# CONDITIONS OF SALE

**I. REJECTION OF BIDS:** Any bid which is not commensurate with the value of the article offered, or which is merely a nominal or fractional advance, may be rejected by the auctioneer if in his judgment such bid would be likely to affect the sale injuriously.

**II. THE BUYER:** The highest bidder shall be the buyer, and if any dispute arises between two or more bidders, the auctioneer shall either decide the same or put up for re-sale the lot so in dispute.

**III. IDENTIFICATION AND DEPOSIT BY BUYER:** The name of the buyer of each lot shall be given immediately on the sale thereof, and when so required, each buyer shall sign a card giving the lot number, amount for which sold, and his or her name and address.

A deposit at the actual time of the sale shall be made of all or such part of the purchase prices as may be required.

If the two foregoing conditions are not complied with, the lot or lots so purchased may at the option of the auctioneer be put up again and re-sold.

**IV. RISK AFTER PURCHASE:** Title passes upon the fall of the auctioneer's hammer, and thereafter the property is at the purchaser's risk, and neither the consignor nor the Association is responsible for the loss of, or any damage to any article by theft, fire, breakage, however occasioned, or any other cause whatsoever.

**V. DELIVERY OF PURCHASES:** Delivery of any purchases will be made only upon payment of the total amount due for all purchases at the sale.

**VI. RECEIPTED BILLS:** Goods will only be delivered on presentation of a receipted bill. A receipted bill presented by any person will be recognized and honored as an order by the buyer, directing the delivery to the bearer of the goods described thereon. If a receipted bill is lost before delivery of the property has been taken, the buyer should immediately notify the Association of such loss.

**VII. STORAGE IN DEFAULT OF PROMPT PAYMENT AND CALLING FOR GOODS:** Articles not paid for in full and not called for by the purchaser or agent by noon of the day following that of the sale may be turned over by the Association to some carter to be carried to and stored in some warehouse until the time of the delivery therefrom to the purchaser, and the cost of such cartage and storage and any other charges will be charged against the purchaser and the risk of loss or damage occasioned by such removal or storage will be upon the purchaser.

In any instance where the purchase bill has not been paid in full by noon of the day following that of the sale, the Association and the auctioneer reserve the right, any other stipulation in these conditions of sale notwithstanding, in respect to any or all lots included in the purchase bill, at its or his option, either to cancel the sale thereof or to re-sell the same at public or private sale without further notice for the account of the buyer and to hold the buyer responsible for any deficiency and all losses and expenses sustained in so doing.

**VIII. SHIPPING:** Shipping, boxing or wrapping of purchases is a business in which the Association is in no wise engaged, but the Association will,

however, afford to purchasers every facility for employing at current and reasonable rates carriers and packers; doing so, however, without any assumption of responsibility on its part for the acts and charges of the parties engaged for such service.

**IX. GUARANTY:** The Association exercises great care to catalogue every lot correctly and endeavors therein and also at the actual time of sale to point out any error, defect or imperfection, but guaranty is not made either by the owner or the Association of the correctness of the description, genuineness, authenticity or condition of any lot and no sale will be set aside on account of any incorrectness, error of cataloguing or imperfection not noted or pointed out. Every lot is sold "as is" and without recourse.

Every lot is on public exhibition one or more days prior to its sale, and the Association will give consideration to the opinion of any trustworthy expert to the effect that any lot has been incorrectly catalogued and in its judgment may thereafter sell the lot as catalogued or make mention of the opinion of such expert, who thereby will become responsible for such damage as might result were his opinion without foundation.

**X. RECORDS:** The records of the auctioneer and the Association are in all cases to be considered final and the highest bid shall in all cases be accepted by both buyer and seller as the value against which all claims for losses or damage shall lie.

**XI. BUYING ON ORDER:** Buying or bidding by the Association for responsible parties on orders transmitted to it by mail, telegraph, or telephone, if conditions permit, will be faithfully attended to without charge or commission. Any purchases so made will be subject to the foregoing conditions of sale, except that, in the event of a purchase of a lot of one or more books by or for a purchaser who has not through himself or his agent been present at the exhibition or sale, the Association will permit such lot to be returned within ten days from the date of sale, and the purchase money will be refunded, if the lot differs from its catalogue description.

Orders for execution by the Association should be given with such clearness as to leave no room for misunderstanding. Not only should the lot number be given, but also the title, and bids should be stated to be so much for the lot, and when the lot consists of one or more volumes of books or objects of art, the bid per volume or piece should also be stated. If the one transmitting the order is unknown to the Association, a deposit must be sent or reference submitted. Shipping directions should also be given.

**PRICED CATALOGUES:** Priced copies of the catalogue, or any session thereof, will be furnished by the Association at charges commensurate with the duties involved in copying the necessary information from the records of the Association.

These conditions of sale cannot be altered except by the auctioneer or by an officer of the Association.

## Foreword

IT is not necessary to introduce Mr. Vitall Benguiat to the New York public, who have long had his familiar acquaintance. The textiles which he has assembled this year and offers under the firm name of V. & L. Benguiat to public competition mount to the extreme heights in beauty, and many of them in rarity. It is a penalty or an incentive, according as one views it, to have established such a standard of beauty, rarity and excellence—as the Benguiat exhibitions of many years past have established—that only indefatigable and supreme effort can make a succeeding one stand forth for admiration and encomiums.

A glance at the present exhibition discloses the achievement, an examination confirms the first impression. It almost seems that Benguiat had outdone himself. "Ravishing!" is an expression caught so often at a first vision of these gorgeous fabrics that it dulls the keen edge of "Marvelous!" "Tremendous!" "Resplendent!" which follow the first drinking-in of the glistening, iridescent and wonderfully intricate textile productions. They shimmer with light and coruscate with fire, and are at once fabulously rich and immeasurably delicate.

Captivating laces mingle with regal apparel, the suffused brilliance of the costumes of *grandes dames* with the radiance that was a part of the splendor of their surroundings. And the homely things of daily life are not absent. They form the quiet background of the efflorescence of the grand display.

Tapestries of fine composition and lovely color are not overlooked—products of ancient looms. And while many of the fabrics exhibited are serviceable in many ways of decoration and utility, scattered among them are veritable documents worthy of museum placing. The styles and the periods represented, which are those of Mr. Benguiat's selection, the evidences of the workmanship of Spaniard, Italian, Greek, Frenchman, Englishman, Jew, their sense of color which Time has sometimes enhanced and again has been unable to dim—all contribute to the fascination which we feel sure this extraordinary accumulation of woven and embroidered textiles will gratifyingly exert.
