Die von den Gebrüdern Henschel 1806 bei Anwesenheit der Praxen in Berlin gezeichnete Sammlung von Uniformbildern enthält die Originale, die uns als Vorlagen gedient haben. Die Darstellung des Ordonnanz-Gendarmen ist sehr geeignet, die in der St. Hilaire'schen Geschichte der Kaisergarde heftliche Abbildung zu ergänzen. Die Truppe wurde am 24. Sept. 1806 errichtet in der Absicht, dem alten Adel Gelegenheit zu geben, in einer bevorzugten Truppe zu dienen. Doch scheint das Experiment nicht gelungen zu sein, denn schon am 25. Oct. 1807 wurde die Ordonnanz-Gendarmarie aufgelöst. Die Mameluken, von denen eine kleine Abtheilung mit der Orientarmee nach der Plünderung Aegyptens nach Frankreich gekommen war, wurden 1802 der Konsulargarde (später Kaisergarde) einverleibt und den rollenden Gardo-Jägern beigegeben. So viele Abbildungen von Mameluken es giebt, fast eben soviel Abweichungen, namentlich in der Farbe, finden wir auch, da die Kleidung, die sehr oft wechselte, in das Belieben des Kommandanten gestellt war.

Polnischer Chevauleger der Kaisergarde.

1808.

Als Napoleon 1807 in Warschau weilte, bildete sich eine reisende Ehrgarde, aus der bald darauf das Polnische Chevaulegers-Regiment entstand. Die junge Truppe holte sich die ersten Lorbeeren in dem berühmten Sturmritte von Espinosa am 30. November 1808. Im folgenden Jahre genehmigte der Kaiser die Bewaffnung mit der Lanze, da sich eine grosse Zahl Angehöriger des Regiments bei Wagram mit österreichischen Bewehrungen ausgerüstet hatte. Seitdem wird die Truppe auch als „Chevaulegers-Lanciers“ oder kurzweg „Lanciers“ der Garde aufgeführt. Als 1810 bei der Einverleibung Hollands die Kaisergarde um das holländische rothe Lanciers-Regiment vermehrt wurde, rangierte das polnische Regiment als erstes.

Obgleich die Bekleidung der Mameluken in das Belieben des Kommandanten gestellt war und daher häufig wechselte, dürfte die Ausstattung des Paukers doch recht kennzeichnend für den damaligen Geschmack sein. Mehrere als Pauker bei der Kaisergarde finden wir durch das ganze 18. Jahrhundert vielfach im orientalisirten phantastischen Tracht und auch hierin lassen sich recht gut gewisse Wandlungen im Modegeschmack verfolgen. Wir verdanken die Mittheilung der interessanten Figur Herrn A. Kozard in Strassburg, nach einem jener handgemalten und ausgeschnittenen Karton-Soldaten auf der Strassburger Militäranstalt, Sammlung Th. Carl.

Den zahlreichen bis jetzt erschienenen Bildern des englischen Heeres zur Zeit des Halbjahrkrieges und der Schlacht von Waterloo reihen wir hier nach dem zeitgenössischen, schon oft benutzten Werke von Hamilton Smith einen Stabs-Kavalleristen an. Ueber die Organisation des Corps vermochten wir nichts in Erfahrung zu bringen, jedenfalls diente es ähnlichen Zwecken, wie etwa die Stabs-Dragoonen in Oesterreich, oder unsere Stabsordonnanzen, oder die Guides bei den französischen Heeren zur Revolutionszeit. Die Uniform entspricht bis auf die Farben ziemlich genau derjenigen des damaligen englischen leichten Dragoner.

Die reitende Artillerie war nach Art der leichten Cavallerie uniformirt. Die Uniform des reitenden Raketeur-Corps war ganz ähnlich. Das Raketeur-Corps hat insofern ein besonderes Interesse für uns, als es die einzige englische Truppe war, die an der Schlacht bei Leipzig Theilgenommen hat. Eine Congreve'sche Raketen-Batterie wirkte dort am 18. Oktober unter Kaptein Bogue mit Erfolg gegen Nansouty's Reiterel. Bogue selbst fiel, aber Lieutenant Strangways setzte das Feuer beharrlich fort, das schliesslich die feindliche Reitzweil zur Umkehr zwang.

Die Regimenter trugen rote Kollets und unterschieden sich durch die Farbe der Krage, Achselklappen, Aufschläge und des Kolletbesatzes, sowie durch die Farbe des Passgürtels. Diese Farben waren folgende: 1. Regt. (Royale) blau, Kolletbesatz und Passgürtel gelb mit blau, 2. Regt. (Greys) blau, Kolletbesatz und Gürtel weiss mit blau, 3. Regt. 1811.

Das Regiment wurde 1810 bei der Einnahme Hollands aus der holländischen Garde-Kavallerie errichtet. Unserer Darstellung hat eine farbige Handzeichnung in der Bibliothek der Kgl. Schauspiele zu Berlin als Vorlage gedient. Die Uniform der ruffen holländischen Lanciers findet sich oft dargestellt, aber immer als Paradezug, darum dürfte eine Abbildung der Felduniform immerhin werthvoll sein. Bemerkenswerth ist die Tragweise des Koppels unter der Kurika — im Gegensatz zu den sonstigen Abbildungen der Truppe.

Auch von Kolbe liefert ein gleichzeitiges Stich, auf dem ein Dragoner im Surtout dargestellt ist, wahrscheinlich nach 1806 nach der Natur gezeichnet.

Links haben wir die Uniform so wiedergegeben, wie sie sich auf zahllosen Abbildungen von Boissieu, Horace Vernet, Raffet, Charlet, Lami, Vernier etc. dargestellt ist. Interessanter erscheint die Figur rechts, nach einer bei der Anwesenheit der Franzosen in Berlin 1806 nach der Natur gezeichneten Darstellung, welche der von den Gebrüder Henckel damals herausgegebenen Sammlung entnommen ist. Die blaue unbeschnürte Jacke entspricht jedenfalls dem Sartot der anderen Truppengattungen. Der Schirm des Crakos ist herab angebracht, dass er sich heraufklappen lässt. Der Ciskoadler muss wohl erst später angefügt worden sein. Die Henckel'schen Bilder lassen kaum einen Zweifel an ihrer Correctheit zu. Die Plätter sind herab gewissenhaft gearbeitet, dass auf manchen Darstellungen sogar die Prägung der Köpfe erkennbar ist.

Kanonier.

Fuss-Artillerie der Kaisergarde Napoleons I.

Die freundliche Mitteilung der interessanten Typen verdanken wir Herrn Bozard in Straßburg (nach der Sammlung Th. Carl, Militär-Ausstellung in Straßburg 1903).

Wenn auch die Uniform des Kanoniers ziemlich bekannt ist, so dürfte die Figur hier im Zusammenhange mit den anderen Typen doch nicht fehlen. Zu den beiden Vordergrundfiguren möge folgendes bemerkt werden. Der Tambourmajor trägt einen goldenen Stelzstock, der Bataillonstambour hat solchen von roter Wolle. Die Schärfe an den Rändern seines Mützenbestecks sind orange und golden. Sein Tambourstock ist mit orange Schnüren umwickelt und hat ebensolche Quasten (beim Tambourmajor goldene Schürze und Quasten).

(Paradenuniform).

Alte Garde.

1806.

Die Paradeuniform der Grenadiere und Fußjäger der alten Garde hatte weisse Brustabatten (vergl. die Figur rechts). 1806 scheint diese Uniform nicht mit in's Feld genommen worden zu sein. Während auf dem Marsche der blaue Mantel (ohne farbige Abzeichen) getragen wurde, hat es der Anschein, dass auf Wachen, bei Rarnen etc. der sogenannte Surcoat angelegt wurde. Derselbe hatte keine Abatten, sondern wurde vorn durch eine Reihe Knöpfe geschlossen. Die Pelzmütze der Jäger hatte kein Wappenschild. Die Aufschläge auf der Paradeuniform waren roth, für die Grenadiere mit weisser Patte, für die Jäger ohne solche, dagegen hatte der Aufschlag spitze (polnische) Form und weissen Verzoss.

13. leichtes Dragoner-Regiment. 1815.

Zur Zeit der Schlacht von Waterloo bestanden 10 leichte Dragoner-Regimenter, welche die Nummern 6, 8, 11, 12, 13, 14, 16, 17 und 18 bis 25 führten. (Nummern 1 bis 5 incl. hatten die schweren Dragoner inne, vgl. Band V, Blatt 2. Die Nummern 7, 10, 15 und 18 waren Husaren-Regimenter, gleichwohl führten diese auch dabei die Bezeichnung „leichte Dragoner“; vgl. Band V, Blatt 57 und 58). Die Regimenter unterschieden sich durch die Farbe der Abzeichen, (Kragen, Bataillon, Aufschläge, Verschlüsse, Grund des Passegirtels, sowie durch die Farbe der Kämpfe), und zwar waren die Abzeichen folgende, wobei bemerkt wird, dass das nachgesetzte g oder w gelbe oder weisse Kämpfe bedeutet, Nr. 6 roth g, Nr. 8 carminroth g, Nr. 11 hellblauerfarben w, Nr. 12 gelb w, Nr. 13 hellblauerfarben g, Nr. 14 orange w, Nr. 16 roth w, Nr. 17 weiss w, Nr. 19 gelb g, Nr. 20 orange g, Nr. 21 roth g, Nr. 22 roth w, Nr. 23 carminroth w, Nr. 24 hellblau g, Nr. 25 hellblau w.
