepest frill.

Now work a chain on the first of the 2 rows of double crochet; and work 1 row of Russian crochet on it; increasing 1 stitch in every loop.

Now work 4 ribs without increasing.

Run a ribbon through the row of holes on the top.

A very rich Triangular Shawl.

In Russian, or ribbed, crochet—Worked in bright scarlet, Albert blue, black and white, 4-ply Fleecy, or double Berlin wool.

Make 1 chain stitch, and work backwards and forwards; increasing on one side only, every rib, by working 2 stitches in the last loop but one, and 2 stitches in the first loop on returning. Increase in this way throughout the shawl.

Work 12 ribs of black, 1 rib of bright scarlet ; joining the wool on the *straight* side as follows :

At the straight side, in order to keep the work quite even, it is necessary (in all straight crochet), after working the last stitch, to make an *extra* loop before you begin the next row. Now, instead of working this loop with the black wool, cut it off within 2 inches of the last stitch, lay the end along on the edge of the chain, and place 2 inches of scarlet by the side of it. Now pass the crochet through the last loop of the black, and make the *extra* loop with the scarlet. (This will prevent the having an odd stitch of black at the end of the scarlet row.) Now proceed, securing the ends of the black and scarlet by working over them.

Work 1 rib of white, 2 ribs of Albert blue, 1 rib of white, 1 rib of bright scarlet, 2 ribs of black ; repeat the tri-coloured stripe, and now 12 ribs of black ; then repeat from the 1st tri-coloured stripe.

Continue in this way till the last rib is one yard and three quarters in length.

Work a chain of scarlet along the inner edge.

For the Fringe.

Make a chain with black the proper length, crochet a long stitch into every loop, then cut some wool the colours of the shawl in lengths of 8 inches : pass the crochet through both loops of the chain, double 1 of the lengths, hang it on the

hook and draw it through the loops ; now pass the ends of the wool through this loop and draw it down tight. Proceed in this way to the end, putting one length into every 2 loops ; arranging the colours in accordance with the stripes of the shawl.

Another Shawl,

In the same stitch as the last—Double Berlin wool.

Crochet 9 ribs of black, increasing on 1 edge as before directed. (A) 1 rib bright gold colour, 2 ribs shaded green, 1 rib shaded scarlet, 2 ribs shaded green, 1 rib bright gold colour, 9 ribs black, and repeat from (A) till it is large enough. Add a fringe as for the last.

These shawls are very handsome, and are besides most comfortable wrappers. Being elastic they adhere to the form, and their substance renders them an excellent defence in walking or travelling in severe weather.

A Baby's Coverlet.

Pink and white double Berlin wool.

Make a chain 30 inches in length. Work backwards and forwards in double crochet, till you have 30 rows, taking care to keep the ends quite straight by making an extra loop at the end of each row, before beginning the next.

Now take a pretty pink, and work 6 rows all round; working 3 stitches in each of the corner loops every row.

Work 6 more rows of white, still increasing by working the 3 stitches in the corner loops.

Work 6 more rows of pink, still increasing.

Now work 8 rows of open crochet, making 2 stitches in the corner loops and 2 in the loop on each side of them.

A Briche, or Moorish Cushion.

For which take 6 shades each of green, scarlet and stone colour, with black, and yellow chiné, double Berlin wool, or 4-ply super fleecy.

Make a chain of 14 inches in length, counting 60 stitches.

1st and 2nd rows. Black.

3rd and 4th rows. Yellow chiné.

5th and 6th rows. Black.

7th row. Work 10 stitches with the darkest shade, working a single loop through the last in lieu of a double stitch. (This graduates the termination, and must be observed at the end of every short row). Cut off the wool, and run the end in at the back.

8th row. Work 20 stitches of the 5th shade.

9th row. Work 30 stitches of the 4th shade.

10th row. Work 40 stitches of the 3rd shade.

11th row. Work 50 stitches of the 2nd shade.

12th row. Work the whole 60 stitches with the lightest shade.

13th row. Work 50 stitches with the 2nd shade.

14th row. Work 40 stitches with the 3rd shade.

15th row. Work 30 stitches with the 4th shade.

16th row. Work 20 stitches with the 5th shade.

17th row. Work 10 stitches with the darkest shade. This completes one conical stripe with the division.

Now repeat from the commencement; working 15 conical stripes, with the chiné and black division.

A Bead-chain.

For which 4 skeins fine purse silk and 6 bunches of the finest cut jet beads are required.

Make a chain of 7 stitches. Unite the ends; work round, passing one bead on every stitch as you proceed.

Make it one and a half yard long, and fasten it with a jet snap.

A pretty variation may be made by working two rows of gold beads, six rows of steel, and two more rows of gold, every four or five inches.

A Lady's Carriage or Travelling Cap.

This is a very comfortable cap, and is also easily executed. It is worked in single open crochet, the stitches being worked into the holes, over the chain stitch, instead of the loops of the chain.

The frills round the front and horseshoe, with the rosettes on each side, are netted in the shades with which the cap is worked, and sewn on.

The cap itself is worked in seven shades of fine Berlin wool. Either pink or blue is pretty, but the most comfortable looking colour is yellow or hair brown, with white for the lightest shade.

If the latter is chosen, take the darkest shade and make a chain of 114 stitches, measuring eighteen inches in length.

1st row. Work to the end of the chain in long stitch, with a chain stitch between each, taking every alternate loop.

2nd row. With the next shade. Work a long stitch into every hole, with a chain stitch between each; and increase, by working 2 long stitches in the first and last hole.

3rd row. With the next shade. Work the same as the last, without increasing.

4th row. With the 4th shade. Same as the last, without increasing.

5th row. With the 5th shade. Same as the last without increasing.

6th row. With the lightest shade. Decreasing 1 stitch at each end.

7th row. With the white. Decreasing 1 stitch at each end.

8th row. Tie on the darkest shade, and continue for 8 more rows, arranging the shades the same as the first 6 rows, and decreasing one stitch on each edge of every row.

Now work 6 rows without decreasing; but you will find it necessary to work 2 long stitches in the first and last hole of every alternate row, in order to keep the ends quite straight.

For the horseshoe, make a chain with the darkest shade of 30 stitches, measuring $4\frac{1}{2}$ inches in length.

Work 14 rows; arranging the shades as for the front part, taking care to keep the edges quite straight. Work 7 more rows; decreasing 1 stitch on each side of every row.

The front part and the horseshoe is now finished. Sew the latter into the front, gathering it up at the bottom.

Now work a row of open crochet all along the bottom.

The front of this cap is trimmed with 3 frills, netted with the 3 lightest shades, and edged with white.

The first frill is put on at the extreme edge, and goes quite round, being very full at the ears.

The second is placed about an inch back, and is also sewn all round, being full at the ears.

The third is placed an inch behind the second, but is put across the front only, being quite full at

the ends and terminating in a netted rosette of the shades.

A short frill is also put round the edge of the horseshoe, and laid over towards the front.

For these frills take one round mesh No. 9, and a flat one half an inch in width. For each of the long ones, cast 200 stitches on the fine mesh, and net 6 rows. Take the wide mesh, and work 4 stitches into every alternate loop.

Now take the fine mesh, work a row of the lightest shade, and finish with a row of white.

For the short frill, cast on 80 stitches, and net to correspond with the former.

For the frill round the horseshoe, cast on 50 stitches, and work 4 rows with the fine mesh. Take the lightest shade and work one row with the wide mesh, and finish with a row of white with the fine mesh.

A very pretty Square Shawl.

This shawl is worked in single open crochet, with fine Berlin wool, in twelve shades, from white to black, commencing with the darkest, and working one row of each, arranging them from the dark to light, and reversing the order.

Make a chain one yard and three quarters in length.

1st row. Tie the wool on the 1st loop of the chain. Make 3 chain stitches. Now make 1

long stitch in the 1st hole. (The working 3 chain stitches on the 1st loop must be observed at the beginning of every row in the execution of single open crochet, or the work will be drawn into a point; these chain stitches admitting of its extension as each row is added). (A) Work 1 chain stitch, work another long stitch in the next hole. Repeat from (A) to the end of the row.

Every row is alike, but care must be taken to work 2 long stitches in the first and last hole of every alternate row.

Continue till it is square; then kt the fringe page 19, in the same shades as the centre, and sew round it.

Warm Slippers.

In ribbed crochet—Four shades of a colour and black fine Berlin wool for a lady, and double Berlin wool for a gentleman.

These are very comfortable slippers, suitable either for the morning undress or to wear over the shoes. If they are intended for the former, they should be made up by the shoemaker in the usual way; but if the latter, a thick sole must be worked in black, as receipt will explain.

Procure a shape in paper to fit the person for whom the slippers are intended. Make a chain of 9 stitches (with black), which should be long enough for the width of the toe.

1st row. Work in double crochet.

2nd row. Work in ribbed crochet, and increase by working 3 stitches in the centre loop.

3rd row. Tie on the darkest shade and work without increasing.

4th row. Increase as before, 3 stitches in the centre loop.

5th row. Tie on the next shade, and work without increasing.

6th row. Increase as before, in the centre loop.

7th row. Tie on the next shade and work without increasing.

8th row. Increase as before, in the centre loop.

9th row. Tie on the lightest shade, and work without increasing.

10th row. Increase as before, in the centre loop.

11th row. Tie on black, and repeat as before, increasing in the centre loop every alternate row.

When you have worked the front, crochet on one side the width of the hind part, and work it the whole length, arranging the shades as from the commencement. When it is long enough, crochet it to the other side of the front.

Cut out the shape of the sole in paper, and work with black 6-ply super fleecy as follows:

Make a chain for the toe the proper width. Work backwards and forwards, taking both loops of the chain, and increase or decrease according to the shape, by missing the chain stitch at the edge, or by making a stitch.

Sew the sole neatly and strongly to the upper part, turn down the point in front, and trim round the top with a fringe or fur.

An elegant Slipper for a Lady.

This very beautiful slipper is worked in plain double crochet backwards and forwards, with extra coarse purse twist, of which 2 skeins of black, 2 white, 2 bright scarlet, 2 deep blue, and 2 of gold colour, are required.

Work according to the following receipt :

Procure the shape to fit the person for whom it is intended. Make a chain for the toe in blue. Work 3 turns ; increase by working 3 stitches in the centre loop of the row, every turn, which must be observed throughout the front. This will give the work its proper form ; but should it not assume the exact shape of the pattern you are working to, an extra stitch may be added at the end of every row as required.

Now work 1 turn of black.

1 turn of gold colour.

3 turns of white.

1 turn of black.

1 turn of gold colour.

1 turn of black.

3 turns of scarlet.

1 turn of black.

1 turn of gold colour.

1 turn of black.

3 turns of blue.

This completes the front.

Now work 28 stitches of black, and return.

Repeat the pattern on these 28 stitches for the hind part, keeping the edges quite straight the whole length. When it is long enough, crochet it to the other side of the front.

These slippers must be made up by a shoemaker: they should be lined inside with silk, and flannel placed between the silk and the work; the whole being neatly quilted. Trim the top with fur or swansdown.

A Brioché,

In ribbed crochet—With fine Berlin wool.

This Turkish cushion is decidedly the best hitherto devised, possessing more durability than either of its predecessors, and for neatness and elegance of finish needs no comment.

It is composed of 15 conical stripes, with amber and black divisions.

Any 3 colours may be selected for the conical stripes, working each 5 times; or 5 colours, as the following:

Yellow, blue, scarlet, green, and lilac; working each colour 3 times.

Work according to the following receipt:

Make a chain of 120 stitches, in black, measuring $13\frac{1}{2}$ inches in length.

1st row. Double crochet; now work 1 rib, (A) 2 ribs amber, 1 rib black. Tie on the colour for the conical stripe, and work 20 stitches and back. Next rib, work 40 stitches and back. Next rib, work 60 stitches and back. Next rib, work 80 stitches and back. Next rib, work 100 stitches and back. Now work the whole length and back. Next rib, work 100 stitches and back. Next rib, work 80 stitches and back. Next rib, work 60 stitches and back. Next rib, work 40 stitches and back. Next rib, work 20 stitches and back. This completes the conical stripe.

Now tie on black. Work the whole length and back. And repeat from (A).

NOTE.—In working the last stitch of the short ribs, after drawing the wool through the loop of the chain, draw it through the loop already on the crochet instead of finishing the stitch. Then make 1 chain stitch at the end. This graduates the termination of a rib. In working past the end of a rib, take the last loop of that rib and the loop of the chain, and work it as one.

A Huff.

*In imitation of Sable or Chinchilli—Double Berlin wool—
1 skein each of 5 shades and black is required.*

Make a chain (with the lightest shade) of 80

stitches, measuring 20 inches in length; work 3 rows. 2 rows of the next shade. 2 of the next. 2 of the next. 2 of the darkest, and 4 of black. Now 2 of the darkest, and reverse the shade to the lightest, of which work 3 rows. Then reverse them to the black, of which work 3 rows. Now reverse them to the lightest again.

Make it up as directed for knitting muff, page 36.

A pretty Muffatec for a Lady.

Fine shaded Berlin wool, or 3 shades of a colour, placing the darkest in the centre.

Make a chain to encircle the wrist.

1st row. Double crochet (A).

2nd row. Single open crochet.

3rd row. Double crochet. Repeat from* (A) till you have 5 open rows.

For an edging to one end, work a double crochet stitch; then (B) 5 chain stitches; a double crochet stitch into the 4th loop from the last, and repeat from (B).

For the other end, work as the last, and work a double crochet stitch into the centre stitch of the 5 chain; then 5 chain stitches; and repeat.

Run a narrow satin ribbon in the second row of holes from each edge, to tie it by.

HINTS ON CROCHET.

In working with two or more colours in the same row.—In order to bring the stitches quite square, suppose a row is described as 2 white and 2 black alternately to the end. Work 1 stitch white. (A) Pass the crochet through the next loop of the chain. Draw the wool through. You have now 2 loops. Draw the black through those 2. You will now perceive that the 2 white stitches are finished. Work 1 white stitch, and repeat from (A).

Fasten off.—In working sofa-pillows, shawls, &c., make the chain, and cut off the wool at the end, leaving about 2 inches. In working the next row, when you arrive within 2 inches of the end, lay this short piece along the edge of the chain, and work over it. Proceed in like manner every row.

In working the Brioche, do not work in the ends at the points of the conical stripes, but merely draw them through, and leave them to be secured when the work is mounted; or it will be rendered too thick to make up neatly.

Carrying on the thread.—Where two colours are employed in the same row, lay the one you are not working with along the top of the chain, and work over it with the other. But where more than two

colours are used, it is best to cut off the material after having worked the pattern, and run in the ends with a needle.

Keeping the edges even.—This is a most important rule to be observed. At the beginning and end of double crochet make 1 chain stitch; and in open crochet make 2 chain stitches.

By the omission of these edge stitches the work intended to be square will be drawn aslant.

Making the chain.—In most cases—as for a purse, a square bag, a sofa-cushion, &c.—it is necessary to work the chain very loose, or the end on which you begin will be *drawn*, and will not yield to the elasticity of the other parts. In working the Polka or Yachting Jacket, this is most essential, as it is united up the back; and unless the seam is elastic it cannot fit well.

The crochet.—In all coarse work, and even with silk, where it is practicable, an ivory hook is the most desirable. It is so light in the hand, and becomes, in use, so glassy smooth, that it greatly facilitates the operation. But for fine purse silk, or cotton, a steel hook, or a tambour needle in a screw handle, can only be employed, as possessing greater strength than the former. The manufacture of them is also much improved: by being made less sharp than formerly, they do not catch or split the material.

JAVA CANVASS.

Since writing the first portion of this little book a new invention, bearing the above title, has been introduced to our notice, the which is calculated effectually to supersede the least interesting operation in the whole round of fancy needlework, namely, that of grounding.

By those who dislike the tediousness of filling up large pieces, as ottomans, hearth-rugs, carpets, &c., the assistance offered by this new canvass will be highly prized; the work being executed with much greater ease than on cloth (through the ordinary material), which often, from the closeness of its texture, renders the operation both irksome and laborious.

The article is of a good substance, and well adapted to its purpose: it is woven quite close, but the threads are so well defined as to render its use as easy and pleasant as could be desired.

The only colours in which it is at present manufactured are a light fawn and black; both excellent grounds for flowers, &c.; taking care that the colours of the work are so assorted as to contrast well.

It may be procured at any of the Berlin and fancy needlework warehouses, of various widths, from three-quarters to one-and-a-half yard.

Crochet edging no 3.

1. Make a chain
2. Double Crochet
- x 3 Single open Crochet
- 4 5 long stitches (minus the single stitch) in the centre stitch of first pillar in the last row - the same in the loop of the 2nd pillar - repeat the 5 again also on all the 2nd.
- * You can put as many rows of Single open crochets as you like to give the edging depth.

Crochet no 4.

1. Make a chain
2. Double Crochet
- 3 4 chain stitches ^{with 1 stitch} of Double Crochet in 2.
- 4 Chain 10 stitches minus 1
- 5 Chain 1.

4. ~~2~~ 2 long stitches thro' the larger loop (A) 5 chain stitches. 2 long stitches thro' the same loop. 2 long stitches thro' the next large loop repeat from A

N.B. you may repeat the row in either direction - It has a very good check to work a row of single crochet between the $\frac{1}{2}$ and $\frac{1}{2}$ rows. This makes a very strong fabric for a fine effect.
