A FASCINATING HOBBY

COLLECTING military insignia is a fascinating, educational hobby. Every fighting force of every country in the world has its own identifying insignia. Some of them have wonderful historical significance representing the gallant men who fought the critical battles of this and other wars. The excitement of owning the same insignia worn by the Marines in Guadalcanal, the Air-Borne warriors of Bastogne, the bomb-droppers of the Eighth Airforce, and the history making atom carriers of Nagasaki, will thrill you as will the insignia of the Doughboys of Chateau Thierry. You can also have the actual insignia of Hitler's body-guard, the German General Staff, and the fanatic Kamikazi. Every patch is made in beautiful colors and exciting designs. Many of our collectors have framed assortments on their walls, or have mounted them in catalogues in which they put the history and battles of the fighting forces represented. During the war the Patch King was busy making patches for our fighting men, and now he has made his stock of millions of actual military patches available to collectors at prices far below their market value. The Patch King has the largest individual stock of assorted patches in the world. Start your collection today and you will have begun a wonderful, exciting hobby that will reward you with hours of pleasure.

When ordering, use our order form — additional order forms furnished with every order.
