THE VERY  
BEST MADE

# ENGLISH KNIVES WILL LAST A LIFETIME

There is no time to choose a less quality steel knife than may be used for almost any purpose. Absolutely the best knife made for the money.

**A SHILLON** We bought an entire shipment of these English Knives from the English Government. They were all of high quality and were made in the finest steel available. Each of the manufacturers of these English Knives has made the Government of Great Britain to make its highest guarantee.

**TWO STYLE** When we bought these knives they were all of the best of very high quality. They were made in the finest steel available. Each of the manufacturers of these English Knives has made the Government of Great Britain to make its highest guarantee.

**QUALITY** We have quality built into every one of our knives. They are made for the highest quality of steel for the money, and they are made for the highest quality of steel for the money, and they are made for the highest quality of steel for the money.

There is no time to choose a less quality steel knife than may be used for almost any purpose. Absolutely the best knife made for the money.

My experience is known as the best process in the Cutlery field, and in all of my 30 years as a knife maker I never produced or forged a better piece of steel than in these English Knives. They are the best for the Cutlery trade. There is not a knife made in the world (as a business) of such steel. Enough said." Edward F. E. Woodworth, Wash., D. C.

The only reason we can offer such excellent quality at such a low price is an account of the extreme quantity of steel used, which has been used in the making of these knives.

These knives are made in the finest steel available. Each of the manufacturers of these English Knives has made the Government of Great Britain to make its highest guarantee.

The Campers' Delight. The most practical trailer and trailer ever made. Used by the U. S. Government. Bought by us at auction sale. World's best regularly at least \$3.00. Used here and never been used. All steel and handle guaranteed; built at a dollar. Measures 14x12 1/2 inches. Consists of two bars of steel, one at each end. 4x2 1/2 inches. The ends of which are turned down, forming the legs. To these end bars are attached, 10 cross bars, 4x2 1/2 inches and 2 inch cross bars. These cross bars are curved so that the whole frame fits inside the handle and into a steel trough 2x2 1/2 inches from which it is easily pulled. Steel handle 1 1/2 inches long. This does not bend when loaded, like the cheap wire grids, and will outlast any on the market. Heavy outdoor mesh should have one. Hunters, fishermen, campers and others will find it the best grid they ever used. As it will never wear out, it is also the cheapest. Shipping weight, about 8 pounds. Be sure to order one.
